Information for Tenderer/Consultant :

Eligibility of Consultant :	Eligible Physical Services
	1. All the Physical Services (if applicable) to be provided under the Contract and financed by PE may have their origin in any country subject to Para 4. Eligible Service Provider

1. The Service Provider and its Subcontractor Provider (s) shall have the nationality of any eligible country [except Israel]. A Service Provider or Subcontractor shall be deemed to have the nationality of a country if it is a citizen or constituted, incorporated, or registered, and operates in conformity with the provisions of the laws of Bangladesh.
2. All materials, equipment and associated Services to be supplied under the Contract shall have their origin in Eligible Countries.
3. For the purpose of Sub-para 4.2, origin means the place where the materials and equipment are grown, mined, cultivated, produced, manufactured, or processed; or through manufacturing, processing, or assembling, another commercially recognized new products results that differs substantially in its basic characteristics from its components or the place from which the associated services are supplied.

Brief Description of assignment :

Procurement of Multiple Channels Per Carrier (MCPC) Broadcast Platform

Experience, Resources and delivery capacity required :

The Service Provider shall maintain a geographically separate Disaster Recovery (DR) site facility, or an equivalent arrangement approved by BSCL, capable of restoring all critical services within thirty (30) minutes of a failure of the primary facility, unless a different Recovery Time Objective (RTO) is approved by BSCL in writing. The DR site shall, at a minimum, comply with the following requirements:

1. **Independent Fiber Connectivity:** Dedicated fiber connectivity shall be established from each TV channel location directly to the DR site. Such connectivity shall be fully independent of the LKT network and location or any common transmission path to eliminate single points of failure.
2. **DR-to-Gazipur Ground Station Connectivity:** The DR site shall maintain primary and backup communication links to the Gazipur Ground Station to ensure uninterrupted service continuity in the event of a network or transmission failure.
3. **Redundant Equipment Availability:** The DR site shall be equipped with at least one (1) Multiplexer (MUX), one (1) Router, and all other relevant equipment necessary to support the restoration and operation of the contracted services within the specified recovery time.
4. **Switchover Procedures and Personnel:** The Service Provider shall maintain documented disaster recovery and service switchover procedures, including clearly defined roles and responsibilities of the personnel authorized to execute such procedures.
