

BANGLADESH JOURNAL OF SUGARCANE

GUIDE FOR AUTHORS

- The Bangladesh Journal of Sugarcane annually publishes articles on Sugarcane agriculture and sugar processing.
- Articles must be original reports of research, not previously or simultaneously published.
- The manuscripts should be written in English and typed in double space in one side of 11" x 8½" size bond paper with good margin in all sides. The text, quotation, table, illustration, footnote and literature citation should be double spaced.
- Numerical data should be presented in the form of either tables or graphs, but not in both. Tables and figures with their caption should be numbered in Arabic numerical and submitted in separate sheet. Line drawings should be 3 times larger than they are to appear in the journal.
- Photographs (120 mm x 170 mm) should be in glossy prints with good dark and light contrast with appropriate caption. Diagram, drawing should be drawn with durable ink on thick white drawing paper.
- The article should have a concise but meaningful title. The author (s) name and place of research should follow the title. An informative ABSTRACT, not more than 150 words should precede the introduction of the paper. The paper should then be arranged in the following order: (I) INTRODUCTION (II) MATERIALS AND METHODS (III) RESULTS AND DISCUSSION (IV) ACKNOWLEDGEMENT(S) (if any) and (V) REFERENCE(S).
- The abbreviations mentioned here under may be used in the tables/graphs without further definition: active ingredient (a.i.), boiling point (b.p.), centimetre (s) (cm), commercial cane sugar (C.C.S), concentration (concn), concentration required to kill 50% of test organism (LC₅₀), day (s) (d), days after harvesting (DAH), days after treatment (DAT), days after plantation (DAP), dry matter (d.m.), Duncan's New Multiple Ranges test (DNMR test), emulsifiable concentrate (EC), gram (g), growth stage (GS), hour (h), kilogram (s) (kg), least significant difference (LSD), litre(s) (litre), metre (s) (m), metric ton(s) (M T), Millable cane(s) (m.c.), milligram (s) (mg), minute (time) (min), melting point (m.p.), page (p), pages (pp), parts per million (ppm), percentage (%), post-emergence (post-em), pre-emergence (pre-em), probability (p), quantity (qty.), relative humidity (rh), second (time unit) (sec.), standard error (S.E), standard error of means (s) (SEM), soluble power (s.p.), specifics (singular) (sp), species (plural) (spp), square metre (m²), subspecies (ssp), temperature (temp), tons cane per hectare (TCH), tons sugar per hectare (TSH), variety (var), volume (vol), weight (wt), wettable powder (w.p).
- References should be cited in the text with the year of publication in parenthesis e.g. Rostrom (1974), (Rostrom, 1974), MacColl, 1976; Mitchel and Beardsley, *et. al.* (1978). In the list of references, the sequence of references should be arranged alphabetically with the last name of the author (s), followed by initials (e.g. Beardsley, N.W. 1978). The references should include names of all authors, date of publication, complete title, journal name, volume number and page numbers. The title journal should be abbreviated according to the style of chemical abstract.
- References from books should be cited as follows:
Steel, R.G.D. and Torrie, J.H. 1960. Principles and procedures of statistics. McGrawhill Book Company, Inc., London, 481 p.
- References from an edited book should be cited as follows:
Bennett, F.D. 1969. Tachinid flies as biological control agents for sugarcane moth borers. In Pests of sugarcane, J.R. Williams, J.R. Metcalfe, R.W. Mungomery and R. Mathes (eds). Elsevier Publishing Company, Amsterdam. pp. 117-148.
- References from Annual Reports should be cited as follows:
SRTI Annual Report, 1983. Sugarcane Research and Training Institute, Ishurdi, Pabna, Bangladesh. Annual Report 1982, pp. 8-11 (page range of the topic).
- Other reports or mimeographs without author may be cited as "Anonymous" with year of publication, address of publisher and last page of the report.
- Authors would receive 20 copies of reprints free of cost.
- The manuscript should be submitted in duplicate to THE EDITOR, BANGLADESH JOURNAL OF SUGARCANE, SUGARCANE RESEARCH & TRAINING INSTITUTE, ISHURDI, PABNA, BANGLADESH.
- To follow the style of the latest issue

