Director General
Bangladesh Bureau of Statistics

Preface

The Bangladesh Statistical Yearbook 2024 is a compilation of important socio-economic, demographic, labor and employment and environmental information that provides a comprehensive account of the trends, status, and progress of Bangladesh. It is a regular publication of the Bangladesh Bureau of Statistics (BBS) and the current edition of this publication is the 44th of its kind. It presents both cross-sectional and time series data to facilitate comprehensive analysis. It gives an overview of the financial year 2023-24 as well as the calendar year 2024. It includes quantitative benchmark data on various areas that can be helpful to monitor implementation status of various national plans.

The publication consists of 15 chapters with the latest available data on general features and environment, area, population and households, labor and employment, agriculture, industry, energy, transportation and communication, foreign trade, banking and insurances, price and wages, national accounts, education, health and family planning, consumption, household income and expenditure.

One of the main limitations in timely preparation of this publication is that data produced by other agencies are not always available in time and in suitable form. For timely publication of this yearbook we eagerly seek co-operation of all concerned agencies and stakeholders to ensure us required data in time.

My sincere thanks and gratitude go to hon'ble Secretary, Statistics and Informatics Division, for her excellent guidance in bringing out this publication. I also would like to thank Director, National Accounting Wing, BBS, and his colleagues for their painstaking effort in preparing the manuscript and presenting it in time. The member of the Editors Forum of BBS and the Publication Scrutiny Committee of SID deserve special thanks for their technical integrity and efforts to improve this publication.

I hope readers and users will find this publication a useful addition to their database.

Comments and suggestions would be highly appreciated.

Dhaka

Mohammed Mizanur Rahman

CONTENTS

Bangladesh: An overview.....	XXI-XXX

Chapter 1

LAND AND ENVIRONMENT

1.01	Characteristics of general soil types.....	3-6
1.02	Summary of area and proportions occupied by major physiography of Bangladesh	7
1.03	Classifications of Land type against major physiography: Dhaka and Mymensingh division (combined), Rajshahi division, Khulna division, Chattogram division, Barishal division, Sylhet division, Rangpur division	8-16
1.04	Forest lands under the control of Forest Department, 2023-24.....	17
1.05	Area under different types of forests, 2023-24.....	18
1.06	Major River systems of Bangladesh	18-19
1.07	Main rivers of Bangladesh by length	19-20
1.08	Areas of major standing water bodies of Bangladesh	20
1.09	Water level of major rivers at selected stations of Bangladesh	21
1.10	Physiography of Bangladesh.....	21
1.11	Land types of Bangladesh.....	22
1.12	Agro-ecological zone of Bangladesh	22
1.13	List of major cyclone storms from 1960 to 2023	23-24
1.14	Devastating Nor'westers and Tornadoes.....	25
1.15	Major earthquakes in Bangladesh	25
1.16	Major cyclones in Bangladesh	25
1.17	Cyclone Shelters by Districts in Bangladesh	26
1.18	Landslides by Location in Bangladesh.....	26
1.19	Information on erosion in the Jamuna, Padma and Ganges.....	27-28
1.20	People affected by natural extreme events and disasters, 2015-19.....	29
1.21	Physical losses/damages due to natural extreme events and disasters, 2015-19.....	29
1.22	Year-wise flood affected area in Bangladesh.....	30
1.23	Monthly total rainfall in Bangladesh, 2024.....	31
1.24	Monthly average rainfall.....	31
1.25	Monthly average minimum temperature in Bangladesh, 2024.....	32
1.26	Monthly average maximum temperature in Bangladesh, 2023	33
1.27	Monthly average normal rainfall in Bangladesh in selected station, 2023	34
1.28	Standard minimum normal temperature in Bangladesh, 2024	35
1.29	Standard maximum normal temperature in Bangladesh, 2024	36
1.30	Bangladesh disaster related statistics, 2021	37-39
1.31	Major landslides occurred in Bangladesh	39
1.32	Earthquake data of in and around Bangladesh from 1918 to 2024.....	40-48
1.33	Big floods occurred in Bangladesh	49-50
1.34	Significant droughts occurred in Bangladesh.....	51

Chapter 2

AREA, POPULATION AND HOUSEHOLD CHARACTERISTICS

2.01	Administrative units as on December, 2024 of Bangladesh.....	55
2.02	Administrative units by districts, 2022	55-56
2.03	Adjusted population by Sex, 2022.....	56
2.04	Projected population by sex 2011-2061.....	57
2.05	Household, Population, Household Size and Literacy Rate by Upazila, 2022.....	58-68
2.06	Household, Population, Household Size (General) and Literacy Rate by Paurashava, 2022.....	68-75
2.07	Inter-censal growth rate of population, 1911-2011	75
2.08	Population by sex and age group, 1991-2022	76
2.09	Percentage distribution of population by sex and age groups, 1974-2022	76
2.10	Marital Status of Population Aged 10 Years and above by Sex and Age, 2022.....	77
2.11	Crude Marriage Rate and Mean Age at Marriage by Sex.....	78
2.12	Percentage distribution and variation of major communities by religion, 1901-2011.....	78
2.13	Inter-censal growth rates of population (both sexes) and youths based on population adjusted for net undercount 1974-2001	78
2.14	Ethnic Population by Sex and District, 2022	79-80
2.15	Crude birth rates and total fertility rates.....	80
2.16	Crude Birth Rate (CBR) by residence.....	81
2.17	Age-specific and total fertility rate and age specific fertility rate per 1000 women in Bangladesh for selected years ..	82
2.18	Age-specific fertility rates per 1000 women by residence	83
2.19	Gross Reproduction Rate (GRR) and Net Reproduction Rate (NRR) by residence	83
2.20	Estimated number of births by locality	84
2.21	Child-women ratio by District, 2022	84-85
2.22	Crude Death Rate... ..	85
2.23	Crude Death Rate (CDR) per 1000 population by residence in Bangladesh.....	86
2.24	Infant mortality per 1000 live births by sex and residence.....	87
2.25	Child death rate per 1000 children of ages 1-4 years by sex and residence	88
2.26	Life expectancy at birth in Bangladesh	89
2.27	Type of Household by Division and Location, 2022	90
2.28	General Household by Structure of Main Dwelling by Division and Location, 2022.....	90-91
2.29	Distribution of dwelling households by religion and residence, 2022	92
2.30	General Household by Number of Person and Location, 2022	93
2.31	General Household by Main Source of Drinking Water, Division and Location, 2022.....	93
2.32	General Household by Toilet Facilities, Division and Location, 2022	94-95
2.33	Distribution of household by use of lighting facility and fuel used by residence, 2023.....	96
2.34	Distribution of household by sources of fuel and locality, 2023.....	96
2.35	Percentage distribution of household by source of drinking water by locality.....	97
2.36	Percentage distribution of household by toilet facility and locality	97
2.37	Percentage distribution of household by electricity connection	98
2.38	Marital Status of Population Aged 10 Years and above by Sex and Age, 2023.....	99
2.39 (a)	Abridged life table for both sex combined SVRS, 2023.....	100
2.39 (b)	Abridged Life Table for Male, SVRS 2023.....	101
2.39 (c)	Abridged Life Table for Female, SVRS 2023.....	101

Chapter 3**LABOUR AND EMPLOYMENT**

3.01	Key findings of different Labour Force Surveys.....	105-107
3.02	Dependency ratio of the population by sex and area.....	108
3.03	Working age population aged 15 or older, by age group, sex and area.....	108
3.04	Employed population aged 15 or older, by age group, sex and area.....	109
3.05	Labor force and economically active population by age group, sex and area.....	109
3.06	Employed population aged 15 or older, by age group, Sex and area.....	109
3.07	Employed populations aged 15 or older, occupation, sex and area.....	110
3.08	Employed population aged 15 or older, by economic sector, sex and area.....	110
3.09	Informal employment aged 15 or older, by age group sex and area.....	110
3.10	Unemployed populations aged 15 or older, by age group, sex and area.....	111
3.11	Proportion of youth labour force in total labour force, by age group, sex and area	111
3.12	Proportion of employed youth in total employment by age group, sex and area.....	111
3.13	Employed populations aged 15 or above, by major industry, sex and area.....	112
3.14	Average number of hours employed persons worked per week by industry, sex and area.....	113
3.15	Proportion of own-account and contributing family workers in total employment.....	114
3.16	Rate of reported exposure at work, by type of exposure, sex and area.....	115
3.17	Occupational segregation aged 15 years or older, by sex and area.....	115
3.18	Distribution of migrant and non-migrant persons by sex and area	116
3.19	Comparative Manpower Statements of the ministries/divisions, departments/directorates, divisional Deputy Comissioiner's offices and autonomous bodies/corporations, 2015-24.....	116
3.20	Overseas employment in 2024.....	117
3.21	Category-wise overseas employment, 2001-2024.....	118
3.22	Growth of RMG in Bangladesh, 1992-93 to 2023-24.....	119
3.23	Number of expatriate employees and amount of remittance.....	120
3.24	Number of expatriate Bangladeshi in abroad.....	120
3.25	Country wise remittance.....	121

Chapter 4**AGRICULTURE: CROPS, LIVESTOCK, FORESTRY AND FISHERY**

4.01	Key findings of different Agriculture Censuses.....	125
4.02	Gross value added, share & growth rate of agriculture sector at current price (Base 2015-16)	126
4.03	Gross value added, share & growth rate of agriculture sector at constant price (2015-16)	126
4.04	Distribution of weights of value added of different crops at current prices	127
4.05	Distribution of weights of value added of different crops at constant prices	128
4.06	Gross value added of agriculture sector and sub-sector at current prices, 2020-21.....	129
4.07	Gross value added of agriculture sector and sub-sector at current prices, 2021-22.....	129
4.08	Gross value added of agriculture sector and sub-sector at current prices, 2022-23.....	130
4.09	Gross value added of agriculture sector and sub-sector at current prices, 2023-24.....	130
4.10	Gross value added of agriculture sector and sub-sector at constant prices, 2020-21.....	131
4.11	Gross value added of agriculture sector and sub-sector at constant prices, 2021-22.....	131
4.12	Gross value added of agriculture sector and sub-sector at constant prices, 2022-23	132

X Contents

4.13	Gross value added of agriculture sector and sub-sector at constant prices, 2023-24.....	132
4.14	Land utilization.....	133
4.15	Reserve forest products statistics.....	133
4.16	Area irrigated under different means and by District 2021-22 to 2022-2023	134-35
4.17	Area irrigated under different crops.....	136
4.18	Area irrigated by methods.....	136
4.19	Fertilizer sales by production and year from 2005-06 to 2023-24	137
4.20	Quarterly pesticides consumption for the year of 2024.....	138
4.21	Consumption of pesticide	138
4.22	Selected agricultural statistics by division and district, 2019.....	139-141
4.23	Selected crop-land statistics by division and district, 2019.....	142-143
4.24	Selected agricultural statistics on land-use by division and District, 2019.....	144-146
4.25	Selected livestock statistics by division and District, 2019.....	147-148
4.26	Production of Major Food Grains etc.	149
4.27	Area and production of major agricultural crops	150
4.28	Area and production of Maize, Jowar, Barley and Bajra	151
4.29	Area and production of Pulses	151
4.30	Area and production of condiments and spices	152
4.31	Area and production of miscellaneous cash crops	152
4.32	Area and production of rice by varieties	153
4.33	Estimates of wheat, 2022-23 & 2023-24.....	154-155
4.34	Area and production of oil seeds.....	156
4.35(A)	Estimate of Kharif Groundnut, 2022-23 & 2023-24	157-158
4.35(B)	Estimate of Winter Groundnut, 2022-23 & 2023-24.....	158
4.36(A)	Estimate of Tobacco (Jati), 2022-23 & 2023-24.....	159-160
4.36(B)	Estimate of Tobacco (Matihari), 2022-23 & 2023-24.....	161
4.36(C)	Estimate of Tobacco (Virginia), 2022-23 & 2023-24	162-164
4.36(D)	Estimate of Tobacco (Jati +Matihari+Virginia), 2022-23 & 2023-24.....	165-166
4.37	Sowing & Harvesting Period of Important Crops & Requirement of seeds & Fertilizers.....	167
4.38	Sowing & Harvesting Period of Selected Vegetables & Requirement of seeds and Fertilizers	168
4.39	Flowering & harvesting periods of main fruits	169
4.40	Production of Vegetables	169
4.41	Estimate of ripe Banana, 2022-23 & 2023-24.....	170-171
4.42(A)	Estimate of Mango, 2022-23.....	172-173
4.42(B)	Estimate of Mango, 2023-24.....	174-175
4.43(A)	Estimate of Jackfruit, 2022-23	176-177
4.43(B)	Estimate of Jackfruit, 2023-24	178-179
4.44	Estimate of Pineapple, 2022-23 & 2023-24	180-181
4.45(A)	Estimate of Litchi, 2022-23	182-183
4.45(B)	Estimate of Litchi, 2023-24.....	184-185
4.46(A)	Estimate of coconut, 2022-23	186-187
4.46(B)	Estimate of coconut, 2023-24	188-189

Contents

4.47(A)	Estimate of Sesame/Till (Robi), 2022-23 & 2023-24.....	190-191
4.47(B)	Estimate of Sesame/Till (Summer), 2022-23 & 2023-24.....	192-193
4.48	Production of important fruits	194
4.49	Export of fish and fish products from Bangladesh.....	195
4.50	Species/group-wise annual fish production in inland & marine fisheries, 2023-24.....	196
4.51	Sector-wise annual fish production in inland & marine fisheries, 2023-24.....	197
4.52	Annual total fish production of the inland waters by district, 2023-24.....	198-99
4.53(a)	Production of hatching in Government Hatcheries, 2024	200
4.53(b)	Hatchling Production of Private Hatcheries, 2023-24.....	200
4.54	Species-Wise Annual Fish Catch of All River, 2023-24.....	201
4.55	District-Wise Annual Fish Catch of All River, 2023-24.....	202-203
4.56	District wise Annual Fish Production of Beel, 2023-24.....	204-205
4.57	Annual Fish Production of Pond, 2023-24.....	206-207
4.58	Annual Fish Production of Baor, 2023-24.....	208
4.59	Annual Production of Shrimp/Prawn Farms, 2023-24.....	209-210
4.60	Annual Catch of Marine Fisheries, 2023-24.....	211
4.61	Sector-wise Annual Fish Production from 2007-08 to 2023-24.....	212
4.62	Number of livestock in Bangladesh	213
4.63	Production of Milk, Meat & Eggs	213

Chapter 5

INDUSTRY

5.01	Quantum index of industrial production, all industries (manufacturing, mining and electricity).....	217
5.02	Quantum Index of Mining.....	217
5.03	Index of Industrial Production (IIP) on Large, SMM and Cottage Scale Industry.....	217
5.04	Index of Industrial Production on Large Scale Manufacturing Industries (4 Digit Level)	218-220
5.05	Index of Industrial Production on SMME Scale Manufacturing Industries (4 Digit Level).....	221-223
5.06	Index of Industrial Production on Cottage Scale Manufacturing Industries (4 Digit Level).....	224-227
5.07	Productivity Indices of Industrial Labor in Selected Industries at Constant Price	228
5.08	Price Index of Industrial Goods by Economic End-use Classifications	228
5.09	Price Index of Industrial Goods by Major Economic Activity Classifications.....	229
5.10	Price Indices of Domestically Produced Goods by Industrial Groups (4 Digit Level).....	229-233
5.11.1	Yearly Production of Sample Establishments of Large-Scale Industries	234-237
5.11.2	Yearly Production of Sample Establishments on Small, Medium & Micro (SMME) Industries.....	238-242
5.11.3	Yearly Production of Sample Establishments on Cottage Scale Industries.....	243-247
5.12	Statistics of Cotton Textile Industry	248
5.13	Structure of Jute Manufacturing Industry	248
5.14	Distribution of Handloom Units, Looms by Ownership 2018	249-250
5.15	Comparison of Total Handloom Units and Looms by Operational Status in 2018 and 2003.....	251-252
5.16	Production, Export, Consumption and Stock of Jute Goods	253
5.17	Grade-Wise Production of Tea	253
5.18	Number of Tea Factory Workers	253

XII Contents

5.19	Quantity and Value of Production of Minerals by Type	254
5.20	Selected Indicators of the Survey of Manufacturing Industries, 2019	254
5.21	Gross Value added by type of manufacturing industries.....	255
5.22	Number of establishments by Size and major industry (BSIC 2 digits).....	255
5.23	Value of Fixed Assets by Size and Category.....	255
5.24	Industrial Statistics for the Years of 1973-74 to 2005-2006.....	256
5.25	Gross Outputs by type of Industry Group (BSIC 2 digits).....	256
5.26	Industrial Statistics by Employment, Gross Output, Value Added by Public and Private Sector by the Years	257
5.27	Value of Opening & closing stocks and production by size class and Product Category.....	257
5.28	Size and Growth Rate of Manufacturing Sector at constant prices (Base, 2015-16).....	258
5.29	Index of Production for Large, SMME & Cottage Scale Manufacturing Industries by Year.....	258

Chapter 6

ENERGY

6.01	Indicators of the Energy Sector.....	261
6.02	Installed capacity power generation demand and load shedding.....	262
6.03	Maximum generation and percent increase.....	262
6.04	Gross Energy Generation (GWH) of BPDB and others	263
6.05	Consumption of fuel (BPDB)	263
6.06	Per capita generation and consumption (GRID)	263
6.07	Plant wise generation, 2023-24.....	264-268
6.08	Power distribution zone under BPDB	268
6.09	Power consumption pattern of the country and BPDB, 2023-24	268
6.10	Retail sales by BPDB	269
6.11	Consumer growth by number of consumers (category-wise)	269
6.12	Electrification of thana, villages, hat-bazar and pumps.....	270
6.13	Distribution system loss and net revenue collection	270
6.14	Sale of petroleum products by items	270
6.15	Sale of petroleum products by marketing company, 2023-24.....	271
6.16	Company-wise sale of petroleum products during, 2023-24.....	271
6.17	Petroleum products quantity, imports and export expenditure.....	271
6.18	Import of crude and refined oil	272
6.19	Sector-wise use of main petroleum product during last 3 years	272
6.20	Export performance (last 5 years)	272
6.21	Received of petroleum products from different gas field	273
6.22	BPC's contribution to the national exchequer and financial loss	274
6.23	Import of coal and coke from selected country	274
6.24	Sector wise number of consumers of rural electricity	274
6.25	Bangladesh gas reserves	275
6.26	Main natural gas transmission and distribution line.....	276
6.27	Category wise number of new gas connection.....	277
6.28	Consumption of natural gas by sector	277
6.29	Quantity and value of production of natural gas by gas-fields.....	278
6.30	ERL production during last seven years	278

