

BANGLADESH JOURNAL OF SUGARCANE

GUIDE FOR AUTHORS

- The Bangladesh Journal of Sugarcane annually publishes articles on Sugarcane agriculture and sugar processing.
- Articles must be original reports of research, not previously or simultaneously published.
- The manuscripts should be written in English and typed in double space in one side of 11" x 8½" size bond paper with good margin in all sides. The text, quotation, table, illustration, footnote and literature citation should be double spaced.
- Numerical data should be presented in the form of either tables or graphs, but not in both. Tables and figures with their caption should be numbered in Arabic numerical and submitted in separate sheet. Line drawings should be 3 times larger than they are to appear in the journal.
- Photographs (120 mm x 170 mm) should be in glossy prints with good dark and light contrast with appropriate caption. Diagram, drawing should be drawn with durable ink on thick white drawing paper.
- The article should have a concise but meaningful title. The author (s) name and place of research should follow the title. An informative ABSTRACT, not more than 150 words should precede the introduction of the paper. The paper should then be arranged in the following order : (I) INTRODUCTION (II) MATERIALS AND METHODS (III) RESULTS AND DISCUSSION (IV) ACKNOWLEDGEMENT(S) (if any) and (V) REFERENCE(S).
- The abbreviations mentioned here under may be used in the tables/graphs without further definition : active ingredient (a.i.), boiling point (b.p.), centimetre (s) (cm), commercial cane sugar (C.C.S), concentration (concn), concentration required to kill 50% of test organism (LC₅₀), day (s) (d), days after harvesting (DAH), days after treatment (DAT), days after plantation (DAP), dry matter (d.m.), Duncan's New Multiple Range test (DNMR test), emulsifiable concentrate (EC), gram (g), growth stage (GS), hour (h), kilogram (s) (kg), least significant difference (LSD), litre (s) (litre), metre (s) (m), metric ton (s) (M.T.), Millable cane (s) (m.c.), milligram (s) (mg), minute (time) (min), melting point (m.p.), page (p.) pages (pp.), parts per million (ppm), percentage (%), post-emergence (post-em), pre-emergence (pre-em), probability (p), quantity (qty.), relative humidity (rh), second (time unit) (sec.), standard error (S.E), standard error of mean(s) (SEM), soluble powder (s.p.), species (singular) (sp.), species (plural) (spp.), square metre (m²), subspecies (ssp.), temperature (temp.), tons cane per hectare (TCH), tons sugar per hectare (TSH), variety (var), volume (vol), weight (wt), wettable powder (w.p.)
- References should be cited in the text with the year of publication in parenthesis e.g. Rostrom (1974), (Rostrom, 1974), MacColl, 1976; Mitchel and Beardsley, *et. al.* 1978). In the list of references, the sequence of references should be arranged alphabetically with the last name of the author (s), followed by initials (e.g. Beardsley, J.W. 1978). The reference should include names of all authors, date of publication, complete title, journal name, volume number and page numbers. The title journal should be abbreviated according to the style of chemical abstract.
- References from books should be cited as follows :
Steel, R. G. D. and Torria, J. H. 1960. Principles and procedures of statistics. McGrawhill Book Company, Inc., London., 481 p.
- References from an edited book should be cited as follows :
Bennett, F. D. 1969. Tachinid flies as biological control agents for sugarcane moth borers. *In* Pests of sugarcane, J. R. Williams, J. R. Metcalfe, R. W. Mungomery and R. Mathes (eds). Elsevier Publishing Company, Amsterdam. pp. 117-148.
- References from Annual Reports should be cited as follows :
SRTI Annual Report, 1983. Sugarcane Research and Training Institute, Ishurdi, Pabna, Bangladesh. Annual Report 1982, pp. 8-11 (page range of the topic).
- Other reports or memoirs without author may be cited as "Anonymous" with year of publication, address of publisher and last page of the report.
- Authors would receive 20 copies of reprints free of cost.
- The manuscript should be submitted in duplicate to THE EDITOR, BANGLADESH JOURNAL OF SUGARCANE, SUGARCANE RESEARCH & TRAINING INSTITUTE, ISHURDI, PABNA, BANGLADESH.
- To follow the style of the latest issue.

CONTENTS

Tillering and productivity of autumn and summer transplanted sugarcane— A.B.M.M. Rahman, M.A. Matin and M.Y. Ali	1
Performance of some promising clones of sugarcane as plant and ratoon crops— M.A. Miah, M. Rahman, A. Awal, And M.A. Karim	9
Association of yield and quality characters in sugarcane— G. Olaoye and S.B. Agbana	14
Studies on the control of termites with chemical pesticides— R. Kundu, M.A. Alam, M.M. Biswas, M. Abdullah, and M.A.H. Miah	20
The efficacy of a liquid fertilizer (Agromax) on yield and its components in sugarcane—O.O. Oworu	26
Association of some leaf endowments with the sugar content of sugarcane— A.B.M.M. Rahman and M.R. Alam	33
Control of white leaf disease by hot water treatment— S. Rahman, M.A. Malek, A.K.M. Kabir and I. Talukder	37
The effects of <i>Meloidogyne incognita</i> and <i>Heterodera sacchari</i> on the growth of sugarcane—E.O. Salawu	43
Influence of different organic manures on sugarcane productivity— M. Khondaker, M.H. Rahman, M.K.A. Chowdhury and A.H.M.D. Hossain	48
Effect of flowering on yield and quality of sugarcane—O.O. Oworu	53
Determination of effective dose of gamma ray for sugarcane mutation— M.A. Mannan, M.A. Miah, A. Awal, M.A. Karim, and M. Rahman	60
Effects of some chemicals on red rot and wilt pathogens of sugarcane <i>in vitro</i> — M. Iqbal, S.M.N. Nahar, S. Rahman, A.K.M. Kabir and M.A. Malek	65
Quantitative estimate of some morphological characters in sugarcane— S.A. Mannan and M.A. Karim	69
Effects of soil treatment on sugarcane seedlings— M.A. Miah, S.R. Saha, S.M.N. Nahar and A. Awal	73
Performance of intercropped sugarcane under reduced fertilizer management— S.A. Imam, M. Ali, S.M. Moslemuddin and A.H.M.D. Hossain	77
Trends and growth pattern of sugarcane in Bangladesh— M.H. Kabir	83
SCIENTIFIC NOTES :	
Influence of bag and date of planting on the growth and vigour of sugarcane seedlings— M.A.S. Miah, M.A. Matin	97
The potential of sugarcane seedlings (Rayungans) as planting material— A.B.M.M. Rahman, M.A. Hossain and I.A. Matin	101
The relationship between planting depth and growth characteristics of sugarcane in Nigeria—S.S. Afolabi	104
Effects of lodging on cane quality— M.A. Jabber, M.A. Matin and M.A.S. Miah	109
Effects of zinc on sugarcane— a preliminary study— M.K.A. Chowdhury and M.H. Rahman	112
