

BANGLADESH JOURNAL OF SUGARCANE GUIDE FOR AUTHORS

- The Bangladesh Journal of Sugarcane annually publishes articles on sugarcane agriculture and sugar processing.
- Articles must be original reports of research, not previously or simultaneously published.
- The manuscripts should be written in English and typed in double space in one side of 11" x 8 1/2" size bond paper with good margin in all sides. The text, quotation, table, illustration and literature citation should be double spaced.
- Numerical data should be presented in the form of either tables or graphs, but not in both. Tables and figures with their caption should be numbered in Arabic and submitted in separate sheet. Line drawings should be 3 times larger than they are to appear in the journal.
- Photographs (120 mm x 170 mm) should be in glossy prints with good dark and light contrast with appropriate caption. Diagram, drawing should be drawn with durable ink on thick white drawing paper.
- The article should have a concise but meaningful title. The author(s) name and place of research should follow the title. An informative ABSTRACT, not more than 150 words should precede the introduction of the paper. The paper should then be arranged in the following order: (I) INTRODUCTION (II) MATERIALS AND METHODS (III) RESULTS AND DISCUSSION (IV) ACKNOWLEDGEMENT(S) (if any) and (V) REFERENCE(S).
- The abbreviations mentioned hereunder may be used in the tables/graphs without further definition: active ingredient (a.i.), boiling point (b.p.), centimetre(s) (cm), commercial cane sugar (C.C.S.), concentration (concn.), concentration required to kill 50% of test organism (LC₅₀), day(s) (d), days after harvesting (DAH), days after treatment (DAT), days after plantation (DAP), dry matter (d.m.), Duncan's New Multiple Range test (DNMR test), emulsifiable concentrate (EC), gram (g), growth stage (GS), hour (h), kilogram(s) (kg), least significant difference (LSD), litre(s) (litre), metre(s) (m), metric ton(s) (MT), Millable cane(s) (m.c.), milligram(s) (mg), minute(time) (min), melting point (m.p.), page (p.), pages (pp.), parts per million (ppm), percentage (%), post-emergence (post-em), pre-emergence (pre-em), probability (p), quantity (qty), relative humidity (rh), second(time unit) (sec), standard error (S.E.), standard error of means(s) (SEM.), soluble powder (s.p.), species(singular) (sp.), species(plural), (spp), square metre (m²), subspecies (ssp), temperature (temp.), tons sugar per hectare (TSH), variety (var.), volume (vol.), weight (wt.), wettable powder (w.p.)
- References should be cited in the text with the year of publication in parenthesis e.g. Rostrom (1974), (Rostrom, 1974), MacColl, 1976, Mitchel and Beardsley, *et al* (1978). In the list of references, the sequence of references should be arranged alphabetically with the last name of the author(s), followed by initials (e.g. Beardsley, N.W. 1978). The references should include names of all authors, date of publication, complete title, journal name, volume number and page numbers. The title journal should be abbreviated according to the style of chemical abstract.
- References from books should be cited as follows:
Steel, R.G.D. and Torrie, J.H. 1960. Principles and procedures of statistics. McGrawhill Book Company, Inc. London. 481p.
- References from an edited book should be cited as follows:
Bennett, F.D. 1969. Tachinid flies as biological control agents for sugarcane moth borers. *In Pests of sugarcane*. J.R. Williams, J.R. Metcalfe, R.W. Mungomery and R. Mathes (eds). Elsevier Publishing Company, Amsterdam. pp.(Page range).
- References from Annual Reports should be cited as follows:
SRTI Annual Report, 1983. Sugarcane Research and Training Institute, Ishurdi, Pabna, Bangladesh.
Annual Report 1982. pp. 8-11 (page range of the topic).
- Other reports or memoirs without author may be cited as "Anonymous" with year of publication, address of publisher and last page of the report.
- Authors would receive 25 copies of reprints free of cost.
- The manuscripts should be submitted in duplicate to THE EDITOR, BANGLADESH JOURNAL OF SUGARCANE, SUGARCANE RESEARCH & TRAINING INSTITUTE, ISHURDI, PABNA, BANGLADESH.
- To follow the style of the latest issue.