Chapter 7

TRANSPORT AND COMMUNICATION

7.01	Summary of value added of transport, and storage sector at current price (2015-16).....	281
7.02	Summary of value added of transport, and storage sector at constant price (2015-16).....	282
7.03	Transport, communication and storage statistics	283-284
7.04	Rate of fare and freight of different modes of transport (Public)	284
7.05	Length of RHD road network as per road type	285
7.06	RHD zone, circle and division-wise road length.....	285-286
7.07	Distance from Dhaka to other districts.....	287-288
7.08	Roads maintained by local government institutions.....	288
7.09	Estimated number of mechanized vehicles in Bangladesh.....	289
7.10	Number and capacity of buses and trucks of Bangladesh road transport corporation plying on road.....	289
7.11	Number of motor vehicles in Bangladesh registered by type.....	290
7.12	Number of motor vehicles registered in Dhaka by type.....	290
7.13	Number of motor driving license issued by Dhaka metropolitan area by type.....	291
7.14	Number of registered rickshaws in urban area.....	291-292
7.15	Number of road accident in Dhaka, Chattogram, Khulna, Barishal, Sylhet and Rajshahi metropolitan area.....	292-293
7.16	Number of road accidents in Bangladesh by District.....	293-94
7.17	Route kilometer and stations by gauge of Bangladesh railway	294
7.18	Rolling stock of Bangladesh railway	295
7.19	Number of wagons and quantity lifted by Bangladesh railway at Chattogram port by selected commodities	295
7.20	Bangladesh Railway routes by districts, 2021-22	296
7.21	Freight carried by Bangladesh railway (classified) by commodity	297
7.22	Revenue rate and financial operation of Bangladesh railway	298
7.23	Use of rolling stock by Bangladesh railway.....	298
7.24	Traffic earnings and physical assets of Bangladesh railway	299
7.25	Number of passengers carried by Bangladesh railway.....	299
7.26	Indicators of the performance of Bangladesh Biman	300
7.27	Number of aircrafts in operation and total earnings of Bangladesh Biman.....	300
7.28	Passengers movement by Bangladesh Biman	301-302
7.29	Cargo movement by Bangladesh Biman	303-304
7.30	Aircraft, passenger and freight/mails movement by airports.....	304-305
7.31	Division-wise number of post offices	305
7.32	Division-wise number of telephones.....	305
7.33	Access to ICT at the Household Level (%).....	306
7.34	Use of ICT at the Individual Level (%).....	306
7.35	Number of vessels with carrying capacity of Bangladesh shipping corporation.....	306
7.36	Cargo lifting of Bangladesh shipping corporation, their profit earned, assets & liabilities	307
7.37	Water transport operation under Bangladesh inland water transport authority	307
7.38	Movement of passenger vehicles and goods and revenue receipt by Bangladesh inland water transport corporation.....	308
7.39	Dredging activities by BIWTA and BWDB.....	308
7.40	Vessels by type Under Bangladesh inland Water transport corporation	309

XIV Contents

7.41	International vessels entered into and cleared from Chattogram and Mongla ports.....	309
7.42	Vessels handled at Chattogram and Mongla ports	310
7.43	Cargo handled at Chattogram and Mongla ports.....	310
7.44	Commodity-wise import handled at Chattogram port.....	311
7.45	Arrival of tourists in Bangladesh by nationality	311

Chapter 8

FOREIGN TRADE

8.01	Balance of payments of Bangladesh 2018-19 to 2023-24.....	315
8.02	Foreign trade, 2004-2005 to 2023-24.....	315
8.03	Value of commodities exported from Bangladesh by HS section	316
8.04	Value of commodities imported into Bangladesh by HS section	317
8.05	Export and import of commodities by broad economic categories	318
8.06	Export by major institutional accounts.....	319
8.07	Import by major institutional accounts	319
8.08	Import and export by sea, air and land	319
8.09	Export price (f.o.b.) per unit of selected commodities	320
8.10	Import price (c.i.f.) per unit of selected commodities	320
8.11	Export by type of commodities	320
8.12	Import by type of commodities	320
8.13	Export as percentage of import.....	321
8.14	Unit price index of exports.....	321
8.15	Unit price index of selected imported commodities.....	321
8.16	Direction of export and import by areas and countries	322-326
8.17	Direction of export by SAARC (South Asian Association for Regional Co-Operation) countries by broad commodities..	327-333
8.18	Direction of import by SAARC countries by broad commodities	334-339
8.19	Export of selected commodities (4-digit level)	340-345
8.20	Import of selected commodities (4-digit level)	346-365
8.21	Export of jute goods by country	366-368
8.22	Country wise export of jute goods by BJMA	369-372
8.23	Export of tea by country	373
8.24	Export of selected textile goods by country, 2023-24	373
8.25	Export of textile fabrics to selected country.....	374-375

Chapter 9**FINANCE FOREIGN AID BANKING, INSURANCE, CO-OPERATIVE AND CREDIT DISTRIBUTION**

9.01	Budget at a Glance.....	379
9.02	Board Details of Revenue Receipts (With Actual).....	380
9.03	Consolidated Fund Receipts Estimates	381-82
9.04	Consolidated Fund: Operating Expenditure Economic Analysis Summary.....	383
9.05	Development expenditure of the government by sector.....	384
9.06	Economic classification of the development expenditure of the government	384
9.07	Financing of the development expenditure	385
9.08	Government gross fixed capital formation (ADP)	386
9.09	Receipts and expenditure of Bangladesh Railway	387
9.10	Receipts and expenditure of Post Office department	387
9.11	Economic classification of receipts and expenditure of the telegraph and telephone department.....	388
9.12	Revenue receipts and expenditure of Jiban Bima Corporation	388
9.13	Revenue receipts and expenditure of Sadharon Bima Corporations.....	389
9.14	Revenue receipts and expenditure of Bangladesh Steel and Engineering Corporation	389
9.15	Revenue receipts and expenditure of Textile Mills Corporation.....	390
9.16	Revenue receipts and expenditure of Bangladesh Jute Mills Corporation	390
9.17	Consolidated receipts and expenditure of corporations and autonomous bodies	391
9.18	Consolidated receipts and expenditures of local government	392
9.19	Consolidated receipts and expenditure of city corporation	392
9.20	Consolidated receipts and expenditures of District parishads	392
9.21	Consolidated receipts and expenditures of municipalities.....	393
9.22	Consolidated receipts and expenditures of union parishads.....	393
9.23(a)	Foreign Aid to Bangladesh at a Glance.....	394
9.23(b)	Summary of Commitment of Foreign Economic Assistance to Bangladesh (Commitment).....	394
9.23(c)	Summary of Disbursement of Foreign Economic Assistance to Bangladesh (Disbursement).....	395
9.24	Commitment and disbursement of foreign economic assistance to Bangladesh (2008-09 to 2016-17)	395-399
9.25	Commitment and disbursement of foreign economic assistance to Bangladesh (2012-13 to 2020-21)	400-401
9.26	Banks and their offices operating in Bangladesh	402
9.27	Assets and liabilities of banks (all banks)	403
9.28	Trends of bank credit	403
9.29	Deposits of scheduled banks by type	404
9.30	Trends of money supply.....	304
9.31	Outstanding Advances by Major Economic Purpose of Scheduled banks.....	405
9.32	Outstanding Advances by Economic Sectors of Scheduled Banks	405
9.33	Bank advances and deposits by division/districts and locality.....	406-410
9.34	Foreign exchange reserves and exchange rate	411
9.35	Bank rate and interest rate structure of post office savings bank and house building finance corporation.....	412
9.36	Bank -wise interest-rate structure in Bangladesh (except Islamic banks) end Dec., 2023	413-417
9.37	Profit rate structure of the Islami Banks.....	418-419
9.38	Deposits in various government sponsored savings scheme	420
9.39	Insurance companies and corporations in Bangladesh (life & general)	421-422

XVI Contents

9.40	Monthly Position of Agricultural Credit by the Scheduled Banks	422
9.41	Disbursement and recovery of agricultural credit of Bangladesh Krishi Bank by District.....	423
9.42	Cumulative statement of Grameen Bank, 2024.....	424
9.43	Disbursement and recovery of loan of Grameen Bank, 2024	425
9.44	Disbursement and recovery of agricultural credit by Bangladesh Rural Development Board	426
9.45	Number of central and primary co-operative societies in Bangladesh by region	427
9.46	Statistics on employment created through programmes of the co-operative societies	428
9.47	Distribution of rickshaw to rickshaw puller co-operative societies.....	429
9.48	Statistics on co-operative markets.....	430
9.49	Statistics on housing co-operative, 2023-24.....	431
9.50	Selected co-operative societies number of members disbursement and recovery of loans, 2023-24	431
9.51	Item wise revenue collection.....	432
9.52	Government grant/subsidy	432
9.53	Private investment proposals registered with BIDA	433

Chapter 10

PRICES AND WAGES

10.01	Market price agricultural crops during the harvest time.....	437-438
10.02	Annual average wholesale price of selected consumer goods in Bangladesh	439
10.03	Annual average wholesale price of tanned leather and hides in Dhaka.....	440
10.04	Annual average wholesale price of selected building materials at major towns	441-442
10.05	Consumer price index (CPI), national.....	443
10.06	Consumer Price Index (CPI), rural.....	443
10.07	Consumer Price Index (CPI), urban	444
10.08	Annual average retail price of selected consumer goods in Bangladesh	445
10.09	Annual average retail price of selected consumer goods in Dhaka	446
10.10	Price of gold and silver bullion in Dhaka.....	447
10.11	Average retail price of tea.....	447
10.12	House-rent indices of different categories of private residential houses in four principal cities	448
10.13	Building Materials Price Index (BMPI)	448
10.14	Annual average daily wage rate of construction labour by type of labour at principal towns.....	449
10.15	Daily average wage rate of selected groups of industrial workers in Dhaka	449
10.16	Miscellaneous service charges in Bangladesh.....	450-451

Chapter 11

NATIONAL INCOME

11.01	Key Indicators of National Accounts	455
11.02	Annual growth of GDP by sectors at constant price	456
11.03	Sectoral shares of Gross Domestic Product at constant prices	457
11.04	Gross Domestic Products of Bangladesh at constant prices by major industry	458
11.05	Annual growth of GDP by sector at current price	459

Contents

11.06	Sectoral shares of Gross Domestic Product at current market prices	460
11.07	Gross Domestic Products of Bangladesh at current prices	461
11.08	Gross Domestic Products of Bangladesh at current prices by broad industry sectors	462
11.09	Gross Domestic Products of Bangladesh at Constant Prices by Broad Industry Sector	462
11.10	Implicit GDP and Sectoral Deflators	463
11.11	Gross Domestic Product by Expenditure Categories at Current Prices	464
11.12	Gross Domestic Product by Expenditure Categories at Constant Prices (Base: 2015-16)	465
11.13	Per Capita GDP, GNI and NNI at Current Prices	466
11.14	Per Capita Real GDP, GNI and NNI at Current Prices.....	466

Chapter 12**EDUCATION**

12.01	Number of Institution, Student & Teacher by type of Education, 2023	469
12.02	Number of Public Universities Teachers & Students by sex in Bangladesh	470
12.03	Number of teachers & students' ratio in public universities	471
12.04	Yearly average per head expenditure in public universities students	472
12.05	Faculty-wise number of students in public universities	473-74
12.06	Number of students, teachers and other information of private universities	475-477
12.07	Faculty and main subject-wise number of students in private universities.....	478-480
12.08	Enrolment in colleges by management and sex	481
12.09	Number of college, teacher and enrolment by type	482
12.10	Number of secondary schools, teachers and enrolment	482
12.11	Enrolment in pre-primary by type and gender	482
12.12	Number of primary education institution teacher and enrolment	483
12.13	Gross and Net Enrolment Rate in primary education.....	483
12.14	Dropout rate by grade percentage, 2023	483
12.15	Number of Sanskrit & Pali tols with teachers and students in Bangladesh	484
12.16	Number of teachers in professional educational institutions by type, sex and management	484
12.17	Enrolment in professional educational institutions by type, sex and management	485
12.18	Number of professional education institute by types and division, 2023.....	485
12.19	Number of technical institutions, teacher and enrolment by type, 2023	486
12.20	Number of governments recognized unani colleges, teachers, students and output of final examinations	486
12.21	Number of governments recognized Ayurveda colleges, teachers, students and output of final examinations.....	487
12.22	Literacy rate for persons aged 7 years and above by sex and District.....	488
12.23	Literacy rate of population 7 years and over	489
12.24	Adult literacy rate of population 15 years and over	490
12.25	Adult literacy rate of population for all age by District by sex, 2022	491
12.26	Number of persons completed different educational levels and percentage distribution, 2022.....	492
12.27	School attendance rate of population 5-24 years by sex and locality	493
12.28	Number of schools, student and teacher by type and management, 2023	494
12.29	Number of colleges, teacher and student by type, sex and management, 2023	494
12.30	Number of madrasa, teacher and enrolment (Post-primary) by type gender & management, 2023.....	494
12.31	Number of institutions, teacher and enrolment in technical and vocational education.....	495-496
12.32	Number of institution enrolment.....	496

XVIII Contents

12.33	Enrollment in teacher educational institutions by type gender and management, 2023	497
12.34	Number of English medium school by type of enrollment, 2023.....	497

Chapter 13

HEALTH FAMILY PLANNING AND SOCIAL STATISTICS

13.01	Indicators of the health and family planning sector	501-502
13.02	Proxy indicators of hand washing behaviors at home.....	502
13.03	Hand washing behavior at school.....	502
13.04	Products used at home during menstruation.....	503
13.05	Problems faced by adolescent girls and women during menstruation.....	503
13.06	Products used at school during menstruation.....	503
13.07	Yearly cases of HIV-AIDS	504
13.08	Year-wise collection of safe blood by philanthropic organization	504
13.09	Distribution of the Upozila health complexes by % of bed occupancy rates in different years	504
13.10	Primary healthcare facilities run by DGHS.....	505
13.11	Secondary and tertiary public hospital under under the DGHS by division, 2023.....	505
13.12	Number of community clinic by district, 2018.....	506
13.13	Proportion and prevalence of morbidity	507
13.14	Access to toilets for the restaurant staff and food vendor.....	508
13.15	Percentage distribution of adults (>15 years) who use tobacco.....	508
13.16	Average monthly expenditure on tobacco by sex	508
13.17	Number of admissions, deaths district/general hospitals, 2023.....	509
13.18	Division wise number of sanctioned, filled up and vacant posts under DGHS	510
13.19	Average length of stay, bed occupancy rate, hospital death rate, average daily admissions and average daily OPD patients in different type of hospitals	511
13.20	Some parameters of hospitalized patients served.....	511
13.21	Average expenditure on treatment due to accident.....	511
13.22	Medical colleges and their number of seats, 2023	512-515
13.23(a)	Sex-wise prevalence of top 15 diseases/causes of admission among the indoor patients	516
13.23(b)	Sex-wise prevalence of top 15 diseases/causes of admission among the indoor patients	516
13.23(c)	Sex-wise prevalence of top 15 diseases/causes of admission among the indoor patients	516
13.24	Cumulative screening report for blood with TTIs	517
13.25	Statistics of local production of finished drugs & raw materials.....	517
13.26	Prices of selected imported raw materials for essential drugs.....	517
13.27	Statistics for import of finished drugs raw and packaging materials.....	518
13.28	Export statistics finished drugs and raw materials	518
13.29	Licensed business units in drugs by categories.....	518
13.30	Statistics of production units, registered drug products (brands) & distributions outlets.....	518
13.31	Number of family planning personnel by districts and division, 2023-24	519-520
13.32	Distribution of family planning aids.....	520
13.33	Ever use of contraceptive methods (%) among the married women	520
13.34	Method-specific contraceptive use rate among currently married women	521
13.35	Locality-wise differentials of CPR, 2023.....	521

Contents

13.36	Contraceptive prevalence rate by residence	522
13.37	Contraceptive method mix with respect to modern method	522
13.38	Birth attendant by residence	522
13.39	Neo-natal mortality rate per 1000 live births	523
13.40	Post neo-natal mortality rate per 1000 live births	524
13.41	Under 5 years child death rate (per 1000 live birth).....	525
13.42	Contraceptive prevalence rate by method residence	526
13.43	Percentage distribution of currently married women using family planning methods by types	526
13.44	Maternal mortality ratio per 1000 live births	526
13.45	Death rates per 1000 from top 15 causes of death by residence.....	527
13.46	Person who believe tobacco causes diseases (percentage of adults ≥ 15 years).....	527
13.47	Place of birth by division	528
13.48	Progress of sinking deep tube wells in coastal saline areas.....	528
13.49	Number of hand/shallow tube wells for drinking water in rural areas by former districts	529
13.50	Number of hand/tara for drinking water in rural areas by former districts.....	530
13.51	Production and number of sales centers of sanitary latrines by former district	531
13.52	Number of newspapers and books published (general)	531
13.53	Number of cinema houses and their seating capacity by former districts	532
13.54	Number of advocates by Bar Association	532-533
13.55	Number of crimes by type as registered with the police	534-535
13.56	Number of imams trained and expenditure incurred therein in Bangladesh.....	536
13.57	Number of imams trained by former districts	537
13.58	SDGs indicators and tier classification by goal and data availability in Bangladesh, (as of June, 2024).....	538

Chapter 14**POVERTY, INEQUALITY, HOUSEHOLD INCOME, EXPENDITURE AND CONSUMPTION**

14.01	Incidence of poverty (head Count Rate) by cost of basic needs method by division	541
14.02	Selected Indicators of Household Income and Expenditure Survey.....	541-543
14.03	Poverty gap and squared poverty gap (in percent) by cost to basic needs method	544
14.04	Incidence of poverty (CBN) by educational status	545
14.05	Incidence of poverty by main occupation of head of household	546
14.06	Percentage of children attending different types of schools at primary level by sex	547
14.07	Distribution of population Received Treatment Facilities by Place and sex	547
14.08	Percentage distribution of households and programme beneficiaries received benefits from Social Security Programmes	547
14.09	Percentage distribution of households receiving benefits from Social Security Programmes by division and locality	548
14.10	Prevalence of malnutrition among children aged 56-59 months	548
14.11	Average household size	549
14.12	Age-sex structure of population by residence	550
14.13	Monthly household nominal income expenditure and consumption by residence	550
14.14	Percentage distribution of income accruing to household in groups (deciles) and Gini co-efficient	551
14.15	Percentage distribution of migrants working abroad sending remittances during the last 12 months	551
14.16	Percentage distribution of average monthly household consumption expenditure by major expenditure groups	552
14.17	Per capita per day intake of major food items (grams)	553

XX Contents

14.18	Per capita per day (k. cal.) intake by residence	554
14.19	Per capita per day intake of protein (grams) by residence from	554
14.20	Percentage distributions of households by sources of drinking water and residence	554
14.21	Percentage distribution of population (all ages) having any functional difficulties even with an aid by type and intensity of difficulty	555

BANGLADESH: An Overview

Historical Background

The history of Bangladesh is an eventful combination of turmoil and peace, as well as prosperity and destitution. It has thrived under the glow of cultural splendor and suffered under the ravages of war. The territory now constituting Bangladesh was under the Muslim rule over five and a half centuries from 1201 to 1757 A.D. Then it was ruled by the British, after the defeat of the last sovereign ruler of Bengal, Nawab Siraj-ud-Daulah, at the Battle of Plassey on the fateful day of June 23, 1757. The British ruled over the entire Indian sub-continent including this territory for nearly 190 years from 1757 to 1947. During that period Bangladesh was a part of the British Indian provinces of Bengal and Assam. With the termination of the British rule in August, 1947 the sub-continent was partitioned into India and Pakistan. Bangladesh then became a part of Pakistan and was named as East Pakistan. It remained so for about 24 years from August 14, 1947 to March 25, 1971. The Independence of Bangladesh from Pakistan was declared on 26 March 1971, which is celebrated as Independence Day. After 9-month long war of liberation Bangladesh swept to victory on 16 December 1971, which is celebrated as Victory Day.

