

BANGLADESH JOURNAL OF SUGARCANE

GUIDE FOR AUTHORS

- The Bangladesh Journal of Sugarcane annually publishes articles on Sugarcane agriculture and sugar processing
- Articles must be original reports of research, not previously or simultaneously published.
- The manuscripts should be written in English and typed in double space in one side of 11" x 8½" size bond paper with good margin in all sides. The text, quotation, table, illustration, footnote and literature citation should be double spaced.
- Numerical data should be presented in the form of either tables or graphs, but not in both. Tables and figures with their caption should be numbered in Arabic numerical and submitted in separate sheet. Line drawings should be 3 times larger than they are to appear in the journal.
- Photographs (120 mm x 170 mm) should be in glossy prints with good dark and light contrast with appropriate caption. Diagram, drawing should be drawn with durable ink on thick white drawing paper.
- The article should have a concise but meaningful title. The author (s) name and place of research should follow the title. An informative ABSTRACT, not more than 150 words should precede the introduction of the paper. The paper should then be arranged in the following order: (I) INTRODUCTION (II) MATERIALS AND METHODS (III) RESULTS AND DISCUSSION (IV) ACKNOWLEDGEMENT(S) (if any) and (V) REFERENCE(S).
- The abbreviations mentioned here under may be used in the tables/graphs without further definition: active ingredient (a.i.), boiling point (b.p.), centimetre (s) (cm), commercial cane sugar (C.C.S), concentration (concn), concentration required to kill 50% of test organism (LC₅₀), day (s) (d), days after harvesting (DAH), days after treatment (DAT), days after plantation (DAP), dry matter (d.m.), Duncan's New Multiple Ranges test (DNMR test), emulsifiable concentrate (EC), gram (g), growth stage (GS), hour (h), kilogram (s) (kg), least significant difference (LSD), litre(s) (litre), metre (s) (m), metric ton(s) (MT), Millable cane(s) (m.c), milligram (s) (mg), minute (time) (min), melting point (m.p.), page (p.), pages (pp.), parts per million (ppm), percentage (%), post-emergence (post-em), pre-emergence (pre-em), probability (p), quantity (qty), relative humidity (rh), second (time unit,) (sec.), standard error (S.E), standard error of means (s) (SEM), soluble power (s.p), species (singular) (sp), species (plural) (spp), square metre (m²), subspecies (ssp), temperature (temp.), tons cane per hectare (TCH), tons sugar per hectare (TSH), variety (var), volume (vol), weight (wt), wettable powder (w.p)
- References should be cited in the text with the year of publication in parenthesis e.g. Rostrom (1974), (Rostrom, 1974), MacColl, 1976; Mitchel and Beardsley, *et al* (1978). In the list of references, the sequence of references should be arranged alphabetically with the last name of the author (s), followed by initials (e.g. Beardsley, N.W. 1978). The references should include names of all authors, date of publication, complete title, journal name, volume number and page numbers. The title journal should be abbreviated according to the style of chemical abstract.
- References from books should be cited as follows:
Steel, R.G.D. and Torrie, J.H. 1960. Principles and procedures of statistics. McGrawhill Book Company, Inc., London., 481 p.
- References from an edited book should be cited as follows:
Bennett, F.D. 1969. Tachinid flies as biological control agents for sugarcane moth borers. In Pests of sugarcane, J.R. Williams, J.R. Metcalfe, R.W. Mungomery and R. Mathes (eds). Elsevier Publishing Company, Amsterdam. pp. 117-148.
- References from Annual Reports should be cited as follows:
SRTI Annual Report, 1983. Sugarcane Research and Training Institute, Ishurdi, Pabna, Bangladesh. Annual Report 1982, pp. 8-11 (page range of the topic).
- Other reports or memoirs without author may be cited as "Anonymous" with year of publication, address of publisher and last page of the report.
- Authors would receive 20 copies of reprints free of cost.
- The manuscript should be submitted in duplicate to THE EDITOR, BANGLADESH JOURNAL OF SUGARCANE, SUGARCANE RESEARCH & TRAINING INSTITUTE, ISHURDI, PABNA, BANGLADESH.
- To follow the style of the latest issue

CONTENTS (Continued)