CONTENTS (Continued)

Increasing sugarcane productivity through manipulation of fertilizer level and spacing — M.A.S. Miah and M.A. Hossain	85
Relationships of selected characteristics of sugarcane growers with adoption of intercropping in sugar mills zone — M. K. Bashir, M. A. Kashem, A. Halim, A.S.M.Z. Karim and N. Ara.	91
Effects of drought on morphological characters of sugarcane — M. A. Hossain, M.A. S. Miah, M. M. Rahman and M. Abul Hossain	98
Tiller management and its effects on sugarcane production — M. A. Hoque, M.A. Majid and M.L. Kabir	103
Fertilizer management for sugarcane-potato intercropping in the Old Himalayan Piedmont plain soils of Bangladesh — S.M. Bokhtiar, M.A. Majid and M.J. Islam	107
Effects of magnesium on sugarcane in Piedmont plain soils of Bangladesh — S. C. Saha and S.R. Ghosh	113
Performance of soybean and some other crops as intercrop with paired row transplanted sugarcane — A. H. M. D. Hossain, M.K. Rahman, M.L. Kabir, M.A. Matin and M.A. Alam	119
Reaction of some promising sugarcane clones to red stripe disease — M. Iqbal, S. Rahman, I. Talukder, A.K.M. Kabir and M.S. Rahman	123
Influence of Thomaskali-R a complex fertilizer on sugarcane — M. A. Majid and F. Alam	127
Socio-cultural attributes of some progressive sugarcane growers — S. K. Pal, M. K. Bashir, M. A. Kader and M.K. Ali	130
Abundance and damage estimation of rootstock borer in sugarcane — M. Abdullah and M.M.A. Sardar	133
Sucrose loss in sugarcane due to rootstock borer infestation — M. Abdullah and M.M.A. Sardar	136
Efficacy of different insecticides against termites for raising sugarcane settlings in soil bed — M.M. Biswas and Mir Bahauddin	138
Comparative performance of different planting techniques of sugarcane — G.C. Paul and S.K. Pal	141

CONTENTS

Nutrients requirement of some sugarcane varieties under Gangetic alluvial soils — M.A. Majid and F. Alam	1
Survey of nematodes associated with sugarcane in nigeria — O. A. Fademi, S. B. Agbana and F. O. Obakin	7
Loss assessment of sugarcane due to rat and jackal in Sripur — R. K. Pandit, M. E. Haque and M. A. Karim	13
Growth and yield of sugarcane as influenced by organic manures — M. Khondaker, M.A. Majid, F. Alam and M.H. Rahman	19
Germination responses of six sugarcane genotypes to osmotically-induced water stress — Y.A. Abayomi and G.O. Mobolaji	23
Effects of urea fertilizer and placement methods on yield and yield components of sugarcane — S.S. Afolabi	31
Response of sugarcane to phosphorus fertilization in an Alfisol — S. S. Afolabi	36
Standardizing the use of sugarcane hydraulic press for estimation of commercial recoverable sugar — Karim Bakhsh Malik, Faqir Hussain and Khalid Mahmood	41
Influence of soil moisture on root distribution pattern of sugarcane — M.A.B. Siddique, M.A.S. Miah, S.M.I. Hossain and M.A. Hossain	51
Comparative economic study of sugarcane grown under conventional and spaced transplanting technology — S. Ahmed, M.M. Rahman, F. Khanam, A.K.M.M. Hossain and A.K.M.M. Zaman	54
Effects of potassium on sugarcane production in Piedmont plain soils of Bangladesh — F. Alam, M.A. Majid, and M.M. Uddin	59
Sustainability of sugarcane productivity in sugarcane plant-ratoon cropping system — K. Ramalinga Swamy, P. Jamuna, K. Veerabhadra Rao, Y. Satyanarayana and T.K.V.V. Mallikarjuna Rao	66
Impact of irrigation on establishment of STP settlements and yield parameters of sugarcane — A.S.M. Amanullah, M. Yasin Ali and N.U. Khan	72
Performance of double intercropping in paired row planting of sugarcane with different planting techniques — N.U. Khan, S.K. Pal, A.S.M. Amanullah, M.J. Islam and A.H.M.D. Hossain	77
Effects of potassium on yield of sugarcane in Tista Meander flood plain soils of Bangladesh — S.M. Bokhtiar, M.A. Majid, F. Alam and S. Rahman	81
