- 47.7 TEC may regard a Tender as responsive even if it contains:
- (a) minor or insignificant deviations which do not meaningfully alter or depart from the technical specifications, characteristics and commercial terms and, conditions or other mandatory requirements set out in the Tender Document; or
 - (b) errors or oversights, that if corrected, would not alter the key aspects of the Tender.
- 48. Clarification on Tender**
- 48.1 TEC may ask Tenderers for clarification of their Tenders, including breakdowns of unit rates, in order to facilitate the examination and evaluation of Tenders. The request for clarification by the TEC and the response from the Tenderer shall be in writing, and Tender clarifications which may lead to a change in the substance of the Tender or in any of the key elements of the Tender as stated under ITT Sub Clause 47.2, will neither be sought nor be permitted.
- 48.2 Changes in the Tender price shall also not be sought or permitted, except to confirm the correction of arithmetical errors discovered by the TEC in the evaluation of the Tenders, as stated under ITT Sub Clause 50.1.
- 48.3 Any request for clarifications by the TEC shall not be directed towards making an apparently non-responsive Tender responsive and reciprocally the response from the concerned Tenderer shall not be articulated towards any addition, alteration or modification to its Tender.
- 48.4 The Tenderer shall be provided a reasonable timeline, but not less than three (3) working days, to respond against a clarification request. If a Tenderer does not provide clarifications of its Tender by the date and time, its Tender shall not be considered in the evaluation.
- 49. Restrictions on Disclosure of Information**
- 49.1 Following the opening of Tenders until issuance of Notification of Award no Tenderer shall, unless requested to provide clarification to its Tender or unless necessary for submission of a complaint, communicate with the concerned Procuring Entity.

49.2 Tenderers shall not seek to influence in anyway, the examination and evaluation of the Tenders.

49.3 Any effort by a Tenderer to influence the Procuring Entity in its decision concerning the evaluation of Tenders, Contract awards may result in the non-responsiveness of its Tender as well as further action in accordance with Section 64 (5) of the Public Procurement Act, 2006.

49.4 All clarification requests shall remind Tenderers of the need for confidentiality and that any breach of confidentiality on the part of the Tenderer may result in their Tender being non-responsive.

50. Correction of Arithmetical Errors

50.1 Provided that the Tender is responsive, the TEC shall correct arithmetical errors on the following basis:

(a) if there is a discrepancy between the unit price and the line item total price that is obtained by multiplying the unit price and quantity, the unit price will prevail and the line item total price shall be corrected, unless in the opinion of the TEC there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted will govern and the unit price will be corrected; and

(b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and

(c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to (a) and (b) above.

50.2 TEC shall correct the arithmetic errors and shall promptly notify the concerned Tenderer(s). If the Tenderer does not accept the correction of arithmetic errors, its Tender shall be rejected.

50.3 Tenderers having quoted the tender price by more than 10 (Ten) percent above the official cost estimate, the tender shall be rejected.

51. Financial Evaluation

51.1 TEC will evaluate each Tender that has been determined, up to this stage of the evaluation, to be responsive to the requirements set out in the Tender Document.

51.2 To evaluate a Tender, the TEC will consider the following:

(a) the Tender price, excluding Provisional Sums that include provisions for contingencies and adjusted prices, where applicable, in the priced BOQ, but including Daywork items;

(b) adjustments for correction of arithmetical errors, as stated under ITT Sub Clause 50.1;

- (c) adjustments in order to take into consideration the unconditional discounts as stated under ITT Sub Clause 26.5 and 26.6, if any.

51.3 Variations, deviations, alternatives and other factors which are in excess of the requirements of the Tender Document or otherwise result in unsolicited benefits for the Procuring Entity will not be considered in Tender evaluation.

51.4 The estimated effect of any price adjustment provisions under GCC Clause 69, applied over the period of execution of the Contract, will not be considered in Tender evaluation.

52. Identifying Significantly Low-priced Tenders (SLT)

52.1 Prices of all technically responsive Tenderers shall be checked to identify Significantly Low-priced Tender through a specified manner mentioned in the following Sub Clauses.

52.2 During the evaluation of tenders, the proposed prices of all technically responsive tenderers (at least two tenders) shall be used to determine a Weighted Average, considering:

- i. the official cost estimate,
- ii. the prices obtained from the recent Price Index in public procurement processes following ITT Sub Clause 52.4 and
- iii. the tenderers' quoted prices.

