175209. Design services; creating and maintaining weblogs; hosting of weblogs; provision of information relating to the aforementioned services. Country Road Clothing Pty Ltd., 658 Church Street, Richmond VIC 3121, Australia. an Australian Company. Merchants. 15/05/2014. C/o. Remfry & Son Limited, 56, New Eskaton Road, 4th Floor, Dhaka-1000. The mark is proposed to be used in Bangladesh.

Class- 42

AIRBUS

"Advertised before acceptance under Section 17(1) Proviso"

176220. Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; computer programming; industrial, scientific and

technological services and research and design relating thereto; industrial analysis; testing of computer system installations; computer programming for the creation and recovery of computer data in databases; scientific and technological consultancy, other than commercial; engineering with the aim of providing scientific and technological evaluations, calculations, research and opinions in the field of science and technology; engineering, services in the fields of physics and chemistry; technical consultancy, assessment, research, testing and monitoring in the field of technology, in particular with regard to transport, environmental protection, energy technology; material testing; providing of weather information, in particular weather forecasting; design and development of computer hardware and software; design of computer graphics; engineering, engineering (technical assessment); software maintenance; mechanical research; research in the field of aviation and space travel; technological services in the field of flight simulation; technical project studies; research and consultancy in the field of technology; research and consultancy in the field of environmental protection; industrial design; interior furnishing; design of interior decor; graphic design; maintenance of computer software; certification and recertification of vehicles (quality, standards); technical flight tests; support and assistance for participants in sporting events, in particular through the organisation and conducting of sporting events for advertising and sales promotion, sponsoring in the form of advertising and financial sponsoring; professional consultancy and drawing up of plans (other than business), namely consultancy for the production, manufacture and finishing of installations, in particular satellites, ground stations and related installations and apparatus, construction consultancy, technical project studies; engineering; conducting of scientific and technical studies, projects and scientific and technical consultancy with regard to satellites, spacecraft, launch rockets, in particular carrier rockets and space stations; preparation and creation of scientific, physical and technical analyses and surveys with regard to the manufacture, use, servicing and maintenance of satellites, spacecraft, launch rockets, in particular carrier rockets and space stations; scientific and technical consultancy and consultations in relation to computers, drawing up of construction plans; technical consultancy relating to the procurement and providing of technical information and know-how, establishing and configuration, design (development) and management of databases and legal databases; computer programming for electronic apparatus, equipment and instruments, computers, systems for remote data processing and telematics systems, multimedia hardware; multimedia programming; rental of computers, software, scanners, recorders, burners, printers, printer peripheral apparatus and modems; technical and technological design consultancy and conducting of technical and technological project planning other than in relation to business management; franchising, namely procurement and providing of know-how and technical design, planning and research information; franchising, namely installation of software and/or database development and

maintenance of software and/or databases and legal databases; programming of software for multimedia apparatus; rental of computers, programs, scanners, recorders, printers and peripheral apparatus for printers; technical consultancy and support, in particular technical organisation and services being necessary for consultancy in the field of telecommunications and information technology; technical and technological testing and development of mechanical, electric and computer interfaces (integration) between a launch rocket, in particular carrier rockets, and a spacecraft or satellites; testing of the compatibility and integrity of electric connections; technical or technological consultancy in the field of telecommunications and data processing; technical consultancy in the field of information technology; computer security services relating to flight security, flight monitoring and flight support based on a satellite infrastructure; technical software consultancy in the field of telecommunications; technical information in relation to the aviation and space travel sector; scientific, technical and technological examination, development and adaptation of telecommunications networks and radio communications networks; design, development and updating (for others) of software (recorded programs) for the management, administration, architecture management, configuration and protection of local or remote networks for speech, images, data and multimedia data communications, tests, inspections, analyses and/or signal monitoring; scientific, technical and technological development, optimisation, performance monitoring and testing of methods, algorithms and processing and software modules for computerised signal processing; inspection, testing, analysis and/or monitoring of system algorithms for generating navigation or cartography data; scientific, technical and technological development, optimisation, inspection (technical testing) and realisation and conducting of technical tests with regard to the performance of methods, algorithms and processing and software modules for generating navigation or cartography data; performance monitoring and testing; signal testing and verification; scientific and technical development of algorithms and methods for computerised signal processing; services for the development and/or providing of results, in particular in the form of analysis reports, graphics, charts and diagrams; scientific and technological services and research and design relating thereto, in particular scientific and technical development, engineering, technical examination, technical consultancy, optimisation and improvement; conducting of industrial analyses and measurements; scientific and technological services and research and design relating thereto in the field of data processing, analysis and conversion; procurement and providing of programs on data networks, production (design, development) and updating of database programs; scientific, technical and technological studies on user requirements and evaluation of the architectures of information and reconnaissance systems, solely in the fields of reconnaissance and geography for defence and security purposes; scientific, technical and technological studies in relation to adaptation, integration,

