Foreword

Statistical Pocketbook brought out by Bangladesh Bureau of Statistics (BBS) as National Statistical Organization (NSO) is one of the core publications. It is a regular annual publication and serves as a handy reference work containing key facts on most recent and emerging trends. It presents various indicators in a comprehensive and systematic compendium of available data on economic, social and environmental conditions and activities across the country.

In this context I myself, feel delighted to know that it is a consolidated report on development trends aligned with the Sustainable Development Goals of the 2030 Agenda for Sustainable Development, final evaluation of MDGs, monitoring the ambitious 7th five year plan (FY2016-FY2020), perspective plan (2010-2021), Bangladesh Delta Plan 2100, National Social Security Strategy as well. It is worth mentioning that the publication would enrich and harmonize policy making of the nation. References and sources of data of this publication have made an opportunity for stakeholders/users to conduct further analysis.

I would like to compliment Mohammad Tajul Islam, Director General, BBS and all the members of Editorial Committee of BBS headed by Mr. Ghose Subabrata, Deputy Director General, BBS for bringing out this valuable publication. I convey my special thanks to Mr. Mohammad Abdul Kadir Miah, Director and his Colleagues of National Accounting (Price & Wage) Wing, BBS to prepare the manuscript and collect data from secondary sources for the compilation of voluminous publication on time.

I hope this publication would be useful to planners, policy makers, research workers and academicians both within and outside Bangladesh. In order to improve the quality of the forthcoming issues comments and suggestions would be accepted gladly.

Preface

The present issue of Statistical Pocketbook 2019 is the 42nd edition in its series. Bangladesh Bureau of Statistics (BBS) has been doing issued this large scale statistical reference book annually since 1978. This publication attempts to portray a wide-spectrum of socio-economic, demographic and environmental data of Bangladesh in a comprehensive and systematic manner. It is really an important and efficient statistical reference book to know and understand Bangladesh. The current edition covers the period: the financial year 2018-19 and the calendar year 2019.

The compilation is based on information gathered through periodic statistical censuses and surveys as well as from administrative data maintained by various ministries, departments, agencies, corporations. Brief note on coverage and data sources wherever possible have also been provided for the benefit of the users. This publication is also available through electronic services at www.bbs.gov.bd.

It is a great limitation for us to prepare this publication with the available data from secondary sources in time and suitable form. I wish to express my appreciation to all concerned agencies for providing required data in time and valuable cooperation.

My deep gratitude and thanks to honorable Secretary, Mr. Saurendra Nath Chakrabharty, Statistics and Informatics Division (SID) and the other officials of SID for their guidance and final review of the book. I appreciate efforts of the members of Editorial Committee of BBS headed by DDG, BBS. I would like to give thanks all officials of National Accounting (Price & Wage) Wing, BBS for collecting data from secondary sources and preparing the manuscript.

I hope this publication would be able to embrace the needs of policy makers, planners, researchers for formulating sound, sustainable and evidence based socio-economic development strategy. Comments and suggestions for further improvements of this publication are greatly appreciated.
