EDITOR'S NOTE

Bangladesh Journal of Sugarcane is proud to complete 38 years of Publication. Over the past 38 years, the journal has strived to contribute to overcome the constraints of sugarcrop cultivation in the country as well as elsewhere in the world. Our current 37th volume contains problem oriented research and recommendation to sugarcane, tropical sugarbeet and sorghum cultivation. The major contributions of the volume are mostly from this institute. Authors from other organization have also contributed singly or combined.

On behalf of the editorial board the contributors of the 37th volume of the Bangladesh Journal of Sugarcane for their interest and continued support to the journal. Bangladesh Journal of Sugarcane is an ideal journal for the scientist working with sugarcane and other sugarcrops in Bangladesh and also throughout the world. However, we have also grown in less quantifiable ways: our reputation and visibility in the academic community continues to broaden and our editorial board constantly reassesses and revise for both authors and staff. It is due to the hard work of our editorial staff and interest of our readers that we are able to reforms to accommodate quality reviewed papers and research results on sugarcrops. Further responses from relevant scientists are also expected to enrich the journal.

I believe that the articles of this volume would help in minimizing field oriented sugarcane production management related problems. This is indeed to find out ways and means of ensuring our research output is ready to face the new economic challenges and climate changes. This will benefit the farmers, students, extension workers, teachers, scientist, NGOs and interested personnel by increasing the yield of cane and sugar that will enhance the productivity in achieving self-sufficiency in sugar and goor production in Bangladesh.

Finally, we hope that the extension workers engaged in cane development activities will go through this volume and initiate the spirit for effective development of research and extension linkages that will nourish both the extension workers and scientist working in the area and continuing its tradition of academic excellence. The theme of this publication will also help to minimize yield gap between farmers and research fields.

Dr. M. Khalilur Rahman
Director General

CONTENTS

Intercropping Tropical Sugarbeet Varieties with Sugarcane in Different Planting Geometry A.K.M.R. Islam , M.A. Razzak, M.A.T. Sohel, H. P. Roy and N. Islam	1
Overexpression of TSRF1 Improves Salt Tolerance in Sugarcane M.A. Rahman , Wei Wu and Yanchun Yan	10
Response of BSRI Akh 42 and Soil Properties to Fertilizer Doses in Chittagong Hill Tracts of Bangladesh M.S. Islam , G.M.A. Hossain, K.M. Alam, S. Islam, M.A. Haque, Kyachan, D. Tanchangya, D. Chakma and M.O. Khaiyum	25
Evaluation of BSRI Released Sugarcane Varieties in Saline Belt of Bangladesh H.M. Al- Amin , M. A. Rahman, M.L. Kabir, M.I. Hossain and M.H. Rahman	33
Profitability of Sugarcane Cultivation in Some Selected Char Lands of Sirajganj District M.S. Islam , S. Khatun, M. Kamruzzaman, S.M.R. Karim and M.R. Islam	40
Performance of Herbicides for Weed Control in Sugarcane Field N. Islam, M.A.T. Sohel , M.N. Alam, A. K. M. R. Islam and S. Akhter	51
Nutrient Requirement for Sugarcane and Garlic as Intercrop in Non-Mills Zone M. A. Haque , G. M. A. Hossain, K. M. Alam, M. H. Rahman and S. Islam	57
Influences of Different Repellent Intercrops for the Management of Sugarcane Borer Pests S. Akhter , M.N. Alam, N. Islam and M.M. Ahmed	64
Efficacy of Cultural Management and Fungicidal Spray to Control Sugarcane Smut M.A.K. Al Azad , M.I.H. Mian, A.M. Akanda, A.A. Khan and M.J. Uddin	70
Problems Faced by the Farmers in Sugarcane Cultivation under Joypurhat Sugar Mills S.M.R. Karim , S.K. Pal, M.S.I. Afrad, M.H. Rahman and M.N.A. Miah	76
Productivity and Profitability of Flowers-Mungbean Sequential Intercropping with Sugarcane M.S. Islam , M.J. Alam, M.S. Hossain, M.M. Rashid and M.K. Rahman	83
Performance of Onion Seed Crop and Mungbean Sequential Intercropping at Paired Rows Planted Sugarcane M.I. Hossain , H.M. Al- Amin, M. S. Islam, M.J. Uddin and M.E. Reza	93

CONTENTS

Productivity and Profitability of Mustard Mungbean Sequential Intercropping with Paired Rows Transplanted Sugarcane

M. J. Alam , M. M. Rahman, M. A. Razzak, H. P. Roy and M. A. T. Sohel 100

Morphological and Biochemical Characters of some Palmyra Palm Trees Grown Ex-Situ Condition at Bangladesh Sugarcrop Research Institute (BSRI)

M. A. Hossain , M. S. Arefin, M. J. Islam, M. S. Hossain and M. K. Begum 111

SHORT COMMUNICATIONS

Effect of conservation agriculture practice for sugarbeet cultivation

M.S. Hossen and S.S. Tabriz 118

Effect of Pressmud on the Incidence of Rootstock Borer and White Grubs in Sugarcane Cultivation

M.N.A. Siddiquee , M.A. Rahman, M. Begum, M.I. Ara, M.E. Reza and M.A. Razzak 122

Effect of Salinity on Growth and Yield of Sorghum Genotypes

N.O. Haque, A.M.S. Rahman , H.M. Anowarul, M.A. Salam and A.K.M.Z. Hossain 127

Pathological Test of BSRI Akh 45 Against Sugarcane Smut (*Ustilago scitaminea* Sydow.)

M.J. Uddin , M.S. Rahman, M.O. Khaiyam, M.A.K. Al Azad and M.I. Hossain 131
