Organogram of the Bangladesh Rice Research Institute (BRRI), Gazipur

Functions:
1. carry out research on various aspects of rice improvement & production.
2. Establish research centres and substations in different regions of Bangladesh for carrying out research on different problems of rice.
3. Establish project areas for demonstration of new varieties of rice developed by the institute and training of farmers for the cultivation of these varieties of rice.
4. Publish annual reports, monographs, bulletins and such other literature relating to rice research and the activities of the Institute.
5. Establish a laboratory and a library in the Institute.
6. Train extension officers and progressive farmers in modern improved techniques of rice production.
7. Deo and perform all other activities which may be necessary for the achievement of the objects of the Institute.

Objectives
1. Rice varieties improvement.
2. Cultural practises, including fertilizer, soil and water management.
3. Integrated pest control.
4. Training in manpower to facilitate transfer of rice technology.
5. Consequences of adoption of improved technology on soil, plants and socio-economic aspects.
6. Any other relevant issues to accelerate rice production; and in addition the Institute aims at assisting national and international research programmes through cooperative support.
