

Monthly Disease Profile (Indoor)											
	0-28 Days		29d-11mth		1-4yrs		5-14yrs		15-24yrs		2
	Male	Female	Male	Female	Male	Female	Male	Female	Male	Female	Male
Abortion											
Acid Burn											
AIDS/HIV											
Allergic Reaction											
Anal fistula											
Set Value Zero											
Anemia											
Angina Pectoris											
Ante partum hemorrhage											
Anxiety & Depressive Disorders											
Appendicitis											
Set Value Zero											
Arsenicosis											
Arthritis											
Assault											
Bacillary Dysentery											
Bone tumor											
Set Value Zero											
Brain Tumor											
Bronchial Asthma											
Bronchiectasis											
Bronchiolitis											
Burn (Others)											
Set Value Zero											
Ca-bladder											
Ca-Breast											
Ca-Cervix											

Ca-Colon											
Ca-esophagus											
Set Value Zero											
Ca-Gall bladder											
Ca-Kidney											
Ca-Larynx											
Ca-liver											
Ca-Lungs											
Set Value Zero											
Ca-Oral Cavity											
Ca-Pancreas											
Ca-prostate											
Ca-Rectum & Anal Canal											
Ca-scrotum											
Set Value Zero											
Ca-Skin											
Ca-Stomach											
Ca-thyroid											
Cataract											
Cholecystitis											
Set Value Zero											
Cholelithiasis											
Chronic obstructive pulmonary diseases											
Cirrhosis of liver											
Congenital Heart Disease											
Corneal Ulcer											
Set Value Zero											
CVA											
Dengue											
Diabetes Mellitus											
Diarrhea											
Diphtheria											

Set Value Zero											
Disc Prolapse											
Drowning/ Near Drowning											
Drug Reaction											
Dysentery											
Ectopic pregnancy											
Set Value Zero											
Electric Shock											
Emphysema											
Encephalitis											
Enteric Fever											
Epilepsy											
Set Value Zero											
Fibroid											
Filariasis											
Food Poisoning											
Fracture											
Fungal infections											
Set Value Zero											
Gangrene											
Glaucoma											
Glomerulonephritis											
Gonorrhea											
Head Injury											
Set Value Zero											
Heart failure											
Hemolytic Jaundice											
Hemorrhoids (Piles)											
Hepatic failure											
Hepatitis											
Set Value Zero											
Hernia											

Hydrocele											
Hydrocephalous											
Hydronephrosis											
Hypercholesteremia											
Set Value Zero											
Hypertension											
Hyperthyroidism											
Hypertrophied Prostate											
Hypothyroidism											
Infective Endocarditis											
Set Value Zero											
Intestinal Obstruction											
Kala-azar											
Leprosy											
Leukemia											
Liver Abscess											
Set Value Zero											
Lymphoma											
Lymphosarcoma											
Malaria (Vivax / Falciparum)											
Mastoiditis											
Measles											
Set Value Zero											
Meningitis											
Mental retardation											
Mumps											
Myocardial infarction											
Nasal Polyp											
Set Value Zero											
Nasopharyngeal Carcinoma											
Nephrotic Syndrome											
Night Blindness											

Obstructed Labour											
Obstructive jaundice											
Set Value Zero											
Orchitis											
Osteomyelitis											
Osteosarcoma											
Other											
Ovarian tumour											
Set Value Zero											
Pancreatitis											
Pelvic Infectious Disease											
Peptic Ulcer											
Perforation (GI Tract)											
Peripheral Vascular Disease											
Set Value Zero											
Pleural effusion											
Pneumonia											
Pneumothorax											
Poisoning											
Poliomyelitis											
Set Value Zero											
Postpartum hemorrhage											
Prostatic Tumour											
Prostatitis											
Protein Energy Malnutrition											
Pulmonary fibrosis											
Set Value Zero											
Pyelonephritis											
Rabies											
Rectal prolapse											
Refractive error											
Renal failure											
Set Value Zero											

Renal Stone											
Retinal Problem											
Rheumatic fever											
Rhinitis											
Rickets											
Set Value Zero											
Road Traffic Accident											
Rupture Uterus											
Scabies											
Schizophrenia											
Septicemia											
Set Value Zero											
Snake Bite											
Spinal Cord Injury											
Suppurative Otitis Media											
Syphilis											
Tetanus											
Set Value Zero											
Thalassemia											
Tonsillitis											
Tuberculosis (Extra-Pulmonary)											
Tuberculosis (Pulmonary)											
UP Congestive Cardiac Failure											
Set Value Zero											
Urethritis											
Urinary Stone Disease											
Urinary Tract Infection											
Valvular Heart Disease											
Viral fever											
Whooping cough											
Worm Infestation (Intestinal)											
Set Value Zero