Association between Cane Yield and Quality Components in Sugarcane Clones— Sk.A.Mannan, M.A.Mannan, A.Awal and M.A.Miah	112
Performance of Some Promising Clones and Released Varieties of Sugarcane in Himalayan Piedmont Plain Soil—M.A. Miah, A.Awal, S.M.N. Nahar, Sk.A. Mannan and M. Yasin Ali	116
Effects of Tiller and Leaf Management in Sugarcane—M.A.S.Miah, M.A.Hossain and M.A.Matin	120
Effect of Levels and Time of Potassium application on Yield and Quality of Rainfed Sugarcane—U.P.Sinha, S.S.Sinha, R.C.Choudhary and S.Kumar	126
Performance of Some Newly Released Sugarcane Varieties in Growers field under Tista Flood Plain Soil—G.C.Paul, M.K.Rahman, A.H.M.D.Hossain and M.J.Alam	131
Study on the Control of Red Rot Pathogen through Moist Hot Air Therapy <i>In Vitro</i> — S.Rahman, A.K.M.Kabir, I.Talukder and M.Iqbal	134
Profitability in Cultivation of Sugarcane Intercropped with Potato in Old Himalayan Piedmont Plain Soils—M.J.Islam, M.M.Uddin, M.N. Uddin Khan	137
Effects of Time and Methods of Planting, on Yield and Quality of Sugarcane— M.A.Hoque, M.M.Uddin and N.U.Khan	146
Effects of Plant Spacing in Transplanted Sugarcane—M.K.Rahman, A.H.M.D.Hossain, M.J.Alam and S.A.Imam	152
Pathogenicity and Control of the Root-Knot Nematode <i>Meloidogyne Incognita</i> on Sugarcane—O.A.Fademi and S.B.Agbana	159
SCIENTIFIC NOTES	
Evaluation of Short Term Farmers Training on Spaced Transplanting of Sugarcane— M.S.Rahman, M.S.Islam, M.A.Hossain, M.K.Bashar, A.M.Musa, M.F.Haq and S.N.A.Chowdhury	167
Screening of some Sugarcane Cultivars for Nutrient (NPK) Absorption and Yield under Waterlogged condition—K.Ramalinga Swamy, N.R.Swamy, P.Jamuna and K.Veerabhadra Rao	171
Bacterium Colonies Associated with Ratoon Stunting Disease of Sugarcane— A.K.M.Kabir, K.Tsuno, I.H.Miah and S. Rahman	176
Effects of Soil Covering on Germination In Sugarcane—M.A.Hossain, S.Ali and M.A.S. Miah	180
Germination of Sugarcane Smut Spores at Different Temperatures and Incubation Period—M.Iqbal and S.Rahman	183
Studies on Maturity Behaviour and Varietal Suitability for Gur Manufacture— M.A.Jabber, M.R.Alam and M.A.Hossain	185
Diffusion of Spaced Transplanting Technology through Farmer's Training—M.K.Ali, M.K.Bashar and S.K.Pal	188

CONTENTS

Assessment of Losses due to Red Rot Disease in Sugarcane— S. Rahman, M. Iqbal, S.M.N. Nahar and A.K.M. Kabir	1
Comparative Economics of Sugarcane with Intercrops in Jaipurhat Sugar Mills Area—M.A.M.Miah, S.A.Sabur and M.S.Islam	5
Response of Sugarcane to Irrigation at different Growth Stages—A.S.M.Amanullah, S.U.K.Eusufzai and A.H.M.Delwar Hossain	10
Effects of Root-Knot Nematode on Growth and Development of Sugarcane— E.O.Salawu	14
Irrigation Scheduling of Sugarcane for High Ganges Flood Plain—M.A Hossain, A.H.M.Delwar Hossain and A.C.Barma	18
Influence of Phosphorus on the Yield and Yield Contributing Parameters of Sugarcane in Tista Meander Floodplain Soils of Bangladesh— M.A.Majid and F.Alam	27
Potassium : Its Influence on Sugarcane Production in Ganges River Floodplain Soils of Bangladesh—F.Alam, M.A.Majid and M.H.Rahman	32
Efficacy of Some Inoculating Methods for Smut Disease Development in Sugarcane—M.Iqbal, S.Rahman, A.K.M.Kabir and M.I.Talukder,	41
Sugarcane Based Intercropping in Selected Areas of Rajshahi Sugar Mills Zone— M.S.Rahman, M.F.Haq, M.S.Islam, M.K.Bashar, N.Ara and P.K. Sarder	44
Variation in Five Isolates of <i>Colletotrichum falcatum</i> the Causal Fungus of Red Rot of Sugarcane—I. Mian, D.K.Pyne, M.S.Rahman, M.I.Talukder and A.K.M.Kabir	49
Effect of Rate and Time of Sulphur Application on Sugarcane—S.C.Saha, M.M.Uddin and S.R.Ghosh	60
Performance Study of Sugarcane Hand Detrashers—S.M.I.Hossain, S.U.K.Eusufzai, M.A.Hossain and M.A.B.Siddique	68
Response of Transplanted Sugarcane to Nitrogen under different Inter-plant Spacing—S.C.Saha, S.R.Ghosh and M.M.Uddin	74
Development of Planting Hand Hoe for Sugarcane—S.M.I.Hossain, S.U.K.Eusufzai, M.A.Hossain and M.A.B.Siddique	83
Effect of Granular Insecticides on White Grubs and Top Shoot Borer and Yield of Sugarcane—M.M.Biswas, R.Kundu and A.Mannan	89
Use of Granular Insecticides in Controlling Sugarcane Rootstock borer, <i>Emmalocera depressella</i> Swinhoe—M.M.Biswas, M.A. Alam, R.Kundu, M.Abdullah and A.Mannan	95
Impact of Spaced Transplanted Sugarcane in the FSR site Ishurdi—M.Khalilur Rahman, A.H.M.Delwar Hossain and M. Jahangir Alam	100
Interactions of Nitrogen and Interplant Spacing on Sugarcane yield under Irrigated Condition—M.A.Hossain, A.H.M.D.Hossain, S.U.K.Eusufzai, M.A.B. Siddique and S.M.I.Hossain,	105