The weights shall be as follows:

- official cost estimate = **0.20**
- Prices obtained from the recent Price Index = **0.30**
- Prices quoted by all responsive tenderers = **0.50**

The formula shall be:

$$\bar{x} = 0.5 * \frac{1}{n} \sum_{i=1}^n x_i + 0.2 * x_{OCE} + 0.3 * x_{NPPI}$$

Thereafter, the Weighted Standard Deviation (sd) of the quoted prices of all responsive tenders shall be determined using the following formula:

$$sd = \sqrt{\frac{(x_i - \bar{x})^2}{n}}$$

Where:

- x_i = Quoted prices of tenderers
- \bar{x} = Weighted Average
- n = Number of responsive tenderers.

- 52.3 Finally, the lower limit of acceptable prices shall be $[\bar{x} - (x \text{ bar}) - sd]$. Any tender quoted below this limit shall be considered as a significantly low-priced tender and shall be treated as financially non-responsive and rejected.
- 52.4 For determining the recent National Public Procurement Price Index, a national average percentage deviation for Works procurement category shall be calculated from the e-GP system over a period of 28 days-consisting of the day of tender opening and the preceding 27 days.
- 52.5 To determine the NPPI, in all procurement processes (except for cases under the Limited Tendering Method in National procurement) where a Notice of Award has been issued during 28-days period, the percentage deviation between the officially estimated price and the awarded tender price shall be calculated, and the national average of such deviations shall be determined.
 X_{NPPI} shall be determined through multiplication between officially estimated price and NPPI derived from the e-GP system.
- 52.6 In the case of only one technically responsive tender, the above methodology shall not be applied; instead, the lowest evaluated price obtained shall be directly compared with the official cost estimate. If the deviation of the evaluated price of the responsive tender from the official estimate exceeds twenty percent (20%), such tender shall be deemed non-responsive. If the deviation of the evaluated price from the official cost estimate is twenty percent (20%) or less, the said tenderer may be recommended for issuance of the Notification of Award subject to successful Post-Qualification verification under ITT Sub Clause 56.
- 52.7 TEC may recommend to increase the amount of the Retention Money above the amounts as stated under ITT Sub Clause 67.1 but not exceeding twenty (20) percent of the Contract Price, if in the opinion of TEC, it is found that the Tender is unbalanced as a result of front loading or unbalanced item pricing.

53. Winning multiple Lots

- 53.1 If so indicated in the ITT Sub Clause 1.1 the Procuring Entity may award one or multiple lots to one Tenderer following the methodology specified in ITT Sub Clause 53.2.
- 53.2 To determine the lowest-evaluated lot/package the TEC will consider:
- (a) the lowest-evaluated Tender for each lot;
 - (b) the resources sufficient to meet the qualifying criteria for the individual lot or aggregate of the qualifying criteria for the multiple lots;
 - (c) the price reduction on account of discount per lot/package as offered by the Tenderer in its Tender; and
 - (d) the Contract-award sequence that provides the optimum economic combination on the basis of least overall cost of the total Contract package

considering any limitations due to constraints in Works or execution capacity determined in accordance with the tender capacity as stated in ITT Sub Clause 14.1 (d) and post-qualification criteria as stated under ITT Clause 56.

54. Price Comparison

- 54.1 The lowest-priced Tender among the technically and financially responsive Tenders through ITT Clause 52 shall be determined as the Lowest Evaluated Responsive Tender and shall be recommended for issuance of the Notification of Award subject to successful Post-Qualification verification under ITT Sub Clause 56.
- 54.2 In the extremely unlikely event that there is a tie for the lowest evaluated price, the Tender Evaluation Committee shall initially examine the possible presence of collusive practices, and if such practices are found, further actions shall be taken in accordance with Rule 149 of the PPR 2025.
- 54.3 Where there is a tie in the lowest evaluated bid but no case of the collusive practice is identified, the bidder whose past performance under the Procuring Entity is superior shall be selected. In such a case, determining factors shall include: the history of timely completion of Works within the original contract period, the imposition of liquidated damages for delay, termination of contracts due to fundamental breach of contract conditions, and records of quality and complaints due to the defects concerning the Works performed.
- 54.4 In the event that there is a tie for the lowest price and none of the Tenderers has the record of past performance with the Procuring Entity as stated under ITT Sub Clause 54.3, then the Tenderer shall be selected, subject to firm confirmation through the Post-qualification process, after consideration as to whether the Tenderer has demonstrated in its Tender superior past performance with the other Procuring Entities through the factors mentioned in ITT Sub Clause 54.3
- 54.5 The successful Tenderer shall not be selected through lottery under any circumstances.
- 54.6 Prices should be quoted in BDT/US Dollar/Euro.

