Preface

BIRRI Annual Report 2014 contains a brief of research and development activities carried out by BIRRI research divisions and nine regional stations of the institute during 2014. The significant research outcomes covering seven programme areas are the main focus of the document. The programme areas consist of varietal development, crop-soil-water management, rice farming systems, pest management, socio-economic and policy, technology transfer and farm mechanization. BIRRI is well aware of research planning to sustain self-sufficiency in food production.

Considering this, BIRRI scientists have been engaged in developing different stress tolerant rice varieties and some premium quality ones that can compete in the international market. Side by side they worked to develop and disseminate cost-saving and profitable technologies.

Besides research activities BIRRI carried out training for farmers, extension officials and scientists of different organizations. Technology dissemination is another important role of BIRRI implemented by Adaptive Research Division.

We acknowledge the efforts that helped bring out this publication and special thanks for those who contributed with different capacities. We hope that the report will be useful for the scientists, extension agents, policy makers and other partners to be updated on rice research at BIRRI.

(Dr. Jiban Krishna Biswas)

Director General

BIRRI

Chapter 1 Institutional information

1.1 Legal basis of the institution

BIRRI is a major component of the National Agricultural Research System (NARS) of Bangladesh, dealing with research and development in relation to rice production, the staple food for our people. The institute, formerly known as the East Pakistan Rice Research Institute (EPRI), was established on 1 October 1970 at Joydebpur, a small township 36 km north of the capital city Dhaka. After the independence in 1971, the institute was renamed as the 'Bangladesh Rice Research Institute (BIRRI)' through the Bangladesh Rice Research Institute Act, 1973 (Act X of 1973). At present in accordance with the provisions of the Bangladesh Rice Research Institute (Amendment) Act, 1996 (Act V of 1996), a Board of Management holds full responsibility to determine the policies and undertakings of the institute within the framework of policy directives issued by the government of Bangladesh.

1.2 Functions and powers

The main Functions of BIRRI is to:

- Conduct research on all aspects of rice improvement and production;
- Establish research centers and substations in different regions of Bangladesh for conducting research on different problems of rice;
- Establish project areas for demonstration of new varieties of rice developed by the institute and training of farmers for the cultivation of these varieties of rice;
- Train agricultural extension personnel and progressive farmers on modern techniques of rice production;
- Publish annual reports, monographs, bulletins and such other documents relating to research activities of the institute; advise the government on rice related policy issues.

The Director General, who is the Chairman of the Board of Management, is the executive head of the institute. He is the full-time chief executive of the institute and exercises such powers and functions and discharges such duties as are determined by the Board of Management constituted for BIRRI by Parliamentary Act No. X of 1973.

Chapter 2 Organizational information

2.1 Organizational structure:

The Director General is the full-time chief executive of the institute who executes his function with the help of Director (Research) and Director (Admin. and Common Service). Under Research Wing, Director (Research) operates his main activities through 18 research divisions such as: Training, Adaptive Research, Agricultural Economics, Agril Statistics, Entomology, Biotechnology, Workshop Machinery, FMPHT, Irrigation and Water Management, Plant Pathology, Agronomy, Farm Management, Soil Science, Plant Physiology, Plant Breeding, Genetic Resources and Seed, Grain Quality and Nutrition, Rice Farming Systems, Planning and Evaluation and nine regional stations such as; Rajshahi, Sonagazi, Kushita, Comilla, Habiganj, Barisal, Bhanga, Rangpur and Sathkira. On the other hand under Administration Wing, Director (Admin and Common Service) operates his main activities through HQ Administration Division (Common Service, Procurement, General Store), Finance and Accounts Division, Building and Construction Division, Publications and Public relations Division, Audit Cell, Library and Dispensary.

2.2 Information on personnel

The institute operates with 19 research divisions, three support service divisions, eight sections and nine regional stations with a total manpower of 680. Among of them, 249 are scientists. About one third of the scientists are highly trained professionals with MS and PhD degrees. Out of 680 personnel 284 are Class One Officers, 46 are second class officers, 215 are class III staff and 135 are class IV employees.

2.3 Name and contact information of the officials

Name and contact information of the BRRI officials are opened for all in the BRRI official website: www.brri.gov.bd . Detailed contact information is also added in the diary (Annex-1).

Chapter 3 Operational information

3.1 Operational Plans

BRRI's main objective is to make the country self sufficiency on food. For this purpose BRRI is trying to develop the high yielding short duration rice varieties. It has developed stress tolerant rice varieties like drought, water logging, salinity, flash flood etc. It has developed short duration HYVs and Hybrid rice varieties also besides enforcement of mechanization on rice cultivation.