qualification and build-into operations for logistics support, solely in the fields of reconnaissance and geography for defence and security purposes; scientific and technological services and research and design relating thereto, in particular scientific and technical development and engineering, solely in the fields of reconnaissance and geography for defence and security purposes; scientific and technical examination, scientific and technical consultancy, optimisation and improvement, solely in the fields of reconnaissance and geography for defence and security purposes; scientific, technical and technological data processing; scientific, technical and technological data analysis and data conversion in the field of reconnaissance and geography for defence and security; engineering with regard to the design and troubleshooting of digital radio communications networks for the security forces; design, development and updating (for others) of software (recorded programs) for position determination, surveillance and monitoring in specific geographical areas; design, development and updating (for others) of command and monitoring software (recorded programs) for position determination, surveillance and monitoring in specific geographical areas; engineering with regard to the scientific evaluation, assessment and appraisal of the preparation and/or providing of results, in particular in the form of analytical reports, graphics, charts and diagrams; software programming, in particular for others; software programming and maintenance, including of software platforms for secure end-to-end transactions, management of customer relationships and handling of transactions; procurement and providing of protection and security services for business communications via electronic networks, in particular for protection against illegal network access; scientific, technical and technological consultancy, consultancy, hotlines and maintenance for computer hardware, computer software and wireless data networks in all of the aforesaid fields, scientific, technical and technological consultancy centres in all of the aforesaid fields; testing (technical tests), inspection (technical examination), scientific, technical and technological analysis and/or monitoring of navigation signals; scientific, technical and technological development, optimisation, performance monitoring and testing of methods, algorithms and processing and software modules for the computerised processing of navigation signals; inspections (technical examinations), tests (technical tests), scientific, technical and technological analyses and/or monitoring of system algorithms for generating navigation data; scientific, technical and technological development, optimisation, performance monitoring and testing of methods, algorithms and processing and software modules for generating navigation data; engineering in the field of performance monitoring and testing; engineering in the field of navigation signal testing and verification; engineering in the field of the development of algorithms and methods for computerised navigation signal processing; engineering in the field of the development of algorithms and methods for generating navigation data; scientific evaluation, assessment and appraisal for generating extrapolated data

for navigation; engineering with regard to scientific and technological evaluation, assessment, appraisal and research, in particular scientific, technical and technological development, engineering, scientific, technical and technological examination, scientific, technical and technological consultancy, optimisation, calibration, arranging, testing and improvement of antennas, satellite dishes and reflective and radiating objects, technical examination and identification of segments of space in two or three dimensions; scientific, technical and technological measurement, characterisation and verification, scientific, technical and technological examination, digitalisation through scanning and sampling of electromagnetic fields; scientific and technological engineering evaluations, assessments, appraisals and research in the technological field of data processing, data analysis and data conversion; creation (design, development) of database programs; conducting of technical tests, examinations, verification, analyses and/or monitoring of signals belonging to vehicles and apparatus for locomotion and propulsion by land, air and water (in particular helicopters, rotary-wing aircraft and drones); scientific, technical and technological development, optimisation, performance monitoring and testing of methods, algorithms and processing and software modules for the computerised processing of signals belonging to vehicles and apparatus for locomotion and propulsion by land, air and water (in particular helicopters, rotary-wing aircraft and drones); inspections (technical examination), technical tests, technical analyses and/or monitoring of system algorithms for generating data; engineering in the field of performance monitoring and testing in relation to vehicles and apparatus for locomotion and propulsion by land, air or water (in particular helicopters, rotary-wing aircraft and drones); engineering in the field of signal testing and verification; engineering in the field of the development of algorithms and methods for computerised signal processing; scientific evaluation, assessment and appraisal of the preparation and providing of results, in particular in the form of analytical reports, graphics, charts and diagrams; scientific and technological engineering services and research and design relating thereto in the field of data processing, analysis and conversion; scientific, technical and technological examinations, development and adaptation of telecommunications networks and radio communications networks in relation to vehicles and apparatus for locomotion and propulsion by land, air or water (in particular helicopters, rotary-wing aircraft and drones); design, development and updating (for others) of software (recorded programs) for the management, administration, architecture, configuration and protection of local or remote networks for speech, images, data and multimedia data communications networks belonging to vehicles and apparatus for locomotion and propulsion by land, air or water (in particular helicopters, rotary-wing aircraft and drones); design, development and updating (for others) of software (recorded programs) for the design, development, management and securing of access to computer and Internet protocol (IP) networks, programming and maintenance of

