RESEARCH ACTIVITIES OF PUBLICATION

1. Dr. Bipasha Mosharof : "Evaluation of the role of multi Detector computed tomography (MDCT) in characterization of adrenal tumor with histopathological correlation".
2. Dr. Kowser Md. Sakib : "Diagnostic accuracy of ultrasound guided percutaneous liver biopsy in malignant hepatic lesions.
3. Dr. Puja Bhattacharjee : "Comparison between ultrasound TIRADS and thyroid scintigraphy for characterization of solitary thyroid nodule.
4. Dr. Noshin Naila : "Correlation between sonography evaluation of chronic renal parenchymal disease with estimated glomerular filtration rate in CKD patients.
5. Dr. Bushra tul Jannat : "Evaluating the efficacy of CT abdomen in distinguishing benign categories of cystic renal disease. A comprehensive analysis".
6. Dr. Nigir Sultana : " Role of renal resistive index as noninvasive indicator of functional deterioration in patients with chronic kidney disease.
7. Dr. Tania Sultana : "Comparison of 3D tom synthesis & digital mammography findings to characterize malignant breast lesion."
8. Dr. Syeda Mehnaj Sultana : " The Diagnostic performance of O-RADS magnetic resonance imaging (MRI) scoring system for the assessment of malignant ovarian mass.
9. Dr. Farida Yesmin : "Diagnostic performance of Doppler resistive index in differentiation benign and malignant ovarian masses.
10. Dr. Ahmed Imran : Determination of congestion index, portal vein diameter and velocity by duplex study for prediction of oesophageal varices in cirrhotic patients.
11. Dr. Kazi Subrina Siddique : Comparison of plain X-ray and magnetic resonance imaging findings in the early diagnosis of avascular necrosis of femoral head by.
12. Dr. Symaiya akter shimu : Role of diffusion weighted magnetic resonance imaging in predicting grade of intracranial gliomas in adult age group.
13. Dr. Aklima Akhter nazneen : Performance of multidetector computed tomography (MDCT) in diagnosis and radiological staging of neuroblastoma in paediatric age group.
14. Dr. kazi subrina Siddique : Magnetic Resonance imaging findings in the early diagnosis of avascular necrosis of femoral head by.
15. Dr. Sumaiya akter shimu : Role of diffusion weighted magnetic resonance imaging in predicting grade of intracranial gliomas in adult age group.
16. Dr. Aklima Akhter nazneen : Performance of multidetector computed tomography (MDCT) in diagnosis and radiological staging of neuroblastoma in pediatric age group.
17. Dr. Nasrin Sultana : Association of internal carotid artery stenosis by Doppler study and acute infarct volume by diffusion restriction magnetic resonance imaging in ischemic stroke patients.