Geographical Location and Area

Bangladesh lies in the north eastern part of South Asia between 20°34' and 26°38' north latitude and 88°01' and 92°41' east longitude. The country is bounded by India on the west-north and north-east while Myanmar on the south-east and the Bay of Bengal on the south. The area of the country is 56,977 sq. miles or 1, 47,570 sq. k.m. The limits of territorial water area of Bangladesh are 12 nautical miles and the area of the high seas extending to 200 nautical miles measured from the base lines constitutes the economic zone of the country. Bangladesh won in Arbitral Tribunal/PCA more than 1, 18,813 square kilometers of waters comprising territorial sea, exclusive economic zone extending out to 200 NM across sizable area, and also has undeniable sovereign rights in the sea bed extending as far as 354 NM from Chattogram coast in the Bay of Bengal with all the living and non-living resources. To achieve an equitable result, the tribunal awarded Bangladesh 19,467 sq km of area out of total disputed area of 25,602 sq km (approx).

Physiography

Except the hilly regions in the north-east, south-east and some areas of high land in the northern part, the country consists of plain and fertile land. A network of rivers exists in the country of which the Padma, the Jamuna, the Teesta, the Brahmaputra, the Surma, the Meghna and the Karnaphuli are prominent. All those rivers have 230 tributaries with a total length of about 24140 kilometers. The alluvial soil is thus continuously being enriched by heavy silts deposited by rivers during the rainy season.

Flora and Fauna

According to available information from Bangladesh Forest Department (BFD) the total forest land is 25,75,196 hectares which is 17.45 percent of total area of the country. The Sundarban is the largest mangrove forest in the world. It lies at the southern part of the Ganges delta and is spread across the coastal areas of Bangladesh and West Bengal of India. The section of Sundarban that belongs to Bangladesh has been listed in the UNESCO world heritage. The Sundarban is known for its wide range of flora and fauna. Sundarban is the home of the world famous 'Royal Bengal Tiger'. Numerous species of birds, spotted deer, crocodiles and snakes also inhabit there. The country produces timber, bamboo and cane. Bamboos grow in almost all areas but quality timber grows mostly in the hilly region of country. Among the timber sal, gamari, chaplish, telsur, jarul, teak, garjan and sundari are valuably important. Plantation of rubber in the hilly regions of the country was undertaken and extraction of rubber had already been started.

Climate

Bangladesh enjoys generally a sub-tropical monsoon climate. While there are six seasons in a year, three namely, Winter, Summer and Monsoon are prominent. Winter which is quite pleasant begins in November and ends in February. In Winter there is not usually much fluctuation in temperature which ranges from minimum of 7°C—13°C (45°F—55°F) to maximum of 24°C—31°C (75°F—85°F). The maximum temperature recorded in Summer is 37°C (98°F) although in some places this occasionally rises up to 41°C (105°F) or more. Monsoon starts in June and stays up to October. This period accounts for 80% of the total rainfall. The average annual rainfall varies from 1429 to 4338 millimeters. The maximum rainfall is recorded in the coastal areas of Chattogram and northern part of Sylhet district, while the minimum is observed in the western and northern parts of the country.

Population

Bangladesh Bureau of Statistics conducted the sixth Population and Housing Census in the country on June 15-21, 2022. According to the last census the population (adjusted) of the country is 169.83 million in 2022. The male population is 84.08 million and female is 85.65 million. The average annual growth rate of the population is 1.22 per annum. The density of population was 976 per sq.km. in 2011 which increased to 1119 per sq.km. in 2022. The sex ratio of the population is found to be 98.04 in 2022 which was 100.3 in 2011. The total number of households is 41,010,051 which is distributed as 27,820,341 in rural areas and 13,189,710 in urban areas.

Bangladesh Bureau of Statistics introduces Sample Vital Registration System (SVRS) in 1980 to determine the annual population change during inter-censal period. As reported in the SVRS the population (estimated) of the country stood at 171.73 million in 1 July, 2022. The male population was 84.74 million and female 86.99 million. The rate of natural growth of population was 1.35. The density of population was 1153 per sq.km. in 2021 which increased to 1163 per sq.km. in 2022. The sex ratio of the population is found to be 97.5 in 2022.

Labour Forces

In 2024, the total labour force reached 71.73 million marking a decrease of 1.74 million compared to the Labour Force Survey 2023. This workforce included 69.11 million employed population and 2.62 million unemployed population based on the 13th ICLS methodology. Of those employed, 46.23 million were male and 22.88 million were female.

The unemployment rate among population aged 15 and above rose to 3.65% in 2024, up from 3.35% in 2023. Male labour force participation rate stood at 79.96% while female participation rate was recorded at 38.41%. In terms of broad economic sectors, employment was highest in agriculture, engaging 30.87 million employed population (46%), followed by the service sector with 26.23 million (37%) and the industry sector employing 12.01 million (17%).

Capital and other Cities

Dhaka, formerly known as Dacca, is the capital and the largest metropolitan city of the country. The city is within the monsoon climate zone, with an annual average temperature of 25⁰ C (77⁰ F) and monthly varying between 18⁰ C (64⁰ F) in January and 29⁰ C (84⁰ F) or more in August. Chattogram is the main sea port and second largest metropolitan city of Bangladesh and has extensively developed port facilities for ocean steamers.

Administrative Setup

Bangladesh is governed by a Parliamentary Form of Government. The President is the head of the State while the Prime Minister is the head of the Government. According to the Constitutions, the Prime Minister is appointed by the President based upon the result of the electorate's choice in parliamentary general election. The Prime Minister is assisted by a council of ministers in discharging his/her duties. For the convenience of administration, the country is divided into eight administrative divisions; each is placed under a Divisional Commissioner. Each division is further sub-divided into zilas (Districts). After the administrative re-organization carried out in 1984, the country has been divided into 64 zilas. Each zila is further divided into a number of Upazilas (Sub district). The representatives of the government at zila and upazila level are Deputy Commissioner (DC) and Upazila Nirbahi Officer (UNO) respectively.

The legislature

The constitution provides a Parliament for Bangladesh (to be known as the House of the Nation) in which legislative power of the Republic is vested. It consists of 300 members directly elected by adult franchise. The Members of House of the nation elect another 50 female members. Thus, the total number of members of the House is 350.

The Judiciary

The Supreme Court of Bangladesh is the highest judicial organ and comprises of the Appellate Division and the High Court Division. The Supreme Court of Bangladesh is headed by a Chief Justice. The Supreme Court serves as the guardian of the constitution and enforces the fundamental rights of the citizens. The Appellate Division hears and determines appeals from judgments, decrees, orders or sentences of the High Court Division. At the district level, the district court is headed by Sub judge who is assisted by Additional District Judge, subordinate judges, assistant judges and magistrates.

Local Government

The tiers of Local Government are (i) Union Parishad, (ii) Upazila Parishad, and (iii) Zila Parishad. However, in the urban areas, there are two types of Local Government System –namely (i) Pourashava (Municipality) and (ii) City Corporation. The Local Government bodies are constituted by the representatives directly elected by the people.

*Fundamental
Foreign Policy
of Bangladesh*

The fundamental Foreign Policy of Bangladesh is - The state shall base its international relations on the principles of respect for national sovereignty and equality, non-interference in the internal affairs of other countries, peaceful settlements of international disputes, and respect for international law on the principles enunciated in the United Nations Charters and on the basis of those principles shall –

- a) Strive for the renunciation of the use of force in international relations and for general and complete disarmament;
- b) Uphold the right of every people freely to determine and build up its own social, economic and political system by ways and means of its own free choice; and
- c) Support oppressed peoples throughout the world waging a just struggle against imperialism, colonialism or racialism.

*Communication
System*

The country has about 3101 kilometers (as of 2021-22) of rail-way, 161441 kilometers of paved road and roughly 6000 kilometers of perennial and seasonal waterways. Side by side with development of road transport, efforts are under way to develop the water transport system. In fact, rivers are the life line of the nation, which provide the cheapest means of transport, water for agricultural operation and ensure supply of fish for people. Steps have been taken to put more mechanized boats into service and modernize the existing country boats.

Regarding air transport facilities, Dhaka is connected by air with Toronto, London, Bangkok, Abudhabi, Tokyo, Kuala Lumpur, Singapore, Karachi, Mumbai, Kolkata, Dubai, Jeddah, Kathmandu, Yangon, Kuwait, Rome and Bahrain by her national airline (Biman). A number of foreign airlines operate their international services with a link to Dhaka. Regular air services are operated by the Biman between Dhaka and other major towns in the country. The two sea ports of Bangladesh are situated in Chattogram and Mongla. Payra sea port is the 3rd sea port of Bangladesh located on the bank of Rabnabad Channel under Kalapara, Patuakhali. Among the river ports and terminals, Dhaka, Narayanganj, Chandpur, Barishal, Khulna, Aricha, Paturia, Goalando, Jagannathganj ghat, Bhairab Bazar, Bahadurabad and Fulchari ghat are important.

The country has a network of radio and television broadcasting. There were two television stations in Dhaka and Chattogram under government. Presently 40 television channels are broadcasting under the government & private ownerships. The television system was introduced on 25 December, 1964 and since then sub-stations have been set up in Sylhet, Khulna, Rangpur, Mymensingh, Natore, Noakhali, Satkhira, Cox's Bazar, Rangamati, Thakurgaon, Patuakhali, Brahmanbaria, Jhenaidah, Rajshahi etc. The Colour Television system was introduced on 1st December, 1980. An extensive telecommunication system has connected the capital city with other places within the country. Telecommunication lines have also been established with major cities of the world through the earth satellite ground stations at Betbunia in the Chattogram Hill-Tracts and Talibabad (Kaliakoir) in Gazipur Zila. In order to cater the high speed of data communication Bangladesh has already been linked with information superhighway through submarine cable in the Bay of Bengal.

Education and Culture

The education system of Bangladesh is divided into Three levels (i) Primary (from grades 1 to 5), Secondary (from grades 6 to 10), Higher Secondary (from grades 11 to 12) and Tertiary. Besides, there are some private institutions providing English medium education. They offer 'O' level and 'A' level courses. The highest allocation in the national budget for education exposes that Government of Bangladesh is very much keen for human resources development through education. Bangladesh has also Madrasa education system which emphasizes on religious matters.

Bangla is the mother tongue of Bangladesh. But to establish Bangla as the mother language, Bangalees had to sacrifice their lives. A number of People were martyred in February 21, 1952 to establish the rights of mother language. In recognition of their supreme sacrifice, UNESCO declared 21st February as the "International Mother Language Day" throughout the world.

Bangladesh has a rich historical and cultural past; combining Dravidian, Indo-Aryan, and Mongolian, Mughal, Arab, Persian, Turkish and West European cultures. The land, the rivers and the lives of the common people combined have formed a rich heritage. The culture of Bangladesh is composed of different forms, including music, dance and drama, art and craft, folklores and folktales, language and literature, philosophy and religion, festivals and celebrations etc. Festivals and celebrations are an integral part of the culture of Bangladesh. Pohela Baishakh (Bengali New Year), Independence Day, Victory Day, National Mourning Day, Eid-ul-Fitre, Eid-ul-Azha, Muharram, Durga Puja, Shahid Dibash and International Mother Language Day, Buddha Purnima etc. are widely celebrated, across the country.

Bangladeshis are great enthusiasts of sports and games. Football, handball, basketball, volleyball, table tennis, hockey, badminton, cricket, kabaddi (known as Ha-Du-Du), swimming, boat racing and lawn tennis are some of the most popular outdoor games in this country.

Agriculture and Main Crops

Bangladesh is mainly an agricultural country. Agriculture contributes about 11.19% (FY 2023-24) to the total Gross Domestic Product (GDP) of the country. According to the provisional report of Quarterly Labour Force Survey 2023 this sector accommodates around 44.42% of total labour force. Due to natural calamities like flood cyclone, drought, loss of production in both food and cash crops are almost a regular phenomenon. Yet in recent years, there has been a substantial increase in food grain production. Agricultural holding in Bangladesh is generally small but use of modern machinery and equipment is gradually increasing. Rice, jute, sugarcane, potato, vegetables, wheat, tea and maize are the principal crops of Bangladesh. Crop diversification programme, credit supply, extension work, research and input distribution policies pursued by the government are yielding positive results. The country is now on the threshold of attaining self-sufficiency in food grain production.

Fish Wealth

Bangladesh is rich in fish wealth. In the innumerable rivers, canals, tanks and other low lying and depressed areas and paddy fields that remain under water for about 6 months in a year and cover nearly 12 million acres, tropical fish of hundreds of varieties are cultivated. Rice and fish constitute an average Bangladeshi's principal diet. Hilsa, lobsters and shrimps are some of the fish varieties that are exported to foreign countries. Having the Bay of Bengal in the south of the country enjoys geographic advantage for marine fishing.

Mineral Resources and Energy

Bangladesh has a few proven mineral resources. The country has enormous deposit of natural gas. As of December 2022, 28 gas fields have been discovered from which natural gas is available for power-generation, industrial and other uses. Fertilizer factories that are operating in the country including the petro-chemical complex at Ashuganj and also those yet to be commissioned in near future are and will be using sizeable quantity of natural gas.

Coal deposits have been found in Bangladesh and mining activity is going on with international assistance. Electricity is produced by both thermal and hydro-electric process. The total generation of electricity amounted to 95996 million kilowatt-hours in 2023-24. The solitary hydro-electric project having installed capacity of producing 230 MW electricity is located at Kaptai in the Chattogram Hill Tracts. Limestone, the basic raw material for the production of cement, has been found in some places in the country and cement factories are being set up for their utilization. Other minerals found include hardrock, lignite, silica sand, white clay, etc. Salt is manufactured on a small scale at several thousand evaporation sites in the coastal areas of Chattogram and Cox's Bazar.

Extensive radio-active sand deposits have been found all along the beaches from Kutubdia to Teknaf. A survey estimates the reserve to be of the order of 0.5 million tons of sand containing a significant amount of usable heavy minerals.

Industries

Although Bangladesh is predominantly an agricultural country. A large number of large-scale industries based on both indigenous and imported raw materials have been set up. Among them ready-made garments, cotton textile, pharmaceuticals, fertilizer, wood product, iron and steel, ceramic, cement and plastic product, chemical are important ones. Other notable industries are engineering and ship building, oil refinery, paints, colours and varnishes, electric cables and wires, electric lamps, fluorescent bulbs, other electrical goods and accessories, matches, cigarettes etc. Among the cottage industries, handlooms, carpet-making, shoe-making, coir, bamboo and cane products, earthenware, brass and bell metal products, bidi and cheroots, small tools and implements, ornaments, etc. are important.

The manufacturing sector contributes about 22.65% (as of 2023-24) of the total GDP. The industry that has been making crucial contribution to the economy is none other than the readymade garment (RMG) industry which is now the single biggest export earner for Bangladesh. Bangladesh holds the second position in ready-made garments exports and majority export goes to the European Union and the USA. In 2023-24 the export earnings from RMG sector was 36151.31 Million USD which accounts for 81.29% of total export earnings of the country.

*Finance,
Banking and
Insurance*

Bangladesh has a mixed banking system comprising nationalized, private and foreign commercial banks. Bangladesh Bank is the central bank of the country and is entrusted with the responsibilities of formulating monetary policies of the Government and controls all commercial banks. The Grameen Bank is a core microfinance organization and also community development bank in Bangladesh providing small loans (known as microcredit) to impoverished people without requiring collateral. The system is based on the idea that the poor have skills that are under-utilized but do not have the capacity to take loan from conventional banks by providing collateral. The bank also accepts deposits, provides other services, and runs several development-oriented businesses including fabric, telephone and energy companies.

In recent years, the banking system has been greatly changed. In light of the avowed Government policy of encouraging the private sector to play its due role in economic development of the country. The Government has allowed setting up of commercial and investment banks in the private sector. In response to this encouraging Government policy quite a number of commercial and investment banks including some Islamic banks have been set up in the private sector and have started functioning.

