

BANGLADESH JOURNAL OF SUGARCANE

GUIDE FOR AUTHORS

- The Bangladesh Journal of Sugarcane annually publishes articles on Sugarcane agriculture and sugar processing.
- Articles must be original reports of research, not previously or simultaneously published.
- The manuscripts should be written in English and typed in double space in one side of 11" x 8½" size bond paper with good margin in all sides. The text, quotation, table, illustration, footnote and literature citation should be double spaced.
- Numerical data should be presented in the form of either tables or graphs, but not in both. Tables and figures with their caption should be numbered in Arabic numerical and submitted in separate sheet. Line drawings should be 3 times larger than they are to appear in the journal.
- Photographs (120 mm x 170 mm) should be in glossy prints with good dark and light contrast with appropriate caption. Diagram, drawing should be drawn with durable ink on thick white drawing paper.
- The article should have a concise but meaningful title. The author (s) name and place of research should follow the title. An informative ABSTRACT, not more than 150 words should precede the introduction of the paper. The paper should then be arranged in the following order : (I) INTRODUCTION (ii) MATERIALS AND METHODS (iii) RESULTS AND DISCUSSION (IV) ACKNOWLEDGEMENT(S) (if any) and (V) REFERENCE (S).
- The abbreviations mentioned here under may be used in the tables/graphs without further definition : active ingredient (a.i.), boiling point (b.p.), centimetre (s) (cm), commercial cane sugar (C.C.S), concentration (concn), concentration required to kill 50% of test organism (LC₅₀), day (s) (d), days after harvesting (DAH), days after treatment (DAT), days after plantation (DAP), dry matter (d.m.), Duncan's New Multiple Range test (DNMR test), emulsifiable concentrate (EC), gram (g), growth stage (GS), hour (h), kilogram (s) (kg), least significant difference (LSD), litre (s) (litre), metre (s) (m), metric ton (s) (M.T.), Millable cane (s) (m.c.), milligram (s) (mg), minute (time) (min), melting point (m.p.), page (p.) pages (pp.), parts per million (ppm), percentage (%), post-emergence (post-em), pre-emergence (pre-em), probability (p), quantity (qty.), relative humidity (rh), second (time unit) (sec.), standard error (S.E), standard error of mean(s) (SEM), soluble powder (s.p.), species (singular) (sp.), species (plural) (spp.), square metre (m²), subspecies (ssp.), temperature (temp.), tons cane per hectare (TCH), tons sugar per hectare (TSH), variety (var), volume (vol), weight (wt), wettable powder (w.p.)
- References should be cited in the text with the year of publication in parenthesis e.g. Rostrom (1974), (Rostrom, 1974), MacColl, 1976 ; Mitchel and Beardsley, *et. al.* 1978). In the list of references, the sequence of references should be arranged alphabetically with the last name of the author (s), followed by initials (e.g. Beardsley, J.W. 1978). The reference should include names of all authors, date of publication, complete title, journal name, volume number and page numbers. The title journal should be abbreviated according to the style of chemical abstract.
- References from books should be cited as follows :
Steel, R. G. D. and Torrie, J. H. 1960. Principles and procedures of statistics. McGrawhill Book Company, Inc., London., 481 p.
- References from an edited book should be cited as follows :
Bennett, F. D. 1969. Tachinid flies as biological control agents for sugarcane moth borers. *In* Pests of sugarcane, J. R. Williams, J. R. Metcalfe, R. W. Mungomery and R. Mathes (eds). Elsevier Publishing Company, Amsterdam. pp. 117-148.
- References from Annual Reports should be cited as follows :
SRTI Annual Report, 1983. Sugarcane Research and Training Institute, Ishurdi, Pabna, Bangladesh. Annual Report 1982, pp. 8-11 (page range of the topic).
- Other reports or memelographs without author may be cited as "Anonymous" with year of publication, address of publisher and last page of the report.
- Authors would receive 20 copies of reprints free of cost.
- The manuscript should be submitted in duplicate to THE EDITOR, BANGLADESH JOURNAL OF SUGARCANE, SUGARCANE RESEARCH & TRAINING INSTITUTE, ISHURDI, PABNA, BANGLADESH.
- To follow the style of the latest issue.

CONTENTS

Assessment of cane damage caused by root stock borer <i>Emmalocera depressella</i> Swinhoe and effects of pesticides on the pest — M.A. H.Miah, R. Kundu, A. Mannan and M. Abdullah	1
Transmission of ratoon stunting disease and its effect on yield of sugarcane — S. Rahman, S.M.N. Nahar, M.I. Talukder, M. Iqbal and M.A. Malek.	5
Assessment of yield loss in two promising varieties due to white leaf disease — M.I. Talukder, M.A. Malek and S. Rahman	9
Reaction of some promising sugarcane clones to top - rot disease — S.M.N. Nahar, M. Iqbal, M.A. Malek, S. Rahman, M.I. Talukder and M. Kalimuddin	12
A comparative study on the effect of stripping and non-stripping in sugarcane marcotte — M.A. Miah and A. Awal	15
Effect of interrow spacing on stalk population, yield and quality of sugarcane — O.O. Oworu	18
Evaluation of the fertility status of the Unilorin Sugar Research Institute Farm — S.S. Afolabi	25
Effect of NPKSZn fertilization on sugarcane in calcareous soils — M.K.A. Chowdhury and M.H. Rahman.	31
Efficacy of cassava peeling and siam leaf ammendments in controlling <i>Meloidogyne incognita</i> on sugarcane — E.O. Salawu.	36
Effect of Furadan 3G and Ekalux 5G in controlling whitegrubs and nematodes — M.M. Biswas, A. Mannan, R. Kundu, M. Abdullah and M.A. H. Miah	42
Resource productivity in sugarcane production — M.H. Kabir	48
Trash management and green manuring on sugarcane yield — S.A. Imam, M. Ali, S. M. Moslemuddin and A.H.M.D. Hossain	52
Gur from sweet sorghum — M.A.A. Sarkar, S.B.M.F. Rahman, M.A. Jabber, S.C. Saha and M.J. Hoque	57
Scientific Notes :	
Performance of some varieties/promising clones in the sandy soil of Setabganj Sugar Mills — M.A. Miah, A. Awal, M.A. Karim and A.K.M. Azad	61
Calcium and magnesium fertilization of sugarcane — S.B.M.F. Rahman, A.B.M.M. Rahman, M.A.A. Sarkar and S.C. Saha	64
Effectiveness of sulphur-coated urea on sugarcane — S.B.M.F. Rahman, S.C. Saha and M.A.A. Sarkar	67
Efficiency of <i>Trichogramma australicum</i> Girault in parasitising sugarcane stem borer eggs under laboratory condition — M.A. Alam, R. Kundu, A. Mannan and M. Abdullah	70
Incidence of sugarcane diseases at Sugarcane Research & Training Institute Farm — M. Iqbal, M.A. Malek and S. Rahman.	72
Physiological responses of <i>Saccharum</i> species to anoxic flooding stress — A.B. M. M. Rahman	75