CONTENTS

✓ Chemical control of Early Shoot Borer of sugarcane— R. Kundu, M. Abdullah and M.A.H. Miah	1
Studies on the seed-borne fungi of sugarcane— A.K.M. Kabir and S. Rahman	6
Design and fabrication of power operated sugarcane sett cutting machine— S.M.I. Hossain, S.U.K. Eusufzai and M.A. Hossain	13
Measures to enhance germination in sugarcane under field condition— M.A. Hossain, M.A.S. Miah and S. Ali	19
Effects of potassium on the growth, yield and recovery of sugarcane variety L. Jaba-C— M.M. Kabir and G.K. Bose	22
Root-knot resistance and growth response of sugarcane cultivars— E.O. Salawu	26
An assessment of knowledge gap on STP cane of sugarcane growers at Mongalbari Subzone under Joypurhat Sugar Mills— S.K. Pal, M.K. Basher, K.M.M. Islam and M.K. Ali	31
Effects of nitrogen on growth, yield and sucrose content of transplanted sugarcane under Tista Meander Flood Plain Soils of Bangladesh— F. Alam and M.A. Majid	36
Effects of heat therapy on germination of six sugarcane varieties— S. Rahman, M.A. Hossain and M. Ali	41
Effects of nitrogen on spaced transplanted sugarcane— M.H. Rahman, M.K.A. Chowdhury, M. Khondakar, S.K. Pal and M.Y. Ali	45
Germination behaviour of SRTI released seven sugarcane varieties— M.A. Hossain, S. Ali and M.A.S. Miah	49
Performance of summer transplanted sugarcane under rice-wheat-sugarcane cropping sequence— M.J. Islam, M.M. Uddin, N.U. Khan, S. Khatun and S.A. Imam	53
Growth and sporulation of red rot pathogen on sugarcane juice media— M. Iqbal, S.M.N. Nahar, S. Rahman and M.A. Malek	59
Effects of seedcane size and nitrogen fertilizer on crop establishment, growth and yield of sugarcane variety Co. 957— Y.A. Abayomi	62
Yield performance of advanced sugarcane growers of Joypurhat Sugar Mills area— M.K. Bashar, S.K. Pal, M.K. Ali, M.L. Kabir and N. Ara	68
Effects of mulching duration on the yield of intercrop potato and intercropped sugarcane— M. Shaheen, M. Ali, S.A. Imam and M.K. Rahman	74
Establishment of settings and yield of spaced transplanted sugarcane as influenced by irrigation— M.A. Hossain, A.H.M.D. Hossain, S.U.K. Eusufzai and S.M.I. Hossain	79
Performance of spaced transplanting method of sugarcane in Farming Systems Research sites— M.K. Rahman, S.A. Imam, A.H.M.D. Hossain, M.J. Islam and M.J. Alam	89
SCIENTIFIC NOTES	
Effects of planting depth on germination, growth and yield of two sugarcane varieties— S.S. Afolabi	95
Effectiveness of SRTI Farmers Training Programme : A Class-room study— S.K. Pal, M.K. Bashar, K.M.M. Islam and M.K. Ali	99
Performance of advanced potato clones as intercrop with sugarcane— M. Shaheen, M.A. Matin, M. Ali, M.K. Rahman, S.A. Imam and A.H.M.D. Hossain	102
Screening sugarcane for flood tolerance— M.A.S. Miah, M.A. Hossain and S. Ali	105
Comparative performance of different STP techniques under irrigated condition— S.A. Imam, A.H.M.D. Hossain, M. Ali, M.A. Matin, M.K. Rahman and M. Shaheen	108
Varietal suitability for gur manufacture— M.A. Jabber, M.R. Alam, M.A. Hossain, S. Ali and M.A.S. Miah	112
Design and fabrication of a sugarcane bud chip cutting machine— S.U.K. Eusufzai, S.M.I. Hossain and M.A. Hossain	115