There are other specialized financial institutions namely, House Building Finance Corporation, Bangladesh Krishi (Agriculture) Bank, Bangladesh Shilpa (Industrial) Bank, Bangladesh Shilpa Rin Sangstha (Industrial credit organization) and Co-operative Banks which are operating in their respective fields to facilitate these sectors by providing credit and other services at convenient terms. Industrial Credit and Investment Corporation of Bangladesh has also been set up by the Government to provide equity support to public limited companies in the private sector.

In the field of insurance, the Government has allowed both public and private sectors to operate life as well as non-life insurance business in order to develop a strong competition. In the public sector, there are one Jiban Bima Corporation for the life insurance business and one Shadharan Bima Corporation for general insurance business. In the private sector more than sixty-one (81) companies are engaged in life and general insurance business.

*Tourists
attractions*

Bangladesh is a large delta laden with bounties of nature. The borderland along the north-east, east and the south-east is evergreen forested hills with wondrous wildlife. All her six seasons vibrate with fairs and festivals, mirth and merriment.

Though Bangladesh is one of the world's smallest countries, it has the world's longest unbroken sandy sea-beach along the Bay of Bengal at Cox's Bazar, The Sundarbans, (the largest mangrove forest), the home of the Royal Bengal Tiger and the spotted deer, it is recognized as the part of world heritage by UNESCO for being the diffuse home of flora and fauna. Dhaka - the capital known as the city of mosques, Rangamati - the heart of the panoramic lake district, Sylhet-land of holy shrines of great religious saints and of fascinating hills and tea gardens, Chattogram - the largest port city and the Commercial Capital of the country known as the city of holy shrines, Mainamati, Mahasthangarh and Paharpur archaeological treasures in the country over the period from 300 BC to 1200 AD. Saint Martin's, a beautiful coral island about 10 km south-west of the southern tip of the mainland is a tropical slime, with beaches fringed with coconut plants and

beautiful marine life are one of the most attractions in the country. Except these, Kuakata's long and wide unique beach and Foy's lake, a man-made lake in Patuakhali sets amidst picturesque surroundings is the natural form. Above all riverine beauty, colourful tribal life and simple village life of the friendly millions are the main motivational factors for potential visitors.

Bangladesh has a variety of attractions for visitors, tourists and holidaymakers including archaeological sites, historical mosques and monuments, resorts, beaches, anthropological communities, forests, flora and fauna.

The Government of Bangladesh recognized tourism as an industry and declared a National Tourism Policy for the development of domestic and international tourism in Bangladesh. Bangladesh Parjatan Corporation, National Tourism Organization is playing the leading role as promoter of the industry.

Empowerment of Women

The term empowerment is a process through which women in general gain control over resources and decision making.

The present situation of the women in our country is unfortunate, the women especially who live in the rural areas passing inhuman life. Rights and liberty are the dream to them, Number of women is not enough in our administration and Very few women are involved in Politics. The political status of our women is not satisfactory. Participation of women in our economic activities is also very poor. Wage differentials between men and women are very high in case of wage employment.

The factors behind the disempowerment of women are:

A. Economic factor	B. Socio-cultural and	C. Political factors
i) Dependency on men	religious factors	i) Indifference of political parties
ii) Ownership of land	i) Illiteracy	ii) Limited participation in electoral politics
iii) Less scope for employment	ii) Socially ignored	iii) Intra-household discrimination
	iii) Cultural apathy	
	iv) Purdah or Seclusion	

Education Policy

The government has adopted consistent with what has been provided for in the constitution and it will work as a strategy to develop the country as secular and citizen friendly environment where well planned education system will operate to ensure social welfare.

The policy aims at stimulating intellectual ability and instilling work culture and social skills as well as establishing moral, human, cultural, scientific and social values at personal and national levels.

The main characteristics of the education policy is to develop a humane, rational, principled, self-respecting, non-superstitious, tolerant, non-sectarian, patriotic and hardworking citizen capable of leading humanity development and people-oriented development and progress.

*Energy
Policy/Plan*

The latest Power System Master Plan (PSMP) 2016, sponsored by Japan International Cooperation Agency (JICA), was aimed at assisting the Bangladesh in formulating an extensive energy and power development plan, covering energy balance, power balance, and tariff strategies. Five Goals were set in PSMP 2016 which are: 1) Enhancement of imported energy infrastructure and its flexible operation; 2) Efficient development and utilization of domestic natural resources (gas and coal); 3) Construction of a robust, high-quality power network; 4) Maximization of green energy and promotion of its introduction; 5) Improvement of human resources and mechanisms related to the stable supply of energy. Bangladesh also formulated an 'Energy Efficiency and Conservation Master Plan (EECMP)'. A newly planned 'Integrated Energy Power Sector Master Plan' is likely to be introduced in 2023. The Tokyo-based consulting firm 'The Institute of Energy Economics, Japan (IEEJ)' has been working to prepare this plan following an agreement between the Bangladesh government and Japan International Cooperation Agency (JICA) signed on 15 March 2021. As part of energy policy, along with coal-based thermal power generation the nuclear power generation initiative has been taken by Bangladesh to reduce dependency on natural gas. The use of renewable energy is also getting emphasize.

*Industrial
Policy*

The industrial policy 2022 of Bangladesh proposed an integrated strategy of economic growth through rapid industrialization. It has been prepared taking into consideration the government's determination to achieve Sustainable Development Goals (SDG) by 2030, and halve the number of the unemployed, and hunger and poverty- stricken people. To alleviate poverty by creating additional employment opportunities, the policy aims to create job for unemployed people.

The aim of the industrial policy is improving the socio-economic condition of the people by achieving industrial growth and creating massive employment opportunities through industrialization through concerted efforts of government and private sector.

The industrial policy 2022 targets the contribution of the industrial sector to the existing national income will be increased and the contribution of the labor force in order to implement the overall development vision of the government. In addition, the policy emphasizes to play a role in inclusive development by increasing human resource and income generating employment through industrialization.

Chapter 1

LAND AND ENVIRONMENT

1.01 Characteristics of General Soil Types

General Soil Types	Division/District of important occurrence	Characteristics
Floodplain Soils		
01. Non-calcareous Alluvium	Chattogram: Brahmanbaria, Chandpur, Chattogram, Cumilla, Rangamati, Khagrachhari & Bandarban Hill districts, Cox's Bazar. Sylhet: Habiganj, Moulvibazar, Sunamganj & Sylhet. Dhaka: Dhaka, Jamalpur, Kishoreganj, Manikganj, Mymensingh, Narayanganj, Narsingdi, Netrokona, Sherpur & Tangail. Rajshahi: Bogura, Dinajpur, Gaibandha, Kurigram, Lalmonirhat, Naogaon, Nilphamari, Pabna, Panchagarh, Rangpur & Sirajganj. Barishal: Barishal, Bhola, Pirojpur, Patuakhali & Barguna.	Raw sandy and salty alluvial deposits, usually stratified either from the surface or below the cultivated topsoil in the active floodplain areas (young char lands) or massive in the older flood plain areas. Brahmaputra and Teesta alluvia are rich in mica and biotite, alluvia of other rivers are less micaceous. These are neutral to alkaline in reaction and are saline in the coastal tidal areas.
02. Calcareous Alluvium	Chattogram: Chandpur, Chattogram, Cox's Bazar, Feni, Lakshmipur & Noakhali. Dhaka: Dhaka, Faridpur, Gopalganj Madaripur, Manikganj, Munshiganj, Rajbari & Sariatpur. Khulna: Bagerhat, Khulna, Kushtia, Magura, Narail & Satkhira. Rajshahi: Chapai Nawabganj, Natore, Pabna & Rajshahi.	Calcareous Alluvium is similar in characteristics to the Non-calcareous Alluvium in addition, these are slightly to moderately calcareous due to presence of calcities derived mostly from the Gangetic sources. St. Martins Island has sands mixed with calcareous coral debris. These are saline in the coastal tidal areas.
03. Acid Sulphate soil	Chattogram: Cox's Bazar. Khulna: Bagerhat, Khulna & Satkhira.	Grey or dark grey clayey soils with yellow patches of jarosite developed in tidal deposit areas, once covered by mangrove vegetation, lying adjoining to Khulna Sundarbans in the Ganges tidal floodplain and the Chakaria Sundarbans in the coastal tidal floodplain of Cox's Bazar District. These become extreme acidic and toxic when dried/drained. These are also saline to variable degrees.
04. Peat	Barishal: Barishal & Pirojpur. Sylhet: Habiganj, Moulvibazar & Sylhet. Dhaka: Gopalganj, Madaripur & Netrokona. Khulna: Bagerhat, Jashore, Khulna & Narail.	Highly organic dark coloured soils developed under submerged conditions mainly in the Gopalganj-Khulna basin areas and locally in Hakaluki Haor and other smaller waterlogged beels and valleys. If it is drained and allowed to dry out peat shrinks irreversibly, and causes cracking and subsidence of the ground surface.

(Cont'd)

General Soil Types	Division/District of important occurrence	Characteristics
05. Non-calcareous Grey Floodplain Soils	Barishal: Barguna, Barishal, Jhalokathi, Patuakhali & Pirojpur. Chattogram: Brahmanbaria, Chandpur, Chattogram, Cumilla, Cox's Bazar, Feni, Khagrachhari, Lakshmipur, Noakhali. Sylhet: Habiganj, Moulvibazar, Sunamganj & Sylhet. Dhaka: Dhaka, Gazipur, Jamalpur, Kishoreganj, Manikganj, Munshiganj, Mymensingh, Narayanganj, Narsingdi, Netrakona, Sherpur & Tangail. Khulna: Bagerhat. Rajshahi: Bogura, Dinajpur, Gaibandha, Kurigram, Joypurhat, Lalmonirhat, Naogaon, Nilphamari, Panchagarh, Rangpur, Sirajganj & Thakurgaon	Prismatic and/or blocky structured predominantly grey sandy loams to silty clay loams on young floodplain ridges and silty clay loams to clays in basins, slightly acid to neutral. These become saline in dry season in the coastal tidal areas.
06. Calcareous Grey Floodplain Soils	Chattogram: Chandpur, Chattogram, Feni, Lakshmipur & Noakhali. Barishal: Barishal, Barguna, Bhola, Patuakhali & Pirojpur. Khulna: Bagerhat, Khulna, Narail & Satkhira.	Structured, grey silt loams to silty clays, calcareous from the surface or at shallow depths, developed from Ganges alluvium. These become saline in the dry season in the coastal tidal areas.
07. Grey Piedmont Soils	Chattogram: Brahmanbaria, Chattogram, Rangamati, Khagrachhari & Bandarban Hill districts, Cumilla, Cox's Bazar, Feni. Dhaka: Mymensingh, Netrakona & Sherpur. Sylhet: Habiganj, Moulvibazar, Sunamganj & Sylhet	Structured, grey sandy loams to clays, strongly acid, developed in piedmont outwash in the piedmont aprons and valleys in areas adjoining or within the north-eastern hilly region. These soils are often affected by flash floods from the hills and liable to burial by fresh sandy deposits.
08. Acid Basin Clays	Chattogram: Brahmanbaria & Cumilla, Dhaka: Dhaka, Gazipur, Jamalpur, Kishoreganj, Mymensingh, Narsingdi, Netrakona, Sherpur & Tangail. Rajshahi: Bogura, Chapai Nawabganj, Noagaon, Natore, Pabna, Rajshahi & Sirajganj. Sylhet: Habiganj, Moulvibazar, Sunamganj & Sylhet	Very strongly acid, grey to dark grey heavy plastic clays mainly occurring in the Sylhet haor and Chalan beel areas and in deep valleys of the Madhupur Tract. These are usually seasonally deeply flooded and have heavy consistence.
09. Non-calcareous Dark Grey Floodplain Soils	Barishal: Barishal, Patuakhali & Pirojpur, Chattogram: Brahmanbaria, Chandpur, Cumilla, Feni, Lakshmipur, Noakhali Dhaka: Dhaka, Faridpur, Gazipur, Gopalganj, Jamalpur, Kishoreganj, Madaripur, Manikganj, Munshiganj, Mymensingh, Narayanganj, Narsingdi, Netrakona, Sariatpur, Sherpur & Tangail. Khulna: Bagerhat, Chuadanga, Jashore, Jhenaidah, Khulna, Kushtia, Magura, Meherpur, Narail & Satkhira. Rajshahi : Bogura, Dinajpur, Gaibandha, Kurigram, Naogaon, Natore, Nilphamari, Pabna, Panchagarh, Rajshahi, Rangpur, Sirajganj & Thakurgaon. Sylhet: Habiganj, Moulvibazar, Sunamganj & Sylhet.	Structured dark grey loamy soils on old flood plain ridges and clay in basins. Slightly acid to somewhat alkaline in reaction. The basin clays have heavy consistence.

(Cont'd)

General Soil Types	Division/District of important occurrence	Characteristics
10. Calcareous Dark Grey Floodplain Soils	Dhaka: Dhaka, Faridpur, Gopalganj, Madaripur, Manikganj, Munshiganj, Rajbari & Sariatpur. Khulna: Bagerhat, Chuadanga, Jhenaidah, Khulna, Kushtia, Magura, Meherpur, Narail & Satkhira. Barishal: Barishal, Jhalokati & Pirojpur. Rajshahi: Chapai Nawabganj, Natore, Pabna, Rajshahi & Naogaon	Structured dark grey silty clay loams to heavy clays occurring in basins and on low ridges of the old Ganges river floodplain and locally in the Ganges tidal floodplain and old Meghna estuarine flood plain. Soils are calcareous within a depth of 1.2m below the surface. Clays are highly cracking when dry, drought prone and have heavy consistence. These become saline in the day season in the Tidal floodplain.
11. Calcareous Brown Floodplain Soils	Chattogram: Chandpur, Feni, Lakshimpur & Noakhali. Dhaka: Dhaka, Faridpur, Gopalganj, Madaripur, Manikganj, Munshiganj, Rajbari & Sariatpur. Khulna: Bagerhat, Chuadanga, Jhenaidah, Khulna, Kushtia, Magura, Meherpur, Narail & Satkhira. Rajshahi: Chapai Nawabganj, Natore, Pabna, Rajshahi & Noagaon	Calcareous, brown silt loams to light silty clays, occurring in the Ganges river floodplain and locally in the young and old Meghna estuarine flood plains. Locally these are leached of lime up to a depth of 1 m from the surface.
12. Non-calcareous Brown Floodplain Soils	Chattogram: Chattogram, Rangamati, Khagrachhari & Bandarban Hill districts Dhaka: Jamalpur, Narsingdi, Mymensingh, Netrakona & Sherpur, Khulna: Chuadanga, Jhenaidah, Jashore & Satkhira. Rajshahi: Bogura, Chapai Nawabganj, Dinajpur, Gaibandha, Kurigram, Lalmonirhat, Nilphamari, Panchagarh, Rangpur & Thakurgaon.	Non-calcareous brown sandy loams to clay loams occurring in the old Himalayan piedmont plain, Tista and old Brahmaputra floodplains and locally in the old Ganges river floodplain. Soils are slightly to strongly acid in reaction.
13. Brown Piedmont Soils	Chattogram: Bandarban, Chattogram, Cox's Bazar & Khagrachhari. Sylhet: Habiganj, Moulavibazar & Sylhet. Dhaka: Mymensingh, Netrakona & Sherpur.	Brown sandy loams to clay loams occurring in the higher sites of valleys and piedmont plains in and around the north-eastern hill areas. Soils are very strongly acidic.
14. Black Terai Soils	Rajshahi: Dinajpur, Panchagarh & Thakurgaon.	Very dark grey to black sandy loams to clay loams occupying low floodplain ridges and depressions mainly in the northern part of the old Himalayan piedmont plain. Top soils are strongly to very strongly acidic but the sub soils are slightly acidic in reaction.
<u>Hill Soils</u>		
15. Brown Hill Soils	Chattogram: Bandarban, Cumilla, Chattogram, Rangamati, Khagrachhari & Bandarban Hill districts, Cox's Bazar & Feni. Dhaka: Mymensingh, Netrakona & Sherpur. Sylhet: Habiganj, Moulavibazar, Sunamganj & Sylhet.	Brown sandy loams to clay loams, slightly to strongly acid, sometimes shallow over shaley/sandstone bedrocks on very steep high hills

(Cont'd)

General Soil Types	Division/District of important occurrence	Characteristics
<u>Terrace Soils</u>		
16. Shallow Red-Brown Terrace Soils	Dhaka: Dhaka, Gazipur, Jamalpur, Mymensingh & Tangail. Rajshahi: Naogaon.	Brown or red brown, usually strongly acid, structured, friable to firm clay loams to clays intergrading into a greyer, compact Madhupur clay substratum within a metre below the surface. These mainly occur on the narrow terraces of the Mahupur Tract and locally in the dissected Barind Tract.
17. Deep Red-Brown Terrace Soils	Chattogram: Brahmanbaria Dhaka: Dhaka, Gazipur, Jamalpur, Mymensingh, Narsingdi & Tangail. Rajshahi: Bogura, Dinajpur, Gaibandha & Rangpur.	Brown to red, slightly to strongly acid, finely structured, friable clay loams to clays, gradually intergrading into a mixed red, black and pale brown, friable, weathered Madhupur clay substratum to a deeper depth. These occur extensively on the edges of broad level terraces in the Madhupur Tract and locally in the north- eastern edge of the Barind Tract.
18. Brown Mottled Terrace Soils	Dhaka: Dhaka, Gazipur, Jamalpur, Mymensingh & Tangail. Rajshahi: Bogura, Dinajpur, Gaibandha, Joypurhat, Naogaon & Rangpur.	Brown mottled with specks of grey, pale brown and red, slightly acid, structured, friable clay loams to clays intergrading into a mixed red black and pale brown, rather friable and weathered Madhupur Clay substratum. These occur in the middle parts of the broadly dissected level terraces of the Madhupur Tract and locally on the edges of the Barind Tract.
19. Shallow Grey Terrace Soils	Dhaka: Dhaka, Gazipur, Jamalpur, Mymensingh & Tangail. Rajshahi: Bogura, Chapainawabganj, Dinajpur, Joypurhat, Naogaon, Rajshahi, Rangpur & Sirajganj.	Whitish grey slightly to strongly acid, friable, somewhat porous silt loams to silty clays intergrading into a weakly mottled grey, compact and little altered Madhupur clay substratum at a shallow depth. These occur extensively in the level Barind Tract and locally on the flat areas of the narrow terraces of the Madhupur Tract.
20. Deep Grey Terrace Soils (including Grey Valley Soils)	Dhaka: Dhaka, Gazipur, Jamalpur, Mymensingh & Tangail. Rajshahi: Bogura, Chapai Nawabganj, Dinajpur, Gaibandha, Joypurhat, Naogaon, Rajshahi & Rangpur.	Whitish grey, speckled with brown or red mottles, slightly to strongly acid, friable and highly porous silt loams to silty clay loams, usually grading into a strongly mottled red and grey, rather friable and permeable Madhupur clay at a deeper depth. These occur extensively in the western parts of Barind Tract and also, in smaller extent in the interiors of broad level terrace of the Madhupur Tract and in shallow valleys in both areas.