55. Negotiations

- 55.1 No negotiations shall be held during the Tender evaluation or award with any Tenderer except the case mentioned in ITT Sub Clause 55.2.
- 55.2 The Procuring Entity through the TEC may, however, negotiate with the lowest evaluated Tenderer with the objective to reduce the Contract Price by reducing the scope of works or a reallocation of risks and responsibilities, only when it is found that the lowest evaluated Tender is significantly higher than the official estimated cost; the reasons for such higher price being duly investigated.
- 55.3 If the Procuring Entity decides to negotiate for reducing the scope of the requirements under ITT Sub Clause 55.2, it will be required to guarantee that the lowest Tenderer remains the lowest Tenderer even after the scope of work has been revised and shall further be ensured that the objective of the Procurement will not be seriously affected through this

reduction.

55.4 In the event that the Procuring Entity decides because of a high Tender price to reduce the scope of the requirements to meet the available budget, the Tenderer is not obliged to accept the proposal for scope reduction and shall not be penalised in any way for declining the proposed scope reduction.

56. Post-qualification

56.1 The determination on Post-qualification shall be based upon an examination and verification of the documentary evidence of the Tenderer's eligibility and qualifications submitted by the Tenderer, pursuant to ITT Clause 31, clarifications as stated under ITT Clause 48 and the qualification criteria indicated in ITT Clauses 12 to 17. Factors not included therein shall not be used in the evaluation of the Tenderer's Post qualification.

56.2 An affirmative determination shall be a prerequisite for award of the Contract to the Tenderer. A negative determination shall result in non-responsiveness of the Tenderer's Tender, in which event the Procuring Entity shall proceed to the next lowest evaluated Tender to make a similar determination of that Tenderer's capabilities to perform the Contract satisfactorily, if awarded.

56.3 TEC may verify information contained in the Tender by visiting the premises of the Tenderer as a part of the post qualification process, if practical and appropriate.

57. Procuring Entity's Right to Accept any or to Reject Any or All Tenders

57.1 The Procuring Entity reserves the right to accept any Tender or to reject any or all the Tenders any time prior to contract award and, to annul the Procurement proceedings with prior approval of the Head of the Procuring Entity, any time prior to contract award following specified procedures, without thereby incurring any liability to Tenderers, or any obligations to inform the Tenderers of the grounds for the Procuring Entity's action.

58. Rejection of All Tenders

58.1 The Procuring Entity may, in the circumstances as stated under ITT Sub Clause 58.2 reject all Tenders following recommendations from the TEC only after the approval of such recommendations by the Head of the Procuring Entity.

58.2 All Tenders can be rejected, if -

- (a) the price of the lowest evaluated Tender exceeds the official estimated cost, provided the estimate is realistic, subject to ITT Sub Clause 55.2; or
- (b) there is evidence of lack of effective competition; such as non-participation by a number of potential Tenderers; or
- (c) the Tenderers are unable to propose completion of the contract within the stipulated time in its

Tender, though the stipulated time is reasonable and realistic; or

- (d) all Tenders are non-responsive; or
- (e) If, in the tendering process or in the tender documents, any defect, deviation, or inconsistency is observed, which appears to hinder the objective of public procurement should the procurement process be continued; or
- (f) evidence of professional misconduct, affecting seriously the Procurement process, is established pursuant to Rule 149 of the Public Procurement Rules, 2025.

58.3 Notwithstanding anything contained in ITT Sub-Clause 58.2 Tenders may not be rejected if the lowest evaluated price is in conformity with the market price.

59. Informing Reasons for Rejection

59.1 Notice of the rejection will be given promptly within three (3) working days of decision taken by the Head of the Procuring Entity to all Tenderers and, the Procuring Entity will, upon receipt of a written request, communicate to any Tenderer the reason(s) for its rejection but is not required to justify those reason(s).

G. Contract Award

60. Award Criteria

60.1 The Procuring Entity shall award the Contract to the Tenderer whose Tender is responsive to all the requirements of the Tender Document and that has been determined to be the lowest evaluated Tender, provided further that the Tenderer is determined to be Post-qualified in accordance with ITT Clause 56.

