

BANGLADESH JOURNAL OF SUGARCANE

GUIDE FOR AUTHORS

- The Bangladesh Journal of Sugarcane annually publishes articles on Sugarcane agriculture and sugar processing.
- Articles must be original reports of research, not previously or simultaneously published.
- The manuscripts should be written in English and typed in double space in one side of 11" × 8½" size bond paper with good margin in all sides. The text, quotation, table, illustration, footnote and literature citation should be double spaced.
- Numerical data should be presented in the form of either tables or graphs, but not in both. Tables and figures with their caption should be numbered in Arabic numerical and submitted in separate sheet. Line drawings should be 3 times larger than they are to appear in the journal.
- Photographs (120 mm × 170 mm) should be in glossy prints with good dark and light contrast with appropriate caption. Diagram, drawing should be drawn with durable ink on thick white drawing paper.
- The article should have a concise but meaningful title. The author (s) name and place of research should follow the title. An informative ABSTRACT, not more than 150 words should precede the introduction of the paper. The paper should then be arranged in the following order: (I) INTRODUCTION (II) MATERIALS AND METHODS (III) RESULTS AND DISCUSSION (IV) ACKNOWLEDGEMENT(S) (if any) and (V) REFERENCE(S).
- The abbreviations mentioned here under may be used in the tables/graphs without further definition: active ingredient (a.i.), boiling point (b.p.), centimetre (s) (cm), commercial cane sugar (C.C.S), concentration (concn), concentration required to kill 50% of test organism (LC₅₀), day (s) (d), days after harvesting (DAH), days after treatment (DAT), days after plantation (DAP), dry matter (d.m.), Duncan's New Multiple Ranges test (DNMR test), emulsifiable concentrate (EC), gram (g), growth stage (GS), hour (h), kilogram (s) (kg), least significant difference (LSD), litre(s) (litre), metre (s) (m), metric ton(s) (MT), Millable cane(s) (m.c.), milligram (s) (mg), minute (time) (min), melting point (m.p.), page (p.) pages (pp.), parts per million (ppm), percentage (%), post-emergence (post-em), pre-emergence (pre-em), probability (p), quantity (qty), relative humidity (rh), second (time unit.) (sec), standard error (S.E), standard error of means (s) (SEM), soluble power (s.p), species (singular) (sp.), species (plural) (spp.), square metre (m²), subspecies (ssp.), temperature (temp.), tons cane per hectare (TCH), tons sugar per hectare (TSH), variety (var), volume (vol), weight (wt), wettable powder (w.p).
- References should be cited in the text with the year of publication in parenthesis e.g. Rostrom (1974), (Rostrom, 1974), MacColl, 1976; Mitchel and Beardsley, *et. al* (1978). In the list of references, the sequence of references should be arranged alphabetically with the last name of the author (s), followed by initials (e.g. Beardsley, N.W. 1978). The references should include names of all authors, date of publication, complete title, journal name, volume number and page numbers. The title journal should be abbreviated according to the style of chemical abstract.
- References from books should be cited as follows:
Steel, R.G.D. and Torrie, J.H. 1960. Principles and procedures of statistics McGrawhill Book Company, Inc., London., 481 p.
- References from an edited book should be cited as follows:
Bennett, F.D. 1969. Tachinid flies as biological control agents for sugarcane moth borers. *In* Pests of sugarcane, J.R. Williams, J.R. Metcalfe, R.W. Mungomery and R. Mathes (eds). Elsevier Publishing Company, Amsterdam. pp. 117-148.
- References from Annual Reports should be cited as follows:
SRTI Annual Report, 1983. Sugarcane Research and Training Institute, Ishurdi, Pabna, Bangladesh. Annual Report 1982, pp. 8-11 (page range of the topic).
- Other reports or memoirs without author may be cited as "Anonymous" with year of publication, address of publisher and last page of the report.
- Authors would receive 20 copies of reprints free of cost.
- The manuscript should be submitted in duplicate to THE EDITOR, BANGLADESH JOURNAL OF SUGARCANE, SUGARCANE RESEARCH & TRAINING INSTITUTE, ISHURDI, PABNA, BANGLADESH.
- To follow the style of the latest issue.

CONTENTS

Tiller dynamics in sugarcane variety Isd. 16 — M.A. Matin, M.A. Hossain and M.A.S. Miah	1
Groundnut intercropping with sugarcane — M.M. Haque, S.S. Zaman, M.A. Maleque and M.M. Rahman	7
Inter-plant spacing on the yield of transplanted sugarcane — M.M. Uddin, S.C. Saha and M.J. Islam	11
Use of granular pesticides in controlling whitegrub and top shoot borer — A. Mannan, M.M. Biswas and R. Kundu	17
Germination response to ambient temperature in raising sugarcane seedlings — M.A. Hossain, S. Ali and M.A.S. Miah	21
Effect of potassium on the yield and quality of late harvested sugarcane — K.R. Swamy	27
Performance of three sugarcane varieties as transplant and ratoon cane under rainfed condition — M.A. Matin, A.B.M.M. Rahman and M.Y. Ali	32
Effect of nitrogen fertilizer on irrigated and rainfed spaced transplanted sugarcane — H.M. Rahman, M. Khondaker, S.K. Pal, F. Alam, M.A. Majid, M.W. Zaman and M.Y. Ali	37
Row arrangement for mustard intercropping with sugarcane — M. Shaheen, A.H.M.D. Hossain, M.A. Gaffer and M.A. Sadaque	41
Impact of different technologies on sugarcane and sugar yield — M. Ali, M.M. Uddin, A.H.M.D. Hossain and M. Shaheen	47
Association of <i>Striga densiflora</i> with sugarcane — M.A. Matin, N. Islam, M.A. Gaffer and A.B.M.M. Rahman	52
Influence of potassium on yield and nutrient composition of sugarcane — M. Khondaker, M. Shaheen and Wahid-uz-Zaman	64
Efficacy of sett treating fungicides in sugarcane production — S. Rahman, A.K.M. Kabir, I. Talukder and M. Iqbal	72
Row adjustment of sugarcane on the yield of intercropped cane and potato — A. Ali, A.H.M.D. Hossain, S.A. Imam and M. Shaheen	78
Effect of nitrogen on growth, yield and sucrose content of sugarcane — M.H. Rahman, M. Khondaker, S.K. Pal, M.A. Majid, M.W. Zaman and F. Alam	83
An economic analysis of sugarcane production technology — M.H. Kabir	87
Effect of different planting techniques on the tillering and productivity of sugarcane — M.A. Matin, A.B.M.M. Rahman, M.Y. Ali, M.A.S. Miah and M.A. Hossain	97
SCIENTIFIC NOTES	
An electron microscopic study on causal organism of white leaf disease of sugarcane — M.I. Talukder, M.I.H. Miah and K. Tsuno	103
Potential of maize stalk for gur manufacture — M.A. Jabber, M.A. Matin, M.A. Hossain and M.A.S. Miah	106
Effect of vesimax on sugarcane yield — A.H.M.D. Hossain, M. Ali and M. Shaheen	109
A preliminary study on the control of <i>Striga densiflora</i> — M.I. Talukder and S. Rahman	112
Assessment on cane losses due to indiscriminate harvesting — M. Ali and M.A. Matin	114
Evaluation of a one-day training programme : farmer's training organised by Sugarcane Research & Training Institute — S.K. Pal, M.K. Ali, M.K. Bashir and A.K.M.H. Bhuiyan	116
