g system_Type-A & Type-C Teknaf Upazila, Cox's Bazar

Lat	Long	Will the project potentially involve an influx of workers to the project location, and will the influx be considered significant for the local community?
21.01249	92.18786	Under the sub-project of WD-54: 200 nos. Rainwater Harvesting system at HC of Teknaf Upazila, Cox's Bazar under vol-01 intervention, the labor influx is not a significant issue. To perform the work 1-2 nos. unskilled and 3-5 nos. unskilled labors are required for the construction of one unit of RWH All the skilled & unskilled labor will be engaged from the local host community. No additional foreign labor will be engaged. All the skilled labor will stay at labor shed. The frequency and extent of contact; communication between local community and outsiders are limited and controlled by the respective Contractor, LGI and Local DPHE management. Noted that, the engaged workers will be very low in numbers, so that there will be no competition to use those resources.

COVID-19 issue for the sub-project intervention

- Assessing the characteristics of the workforce, including those with underlying health issues or who may be otherwise at risk
 - Confirming workers are fit for work, to include temperature testing and refusing entry to sick workers
- Considering ways to minimize entry/exit to site or the workplace, and limiting contact between workers and the community/general public
- Training workers on hygiene and other preventative measures, and implementing a communication strategy for regular updates and the status of affected workers
 - Treatment of workers who are or should be self-isolating and/or are displaying symptoms
- Assessing risks to continuity of supplies of medicine, water, fuel, food and PPE, taking into account international, national and local supply chains
 - Reduction, storage and disposal of medical waste
 - Adjustments to work practices, to reduce the number of workers and increase social distancing
- Expanding health facilities on-site compared to usual levels, developing relationships with local health care facilities and organize for the treatment of sick workers

For supporting health facilities, plans or procedures will be in place to address the following issues:

- Obtaining adequate supplies of medical PPE, including gowns, aprons, curtains; medical masks and respirators (N95 or FFP2); gloves (medical and heavy duty for cleaners); eye protection (goggles or face screens); hand

Section C3, Social Capital Format

Aiming to seek necessary support to accomplish RWHS schemes in the E&S Screening Process we have listed down the concerned social institutes/bodies working in the area, intended project influence areas to enlist them for the possible inclusion in the management, and monitoring of the sub-projects. List the name of social institutes/ bodies under the given categorization along with the following information. Use separate sheet for each category of social institute/body. The information can be collected through secondary sources such as UNO Office or different development organizations.