3.2 Operational policies

BRRI provides suggestions to the government on rice related policy issues to achieve the self sufficiency of staple food of the country. BRRI should follow the government 6th five year plans, national agricultural policy 2013 and the vision 2021.

3.3 Activities

- Developing new rice varieties and production technologies for the diverse ecosystems existing in Bangladesh is the absolute mandate of BRRI.
- Conduct research on all aspects of rice improvement and production;
- Establishes research centres and sub-stations in different regions of Bangladesh for conducting research on different problems of rice;
- Trains agricultural extension personnel and progressive farmers on modern techniques of rice production;

- Publishes annual reports, monographs, bulletins and such other documents relating to research activities of the institute.
- Appoint administrative, instructional, research and other staff and employees.

3.4 Procedures

BRRRI organize annual research review and discussion on the achievement and identify the problem faced by the ending year. Annual research programme is developed and finalized in three steps: a) Intra divisional meeting; b) Programme area meeting and c) Programme committee meeting. According to the decisions taken after the annual research review the research programmes are finalized. Then it is executed by the performing units at HQ and as well as at regional stations and at the farmers' field. The concerned heads of the research divisions monitor the programme approved for execution. In addition, Director (Research) and the Director General supervise the overall research activities of the institute. Thereafter, results of the executed programme are presented in the next annual research review workshop where all the scientists of the institute and also expert members from other institutions take part as a final evaluation process.

3.5 Delegation of authority

The Director General (DG) is the main authority of delegation. To operate institutional activities smoothly DG gives the power of delegation to all research divisional heads, all regional station heads and the various types of committee approved by the authority.

3.6 Job description

All research divisions and regional station heads perform their duties with the help of divisional and regional stations scientist and support service officers and the staffs. They performing their duties they deliver their findings and suggestions to the DG. Various approved committees also perform their duties and give suggestions to the Director General.

3.7 Reports and returns

See financial information

3.8 Monitoring and evaluations

The Director General, Bangladesh Rice Research Institute as head of the institute will be the overall in-charge of the institute. All division heads are responsible for execution of the research and related activities of the institute. They will also supervise the overall research activities. All division heads will seek cooperation and help from Director (Research), Director (Administration) and Coordinator for Advanced Studies and Research (CASR) of BRRI for the research activities. For research administration, accounts, audit, monitoring, evaluation and reporting and other works will be done by the personnel of revenue setup of BRRI. Building and ground section's work of the institute will be executed by the Building and Constructions Division of the institute. And procurement work of the project will be done by the Procurement Section of BRRI. The Planning and Evaluation Division of the institute will evaluate physical and financial achievements of the different projects and help project directors for smooth execution of all projects. For Monitoring and evaluation of on farm research activities BRRI organise different meetings and workshops like 'Program Area Meeting', Annual Internal Review Workshop etc.

3.9 Other strategies, documents and data being used in office

BRRI follow need based and problem oriented strategies in management system. All data and document used in management and research system except confidential particulars is available in our website. If anyone wants more data and document or any other sort of information he or she can apply to Director General in prescribed form according to our information discloser policy.

Chapter 4: Decisions and Acts

- Bangladesh Rice Research Institute Act, 1973 (Act X of 1973).
- Bangladesh Rice Research Institute (Amendment) Act, 1996 (Act V of 1996),

Chapter 5: Public services information

5.1 Descriptions of services offered to the public/Citizen's charter

Descriptions of services offered to the public can be seen in Citizen's charter added at Annex-III.

5.2 Guidance

BRRI provides all kind of guidance related to modern rice production through training, workshop & seminar.

5.3 Booklets and leaflets

BRRI has, so far, published 256 [publications](#) of 168 items, including several editions of extension materials and 16 volumes of the Bangladesh Rice Journals. BRRI publications can be grouped into following categories:

5.2 Copies of forms

Different types of forms developed and used by BRRI is like leave application form, Vehicle requestion form etc.

5.4 Information on fees and deadlines

Fees and deadline of any information related issues solves under BRRI Information discloser Policy-2014

Chapter 6: Financial information

N.B. In the meantime remaining eight (8) advanced (Para) audit objections (BSR) brought sheet reply has been given to the audit directorate for mitt-up.

Chapter 7: Open meetings information

7.1 Information on meetings

There are so many committees in BRRI to manage the overall activities smoothly. Meeting of respected committees held as per requirement. Board of management is the apex body of all committee. Decisions summarizes from different meeting finally submitted to BoM for final Approval.

