

Standardized Crediting Framework (SCF) in Bangladesh

Listing document for solar home systems

This document provides guidance to the Activity Participant¹ to prepare an project for listing. Once the Listing Document is complete, the Activity Participant² should submit it to the Climate Change and International Convention Wing of the Department of Environment (DoE), who is the Article 6 DNA Secretariat.

Guidance on how to complete this template is provided in the Annex. The Annex should be deleted prior to submission.

Template version	1.0	Date approved	DD/MM/YYYY
-------------------------	-----	----------------------	------------

I. GENERAL ACTIVITY³ INFORMATION

			Ref no
1	Activity title:		
2	National activity lead institution:		
3	Activity ID#		
4	SCF methodology and version	Solar Home Systems in Bangladesh, Version 1.0	
5	Activity contact: Name		
6	Activity contact: Email		
7	Activity contact: Phone		
8	Activity start date (DD/MM/YYYY)		
9	Crediting period start date (DD/MM/YYYY)		
10	Crediting period end date (DD/MM/YYYY)		
11	Date of submission of this document (DD/MM/YYYY)		

II. PROGRAM SITES/BOUNDARY

			Ref no
12	Geographic scope of the activity		
a.	If activity scope is provincial, please list all provinces		
b.	If there are specific sites, please provide specific locations of all sites		

¹ The public or private entity that is the developer or owner of the activity (i.e., project or program) and/or has the legal right to the mitigation outcomes.

² The public or private entity that is the developer or owner of the activity (i.e., project or program) and/or has the legal right to the mitigation outcomes.

³ Refers to the activity (i.e., projects or programs) described in the activity documentation under the CDM, SCF, Article 6.4 Mechanism, or another Crediting Mechanism, capable of generating Emission Reductions under a crediting mechanism.

III. ELIGIBILITY CONDITIONS

13	Activity description (one to two paragraphs): Households in rural communities are supplied with electricity from solar home systems. The activity supplies electricity to consumers who, prior to project implementation, were not connected to a national or regional grid or mini-grid.				Ref no
14	Does the activity equipment comply with the applicable regional, national and/or international standards? Please provide the relevant documentation, as necessary.	<input type="checkbox"/> Yes	<input type="checkbox"/> No		
15	Is the activity registered under another carbon market standard?	<input type="checkbox"/> N/A	<input type="checkbox"/> Yes	<input type="checkbox"/> No	
16	If yes, have any emission reductions been issued under another carbon market standard for the mitigation activity after the start of the SCF crediting period? Please provide the relevant documentation, as necessary.	<input type="checkbox"/> N/A	<input type="checkbox"/> Yes	<input type="checkbox"/> No	

IV. EMISSION REDUCTIONS AND MONITORING

					Ref no
17	Estimated annual emission reductions over crediting period (tCO ₂ e) Please provide the relevant documentation, as necessary.				
18	Has a detailed monitoring and operational plan been developed for the activity? If not, by what date will it be in place (DD/MM/YYYY)?	<input type="checkbox"/> Yes	<input type="checkbox"/> No		
	If not, by what date will it be in place (DD/MM/YYYY)?				
19	Additional monitoring plan information (if any).				

V. STAKEHOLDER CONSULTATION

					Ref no
20	Is a stakeholder consultation required to implement the activity? (If no, explain reason below):	<input type="checkbox"/> Yes	<input type="checkbox"/> No		
21	If required, was a stakeholder consultation conducted in compliance with the national requirements and based on international good practice as applicable? Please provide the relevant documentation, as necessary.	<input type="checkbox"/> N/A	<input type="checkbox"/> Yes	<input type="checkbox"/> No	
22	Were comments provided by local stakeholders taken into account, in compliance with the national requirements and based on international good practice, as applicable? Please provide the relevant documentation, as necessary.	<input type="checkbox"/> N/A	<input type="checkbox"/> Yes	<input type="checkbox"/> No	

VI. ENVIRONMENTAL IMPACT ASSESSMENT

					Ref no
23	Is an environmental impact assessment required to implement the activity? (If no, explain reason)	<input type="checkbox"/> Yes	<input type="checkbox"/> No		
24	If required, was the environmental impact assessment approved by the relevant national authority?	<input type="checkbox"/> N/A	<input type="checkbox"/> Yes	<input type="checkbox"/> No	
	If yes, please provide date of approval: DD/MM/YYYY				

	Please provide the relevant documentation, as necessary.			
--	--	--	--	--

VII. REFERENCES/DOCUMENTATION

Add extra lines as necessary.

Ref No	Description of documentation

ANNEX: GUIDELINES FOR COMPLETING LISTING DOCUMENT TEMPLATE

This section provides guidance to the Activity Participant on how to complete the listing document. For any question where documentation is required, the Activity Participant should list the reference number of the document and then provide a complete listing of documentation/sources in the table provided in section VII.

