1. Career Brief

I began my professional career as a Scientific Officer and was later promoted to Senior Scientific Officer at the Bangladesh Livestock Research Institute. Currently, I am serving as a Senior Training Officer, a role I am deeply passionate about. I have more than eighteen years of experience in research and training related to agriculture and livestock sub-sector commodities. Over the course of my career, I have participated in more than 50 training programs both at home and abroad. I have published 28 research articles in various national and international journals. In addition, I have developed more than 20 books and booklets, as well as around 30 leaflets, folders, posters, and flipcharts for government and partner organizations. Furthermore, I have designed, supervised, and implemented more than 20 research programs for government and different partner organizations.

2. Area of Expertise

As a Senior Training Officer, my area of expertise lies in designing, delivering, and managing effective training programs, including conducting engaging training sessions, workshops, and seminars. I also have strong knowledge in formulating research proposals and in implementing and monitoring overall research activities. In addition, I possess practical experience in conducting and supervising various quantitative and qualitative data collection methods, such as household (HH) surveys, focus group discussions (FGD), participatory rural appraisal (PRA), key informant interviews (KII), in-depth interviews (II), visual observation, case studies, and SWOT analysis, along with skills in data analysis and report writing.