7.3 Open meetings

The Director General (DG) call open meetings in case of emergencies and he himself presided over the meeting. The Participants of the meetings are two directors, all divisional & section heads.

Chapter 8: Decision-Making and Public Participation

8.1 Information on decision making procedures

Adaptive Research Division (ARD) of BRRI disseminates rice technologies to the farmers through the different activities and collect data and feedback through prescribed forms. Some procedures followed by ARD for involvement of farmers on decision making process are described below.

A. Technology validation

ARD conducts trials to evaluate the adaptability of advanced breeding lines and varieties at farmers' field. This is a unique opportunity for the farmers to choose the best one among many lines/varieties suitable for the particular region and ecosystem. Moreover, other improved management and production practices are also validated at farmers' field so that farmers are able to compare the new technology at their own situation. Thus, farmers are involved in decision making.

B. Technology dissemination

1) Seed production and dissemination program (SPDP)

ARD conducts demonstrations using modern rice varieties and other technologies at farmer's field for their rapid dissemination in collaboration with the Department of Agricultural Extension (DAE). DAE personnel, farmers and other extension workers could observe directly the performance of the technology. If the technologies show better performance than the previous, then farmers motivated and start to use the new technology.

2) Field day

ARD organizes field day to disseminate BIRRI technologies. It is a gathering of 150-200 farmers, extension workers and other elite people near the demonstration area where advantages and benefits of the new technologies are described to the farmers and collect the feedback from the farmers about the technology. It is one of the most rapid and viable technique for technology diffusion. It directly motivates farmers to cultivate modern rice varieties and other potential technologies.

3) Farmer's training

ARD also conducts a day-long Rice production training (RPT) for farmers and associated others which improves the skill and knowledge on rice production technologies and enhance technology dissemination.

8.2 Mechanisms for consultations and public participation in decision making

ARD collect data and feedback in consultation with Farmers and extension workers from the above mentioned activities through the interview and questionnaire.

ARD collect phenological data, yield and yield component from the adaptive trial and SPDP
ARD scientists interview farmers and DAE personnel on:

- Phenotypic acceptance of the varieties and advanced lines.
- Advantages and disadvantages of the varieties and other technologies.
- Production and seeds retaining by the farmers.
- Knowledge gained and motivated farmers
- Mass people participated in field visit and discussion in field day.
- ARD scientists find collect the positive and negative feedback from the farmers and extension workers that could be included in the research programme for further improvement of the technology.

Objectives of the project (BRRRI part):

The objectives of the project were to:

- Create awareness among the farmers about the benefits of using BRRRI developed farm machinery through field demonstration and training,
- Impart training to machine operators, agricultural extension workers manufacturers and traders on operation, repairing/maintenance and manufacturing of BRRRI developed farm machinery,

- Motivate the farmers on the use of BRRRI developed machinery for increasing timeliness of cultivation, reducing costs of crop production and postharvest losses and
- Strengthen research and development on farm machinery, postharvest technology and renewable energy resources.

B Contract Agreement Form

The agreement made the [day] day of [month] [year] between [name and address of Procuring Entity] (hereinafter called “the Procuring Entity”) of the one part and [name and address of Supplier] (hereinafter called “the Supplier”) of the other part:

Whereas the procuring entity invite tenders for certain goods and related services, viz, [brief description of goods and related services] and has accepted a tender by the supplier for the supply of those goods and related services in the sum of Taka [Contract Price in figures and in words] (hereinafter called “the Contract Price”).

THIS AGREEMENT WITNESSETH AS FOLLOWS:

1. In this Agreement words and expressions shall have the same meanings as are respectively assigned to them in the General Conditions of Contract hereafter referred to.
2. The following documents forming the Contract shall be in the following order of precedence, namely :
 - (a) the signed Form of Contract Agreement;
 - (b) the Notification of Award
 - (c) The completed Tender
 - (d) Conditions of Contract;
 - (e) Technical Specifications;
 - (f) Price Schedules and Schedule of Requirements and;
 - (g) other document, if any
3. In consideration of the payments to be made by the Procuring Entity to the Supplier as hereinafter mentioned, the Supplier hereby covenants with the Procuring Entity to provide the goods and related services and to remedy any defects therein in conformity in all respects with the provisions of the Contract.
4. The Procuring Entity hereby covenants to pay the Supplier in consideration of the provision of the goods and related services and the remedying of defects therein, the Contract Price or such other sum as may become payable under the provisions of the Contract at the times and in the manner prescribed by the Contract.

IN WITNESS whereof the parties hereto have caused this Agreement to be executed in accordance with the laws of Bangladesh on the day, month and year first written above.