60.2 Tenderer will not be required, as a condition for award, to undertake responsibilities not stipulated in the Tender Documents, to change its price, or otherwise to modify its Tender.

61. Notification of Award

61.1 Prior to the expiry of the Tender Validity period and within three (3) working days of receipt of the approval of the award by the Approving Authority, the Procuring Entity shall issue the Notification of Award (NOA) to the successful Tenderer.

61.2 The NOA, (Form PW3-9) attaching the Contract Agreement as per the sample (**Form PW3-10**) to be signed, shall state:

- (a) the acceptance of the Tender by the Procuring Entity;
- (b) the price at which the contract is awarded;
- (c) the amount of the Performance Security and its format;

- (d) the date and time within which the Performance Security shall be furnished; and
- (e) the date and time within which the Contract shall be signed.

62. Reporting on Contract Awarding

62.1 Immediately, but no later than 24 hours, after issuing the Notification of Award, the Procuring Entity shall, for the information of other tenderers and procurement-related stakeholders, publish the contract award details **Format PW3-C** on the his/her notice board or on its own website, as well as on the BPPA website. Such information shall remain displayed on the notice board or retained on the website for at least twenty-eight (28) days.

63. Performance Security

63.1 Performance Security shall be provided by the successful Tenderer in contractual currency, as mentioned in the **TDS**.

63.2 The proceeds of the Performance Security shall be payable to the Procuring Entity unconditionally upon first written demand as compensation for Contractor's failure to complete its obligations under the Contract.

63.3 In the event a Government owned enterprise as stated under ITT Sub Clause 5.10 is the successful Tenderer, Performance Security, as stated under ITT Sub Clause 63.1, shall not be required and, in lieu, there shall be Retention Money at the rate of ten (10) percent from the payable invoices during Contract implementation.

64. Form and Time Limit for Furnishing of Performance Security

64.1 Performance Security, as stated under ITT Clause 63, may be in the form of a Bank Draft, or a Pay Order or an irrevocable unconditional Bank Guarantee in the format (**Form PW3-11**), without any alteration, issued by any Scheduled Bank of Bangladesh acceptable to the Procuring Entity.

64.2 Within the timeline mentioned in the TDS from the issuance of the NOA but not later than the date specified therein, the successful Tenderer shall furnish the Performance Security for the due performance of the Contract in the amount as stated under ITT Sub Clauses 63.1 or 63.2.

65. Validity of Performance Security

65.1 Performance Security shall be required to be valid until a date twenty-eight (28) days beyond the Intended Completion Date as specified in Tender Document.

66. Authenticity of Performance Security

66.1 The Procuring Entity shall verify the authenticity of the Performance Security submitted by the successful Tenderer by sending a written request to the branch of the Bank issuing the Pay Order or Bank Draft or irrevocable unconditional Bank Guarantee in specified format.

- 66.2 In case of Performance Security being found unauthentic, measures shall be taken following ITT Sub Clause 4.4.
- 67. Retention Money and Contractual Security**
- 67.1 Until the completion of all Works, the Procuring Entity shall deduct from each interim payment certificate, a retention amount at the percentage rate as mentioned in **TDS**. Such retained amounts shall be withheld from the sums otherwise payable to the Contractor.
- 67.2 The Performance Security mentioned in ITT Sub Clause 63.1 and the money to be retained as per ITT Sub Clause 67.1 will together be considered as the Contractual Security.
- 67.3 The Contractual Security against the contract shall not go beyond the amount mentioned in the **TDS** unless it is recommended by the TEC to extend as mentioned in ITT Sub Clause 67.4.
- 67.4 The Procuring Entity shall increase the amount of the Retention Money as well as the Contractual Security on the recommendation of TEC above the amounts as stated under ITT Sub Clause 52.7.
- 68. Contract Signing**
- 68.1 At the same time as the Procuring Entity issues the NOA, the Procuring Entity will send the draft Contract Agreement and all documents forming the Contract to the successful Tenderer.
- 68.2 Within the timeline mentioned in the **TDS** from the issuance of the NOA but not later than the date specified therein, the successful Tenderer and the Procuring Entity shall sign the contract. In the event the successful Tenderer is a JV, all partners of that JV must sign.
- 68.3 Failure of the successful Tenderer to submit the Performance Security, as stated under ITT Sub Clause 63.1, or to sign the Contract, as stated under ITT Sub Clause 68.2, shall constitute sufficient grounds for the annulment of the award and forfeiture of the Tender Security. In that event the Procuring Entity may award the Contract to the next lowest evaluated responsive Tenderer, who is determined by the TEC to be qualified to perform the Contract satisfactorily.
- 69. Notification of Contract Signing**
- 69.1 Immediately, but not later than three (3) days after the signing of contract, the Procuring Entity shall publish the contract-related information, in the format prescribed in **Format PW3-D** on the his/her notice board or on its own website. The Procuring Entity shall also publish, on the BPPA website or web portal, the contract-related information together with details of the beneficial ownership of the successful Tenderer. This information shall be kept posted in the notice board or websites for at least thirty (30) days.

