### Open Architectural Design Competition for the Design of Ten Storied BFFWT indoor sports and cineplex in chattogram.

Criteria	This competition calls for an innovative architectural design for a indoor sports and cineplex building for the entertainments of the peoples of Chattogram. The project should focus for a state-of-the-art Indoor Sports Complex to the evolving needs of good sports facilities for social communications by integrating flexible sports areas for various games and multiplex movie theatre etc. Emphasis is placed on climate-responsive design, sustainability and the intelligent use of natural light and ventilation. Participants are encouraged to explore creative spatial arrangements that promote entertainments. The building should reflect the BFFWT's identity while engaging with it's a indoor sport and cineplex building. Proposals must consider circulation, accessibility, structural feasibility, and the integration of technology-oriented entertainments. This competition invites innovative proposals that redefine the boundaries of aesthetic architecture blending functionality, sustainability and aesthetic brilliance. The building design should serve as a blueprint for a landmark facility that will inspire community engagements, promote wellness and support diverse sporting disciplines under one roof. Proposals must consider circulation, accessibility, structural feasibility and the integration of technology in sports and recreational facilities. The competition seeks visionary solutions that will balance functionality, aesthetic value and long-term adaptability.