1.14 Devastating Nor'westers and Tornadoes

Date of Occurrence	Place of Occurrence	Area of Devastation (sq. km.)	Duration of Storm (Minutes)	Maximum Wind Speed (Km/hr.)	People Killed	Number of Injured	Loss of Property (Tk. in millions)
1	2	3	4	5	6	7	8
14/04/69	Demra	155.5-168.4	5-7	644	922	16511	40-45
17/08/73	Manikganj	20.7	8-10	322	100	1000	10
10/04/74	Faridpur	25.9-39.9	12-15	242	46	Innumerable	Several millions
11/04/74	Bogura	25.9-31.1	10-15	242	28	75	10
09/05/76	Narayanganj	2.59	1-2	242	1	42	Several millions
01/04/77	Faridpur	51.8	2-3	322	500	6000	12
26/04/89	Manikganj (Saturia)	150.2	Several minutes	388-419	526	Innumerable	Several millions
20/04/90	Sirajganj	77.7	40	193	29	2000	-
07/05/91	Gazipur	-	Several minutes	298	46	400	-
18/05/91	Gouranadi	207.2	Several minutes	251	17	400	-
08/05/95	Lowhajang	-	Several minutes	250	34	Several hundreds	-
13/05/96	Tangail	16 Unions of 6 Thanas	5-8	320-400	570	30,000	-
22/03/2013	Brahmanbaria	20 villages	Several minutes	170	31	500	-

The squally wind of a Nor'wster/Tornado exerts tremendous pressure upon structures of the houses and trees. This pressure can be calculated by using the formula, $P = 0.004v^2$ where pressure, P is in pound/ft² and velocity, v is in mile/hr.

1.31 Major Landslides Occurred in Bangladesh

Year	Location	Damage
1968	Kaptai-Chandraghona road	Loose soil washed down, the reservoir silted up and in its 30 years existence it had lost about 25% of its volume due to siltation
1970	Ghagra-Rangamati road	Similar damage like Kaptai-Chandraghona road
1990	Jhagar beel area of Rangamati district	Affected the link road embankment
1997	Charaipada of Bandarban	The total area of about 90,000-sq m was affected
1999	Lama thana, Aziz Nagar union, (Villages: Chittaputti, Monargiri, Meounda, Muslimpara, Sonaisari, Bazapara, Kalargiri, Maishkata, Aungratali, Chionipara, Kariungpara)- Bandarban	At least 50 houses were completely vanished under the solid earth and 300 houses were partly damaged. About 283.50 ha of cultivated land, 810 ha of household garden, and 50 km unmetalled road were crushed. Road communication between Bandarban headquarters and remote thanas became snapped.
1999	Gopaipur - Chattogram	Crushed two thatched houses at the foot of the hill claimed the lives of 10 people of the houses who were asleep.
2000	Chattogram University campus and other parts of Chattogram City	At least 13 people were killed and 20 injured and damaged property worth several lakhs of taka in those places.

1.33 Big Floods Occurred in Bangladesh

Year	Location	Damage
1781	Western part of sylhet district.	Loss of fodder, cattle suffered.
1786	Meghna	Wrought havoc to the crops and immense destruction of the villages on the banks. It was followed by a famine, great loss of life at bakerganj. At Tippera the embankment along the gumti gave way. At Sylhet the parganas were entirely under water, cattle drowned some were kept on bamboo rafts.
1794	Gumti	The Gumti embankment burst, much damage around Tippera.
1822	Bakerganj division and Patuakhali subdivision, Barishal, Bhola and manpura	39,940 people died; 19,000 cattle perished, properties worth more than 130 million taka were destroyed.
1825	Bakerganj and adjoining regions	No important embankments or other protective works against inundation.
1838	Rajshahi and a number of other districts	Heavy rainfall caused extensive inundation at Rajshahi, cattle suffered much from loss of fodder, people were greatly inconvenienced when driven to seek shelter on high places, water subsided, cholera broke out in an epidemic form.
1853	West of Sylhet district	Partly the result of very heavy local rainfall and partly caused by the overflow of the Meghna.
1864	The greater part of Rajshahi town	Serious inundation, embankment was breached, much suffering among the people who took shelter with their cattle on the embankment.
1865	Rajshahi district.	Extensive inundation, excessive rainfall seriously affected Rajshahi town.
1867	Bakerganj	Destructive flood, crop was partially destroyed, no general distress resulted.
1871	Rajshahi and a few other districts	Extensive inundation; damaged crops, cattle and valuable properties, Cholera broke out in an epidemic form.
1876	Barishal and Patuakhali	Meghna overflowed by about 6.71m, seriously damaged Galachipa and Bauphal, a total of about 215,000 people died, cholera broke out immediately after flood.
1879	Teesta	Change in the course of the Brahmaputra began.
1885	Satkhira subdivision of khulna district	Serious floods, embankment along the Bhagirathi burst of, affected areas of Satkhira subdivision of khulna district.
1890	Satkhira	Serious flood, Enormous damage to cattle and people.
1900	Bhagirathi, Satkhira	Embankment along the Bhagirathi burst of; affected Satkhira.
1902	Sylhet	Terrible flood, general level of the river went so high at Sylhet, damaged crops and valuable properties.
1904	Mymensingh.	Abnormally high tide, damaged crops in some parts of cox's bazar subdivision and kutubdia island.
1954	Dhaka	Dhaka district went under water. On August 1 flood peak of the jamuna river at Sirajganj was 14.22m and on August 30 flood peak of the Ganges river at hardinge bridge was 14.91m.

(Cont'd)

1.33 Big Floods Occurred in Bangladesh

Year	Location	Damage
1955	Dhaka	Flooded more than 30% of Dhaka district, flood level of the buriganga exceeded the highest level of 1954.
1962	-	Affected many people, damaged crops and valuable properties.
1966	Dhaka, Sylhet	Badly damaged about 25% of houses, 39 people died, loss of 10,000 cattle, affected about 1,200,000 people. On September 15-continuous rainfall made Dhaka city stagnant for 52 hours, resulted in pools of water 1.83m deep for about 12 hours.
1968	Sylhet district	Severe flood, badly affected about 700,000 people.
1969	Chattogram district	Serious flood caused by heavy rainfall, damaged crops and valuable property.
1974	Mymensingh	Flooded about 10,360 sq km area of Mymensingh, severely affected people and cattle, destroyed more than 100,000 houses.
1987	Western side of the Brahmaputra, the area below the confluence of the Ganges and the Brahmaputra, north of Khulna and areas adjacent to the Meghalaya hills.	Catastrophic flood, affected 57,300 sq km (about 40% of the total area of the country) and estimated to be a once in 30-70-year event.
1988	Dhaka	Catastrophic flood, inundated about 82,000 sq km (about 60% of the area) and estimated return period to be 50-100 years; Rainfall together with synchronisation of very high flows of all the three major rivers of the country in only three days aggravated the flood, flood lasted 15 to 20 days.
1989	Sylhet, Sirajganj and Maulvi bazar	Serious flood; trapped 600,000 people.
1993	Twenty-eight districts of Bangladesh	Thousands of hectares of crops went under water.
1998	Two-thirds of the total area of Bangladesh.	Worst flood in recorded history; a combination of heavy rainfall within and outside the country, synchronisation of peak flows of the major rivers and a very strong backwater effect coalesced into a mix; flooded over two-thirds of the total area of Bangladesh, lasted for more than two months, damaged a lot.
2000	Five south-western districts of Bangladesh bordering India	Serious flood, caused due to the outcome of the failure of small river dykes in West Bengal that were overtopped by excessive water collected through heavy downpour; 3 million people were homeless.
2004	Almost 50% of total area of the country were affected	30 million people were homeless and above 750 died. Numbers of bridges and culverts and kilometres of roads were destroyed.
2017	31 districts of the country were affected	6.1 million people were affected, 3 million were sheltered in camps. 2800km roads and 123 bridges and culverts were damaged.
2019	21 districts of the country were affected	5 million people were affected by the flood. More than 70 died, 287513 people were displaced. 6655 km roads were damaged and 1463 km of river embankments either fully or partially destroyed.
2020	One third of the country were affected. Inundation of 34000 square kilometres.	3.3 million people were affected directly. Over 90 people died. Another 56000 were displaced. 1900 schools were damaged.

1.34 Significant Droughts Occurred in Bangladesh

Year	Location	Damage
1791	Jashore district	Affected Jashore district, prices had risen to twice and three times of their usual levels.
1865	Dhaka.	Proceeded famine
1866	Bogura.	Severe drought; rice production was hit hard; price went up three times its normal level.
1872	Sundarbans	Deficient rainfall, crops suffered to a great extent.
1874	Bogura	Extremely low rainfall, much greater crop failure.
1951	Northwest Bangladesh	Severe drought, substantially reduced rice production.
1973	Northern Bangladesh.	One of the severest in the present century, responsible for the 1974 famine in northern Bangladesh.
1975	Bangladesh	Affected 47% of the entire country; suffered about 53% of the total population.
1978-79	Bangladesh	Severe drought; widespread damage to crops; reduced rice production by about 2 million tons; directly affected about 42% of the cultivated land and 44% of the population.
1981	Bangladesh	Severe drought, adversely affected crop production.
1982	Bangladesh	Caused a total loss of rice production amounting to about 53,000 tons
1989	Naogaon, Nawabganj, Nilphamari and Thakurgaon of North-west Bangladesh	Dried up most of the rivers in NW Bangladesh, dust syndrome occurred for a prolonged period due to drying up the topsoil.
1994-95	North-west Bangladesh.	Persistent drought; caused immense damage to crops like rice and jute.

2022-23	6363	8358	727	1188	19829	19467	39296

Notes: (a) Cultivable waste is the area suitable for cultivation but lying fallow for more than one year.

(b) Current fallow is the area already brought under cultivation, but not cultivated during the year.

(c) Total cropped area is the sum of the net cropped area and the area sown more than once.

Note: Others include As, SOP and Gypsum until 1987-88; from 1988-89 others include only SOP.

Urea=46 percent N, TSP=46 percent P₂O₅, DAP=18 percent N, and 46 percent P₂O₅, SSP=18 percent P₂O₅ and 12 percent s,

MOP=60 percent K₂O, gypsum=18 percent S, AS=21 percent N and 24 percent S, Zinc=18 percent S and 36 percent Zn.

From 1994-95 the required nutrient contents of SSP under the Fertilizer Control Order, 1995 has been changed and now stands at SSP=16 percent P₂O₅ and 10 percent S.

4.37 Sowing and Harvesting Period of Important Crops and Requirement of Seeds and Fertilizers

Crop	Sowing period	Harvesting period	Seeds per acre	Chemical fertilizer per acre
Cereals:				
1. Aus Paddy	Mid March-Mid April	Mid July-August	28-37 Kg. in case of broadcasting: 14-19 kg in case of live sowing	Urea-1 Md. 5 Srs. TSP-1 " 5 " MP 17 Srs.
2. Broadcast Aman Paddy	Mid March-Mid April	Mid Nov-Mid Dec.	33-37 kg.	Urea-33 Srs. TSP-33 " MP-16 "
3. Transplanted Aman	Late June-Sept.	December-January MP- 17 Srs.	9-11 kg.	Urea-1 Md. 5 Srs. TSP-1 " 5 "
4. Local Boro Paddy	Mid Nov.-Mid Jan.	April-May	8-11 kg.	Urea-1 Md. 5 " TSP-1 " 5 " MP-17 Srs.
5. High Yielding Boro Paddy	December-Mid Feb.	Mid April-June	8-11 kg.	Urea-2 Mds. 25 " TSP-2 " " MP-1 " 10 Srs.
6. Wheat	Nov.-December	March-Mid April	28-33 kg. without irrigation	Urea-1 " TSP 20 " MP 15 "
Fibers:				
7. White Jute	Early March to Mid April	July-August	4-5 kg.	Urea-1 Md. 5 Srs. TSP 11 " MP 16 "
8. Tossa Jute	Mid April to early May	August-September	4-5 kg.	do.
9. Mesta Jute	April-May	October-Nov.	do.	do
Pulses:				
10. Masur	Mid Oct. to Mid Nov.	Begining Feb. to early March	11-14 kg.	Urea 30 " TSP-1 Md. 15 " MP 20 "
11. Khesari	Mid Oct. to Mid Dec.	Mid Feb. to Mid April	9-11 kg.	Urea 30 " TSP-1 Mds. 20 " MP
12. Bhadoi chillies	Mid April to Mid July	3-4 months after sowing	1 kg. in case of seeds	
13. Rabi chillies	Mid Nov. to Mid January	3-4 months after sowing	Seeding raised from approximately 100 grams groom seeds	
14. Onion	Beginning Oct. to early Dec.	Late April to Mid June	2-3 kg in case of seeds (2-3 Gl. in case of bulb)	
15. Turmeric	Mid April to Mid June	Mid Dec. to Mid March	8-11 kg.	
16. Ginger	Mid May	Mid March to Mid March	8-11 kg.	
17. Corriander	Oct.-Dec.	Mid Feb to Mid March	6-8 kg.	
Others:				
18. Potato	Mid Sept. to Nov.	Mid January to March	4-6 Ql. tuber	Urea-3 Mds. TSP-2 " MP-3 "
19. Sugarcane	Early Mid Oct. to Mid December	Mid Oct. to Mid April	19 Ql. cuttings.	Urea-3 " TSP- 3 " MP -2 "
20. Tobacco	Mid Oct to Mid Dec.	Mid Feb. to Mid April	23-35 grams	Urea 36 Srs. TSP 22 " MP 35 "

4.38 Sowing and Harvesting Period of Selected Vegetable and Requirement of Seeds and Fertilizers

Vegetable	Sowing period	Harvesting period	Seeds per acre	Chemical fertilizer per acre
Brinjal	October to Mid Nov.	Late November to Mid April	a) Seeds: 75 grams b) Seedlings 6-8 thousand	Urea-1 maund TSP-2 maund MP 20 seers
Cauliflower	Late Oct. to Mid Nov.	Early January to early March	a) Seeds: 105-117 grams b) Seedling 8-10 thousand	Urea-1 maund TSP-1 maund 20 srs. MP 20 seers
Cabbage	Late Oct. to Mid Nov.	Early January to early March	a) Seed: 105-117 gram b) Seedlings 6-8 thousand	Urea-2 maunds TSP 20 seers MP 20 seers
Watergourd	Mid July to early Nov.	Early January to early March	250 grams.	Urea-1 maund TSP-1 maund MP 20 seers
Pumpkin	March-May July-August	June-Sept. Nov.-January	3-4 chattak	Do.
Tomato	Mid August to Late Nov.	Beginning Dec. to mid January	a) Seeds: 50-70 grams b) Seedling 6-8 thousand	Urea-1 maund 20 srs. TSP-2 maunds MP 20 seers
Radish	Mid August to early October	Early January to mid February	3-4 kgs.	Urea-1 maund TSP 20 seers MP 20 seers
Spinach (Puisak)	Mid March to early June	Late August to mid November	200 grams.	Urea-1 maund 20 srs TSP 20 seers MP 20 seers
Beans	Late June to early Sept.	Late Nov. to mid April	800 kgs.	TSP-1.5 seers MP - 1.5 seers
Patal	Mid August to mid October	Mid January to March	1-2 thousand cuttings	Urea -1 maund TSP-1 maund MP 20 seers
Lady's finger	Mid April to mid June	June to mid September	2-3 kgs.	Urea-1 maund TSP-1 maund MP 20 seers
Cucumber	Mid Sept. to mid Oct.	Mid January to mid June	150 grams	Urea,TSP,MP, 1 seer each.
Karala (Bittergourd)	Feb.-May	June-October	12 chattak to 1 seer	Urea-1 maund TSP - 1 maund MP 20 seers.

4.39 Flowering and Harvesting Periods of Main Fruits

Fruits	Approximate Flowering period	Approximate Harvesting period
Mango	Feb.-Mar.	May-Aug.
Pineapple	Feb.-Mar.	May-Jul.
Litchi	Feb.-Mar.	May-Jun.
Lemon	Feb.-Mar.	Aug.-Oct.
Pomelo	Feb.-Mar.	Oct.-Dec.
Lime	Feb.-Mar.	Jun.-Aug.
Orange	Feb.-Mar.	Nov.-Dec.
Jackfruit	Feb.-Mar.	May-Jul.
Guava	Mar.-May Nov.-Dec.	Jul.-Sep. (main crop) Feb.-Mar. (2nd crop)
Banana	Throughout the year	Peak period Dec.-Feb, Sep.-Oct.
Papaya	Throughout the year	Peak period Feb.-Apr.
Melon	Feb.-Mar.	Apr.-May

4.51 Sector-wise Annual Fish Production of Inland and Marine Fisheries 2023-24

Sector of Fisheries	Water Area (Hectare)	Production (Metric Ton)	% of Production	Productivity
A. Inland Fisheries				
(i) Inland Open Water (Capture)				
River and Estuary	853863	400701	7.98	469 kg/ha
Sundarbans	177700	28888	0.58	163 kg/ha
Beel	114161	110817	2.21	971 kg/ha
Kaptai Lake	68800	19253	0.38	280 kg/ha
Floodplain	2646757	852137	16.98	322 kg/ha
Capture Total	3861281	1411796	28.13	
(ii) Inland Closed Water (Culture)				
Pond	424168	2368741	47.20	5584 kg/ha
Seasonal Cultured Waterbody	148537	246686	4.92	1661 kg/ha
Baor	6218	12893	0.26	2073 kg/ha
Shrimp/Prawn Farm	262217	315387	6.28	1203 kg/ha
- Crab*	16672	10782	0.21	647 kg/ha
Pen Culture	9882	18123	0.36	1834 kg/ha
Cage Culture **	1.93 lakh cum	5452	0.11	28 kg/cum
Culture Total	867694	2978064	59.34	
B. Marine Fisheries				
Industrial (Trawling)		114804	2.29	
Artisanal		513819	10.24	
Marine Fisheries Total		628623	12.53	
COUNTRY TOTAL		5018483	100	

Note: 1. Catch of River, Beel and Baor is estimated by catch assessment survey on the basis of Frame Survey and water area from SPARRSO (Space Research and Remote Sensing Organization) Report, 1983.