- 70. Debriefing of Tenderers**
- 70.1 Debriefing of Tenderers by the Procuring Entity shall outline the relative status and weakness only of his or her Tender requesting to be informed of the grounds for not accepting the Tender submitted by him or her, without disclosing information about any other Tenderer.

D. Cost Control

- 58. Contract Price** 58.1 The Contract Price shall be as specified in the Contract Agreement subject to any additions and adjustments thereto, or deductions therefrom, as may be made pursuant to Contract.
- 59. Bill of Quantities** 59.1 The Bill of Quantities (BOQ) shall contain priced items for the construction, installation, testing, and commissioning work to be done by the Contractor.
- 59.2 The BOQ is used to calculate the Contract Price. The Contractor is paid for the quantity of the work done at the rate in the BOQ for each item.
- 59.3 Items of works quantified in the BOQ for which no rates have been quoted shall be deemed covered by the amounts at rates of other items in the Contract and, shall under no circumstances be paid for, by the Procuring Entity.
- 60. Processing of Variations** 60.1 The Project Manager may issue a **Variation Order** to the Contractor to cover increase or decrease in quantities, including the introduction of new work items (non-Tendered items) that are either due to change of plans, design or alignment to suit actual field conditions, within the general scope and physical boundaries of the contract.
- 60.2 The Project Manager may issue a **Variation Order** to cover the introduction of such new works necessary for the completion, improvement or protection of the original works which were not included in the original contract, on the grounds where there are subsurface or latent physical conditions at the site differing materially from those indicated in the contract, or where there are duly unknown physical conditions at the site of an unusual nature differing materially from those usually encountered and generally recognized as inherent in the work or character provided for in the Contract.
- 60.3 Upon becoming aware of any circumstance giving rise to a Variation, the Contractor or the Service Provider shall, as soon as reasonably practicable but not after the 7th working day of awareness, submit a written notice specifying the background of such Variation together with the likely cost implications, to enable the Project Manager to examine and verify the matter. Failure by the Contractor or the Service Provider to submit such notice within the prescribed time shall bar the Contractor or the Service Provider from making any claim in this respect.
- 60.4 Should the Project Manager deem it necessary to issue a Variation Order, he/she shall prepare the proposed order, incorporating the

Contractor's or Service Provider's submitted notice, together with the requisite plans, justification of the works or services to be executed, itemized estimates of the additional works or services, records of inspection and investigation dates, logbooks, and the estimated unit rates of each item of such works or services as stated under GCC Clause 62 and shall submit the same to the Procuring Entity for processing its approval.

- 60.5 The Approving Authority that accorded approval of the original contract shall, in accordance with the Government's Delegation of Financial Powers Order, be authorized to approve any Variation Order amounting to ten (10) percent of the original contract price.
- 60.6 The next higher authority to the Approving Authority of the original contract shall, in accordance with the Government's Delegation of Financial Powers Order, be authorized to approve any Variation Order exceeding ten percent (10%) and up to thirty percent (30%) of the original contract price.
- 60.7 In no case, any Variation Order exceeding thirty percent (30%) of the original contract price shall be approved by any authority.
- 60.8 In cases where the competent approving authority for the Variation Proposal is the concerned Ministry or where the recommending authority is the Cabinet Committee on Government Purchase, such Variation Order may, by way of exception to the provisions set forth in GCC Sub Clauses 60.5 and 60.6, be approved by the Head of the Procuring Entity, provided that the revised contract price does not exceed the original contract price and the total value of the proposed non-contractual items (if any) under the Variation does not exceed BDT ten crore (10,00,00,000) or two percent (2%) of the original contract price, whichever is lower.
- 60.9 All Variations under the Contract shall be included in the updated Programme of Works produced by the Contractor.
- 61.10 ~~Increase or decrease in the quantities of any item of work included in the BOQ for the reasons other than those stated under GCC Sub Clause 61.1 and 61.2, in particular for field level actual measurements under this contract (admeasurements), not necessarily however, shall constitute a Variation.~~

