1. Career Brief

As a dedicated Civil Engineer, I am currently serving as a Site Engineer at the Bangladesh Agricultural Research Council (BARC). Assigned to the Engineering Section under the Support Service Unit, I work in close coordination with the Executive Engineer in managing the structural oversight, maintenance, and physical development of the institution's infrastructure, ensuring all facilities and administrative services remain resilient and functionally efficient. I am proficient in AutoCAD 2D, ETABS, and GIS ArcMap, along with Microsoft Office for project documentation and daily administrative operations. Furthermore, I specialize in Bill of Quantity (BoQ) preparation, ensuring all projects are technically sound, cost-effective, and backed by precise financial planning.

2. Area of Expertise

Site Supervision & Maintenance, Construction Quality & cost Control, Bill of Quantity (BOQ) Preparation, Making Reports and Maintain Documentations.

3. Professional Experience

Designation	Organization	Service Period
Site Engineer	Bangladesh Agricultural Research Council	August 2021 ~ Present
Lecturer	Presidency University	October 2019 ~ April 2020

4. Education

Degree/Study	University	Passing Year
M.Sc. in Civil Engineering	International University of Business Agriculture and Technology	Ongoing
MS in GIS for Environment and Development	Jahangirnagar University	2021
B.Sc. in Civil Engineering	Presidency University	2019
Diploma-in-Engineering (Civil)	Bangladesh Technical Education Board	2011