2. Catch data of Sundarbans are supplied by Forest Department and water area of Sundarbans is estimated on the basis of Integrated Resource Development of Sundarbans Reserved forest, 1994.

3. Catch data of Kaptai Lake are supplied by Bangladesh Fisheries Development Corporation (BFDC).

4. Seasonal cultured water body means Paddy field, Floodplain, Boropit etc. which are under in fish culture.

5. Catch data of Marine Fisheries are supplied by Marine Wing, Department of Fisheries.

* Crab production had included from 2015-16.

** Volume of cage is 1,76,213 cubic meter assuming one-meter average depth of the cages over 17.62 ha water area. This area is included with River and Estuary area

ENERGY

6.01 Indicators of the Energy Sector 2017-18 to 2023-24

Items	2017-18	2018-19	2019-20	2020-21	2021-22	2022-23	2023-24
A. Electricity							
Total Generation Capacity (MW)	15410	18438	20383	22031	22482	24911	28098
Maximum Generation (MW)	10958	12893	12738	13792	14782	15648	16477
Energy Generation (MKWH)	62678	70533	71419	80423	85607	88450	95996
Energy Consumption (MKWH)	55103	62037	63364	71470	76667	79270	86255
Transmission lines in (KM)	11123	11650	12283	12836	13889	14717	15624
Distribution lines in (KM) (33KV&below)	456924	532590	577479	612310	628562	643167	648725
Electrifications of BPDB (No.):							
a. Thana	175	195	201	204	214	216	217
b. Village	4023	4646	5651	6470	7029	7476	7500
c. Deep/shallow & low lift pumps	28020	35332	33982	37371	36839	39022	40084
B. Gas							
Production (Billion Cubic Feet)	968.68	961.7	882.6	889.0	839.9	799.7	744.2
Consumption (Billion Cubic Feet)	982.0	1041.8	994.4	1017.50	1001.3	932.4	916.4
Connection (Number)	1866	14121	11035	62.00	1496	1183	4395
Power (BCF)	398.6	450.9	455.9	425.8	402.0	389.4	392.5
Fertilizer (BCF)	43.0	57.7	54.6	64.7	60.4	50.01	50.4
Industrial (BCF)	166.6	164.5	155.7	181.7	191.0	178.8	168.2
Commercial (BCF)	8.2	7.9	6.7	6.0	6.0	5.8	5.2
Tea garden (BCF)	0.9	1.0	1.1	0.9	1.1	1.1	1.2
Brick field (BCF)	0.0	0.0	0.0	0.0	0.0	0.0	0.0
Domestic (BCF)	158.0	158.9	132.7	134.2	127.8	100.6	100.2
Captive power (BCF)	160.5	157.5	151.6	169.1	175.7	164.3	153.6
C.N.G(BCF)	46.2	43.4	36.1	35.1	37.3	42.3	45.1
C. Petroleum ('000' MT)							
Imports:							
(i) Crude Oil	1174	1362	1152	15060.09	1466.18	1550.76	1307.678
(ii) Refined oil	5542	4600	4041	4222.65	5141.72	5316.51	4840.755
(iii) Lube base oil	0	0	0	0	0	0	0
Total	6716	5962	5193	5728.74	6607.90	6867.27	6148.433

Note: MKWH=million kilowatt hours. BFC=Billion Cubic fit (gas Volume). (-) indicate Data is not available.

Notes: The following organizations are included: The number of corporation and autonomous bodies were 33 in table No. 9.30 for the year 1991-92 (B.E). Now the number of those bodies increased to 39. As a result, the figures in the said table would differ from the previous one.

1. Bangladesh Textile Mills Corporation	19. Bangladesh Biman
2. Bangladesh Steel & Engineering Corporation	20. Bangladesh Agricultural Dev. Corporation
3. Bangladesh Sugar & Food Ind. Corporation	21. Bangladesh Water Dev. Board
4. Bangladesh Chemical Ind. Corporation	22. Bangladesh Film Dev. Board
5. Bangladesh Small & Cottage Ind. Corporation	23. Bangladesh Inland Water T/Authority
6. Bangladesh Forest Ind. Corporation	24. Chattogram Port Authority
7. Bangladesh Freedom fighter W/T.	25. Port of Mongla Authority
8. Bangladesh Mineral Exploration & Dev. Corporation	26. Chattogram WASA
9. Bangladesh Jute Mills Corporation	27. Dhaka WASA
10. Bangladesh Trading Corporation of Bangladesh	28. Chattogram Dev. Authority
11. Bangladesh Consumer Supplies Company Ltd.	29. DIT
12. Bangladesh Fisheries Dev. Corporation	30. Rajshahi Town Dev. Authority
13. Bangladesh Parjatan Corporation	31. Khulna Dev. Authority
14. Bangladesh Petroleum Corporation	32. Bangladesh Power Dev. Board
15. Bangladesh Shipping Corporation	33. Rural Electrification Board
16. BIWTC	34. Bangladesh Tea Board
17. BRTC (Bus Div.)	35. Bangladesh Earning Board
18. BRTC (Truck Div.)	36. Bangladesh Export Processing Zone Authority
	37. Bangladesh Silk Board.
	38. DESA.

CHAPTER 15

NOTES ON DATA AND THEIR SOURCES AND OTHERS

Chapter 1

General Features and Environment

The main objectives of this chapter are to provide a broad idea of the historical emergence of the nation as well as the location, physiography, climatic conditions, and major socio-economic features of the country.

Data on the characteristics of general soil types among divisions and district-wise distribution of agricultural lands by types, have been collected from Soil Resources Development Institute. Data on forest area by regions are from the administrative records at the office of the Chief Conservator of Forests, govt. of the People's Republic of Bangladesh.

Hydrological data like - river system in Bangladesh, main rivers according to length, area of major standing water bodies, the flow of major rivers, water level of major rivers, static water, and in-stream storage potential, tidal variation and highest salinity, etc. are presented in this chapter are collected from administrative records of SRDI, WAPDA, MPO, SPARRSO& BWDB.

Data on the loss of human lives and properties in recent major cyclones and tidal surges are compiled from the administrative records of the Bangladesh Meteorological Department which have been presented in this chapter.

Data on annual rainfall, monthly temperature, humidity, rainfall, maximum and minimum temperature are presented here from the records of the Bangladesh Meteorological Department.

Chapter 2

Area, Population, Household and Housing Characteristics District

In this chapter, attempts to provide information on administrative units in Bangladesh like households, and population by district, upazila, and municipality, intercensal growth of population, age-sex distribution, marital status of the population, population by religion, youth population, tribal population, birth and death rates, mortality, life expectancy and population of major cities. Information on households regarding the source of drinking water, toilet facilities, and electricity connections has also been provided in this chapter.

Sources of data

The main data sources are Population and Housing Census, those are reported in the year of 1961, 1974, 1981, 1991, 2001, 2011& 2022 and reports of the Sample Vital Registration System (SVRS) of BBS.

The Sample Vital Registration System (SVRS) was introduced by the Bangladesh Bureau of Statistics (BBS) in 1980 to determine the annual socio-demographic changes in population during the intercensal period. Initially, 103 Primary Sampling Units (PSUs) were selected, and each PSU consisted of about 250 continuous households. Out of 103 PSUs, 62 PSUs were from rural areas and 41 PSUs were from urban areas. With this sample size, it was possible to produce estimates at the national level with an urban-rural break-up. Based on the technical committee's recommendation and to meet the data needs of the planners, policymakers, and other users, the sample PSUs were increased to 210 PSUs in 1983, consisting of 150 from rural and 60 from urban areas. This could provide estimates at the division levels with an urban-rural break-up in 1991. To meet the users' demand for district estimates, the number of PSUs was again increased to 500 in 1995. With the availability of a sampling frame from the Population and Housing Census 2001, the sample design was recast. An Integrated Multipurpose Sample Design (IMPS) was introduced effective from July 2002, and the number of PSUs increased to 1000 to provide the estimates of vital events at the district level. The number of PSUs was increased from 1000 to 1500 under the IMPS design based on the Population Census 2011. Data collection from 1500 PSUs was started in July 2013, till 2014. From 2015 to December 2023, the upgraded number of PSUs was 2012. After the 6th Population and Housing Census 2022, the IMPS has been designed. Since January 2024, SVRS data have been collected from 2,766 PSUs.

Transition in Data Collection Method

From 1980 to 2021, SVRS followed the Chandra Sekar-Deming dual recording method, which was manual and paper-based. Until December 2021, the data for this surveillance were collected manually using a paper-and-pencil-based interview. However, in a paradigm shift towards modernisation, 2022 marked the transition to a single recording system (System-II), combined with a validation survey for better accuracy. Since January 2022, annual schedules have been collected using the Computer Assisted Personal Interviewing (CAPI) method. Since then, the data collection program has been introduced following the Single Recording System.

SVRS operates through a five-tier coordinated monitoring system to ensure data integrity and effective supervision through 2,766 local female registrars (LRs) at PSU Level; 610 supervisors at Upazila Level; 64 supervising officers at District Level; 8 divisional coordinators at Division Level; and 20 officials overseeing the system at Headquarters Level from SVRS Team. To ensure high-quality data collection and field supervision, SVRS uses both online and offline monitoring systems, which are managed centrally from the SVRS Monitoring and Control Room. Quality control measures include Geo-fencing for defined survey boundaries, audio recordings of interviews following consent taking for rechecking, photographs of households and selfies of LRs and GPS tracking with timestamps to verify visit times. Right now, the SVRS questionnaire has 11 modules. Those are- Household, Individual, In-migration, Out-migration, Marriage, Divorce, Birth, Death, Pregnancy Register, Contraceptive and Disability Module.

Sample Selection

The IMPS has been developed based on the Population and Housing Census 2022 frame for the collection of data in the SVRS. A single-stage stratified cluster sampling methodology was adopted for the selection of the SVRS sample EAs. Administrative districts of the country are regarded as the domain of the study. These domains were divided into two residential categories, viz., rural and urban. A total of 809 urban EAs and 1957 rural EAs are selected from the entire sample area comprising 2766 PSUs. The average size of the PSUs is 130 households.

Definitions on Fertility and Mortality

FERTILITY

Sex-Ratio

The ratio of males to females in a given population is usually expressed as the number of males per 100 females.

Child-Women Ratio (CWR)

The number of children under 5 years of age per 1,000 women of childbearing age (between ages 15 to 49) in a given year. It is a rough fertility indicator based on census data. It is sometimes used when no adequate data on births are available.

Crude Birth Rate (CBR)

The number of live births per 1000 mid-year population in a given year.

Age-Specific Fertility Rate (ASFR)

Number of live births to women in a given age group per 1,000 women in the same age group in a given year. It is usually calculated for 5-year age groups from 10-14 to 45-49 or 15-19 to 45-49.

Total Fertility Rate (TFR)

The average number of children that would be born alive to a woman (or group of women) during her reproductive period if she were to live through all her childbearing years (15-49 years) and bear children according to the age-specific fertility rates of a given year.

Gross Reproduction Rate (GRR)

The average number of daughters that would be born alive to a woman (or a group of women) during her lifetime if she passed through her child-bearing years conforming to the age-specific fertility rates of a given year.

Net Reproduction Rate (NRR)

The average number of daughters that would be born to a woman if she passed through her lifetime from birth, conforming to the age-specific fertility and mortality rates of a given year. This rate is similar to the Gross Reproduction Rate and takes into account that some women will die before completing their childbearing years. NRR 1.00 means each generation of mothers is having exactly enough daughters to replace itself in the population.

MORTALITY

Crude Death Rate (CDR)

The number of deaths per 1000 mid-year population in a given year.

Child Death Rate (ChDR)

The child death rate is defined as the number of deaths among children aged 1-4 per 1000 mid-year population in the same group.

Infant Mortality Rate (IMR)

The number of deaths of infants under one year of age per 1000 live births in a given year.

Life Expectancy at Birth

The average number of additional years a person would live at birth if current mortality trends were to continue.

NATURAL GROWTH RATE (NGR)

The natural growth rate is the difference between the Crude Birth Rate (CBR) and the Crude Death Rate (CDR) expressed as a percentage.

Chapter 3 Labour Forces

In 2024, the total labour force reached 71.73 million marking a decrease of 1.74 million compared to the Labour Force Survey 2023. This workforce included 69.11 million employed population and 2.62 million unemployed population based on the 13th ICLS methodology. Of those employed, 46.23 million were male and 22.88 million were female.

The unemployment rate among population aged 15 and above rose to 3.65% in 2024, up from 3.35% in 2023. Male labour force participation rate stood at 79.96% while female participation rate was recorded at 38.41%. In terms of broad economic sectors, employment was highest in agriculture, engaging 30.87 million employed population (46%), followed by the service sector with 26.23 million (37%) and the industry sector employing 12.01 million (17%).

Chapter 4 Agriculture: Crops, Livestock, Forestry and Fishery

This chapter concerns with data on agriculture. Broad agriculture sector comprises of agriculture, forestry and fishing. Agriculture, forestry and fishing sector is divided into 4 sub-sectors: i) Crops and Horticulture, ii) Animal Farming, iii) Forest and Related Services, iv) Fishing. The value-added originating in each branch of the activities is equivalent to the value of gross output minus the value of current inputs used for producing that output. For example, in crop sub-sector the value of gross output is obtained by multiplying the quantity of the output of each crop by homestead prices. The value of inputs such as seed, fertilizer, pesticides etc. is also worked out by the same method (i.e. the quantity used times their respective purchase cost/price) and subtracted from the value of gross output of crops to end up with value added which is equivalent to the sum of compensation of employees and gross operating surplus originating in agricultural crops sub-sector. The value added defined as such, is also estimated for other sub-sectors like, animal

farming, forest and related services and also for fishing sector.

Gross value added at current and constant prices is shown in table no. 4.02 and 4.03. Gross value added from Agriculture at constant prices is shown in table 4.10 to 4.13.

Chapter 5 Industry

This chapter focuses on the present position and trend of industry sector in Bangladesh. It includes the Index of Industrial Production (IIP) and Producer Price Index (PPI) and presents the statistical series data of the industry. The index of industrial production comprises of three sub-sectors of industry namely (i) manufacturing, (ii) mining and quarrying and (iii) electricity. Quantities underlying these series are important indicators to indicate the growth of industrial sector of the country. The base year of both indices is 2015-16.

The index of industrial production has been compiled by three categories considering the Total Person Engaged (TPE) in the establishment for the revision, review and rebase of the base year 2015-16.

1. IIP- Large scale (TPE: 250 and above)
2. IIP- Small, Medium and Micro (SMMI) scale (TPE: 10-249)
3. IIP- Cottage scale (TPE: 1-9)

The weight for IIP-Large scale and IIP-SMMI is derived from the Gross Value Added (GVA) using updated Survey of Manufacturing Industries (SMI) 2019 and the weight for IIP-Cottage is derived from the Gross Value-Added using Cottage Industry Survey 2011 at 4-digit class level. Each class of industry has a weight equal to its relative contribution to the total gross value added of production.

IIP is a weighted average of the relative changes in the quantities of a specified set of goods and services over time. PPI is also a weighted average of the relative changes in the prices of a specified set of goods and services over time. The weights of fixed base period are used for the indices and the Laspeyre's formula has been used for the compilation of IIP.

All sub-sectors (manufacturing, mining & quarrying and electricity) included in the Index of Industrial Production has been shown in the table no. 5.01. The table no. 5.02, 5.03, 5.04 show the Index on Large Scale, Index on SMME Scale, Index on Cottage Industries subsequently at 4-digit class level following ISIC Rev. 4. The table no. 5.05 shows Price Index on domestically produced industrial goods at 4-digit class level.

Chapter 6

Energy

This chapter presents an integrated database on energy statistics in the country against the financial year. The data in the publication is sourced from different concerned Ministries/Department of the government. Energy data are collected from the source agencies as like Bangladesh Power Development Board (BPDB), Bangladesh Petroleum Corporation (BPC), National Board of Revenue (NBR), Bangladesh Rural Electrification Board (BREB), Bangladesh Oil, Gas and Mineral Corporation (Petrobangla) annually and national figures are compiled.

Energy data covers all the energy commodity by type of fuels and energy sources. Data are provided in original units for the different types of coal, crude oil, natural gas, Petroleum products, coal and electricity. Energy Statistics broadly covers a multipurpose body of data such as extraction, reserve and potential for generation, production, installed capacity and capacity utilization, storage, foreign trade and values of energy products, transmission, consumption and energy balance etc.

Chapter 7

Transport and Communication

Transport and communication chapter cover: (i) Railway transport; (ii) Road transport (mechanized/non-mechanized vehicles); (iii) Water transport (mechanized/non-mechanized); (iv) Air transport; (v) Communication Telephone services, Postal services, Radio and Television services) and (vi) Tourism.

Data of this sector are usually collected from secondary sources. The following type is collected by mail and/or personal contact from the concerned organizations:

Railway Transport

Bangladesh Railway compiles data on the operation of the railway's route kilometer, stations, and rolling stock by gauge, passenger and cargo carried, revenue earnings, operational expenses, and other aspects of railway traffic and publish in their information book. The statistics on railway transport are mainly collected from Bangladesh Railway for this book.