I. GENERAL ACTIVITY⁴ INFORMATION

	Question	Instructions
	Date approved	The A6 DNA Secretariat indicates the date of the last version of the listing document approved by the Article 6 DNA Governing Board to ensure that the most recent version is used.
1	Activity title	Self-explanatory.
2	National activity lead institution	Self-explanatory.
3	Activity ID#	This will be assigned by the A6 DNA Secretariat.
4	Methodology and version	Include full title and version number of methodology under SCF.
5	Activity contact: Name	Self-explanatory.
6	Activity contact: Email	Self-explanatory.
7	Activity contact: Phone	Self-explanatory.
8	Activity start date (DD/MM/YYYY)	This is the date of the earliest activities that will be included in the activity, as defined by the installation date for a household. Please attach relevant documentation as annex to the submission.
9	Crediting period start date (DD/MM/YYYY)	The crediting period start date is either the listing date or the activity start date, whichever is earlier.
10	Crediting period end date (DD/MM/YYYY)	The crediting period end date. The end of the Ci-Dev pilot transaction crediting period should align with the contract period for the activities under the Ci-Dev agreement (i.e., ending by 31 December 2024). [refer to Program Standard section 4.9]
11	Date of submission of this form (DD/MM/YYYY)	The date that the listing document is submitted to the A6 DNA Secretariat.

II. PROGRAM SITES/BOUNDARY

	Question	Instructions
12	Geographic scope of activity	Explain the geographic extent of the activity within Bangladesh.(eg national, provincial)
a.	If activity scope is provincial, please list all provinces	List all the provinces included.
b.	If there are specific sites, please provide specific locations of all sites	Only complete this if the activity has a list of specific larger investments – otherwise, the earlier questions will suffice. Attach relevant documentation if necessary.

⁴ Activity refers to both project and program

III. ELIGIBILITY CONDITIONS

	Question	Instructions
13	Activity description.	Describe the goals of the activity, technologies used, roll-out schedule and standards/quality control applied.
14	Does the activity equipment comply with the applicable regional, national and/or international standards?	Check “yes” if the activity can document compliance with national and/or international standards for the technologies listed – this documentation will be reviewed at verification. Attach relevant documentation.
15	Have any emission reductions been issued under another carbon market standard for the mitigation activity after the start of the SCF crediting period?	Check “no” if the activity has not issued any emission reductions under other carbon market standard for the mitigation activity after the start of the SCF crediting period. Attach relevant documentation (e.g. deregistration from other standard or issuance data from other standard showing there is no issuance from the relevant period).
16	Is the activity registered under another carbon market standard for the crediting of mitigation after the start of the SCF crediting period?	If the response is “yes”, provide evidence that the activity has not issued any emission reductions under other carbon market standard for the mitigation activity after the start of the SCF crediting period. Attach relevant documentation (see previous question).

IV. EMISSION REDUCTIONS AND MONITORING

	Question	Instructions
17	Estimated annual emission reductions (tCO _{2e})?	Calculate based on the methodology and transparent ex-ante assumptions about the value of monitored parameters. Attach relevant documentation.
18	Has a detailed monitoring and operational plan been developed for the activity? If not, by what date will it be in place (DD/MM/YYYY)?	While activities are not required to have a complete monitoring plan prior to listing, this is preferred. If the plan is not yet available, the activity participant must provide a date when it will be submitted.
19	Additional monitoring plan information (if any)?	If the monitoring plan is complete, provide a short overview of the plan. Attach relevant documentation.

V. STAKEHOLDER CONSULTATION

	Question	Instructions
20	Is stakeholder consultation required to implement the program? (If no, explain reason):	Programs that already completed stakeholder consultation under the clean development mechanism are not required to conduct an additional consultation process.
21	If required, was stakeholder consultation conducted in compliance with the national requirements and based on international good practice as applicable?	Check “yes” if the activity can document compliance with national requirements and good practice – this documentation will be reviewed at verification. Attach relevant documentation.
22	Were comments provided by local stakeholders taken into account, in compliance with the national requirements and based on international good practice, as applicable?	Check “yes” if the activity can document how comments were taken into account (e.g. written record of comments and the changes made to documentation, or explanation of why no change is needed) – this documentation will be reviewed at verification. Attach relevant documentation.

VI. ENVIRONMENTAL IMPACT ASSESSMENT

	Question	Instructions
23	Is an environmental impact assessment required to implement the activity? (If no, explain reason):	For activities that do not require an EIA under Bangladeshi law, activity participants will need to show evidence of this exemption during verification (e.g. reference to specific regulations and legislation, as well as technologies included in the program). Attach relevant documentation.
24	If required, was the environmental impact assessment approved by the relevant national authority? Insert date of approval: DD/MM/YYYY	If an EIA is required, it must be approved for the program to be listed. Attach relevant documentation.

VII. REFERENCES/DOCUMENTATION

List here the reference number of the file submitted as supporting evidence, as well as the file title and a short description of the documentation if this is not already evident in the file title.

VIII. VERSION HISTORY

Version	Date	Contents revised
1.0	DD/MM/YYYY