computer software for military, aviation and space travel applications; research and development of new products for military and aviation applications; network security services for the assessment, monitoring and control of data security within information technology networks; scientific and technological services, namely procurement of data generated by Earth observation satellites, precision measurements of terrain models, physical measurements (characterisation of objects observed from the ground in accordance with spectral signatures, atmospheric influences, geometric and radiometric models from on-board cameras); research and design in the field of imaging methods by means of satellite and the exploitation of related data, namely design of processing methods for observation data from satellites, development of processing protocols for the exploitation of satellite data with the aim of producing geographical information and engineering in connection with the programming of aerial photographs from a network of observation satellites; industrial analysis and research in the field of satellite imagery and the exploitation of related data; radar research, imaging methods by means of radar; design and development of computers and software; regeneration (recovery) of databases; consultancy in the field of environmental protection; conversion of data and computer programs (other than physical conversion); examination, assessment and surveying; examination, assessment and surveying of oil fields; geological assessment and surveying; geological research; analysis of the exploitation of oil fields; land surveying; crude oil exploration; town planning; production and maintenance of websites, for others; geological exploration; research in the field of cartographical products, country coverage maps and land registers; services relating to technical engineering information and queries with regard to the presentation of online images generated by satellites, in particular geographical images, geographical maps and topographical maps consisting of images generated via satellites and antenna systems; services relating to technical information and queries with regard to the following products: satellites images, in particular geographical images, geographical maps and topographical maps consisting of images generated by satellites and antenna systems; computerised services relating to the treatment and analysis of aerial photographs or satellite images (monochrome or multi-spectral); physics (research), engineering or information technology services in connection with computerised services in relation to the processing of aerial photographs, satellite images (monochrome or multi-spectral); design of databases for global digital contour line models; science and research applications, studies and projects for developing and validation of geo-data in relation to digital contour line models; industrial analysis and research based on digital contour line models for use in the processing and orthorectification of other geo-data and images, modelling of geophysical processes on Earth, calculating signal dispersion in the telecommunications industry and logistics and security applications in transport (aeronautics, vehicles); consultancy during the planning of crisis intervention;

consultancy relating to defence-relevant and security-relevant applications and missions; analysis of the exploitation of oil fields and gas fields; design and development of computers and computer software, computer programming for industry, namely the fire brigade, police and government, with regard to operating systems, customer management, systems for the management of valuables, geographical information systems, computerised construction, real-time visualisation and mobile systems and configuration thereof for use on suitable computer hardware; industrial and scientific research; meteorological information, in particular weather forecasting; design of software; design of computer images; engineering (technical evaluation and assessment); design, research, development, engineering and testing in the field of aircraft, helicopters and rotorcraft; design and development of computers, computer hardware, avionics, communications systems and navigation systems in the field of aircraft, helicopters and rotorcraft; design and development of flight simulators for aircraft, helicopters and rotorcraft; design, development, installation, maintenance and updating of computer software in the field of aircraft, helicopters and rotorcraft; testing of aircraft, helicopters and rotorcraft, in particular security tests; graphic design of schemes for the painting and varnishing of aircraft, helicopters and rotorcraft; rental of flight simulators for aircraft, helicopters and rotorcraft; technical consultancy in the field of aircraft, helicopters and rotorcraft; technical consultancy in the field of aircraft, helicopters and rotorcraft engineering; technical consultancy in the field of avionics for aircraft, helicopters and rotorcraft; integrated software solutions; Big Data solutions: data capture and data collection (simultaneous, comprehensive and cross-functional recording and collection of relevant data and information from various sources), valuable data extraction (precise processing of data and information through observation, monitoring, filtering, reporting and correlation, of procured and retrieved data and simulation data, decision and optimisation assistance), collaboration between various knowledge areas (full access to processed data and information for all parties concerned); condition monitoring of aircraft by means of software; online management software for the contents of documents relating to aircraft; online adaptation software (customisation) (editing, publishing) of documents relating to aircraft; software for scheduled and unscheduled maintenance and servicing of aircraft; software for the management of aircraft repairs; software for flight analysis and aircraft security; software for the maintenance and servicing of aircraft; software in relation to aircraft pilots and flight personnel; flight performance software; engineering solutions for the modification of aircraft; development of customer service solutions for aircraft. Airbus S.A.S., 1, Rond Point Maurice Bellonte, 31707 Blagnac Cedex, France. (A corporation organized and existing under the laws of France), Service Providers. 18/06/2014. C/o. Shahid & Alliance, 30/3 B C Das Street, Lalbagh, Dhaka-1205. The mark is proposed to be used in Bangladesh.