Road Transport

Statistics is gathered from a variety of sources scattered over the wide range of the economy and as such quality of data is affected to the extent by the multiple objectives underlying the collection and compilation of data by the sources concerned. However, the same for the organized sector, defined to be registered and/or maintained in the form of records either administrative or statistical, are of good quality and fairly reliable. The organizations in the organized sector and the statistics collected from them are shown below.

Bangladesh Road Transport Corporation: operation of bus, coach, and truck plying on road. Roads and Highways Department: road mileage by type of road, the progress of road construction, and expenditure incurred on maintenance of roads, culverts and targets achieved. Bangladesh Road Transport Authority, Ministry of Communication, Railway Division, Roads and Road Transport Division: number of vehicles (on-road) registered by type of vehicles, the motor car, bus, truck, taxi, jeep, station wagon, auto-rickshaw, motorcycle, etc. classified by region, seating capacity, and kind of fuel used.

Water Transport

Statistics of this sector are also to be characterized by similar nature, sources, and methodology of amassing the basic data. Here again, the quality of data is a little undermined when these from traditional sources are to be monitored. But those from the organized sector are fairly dependable. The sources and the statistics collected from them are shown below:

— Chattogram and Mongla Port Authorities: vessels handled and their turn round at ports, cargo handled by major commodity groups, number of national and international seaborne ships entered into and cleared from the ports.

— Bangladesh Inland Water Transport Authority (BIWTA): type and category of vessels, tonnage and passenger capacity and navigable waterways etc.

Bangladesh Inland Water Transport Corporation (BIWTC): number of vessels by type, passenger and cargo carried, and the ferry services under its control and supervision.

Bangladesh Shipping Corporation (BSC): number of vessels with carrying capacity, number of voyages, passengers and cargo carried, net profit earned, assets and liabilities, working capital, etc.

Air transport

Statistics of this sector though small in size but good in quality are well maintained by Biman Bangladesh Airlines, the national carrier of the country. The statistics collected from this source are the performance of Biman, number of airplanes by type, number of flights operated on National routes and passengers and cargo carried.

Civil Aviation Authority of Bangladesh (CAAB): aircraft, passenger and freight/mails movement by airports etc.

Communication

The type of statistics collected in this highly organized public sector is shown below:

— Bangladesh Post Office Department: number of post offices in the country by division, number of letters, money orders booked through post offices, and postal rates (air mail) from Bangladesh to selected countries. It also provides data on some radio sets licensed.

— Bangladesh Telecommunications Company limited: number of telephone sets in the country by division and also several telegraph offices by region.

— Bangladesh Television: number of television sets licensed by type and by region.

Tourism

Statistics of this sector are narrowly defined to include only international tourist movements. Bangladesh Parjatan Corporation is the concerned organization that provides data on the arrival of tourists by nationality and foreign exchange earnings thereof etc.

Road Accidents

Statistics of this nature are the indicators of efficiency of public administration and are regularly compiled in Police Directorate. The Police Directorate is responsible for the collection and compilation of several road accidents by region and by important cities. These data concern the number of accidents and the number of persons injured and killed in such accidents.

Fare and Freight Index

The index has been developed based on the fare and freights of Bangladesh Railways, Bangladesh Road Transport Corporation (BRTC), Bangladesh Inland Water Transport Authority (BIWTA) and Biman Bangladesh Airlines. The Laspeyre's formula has been used for computing the index with 1995-96 as the weighted base year.

Chapter 8 Foreign Trade Statistics

1.1 Introduction

Collection, compilation and dissemination of Foreign Trade Statistics (FTS) on both exports and imports are considered as one of the major activities of BBS. BBS brings out this annual publication regularly since 1973-74. The specific objective of FTS is to ensure timely availability of foreign trade data for policy-makers, planners, researchers and other users. This publication contains data on exports and imports with unit, value, quantity and country of origin by commodity following the harmonized commodity description and coding system (HS code) at 2 to 8 digits level.

Publishing micro level data on foreign trade is considered as one of the salient features of the report to its users. To maximize the utilization of the publication, time series data together with comparative statistics have also been presented and discussed. To have an overall view at a glance about foreign trade trend, summary and key findings have been added at the beginning of the report.

1.2 Data Collection Process

At present, BBS collects foreign trade data only from secondary sources. All data are originated from the various customs stations such as sea, land and air ports have been collected from the National Board of Revenue (NBR). NBR collects data from all customs stations that are the primary sources of foreign trade data. BBS collects online data from NBR which contain data in tabular form covering different fields of FT. BBS uses some data as per its requirements from these diversified fields.

In the past, BBS collected 'bills of entry' for imports and 'shipping bills' for exports entries for sea born data. For customs clearance, the importers had to submit bill of entry and exporters shipping bills to the customs houses located at the sea port of Chittagong and Mongla for every consignment imported into or intended of export from Bangladesh. BBS personnel

posted at Chittagong and Mongla Customs Houses were responsible for collecting and sending these bills to BBS. The BBS staffs posted at the mentioned two customs houses used to collect the documents regularly and carried them to Dhaka twice or thrice a month. At present, BBS only collects online data from NBR.

Accordingly, the land-born foreign trade data were compiled from the monthly returns received from the land customs stations across the country.

Air-borne data were collected from the air-borne trade returns. These are the bill of entries for imports and customs statements for exports that are received from the air freight unit in Dhaka. But at present, both land-born and air-born foreign trade data have been collected online from NBR.

1.3 Scope and Coverage

Except military hardware, bullion, currency notes, coins and goods in transit, FTS includes all other commodities which pass through the boundary of customs territory. In case of imports, all goods and commodities entering into the country and for exports, all goods and commodities leaving the country are incorporated in FTS.

FTS also covers data of the commodities imported to and exported from the country recorded at Export Processing Zones (EPZ). The entire data on exports and imports recorded at various routes such as sea, air, land and postal parcels are taken into account for further processing.

1.4 Classification of Commodities

On the basis of 'harmonized commodity description and coding system (HS code)' based on the Standard International Trade Classification (SITC) Rev-3, FTS of Bangladesh are compiled and classified. These classifications are arranged in 98 chapters under 21 sections which cover all commodities of international trade. They include under broad headings of commodities at 4-digit level and detailed description of 8-digit level. BBS has prepared the HS code at 2 to 8-digit level to cover all commodities under foreign trade. Imports are recorded by country of consignment and exports by country of the last known destination. BBS enlists the quantities and values collected online from NBR against HS code and commodities imported and exported. BBS does not change the value of the commodity supplied by NBR. But, in case of quantity, BBS checks and rechecks them in order to find out any inconsistencies between value and quantity. If any anomaly is found, BBS examines it and fixes a reasonable figure of quantity based on observations of last few years'

figures of the same commodity. Bangladesh Bureau of Statistics follows Brussels Definition of Value (BDV) for the purpose of valuation. The BDV of goods was introduced in December 1950 under the Principles of the General Agreement on Tariffs and Trade (GATT). The objective was to provide a comparable system of valuation. It has been accepted by almost all countries of the world. Under the BDV, the dutiable value of goods imported for home consumption is calculated at normal price i.e., the price which they could fetch at the time when duty becomes payable on a sale in the open market. In practice, valuation of goods is rather tricky and depends on expediency of revenue collection. Currently, tariff values or the international prices are perceived by the customs authority from floor level for the purpose of determining customs and related duties. BBS records import value on cost, insurance and freight (CIF) basis and export value on free on board (FOB) basis.

1.5 Data Processing, Tabulation and Publication

Foreign Trade Section head of National Accounting Wing collects online data from NBR on a monthly basis. Then that online data is sent to the officers of Foreign Trade Section National Accounting Wing, BBS for rearranging, processing, tabulating etc. After completion of related works, the personnel of Foreign trade Section do the correction, compilation and editing. Though most of the tabulations are made according to HS Coding, some selected tabulations are done on the basis of category of goods by different exporting or importing accounts.

Selected monthly tables are published in the Monthly Statistical Bulletin and other monthly and annual publications of BBS. FTS are published on fiscal year basis, from July 1 to June 30.

1.6 Systems of Trade

There are two systems of computing trade statistics: (i) the special trade system and (ii) the general trade system. Special trade system is based on the concept of "clearance through the customs frontiers" which is, in fact, the statistical boundary. Any commodity that is not cleared by the customs is excluded from such statistics. The general system of trade considers the national boundary as the statistical frontier. It means that all goods and commodities except military goods, bullion, currency notes, coins and goods in transit, entering or leaving the country are recorded in trade statistics.

Earlier Bangladesh followed the special trade system. For better coverage, Bangladesh is now applying the general trade system. The main characteristics of the general trade system are summarized below:

General System of Trade

Imports

- i) Imports “entering directly” for home consumption or use.
- ii) Imports into customs bonded manufacturing plants.
- iii) Imports into customs bonded warehouses and free area.

Exports

- i) Exports of national production.
- ii) Exports from customs bonded manufacturing plants.
- iii) Nationalized exports.
- iv) Exports from customs bonded warehouses and free area.

Re-export is included after clearance from customs and falls under category (iii) and (iv) mentioned above.

1.7 Computation of Trade Indices

Indices of imports and exports are designed to measure the overall position and direction of movements of values, prices, and quantum of commodities bought and sold in international markets. The construction of indices is based on published data. One type of index i.e. unit price index is computed by taking 2002-2003 as the base year.

Unit Price Index (UPI): It represents the overall direction of price movements of commodities bought and sold in international markets. Prices are based on FOB values of exports and CIF values of imports.

The main reasons for selection of 2002-03 as base year are:

- i) It was considered as a normal year for business/trade activities.
- ii) In 2002-03 BBS, harmonized commodity description and coding system (HS) 8-digit level was adopted. In HS coding system, the total number of commodities is 8123. For better classification and representation of new commodities in the index basket, the year of introduction HS code was chosen as the base year.

BBS has been computing various annual indices of foreign trade and publishing them in its Monthly Statistical Bulletin and other monthly and annual publications.

Chapter 9

Finance, Foreign Aid, Banking, Insurance, Co-operatives and Credit Distribution

Finance

Government budgets are of two kinds revenue budget and development budget. Budget estimates are prepared by the Ministry of Finance. These are required to be placed before the Jatiyo Sangshad for discussion and to the President for approval.

Revenue receipts are classified under two major heads, viz, tax receipts and non-tax receipts. Tax receipts include income and wealth tax, land revenue, customs, excise, sales tax, etc. Non-tax items cover income from Government enterprises and properties such as post offices, telegraph & telephone, railway, currency, forest, civil works and registration fees, etc.

The economic classification of the Government budget has been presented in the respective table. Economic analysis of the budget involves the re-classification of budgetary data according to economic and functional characteristics.

The government's development expenditures by various sectors have been presented. These are based on the government's annual development expenditures the development expenditure of the Government has been compiled from data collected through a detailed questionnaire filled in by the government and its agencies and in cases of non-response estimates are derived from the Annual Development Programme.

Receipts and expenditures of the Bangladesh railway, post office, and telephone and telegraph department have been presented separately. Separate budget estimates for these departments are prepared and required to be presented before the Jatiya Sangshad. Economic analysis of these budgets involves re-classification of budgetary data according to economic and functional characteristics.

Receipts and expenditures of corporations and autonomous bodies including financial institutions and insurance companies have been presented.

The budgets of the corporations and autonomous bodies have been analyzed and re-classified according to the economic and functional characteristics.

Receipts and expenditures of local government bodies such as Municipalities, Zila, Thana, and Union Parishad have been shown in separate tables. These data have been collected through a detailed questionnaire filled in by the local government bodies. The sources of these data are the annual budgets of the institutions themselves.

Banking, Insurance, Co-operative and Credit Distribution

This chapter presents data on the financial activities of nationalized, foreign, and private banks as well as the financial transactions of cooperative societies and other specialized financial institutions in Bangladesh.

Banking

There are tables on bank branches operating in Bangladesh. Consolidated position on abilities and assets of scheduled banks, bank advances for economic purposes, foreign exchange reserves, lending rates and rate of interests for profit on National Saving Schemes, cash remittance, and use of foreign currency accounts held by Bangladeshis staying abroad. Bangladesh Bank and concerned Bank organization are the sources of data.

Insurance

There are tables in this connection that present structural information on Insurance companies/organizations in Bangladesh. Statistical data on claims and surrenders in the Life Insurance business etc are presented Department of Insurance is the source of data.

Chapter 10 Prices & Wages

1. Construction of Consumer Price Index (CPI)

The CPIs are compiled on monthly basis. Monthly prices of various items are used for

computation of the indices. Annual indices are also computed by averaging the 12 month's indices. The reference groups of the indices are the average urban and rural households of Bangladesh.

Three principal consumer indices (CPIs) are produced and disseminated i.e. National, urban, and all rural. The national CPI is calculated by combining the urban and rural indices using as weights. For computing the three CPIs all goods and services included in the index baskets were classified under twelve commodity divisions following the COICOP (Classification of Individual Consumption by Purpose). The indices covered twelve commodity divisions which are: -

- (1) Food and Nonalcoholic Beverages
- (2) Alcoholic Beverages, Tobacco and Narcotics
- (3) Clothing and Footwear
- (4) Housing, Water, Electricity, Gas, and Other Fuels
- (5) Furnishings, Household Equipment, and Routine Maintenance of the House
- (6) Health
- (7) Transportation
- (8) Communication
- (9) Recreation and Culture
- (10) Education
- (11) Restaurants and Hotels
- (12) Miscellaneous Goods and Services.

Selection of items: The using price schedules are updated on the basis of 2016-17 Household Income and Expenditure Survey (HIES) and Present base index are used in 2021-22. Data were collected from selected shops in each market or from selected units or service providers in the case of services. In constructing price indices, the geometric average price for each item was considered. In the rebased CPI (base/reference index 2021-22=100), BBS has been collecting price data from 154 (64 from rural areas, the remaining 90 from urban areas, including special consideration of Dhaka and Chattogram City Corporation) markets across the country. Each Market has 03 regular outlets. Three prices are collected for every item included in CPI basket from three outlets of every market. Prices for 242 food items as well as 507 non-food items are being collected using a unique schedule.

Selection of Index reference/period: The period for which the value of the index is set equal to 100. It should be noted that, in practice, the duration of the

weight reference period for a CPI is typically a year, or even two or more years, whereas the CPI is calculated monthly or quarterly, the duration of the price reference period being a month, quarter, or year. Current CPI for the base index 2021-2022=100 is based on the concepts and methods presented in the "Consumer Price Index Manual: Concepts and Methods (2020)". During the 51st session, the United Nations Statistical Commission endorsed this manual and encouraged all nations to utilize it for the compilation of their national CPI.

Bangladesh Bureau of Statistics has been regularly compiling the following consumer price index numbers on the basis of 2021-22 as the Index reference/ period.

- (i) Consumer price index, urban areas.
- (ii) Consumer price index, rural areas.
- (iii) Consumer price index, National.

Determination of Weights: The Consumer Price Index (CPI) is usually calculated as a weighted average of price changes for the goods and services covered by the index. The purpose of weights is to describe the relative importance of goods and services, measured by their share in total household consumption. The weight of each good or service determines the effect of its price change on the overall index. On the other hand, Reference index or base index refers the period for which the value of the index is set equal to 100. For the CPI with a base index of 2021-2022=100, the 2016 HIES is used. In computation of CPIs according to base/reference index 2021-22=100, two consumer baskets are used: (i) urban basket and (ii) rural basket.

BBS has taken up compilation of urban, rural, National CPIs. The National CPI is derived from the indices compiled separately for the urban and rural households, based on the weights calculated by using the 2016-17 HIES. The weights of individual items of CPI, all urban and all rural have been derived from the computer data sheets of 2016-17 Household Expenditure Survey. The weights of group and sub-group of CPI, all urban and all rural have been derived from the computer data sheets of the 2016-17 Household Expenditure survey which is given below.

Group	Weight Rural	Weight Urban
General	100.00	100.00
(1) Food and Nonalcoholic Beverages	48.65	38.37
(2) Alcoholic Beverages, Tobacco and Narcotics	2.97	2.08

Group	Weight Rural	Weight Urban
(3) Clothing and Footwear	6.36	5.69
(4) Housing, Water, Electricity, Gas, and Other Fuels	13.02	19.02
(5) Furnishings, Household Equipment, and Routine Maintenance of the House	3.94	3.68
(6) Health	4.55	3.97
(7) Transportation	7.33	12.88
(8) Communication	2.26	2.47
(9) Recreation and Culture	1.56	1.51
(10) Education	3.20	4.71
(11) Restaurants and Hotels	2.23	2.06
(12) Miscellaneous Goods and Services.	3.92	3.56

Formula Used: During the 51st Session of the United Nations Statistical Commission endorsed this Manual as an international statistical standard on March 4, 2020 and urged all countries to use this Manual in the compilation of their national CPIs. CPIs are calculated at two stages:

First, Elementary Indexes are compiled using Jevons formula & chained Jevons.

$$I_j^{0:t} = \frac{\prod (p_i^t)^{\frac{1}{n}}}{\prod (p_i^0)^{\frac{1}{n}}}$$

Where, 0

and t are two period

$$I_{jc}^{0:t} = \prod \left(\frac{p_i^t}{p_i^0} \right)^{\frac{1}{n}} = \frac{\prod (p_i^1)^{\frac{1}{n}} \prod (p_i^2)^{\frac{1}{n}} \dots \dots \dots \prod (p_i^t)^{\frac{1}{n}}}{\prod (p_i^0)^{\frac{1}{n}} \prod (p_i^1)^{\frac{1}{n}} \dots \dots \dots \prod (p_i^{t-1})^{\frac{1}{n}}} = \frac{\prod (p_i^t)^{\frac{1}{n}}}{\prod (p_i^0)^{\frac{1}{n}}}$$

Second, Higher-level indexes are compiled using the Modified Young's formula.

$$I_{MY}^{0:t} = \sum w_j^b I_j^{0:t-1} I_j^{t-1:t}$$

Where, $\sum w_i^b = 1$

$$I_Y^{0:t} = \sum w_t^b \cdot \left(\frac{p_t^t}{p_i^0} \right)$$

$$w_i^b = \frac{p_i^b \cdot q_i^b}{\sum p_i^b q_i^b}$$

II. Method of Construction of House-rent Index:

- (a) **Definition of House-rent:** House-rent is the actual monthly rent paid to the owner of a private residential house excluding gas, electricity, and water charges. HRI reflects the average rent change over time of a specified set of rented houses representing a given group of population. Residential houses of Government, Semi-Government, other organizations, and also enemy property/abandoned property are not included in the house-rent collection.
- (b) **House-Rent index:** HRI reflects the average rent change over time of a specified set of rented houses representing a given group of population. Population and Housing Census of 2011 and the Survey on Occupied Residential Houses and Real Estate Services of 2018 were the sources of information used to determine the types of houses rebased (base/reference index (2021–22 = 100) in the basket. These 'basket items' (different types of rented houses) were selected based on the number of rented houses. HRI (base/reference index 2021-22=100), HRIs are calculated in two stages. First, elementary indexes are calculated for each of the elementary aggregates. Second, higher-level indexes are calculated by taking weighted averages of the elementary rent/price indexes.