61. Changes in the Quantities and Unit Rate

- 61.1 If the final proposed quantity of the work for any particular item in the BOQ increases by more than twenty-five (25) percent and, such increase in quantity of that particular item alone concurrently causes the original Contract Price to exceed by more than one (1) percent, an adjustment of the the unit rate of the item to allow for the change shall be required. The adjusted rate shall be applicable on the varied quantity beyond the original BOQ provision.
- 61.2 If requested by the Project Manager, the Contractor shall provide the Project Manager with a detailed cost breakdown of any rate in the BOQ.

Failure by the Contractor to submit such notice within the prescribed time shall bar the Contractor from making any claim in this respect.

62.2 If the item of work in the Variation corresponds to an item of work in the BOQ and if, in the opinion of the Project Manager, the increased quantity and cost of the works of that particular item does not concurrently cause to exceed the limit stated in GCC Sub Clause 60.1, the same unit rate in the BOQ shall be used to calculate the cost of the Variation. If the item of work in the Variation does not correspond to an item in the BOQ, the unit rates for the new items of works shall be determined based on (i) the direct unit costs used in the original Contract for other items (e.g. unit cost of cement, steel bar, labor rate, equipment rental, etc.) as indicated in the Contractor's price breakdown of the cost estimate, if available or (ii) fixed prices acceptable to both, the Procuring Entity and the Contractor, based on market prices. The direct cost of the new work items based on (i) or (ii) stated herein shall then be combined with the mark-up factor (i.e. profit, overhead and VAT) used by the Contractor in its Tender to determine the unit rate of the new items of work.

62.3 While complying with the provisions of GCC Clause 61 and 62, if the Contractor's quotation (wherever applicable) is found to be unreasonable, the Project Manager may order the Variation and make a change to the Contract Price, which shall be based on the Project Manager's own forecast of the effects of the Variation on the Contractor's costs.

62.4 The Contractor shall not be entitled to additional payment for costs that could have been avoided by giving early warning under GCC Sub Clause 43.1.

62.5 The time for processing a Variation, from its inception to its approval, shall not exceed the timelines specified in Rule 50(21) of the PPR 2025. In case the Contractor fails to comply with any ES obligations under the Contract, an amount as specified in the **PCC**, due to take remedial actions against that failure as directed by the Project Manager within the specified timeframe, may be withheld until the work or obligation has been performed. If the contractor ultimately fails to comply with the ES Specifications, the withheld amount shall be forfeited as penalty.
- 64.5 The maximum total amount withheld or forfeited due to failure in compliance with ES Specifications as mentioned in GCC Sub Clause 64.4 shall not exceed the amount as specified in the **PCC**.
- 64.6 The value of work executed shall be determined by the Project Manager.
- 64.7 The value of work executed may also include the valuation of Variations or Extra Work Orders, Certified Dayworks and Compensation Events.

Interest shall be calculated from the date by which the payment should have been made up to the date when the late payment is made.
- 66.2 If an amount certified is increased in a subsequent certificate as a result of an award by the Adjudicator or an Arbitrator, the Contractor shall be paid interest upon the delayed payment as set out in this clause. Interest shall be calculated from the date upon

The Project Manager shall decide whether and by how much the Contract Price shall be increased and whether and by how much the Intended Completion Date shall be extended, only on justifiably acceptable grounds duly recorded.

67.3 As soon as the Contractor has provided information demonstrating the effect of each Compensation Event upon the Contractor's forecast cost, the Project Manager shall assess it, and the Contract

Price shall be adjusted accordingly. If the Contractor's forecast is deemed unreasonable, the Project Manager shall adjust the Contract Price based on the Project Manager's own forecast. The Project Manager will assume that the Contractor will react competently and promptly to the event.

If so provided, the adjustment will be applicable after twelve (12) months from the commencement of the Contract and the amounts as certified in each payment certificate, before deducting for Advance Payment, shall be adjusted by applying the respective price adjustment factor to the payment amount.
