

BANGLADESH JOURNAL OF SUGARCANE

GUIDE FOR AUTHORS

- The Bangladesh Journal of Sugarcane annually publishes articles on Sugarcane agriculture and sugar processing.
- Articles must be original reports of research, not previously or simultaneously published.
- The manuscripts should be written in English and typed in double space in one side of 11" x 8½" size bond paper with good margin in all sides. The text, quotation, table, illustration, footnote and literature citation should be double spaced.
- Numerical data should be presented in the form of either tables or graphs, but not in both. Tables and figures with their caption should be numbered in Arabic numerical and submitted in separate sheet. Line drawings should be 3 times larger than they are to appear in the journal.
- Photographs (120 mm x 170 mm) should be in glossy prints with good dark and light contrast with appropriate caption. Diagram, drawing should be drawn with durable ink on thick white drawing paper.
- The article should have a concise but meaningful title. The author (s) name and place of research should follow the title. An informative ABSTRACT, not more than 150 words should precede the introduction of the paper. The paper should then be arranged in the following order: (I) INTRODUCTION (II) MATERIALS AND METHODS (III) RESULTS AND DISCUSSION (IV) ACKNOWLEDGEMENT(S) (if any) and (V) REFERENCE(S).
- The abbreviations mentioned here under may be used in the tables/graphs without further definition: active ingredient (a.i.), boiling point (b.p.), centimetre (s) (cm), commercial cane sugar (C.C.S), concentration (concn), concentration required to kill 50% of test organism (LC₅₀), day (s) (d), days after harvesting (DAH), days after treatment (DAT), days after plantation (DAP), dry matter (d.m.), Duncan's New Multiple Ranges test (DNMR test), emulsifiable concentrate (EC), gram (g), growth stage (GS), hour (h), kilogram (s) (kg), least significant difference (LSD), litre(s) (litre), metre (s) (m), metric ton(s) (M.T.), Millable cane(s) (m.c.), milligram (s) (mg), minute (time) (min), melting point (m.p.), page (p.), pages (pp.), parts per million (ppm), percentage (%), post-emergence (post-em), pre-emergence (pre-em), probability (p), quantity (qty.), relative humidity (rh), second (time unit) (sec.), standard error (S.E), standard error of means (s) (SEM), soluble power (s.p.), species (singular) (sp.), species (plural) (spp.), square metre (m²), subspecies (ssp.), temperature (temp.), tons cane per hectare (TCH), tons sugar per hectare (TSH), variety (var), volume (vol), weight (wt), wettable powder (w.p).
- References should be cited in the text with the year of publication in parenthesis e.g. Rostrom (1974), (Rostrom, 1974), MacColl, 1976; Mitchel and Beardsley, *et. al.* (1978). In the list of references, the sequence of references should be arranged alphabetically with the last name of the author (s), followed by initials (e.g. Beardsley, N.W. 1978). The references should include names of all authors, date of publication, complete title, journal name, volume number and page numbers. The title journal should be abbreviated according to the style of chemical abstract.
- References from books should be cited as follows:
Steel, R.G.D. and Torrie, J.H. 1960. Principles and procedures of statistics. McGrawhill Book Company, Inc., London., 481 p.
- References from an edited book should be cited as follows:
Bennett, F.D. 1969. Tachinid flies as biological control agents for sugarcane moth borers. In Pests of sugarcane, J.R. Williams, J.R. Metcalfe, R.W. Mungomery and R. Mathes (eds). Elsevier Publishing Company, Amsterdam. pp. 117-148.
- References from Annual Reports should be cited as follows:
SRTI Annual Report, 1983. Sugarcane Research and Training Institute, Ishurdi, Pabna, Bangladesh. Annual Report 1982, pp. 8-11 (page range of the topic).
- Other reports or memoirs without author may be cited as "Anonymous" with year of publication, address of publisher and last page of the report.
- Authors would receive 20 copies of reprints free of cost.
- The manuscript should be submitted in duplicate to THE EDITOR, BANGLADESH JOURNAL OF SUGARCANE, SUGARCANE RESEARCH & TRAINING INSTITUTE, ISHURDI, PABNA, BANGLADESH.
- To follow the style of the latest issue.

CONTENTS

Mycoplasma like organism in grassy shoot disease of sugarcane —A.K.M. Kabir, K. Isuno, I.H. Mian and S. Rahman	1
Effect of row and interplant spacings on the productivity of transplanted sugarcane —S.A. Imam, M. Ali, A.H.M.D. Hossain, M.A. Matin and M.Y. Ali	5
Efficacy of Furadan 3G on nematode control in sugarcane —M.M. Biswas, M. Abdullah, A. Mannan and M.A.H. Miah	9
Effects of sulphur on the performance of Co. 975 —S.S. Afolabi	14
Germination response of two sugarcane varieties to ambient temperature —M.A.S. Miah, M.A. Matin and M.A. Hossain	17
Effect of sulphur on growth, yield and sucrose content of sugarcane in Ganges River Flood Plain Soils of Bangladesh —M.H. Rahman, M. Khondaker, S.K. Pal, F. Alam, A.H.M.D. Hossain and M.Y. Ali	23
Influence of ratooning on yield in sugarcane —O.O. Oworu	29
Effects of damping off disease on fuzz germination and seedling mortality of sugarcane —S.M.N. Nahar, S. Rahman and M.A. Miah	33
Effect of red rot fungus and root knot nematode infection on the growth and yield of sugarcane —E.O. Salawu	36
Response of plant nutrients on noncalcareous soils of Satabganj —M.K.A. Chowdhury and M.H. Rahman	41
Effect of planting time on productivity of sugarcane clones inoculated with smut —G. Olaoye and S.B. Agbana	47
Assessment of losses due to wilt (<i>Cephalosporium sacchari</i>, Butler) in sugarcane —M. Iqbal, S. Rahman, S.M.N. Nahar and A.K.M. Kabir	55
Effect of nitrogen fertilization on sugarcane yield and juice quality in Bacita —S.S. Afolabi	59
Effect of age and transplanting technique on survivality of sugarcane seedlings —M.A. Miah, S.R. Saha, A.Awal, and M.A. Karim	63
Variability in the pathogen of pineapple disease of sugarcane —A.K.M. Kabir, S. Rahman, M.M. Kamal and M. Iqbal	68
Effectiveness of neem leaf extract and ethoprop in controlling sugarcane root knot nematode —E.O. Salawu	75
Economics of intercropping with sugarcane in selected areas of North Bengal Sugar Mills zone —M.H. Kabir	81
Micronutrient status of sugarcane as affected by sulphitation press-mud with nitrogen —N.P.S. Yaduvanshi and D.V. Yadav	87
Contribution of net assimilation rate to yield and its components in sugarcane —O.O. Oworu	94

SCIENTIFIC NOTES :

Effect of nitrogen and Furadan 3G on the productivity of sugarcane —M.J. Islam, M.H. Rahman and M.Y. Ali	105
Effect of physiological maturity of sugarcane buds in germination —M.A. Matin, M.A. Hossain and M.A.S. Miah	108
Assessment of losses of sugarcane caused by <i>Striga densiflora</i> —S. Rahman, A.K.M. Kabir, M. Iqbal and M.M. Kamal	111
Optimization of productive tillers in sugarcane —M.A.S. Miah, M.A. Matin and M.A. Hossain	114
Influence of different planting techniques on the tillering and productivity of sugarcane —A.B.M.M. Rahman and M.A. Matin	117