	Classification of houses	National Weights
(1)	Pucca houses	62.71
(2)	Semi-Pucca houses	29.63
(3)	Kutchha & Jhupri houses	7.66

- (c) **Source of data:** House-rent of private BBS has been gathering rent and price data from 154 locations and places across the nation for the rebased HRI (base/reference index 2021–22 = 100). Of these, 64 are in rural areas, and the remaining 90 are in urban areas, with Dhaka and Chattogram City Corporation receiving special consideration. Twenty different types of houses have their rent and prices collected according to a schedule.

III. Method of Computing Indices of the Cost of Building Construction:

The index of the cost of construction of a building is divided into 3 groups, viz. (i) Building materials (ii) Transport cost, and (iii)

Labour Charges of construction labor. During compilation of BMPI (Base/reference index 2021-22=100), BBS collect price data from 66 (01 from each district and 02 from Dhaka city corporation) markets across the country. BBS collect prices from 66 markets (01 from each district and 02 from the Dhaka City Corporation markets) throughout the country. Three quotations (prices) are collected for each item from each of the markets. Prices of BMPI are 107 items (Variety 133) being collecting using unique schedule. BMPI's (Base/reference index 2021-22=100) building/construction materials and services in the basket were determined based on Construction survey 2013-14. Jevon's and modified young formula are used for constructing the Index.

Number of items and weight distribution by group by centre are as follows:

	Group/Subgroup of Items	National (Weight)
1	Group-1 Building Materials	74.30
	Bricks & Stone	15.81
	Cement & Sands	14.03
	Iron & Steel	18.25
	Wood & Bamboo	6.16
	Materials Rent/Others	1.61
	Tiles	3.06
	Paint & Varnishes	2.14
	Glass & Sanitary Fittings	7.70
	GI & PVC Pipes	1.81
	Hardware & Electrical Fittings	3.73
2	Group-2	22.90
	Transport Charges	22.90
3	Group-3	2.80
	Labour Charges	2.80

IV. Method of computing the Wage Rate Index:

- (a) **Definition of Wage Rate** Amount of money received either in cash or in kind in a day for standard daily working hours or earnings of low paid labour who works on hourly basis have been included here as wage earners. Salary paid and high contract-based earnings have been excluded from compilation of WRI.
- (b) **Wage Rate Index:** Wage Rate Index (WRI) is an important indicator for measuring the trend and changes in the aggregate wages of the wage earners of a country. The wage

rate index is intended to measure the movement of nominal wages of low paid skilled and unskilled labour over time in different sectors of the economy. It is also used to measure changes in real wages. WRI reflects the average wage rate change over time of a specified set of occupations of three broad economic sectors like Agriculture, Industry and Service representing a given group of population. Bangladesh Bureau of Statistics (BBS) has been producing and publishing Wage Rate Index (WRI) since 1974 on regular basis with 1969-70 as base year. Already BBS has revised and rebased the Wage Rate Index (WRI) with 2021-22 as current base year. It has been prepared with the help of Labor Force Survey 2016-17

During compilation of WRI according to rebased WRI (Base/reference index 2021-22=100), BBS collected wage data from all 64 district. Three quotations of wages are collected for each item/occupation from each of the districts. Wages of 63 occupations are being collecting using unique schedule. Average monthly wage rate of low paid skilled and un-skilled labourers are estimated by 63 occupations such as 17 occupations from agriculture sector, 30 occupations from industry sector and 16 occupations from service sector.

SL	Name of Sectors	Weights
(1)	Agriculture	48.11
	(a) Agriculture	45.39
	(b) Fisheries	2.72
(2)	Industry	41.20
	(a) Construction	36.08
	(b) Production	5.12
(3)	Service	10.69

Chapter 11

National Income

National accounts estimation is one of the core activities of BBS. BBS has been compiling GDP and other national accounts aggregates by production approach and expenditure category since 1972-73. At present these estimates are based on the 2008 SNA framework and 2015-16 as a base year for the constant price estimates.

BBS is largely confined to the compilation of GDP by Industrial origin and GDP by expenditure components. GDP by industrial origin is in more detail, providing estimates of gross value added by 19 major ISIC sectors. GDP estimates both current and constant market prices are provided by fiscal years (FY) i.e. for the July-June period.

Estimates of GDP by expenditure components are less elaborate. Estimates are made for basic aggregates such as private and public consumption, gross fixed capital formation by public and private sectors, and exports and imports both in current and constant prices.

It is worthwhile to mention that BBS has revised GDP and other national accounts estimates from 2005-06 to 2015-16 with 2015-16 as a base year for constant price estimates. The revised estimates reflect a wide data coverage along with methodological improvements for the estimation of outputs of various sectors and subsectors.

The national accounts statistics are published in the various regular publications of BBS with limited scope. Besides, BBS has published detailed statistics on national accounts in the publication namely: - Twenty Years of National Accounting of Bangladesh, 1972-73 to 1991-92, National Accounts Statistics of Bangladesh (Revised Estimates, 1989-90 to 1998-99), Bangladesh National Accounts Statistics: Sources and Methods (Revised estimates from 1995-96 to 2013-14 with base year 2005-06), Bangladesh National Accounts Statistics: Sources and Methods (Revised estimates from 2005-06 to 2020-21 with base year 2015-16)

BBS also releases a report on preliminary and final estimates of GDP in the middle of each fiscal year.

Chapter 12

Education

Statistics of enrollment, educational attainment, grade, students, teachers and educational institutions have been compiled following the concepts, definitions, classification and tabulation procedures as per revised recommendations of the UNESCO conference on Standardization of Educational Statistics (ISES) as far as practicable in the context of Bangladesh.

Educational attainment is defined as the highest grade completed and/or attained by a person in the system of regular special and adult education at home or abroad.

Grade is defined as a stage of instruction usually covered in the course of a school year.

Student (Pupil) is defined as a person enrolled and/or registered in a programme of education defined at the outset.

Class is defined as group of students (Pupils) who are usually instructed together by a teacher or by several teachers.

Teacher is defined as a person employed, even part-time and/or without remuneration to communicate knowledge, skills etc.

A school (educational Institution) is defined as a group of students (pupils) of one or more grades, organized to receive the instruction of a given type and level under one teacher, or of various types and/or levels under more than one teacher under the direct supervision of the head of the establishment. A school is said to be a government school if it is operated by the government whether national or local, whatever the origin of its financial resources. Similarly, a school is said to be a private school if it is not operated by a government authority (national or local), whether or not it receives financial support from such authorities. The latter can, however, be further classified as "aided" or "non-aided" depending on whether or not they derive financial support from government authorities.

Statistics on educational finance presented also conform to the following definitions:

- Receipts refer to cash received by or made available to or for schools, including appropriations, subventions, fees, cash value of property received as gifts, etc.
- Expenditures refer to financial charges incurred by or on behalf of schools for goods and services.
- Capital/development expenditures refer to expenditures for land, building and equipment etc.

The system of education through the indicators of the number of educational institutions, teachers and student participation rate, teacher-student ratios, operating expenses per student, and total govt. expenditure on education, percentage of literacy etc. has been presented in the respective tables.

The number of teachers and student ratio in public universities is shown here. Yearly average per head expenditure in public universities student and faculty wise number of students in public universities have been shown. The number of students' teacher's institutes, faculty, department, male-female students, and subject-wise number of students in private universities, have been present in this chapter. The number of general colleges with students, teachers by region and output of the examinations of general colleges have been shown in separate tables. The number of govt. and non-govt. recognized Intermediate and Degree colleges with several teachers and students therein by region and by sex have been given in the tables. The number of secondary schools by govt. and non-govt. by region, by urban and rural distribution, have been given. The number of secondary schools with teachers and students by gender, average no. of teachers and students per Secondary school and teacher-student ratio have been shown.

Government & affiliated Madrasahs with several teachers and students by type and by region and the result of the madrasah education, as reported by the Bangladesh Madrasah Education Board, have been given. The number of primary schools by govt. and

non-govt. with teachers and students, by rural and urban, students by sex and region, the average number of students and teachers per primary school and teachers' students' ratios as reported by primary education officers, Ministry of Education, have been given in separate tables.

Sanskrit and Pali Tols with teachers and students are also given, a number of Technical Institution by type with teachers and students for the number of Teachers Training colleges both primary and secondary level have been given in separate tables. Unani college with the number of teachers and students, as available from the Bangladesh and Board of Unani and Ayurvedic system of Medicine, have been presented in respective tables. Professional colleges as law, Agriculture, Arts & crafts, Home Economics, Social welfare and Research, with number of students and teachers as obtained from the Bureau of Educational Information and Statistics have been given in the tables.

The results of the S.S.C and H.S.C and Technical Education as obtained from the Boards of Intermediate and Secondary Education, Technical Education Board and Bureau of Educational Information and Statistics have been presented in respective tables. The school attendance rate by age and sex, and the literacy rate by region are given in respective tables. The rate of literacy for census years, however, are not directly comparable because of difference in definitions that have been appended to the tables concerned. The gross expenditure on education by type of educational Institution has been compiled by BBS and appended in the concerned tables. Tuition fees of different educational institutions and the average monthly tuition charge in the Dhaka Metropolitan Statistical Area have been presented in separate tables. The number of primary and Junior scholarships awarded in Bangladesh by grade & rate has been given in a table.

Chapter 13 **Health, Family Planning and** **Social Statistics**

This chapter presents data on health facilities, manpower and services, public expenditure and nutritional status. Data are also presented on social issues and community facilities including a number of tube wells, newspapers, book publishing and circulations, film production, cinema halls, legal services, crime and religious institutions.

Growth of medical facilities, number of medical colleges, post-graduate medical institutes, T.B. clinics and rural health centers, The Directorate of health services is the source. The number of hospitals and hospital beds, number of blood slides examined and malaria cases detected are shown in the tables concerned. The Ministry of Health and Family Welfare and the Directorate of Health Services are the sources.

Local production of drugs and medicines, comparative prices of selected imported raw materials and licentiate business units in drugs by categories are given in respective tables.

Public expenditure on health and related activities in the health sector are given in separate tables. The Bangladesh Bureau of Statistics is the source. Data on the district-wise distribution of health, maternal and child health and family planning facilities have been presented in respective tables. The Directorate of Population Control and Family Welfare is the source. The table shows data on a number of family planning personnel by region. The productions and no. of sales centre of sanitary latrines by former districts up to 2024 have been shown in table & show the number of newspapers and books published and a number of newspapers & periodicals with their gross circulation. The production of films by type and language and the number of cinema houses by region, the number of advocates and lawyers by region, the number of crimes by type and number of places of worship by region, and data on the regional non-govt. hospitals and clinics with beds, number of Imams trained by region have been given on respective tables.

Chapter 14

Poverty, Inequality, Household Income, Expenditure and Consumption

This chapter focuses on the household income, expenditure, poverty and inequality statistics. BBS produces these statistics by conducting Household Income and Expenditure Survey (HIES) since long. The first round of Household Expenditure Survey (HES) in 1973-74. However, BBS has conducted total 17 rounds of this survey in last fifty years. The latest round HIES was conducted in 2022 to generate national, rural and urban and divisional level statistics. Importantly, BBS also produces district and Upazila/Thana level poverty maps by using Small Area Statistics (SAE) methods with the collaboration of World Food Program (WFP) and World Bank Group (WBG) since 2000.

Household Income

Household income is defined as the material return in kind or in cash in exchange for goods and services etc, by the household earners, other than boarders, lodgers and servants. The income of the household was further classified by recording monthly and annual income in cash or in-kind and imputed income as related to the reference period.

Household Expenditure

Consumption expenditure refers to the household consumption expenditure defined as the value of goods and services finally consumed by resident households of Bangladesh.

1.1 Objectives of the HIES:

- ▶ Obtain detailed data on household income, expenditure and consumption.
- ▶ Determine poverty profile with urban and rural breakdown.
- ▶ Provide information about standard of living and nutritional status of population.
- ▶ Provide data to determine the weights of consumer price indices.
- ▶ Provide household level consumption data used in compiling national accounts estimate.
- ▶ Provide detailed information on health status and educational level of the population.
- ▶ Determine poverty estimates by administrative divisions and detailed socio-economic characteristics of the population and households.
- ▶ Provide benchmark data for formulation of appropriate policy for poverty reduction, improvement in standard of living and nutritional status of the population.
- ▶ Provide relevant data for monitoring of the Poverty Reduction Strategy (PRS)/Five year plan and the Sustainable Development Goals (SDGs).
- ▶ Provide data on nature, volume and distribution of resources under different Social Safety Net programmes.
- ▶ Collect data related to calculation of demand function and elasticity.
- ▶ Generate data for formulating appropriate fiscal policies.
- ▶ Collect data on type and extent of disability by age, sex and locality.
- ▶ Provide data on migration and remittances.
- ▶ Collect detailed data on credit and repayment situation and practices.

1.2 Sampling Design of HIES 2022

For HIES 2022, a two-stage stratified cluster sampling design was followed under the sampling frame developed from the available second zonal operation of Population and Housing Census 2022. The primary sampling unit (PSU) was the Enumeration Area (EA) of the Population and Housing Census 2022. Each EA is a cluster of around 100 households.

At the first stage, required number of PSU's were selected and a complete household listing was carried out in the selected PSU's. Then at the second stage, 20 households were selected randomly from each selected PSUs for interview in the field.

1.3 Sample Size of HIES 2022:

For designing the sample for HIES 2022, two different target variables/indicators were used. These are: (i) Prevalence rate of the main indicator (poverty head count ratio) (ii) Nominal household consumption expenditure. These were considered as the core indicators of HIES. Using both the indicators, rough calculation showed that about 900 households or 45 PSU's (as 20 households were selected in each PSU) for each domain (division by rural & urban) were required to provide a reasonably precise estimate at domain level.

METRIC SYSTEM OF WEIGHTS AND MEASURES

Bangladesh has adopted metric system of weights and measures from 1.7.1982.

For convenience of readers, we are printing below the relevant portions of the

Ordinance passed in this respect by the Government,

No. ED/CD/34/82-131 (200) dated 31/8/82 in full.

1. MASS :

1 Grain	=	0.000 064 798 91	Kilogram
1 Tola	=	0.011 663 303 8	Kilogram
1 Seer	=	0.933 104 304	Kilogram
1 Maund	=	37.324 172 16	Kilogram
1 Ounce (troy)	=	0.031 103 476 8	Kilogram
1 Pound (avoirdupois)	=	0.453 592 37	Kilogram
1 Hundred weight (UK)	=	50.802 345 44	Kilogram
1 Hundred weight (USA)	=	45.358 237	Kilogram
1 Ton (UK)	=	1016.046 908 8	Kilogram
1 Ton (USA)	=	907.184 74	Kilogram

2. LENGTH:

1 Inch	=	0.025 4	Meter
1 Foot	=	0.304 8	Meter
1 Yard	=	0.914 4	Meter
1 Mil	=	1609.344	Meter
1 Nautical mile (UK)	=	1853.18	Meter

For Survey of Bangladesh only

1 Foot	=	0.304 799	Meter

3. AREA :

1 Square inch	=	0.000 645 16	Square meter
1 Square feet	=	0.092 903 04	Square meter
1 Square yard	=	0.836 127 56	Square meter
1 Square mile	=	2589 988.110 336	Square meter

For Survey of Bangladesh only

1 Square feet	=	0.092 903	Square meter
1 Acre	=	4046.846 8	Square meter
	=	0.404 684 58	Hectare

4. VOLUME:

1 Cubic inch	=	0.000 160 387 064	Cubic meter
1 Cubic feet	=	0.023 316 846 592	Cubic meter
1 Cubic yard	=	0.764 554 857 984	Cubic meter
1 Gallon (UK)	=	0.004 546 087	Cubic meter
	=	4.546 087	Liter
1 Gallon (USA)	=	0.003 785 411 784	Cubic meter
	=	3.785 411 784	Liter
1 Bushel (USA)	=	0.035 239 070 17	Cubic meter
	=	2 150.42	cubic inches
1 Barrel (for petroleum)	=	0.158 987 294 928	Cubic meter
1 Acre-feet	=	1233.482	Cubic meter

5. TEMPERATURE :

1 Degree Fahrenheit	=	9/5 (T-459.67)	kelvin (k)
1 Degree Celsius	=	T-273.15	kelvin (k)
1 Degree kelvin	=	t+273.15	degree Celsius ($^{\circ}\text{C}$)
	=	5/9 (F+459.67)	degree

Fahrenheit ($^{\circ}\text{F}$)

Where T=Temperature

in kelvin :

T=Temperature in Celsius and

F=Temperature in Fahrenheit.

6. FORCE:

1 Pound-force	=	4.448 221 615 260 5	newton
1 Poundal	=	0.138 254 954 376	newton

7. PRESSURE:

1 Barometric inch of memory	=	3 386.388 640 341	pascals
1 Inch of water	=	249.088 91	pascals

8. ENERGY:

1 British thermal unit	=	1 055.055 852 62	Joules
1 Foot-pound-force	=	1.355 817 948 331 400 4	Joules

9. POWER:

1 Horse-power (UK)	=	745.699 871 582 270 22	Watts
1 Horse-power (European)	=	735.498 75	Watts
1 Ton of refrigeration	=	3516.852 842 67	Watts

UNIT OF MEASUREMENT

1 Foot	=	0.3048 meter
