## 1. Project Background

To face the challenges of the 21<sup>st</sup> century, the Government of Bangladesh with the help of international development financing agencies has undertaken a series of structural reform programs in its development activities. As part of development works, the Bangladesh Government and the World Bank jointly implementing a five year long “Dhaka City Neighborhood Upgrading Project” (DCNUP, the Project). The Dhaka South City Corporation (DSCC), under the Local Government Division of the Ministry of Local Government, Rural Development and Cooperatives, is the implementing agency of the project. Dhaka city accounts for about one-fifth of the country's gross domestic product (GDP) and half of formal employment. The mega city also plays an important role in achieving the government's vision of upper-middle income country. Dhaka is one of the world's most densely populated cities. Due to inadequate infrastructure, lack of public amenities and severe traffic congestion, the residents face many difficulties in their everyday lives. The project will cater to the differentiated needs of women and children, elderly and disabled. Women in Dhaka face challenges in terms of mobility, walkability and access to public infrastructure. To improve personal safety and access for women, children and elderly, the project will ensure safe-pleasant mobility, energy-efficient street lighting, Community Center, Green Building, Traffic improvement, and other integrated amenities. The project will also help to enhance green open spaces by improving selected parks, streets and waterfront areas of 4 (four) Neighborhoods of Dhaka: (i) Kamrangirchar; (ii) Lalbagh; (iii) Sutrapur-Nayabazar-Gulistan; and (iv) Khilgaon-Mugdha-Bashabo. It will also pilot interventions for safe mobility and traffic management and incorporate environment-friendly features and energy efficient design principles and materials in all interventions that it will support.

## 2. Subproject Description

The DSCC has identified a subproject at Khilgaon-Basabo for implementation under the project. The subproject includes improvement and construction works of Bashabo Shobuj Boloy in Ward No. 4 under Zone 2 of the DSCC. The subproject is now being used as a playground for adolescent and morning and evening walk place for senior citizens. According to one of the stakeholders, there are 18 organizations with 1300 members who walk in the playground regularly. The adjacent pond is not in use right now but there is a demand from the local community to renovate the pond and to make it useable. The playground proposed for improvement and construction under the subproject is in miserable condition right now as a result the local people are not getting desired benefit from this playground. Physical expansion of the playground is not possible due mainly to compact settlement and high price of land along the playground. There are few trees beside the playground. There is no infrastructural facilities inside or outside of the playground for sports.

The subproject activities include improvement and construction of Shadhinota Moncho, football field with minimum size of international standard, walkway, children playground, multipurpose court, shaded gallery for watching games, separate toilets for male, female and differently abled persons, green room, cricket net practice, separate entry point for public and players, tea stall, guard room, seating arrangement, lighting facilities, trees plantation and beautifications.

The neighborhood and subproject activities in the neighborhood were identified and designed in consultation with and participation of the local communities irrespective of gender, age, education and social status. The subproject location was selected considering the following issues:

- The selected area is much densely and under developed. If the playground is improved and constructed, the local people will be benefitted much;
- If walkway is developed around the playground, the local people including women especially senior citizens will be able to walk joyfully and get health benefit as well;
- Newly-designed playground may bring behavior change among the local people;
- If the “Shadhinata Moncho” is constructed, the community people will be interested in cultural programs and social bondage of the community people will be developed.
- Once the playground is improved and constructed, the people of the area will experience improved city livability and municipal services.

### **3. The Subproject Area**

The subproject is located in the Khilgaon-Bashabo area under the Zone 2 of DSCC. Khilgaon-Bashabo is bounded by DNCC on the North, Shahjahanpur Police Station on the South, Ramna Police Station and Paltan Police Station on the East and Motijheel Police Station on the West. There are land owners and tenants in the locality. There are also many educational institutions, small factories, shops and many more business establishments in the subproject area. There is historical/heritage site like Buddha Mondir within 500 meters of the subproject area. The area developed around the Bashabo Buddha Mondir built during 1962 to conduct religious activities for Buddhist community alongside the prayer, teaching, and meditation. This temple has a medium sized pond inside and there is a large golden statue of Buddha standing on the Lotus. There is also a teaching (Pali Language) center and a prayer hall inside the premise. Densely populated this area attracting both local and foreign tourists. According to the BBS (Bangladesh Bureau of Statistics)-2011, the total area of Ward 4 is .98 sq. kilometer and there are 19,064 households. The Ward has 60,788 residents of whom 43,167 are male and 39,534 are female. The literacy rate of the Ward is 79.5% and sex ratio is 109. The population density ratio of the Ward is 84,389 in per sq. kilometer. There are 354 physically challenged persons in the Ward of whom 223 are male and 131 are female.

Considering 1.2 % inflation rate for per year, the total population of 2021 is approximately 69,311 who will directly or indirectly use Bashabo Shobuj Boloy.

Khilgaon-Bashabo, alike other neighborhoods of the capital city Dhaka, developed as mixed use area of mainly low-high rise buildings. Due mainly to accommodating excess population it was not possible to keep open space for sports. As a result, the local people are somehow availing the given facilities and using the playground.

However, lack of open spaces for playing helps local people and young generation to bolster their stronger community bonding and neighborhood identity. From this social bonding the local people have created Kadomtoli Sangsad, a sports club. According to one of the stakeholders of Bashabo Shobuj Boloy namely Freedom Fighter Dr. Md. Shah Alam, if the playground is developed people of the area will get much benefit.

Khilgaon-Bashabo is considered as low cost densely populated area. Many residents are involved in services and businesses. Festivals in the neighborhoods especially Buddha Purnima, Buddha's birthday attract people from all over the country especially from around the city. The area is dominated mainly by residential, business and educational institutions' usage. There are many educational and religious institutions within the area but the number of open playgrounds and fields accessible to all are very limited comparing to the density of population of the area.

#### **4. The Subproject Design**

The total area of Bashabo Shobuj Boloy is 15,227.96 sq. meters. The subproject is taken for development of the entire playground as well as pond that is situated on the north side of the playground. Civil works identified for developing Shadhinata Moncho, renovation of playground, walkways, seating arrangement, toilets, green room, cricket pitch, multipurpose court, and pond renovation. Trees will be planted surrounding the playground, bank of the pond and walkways to ensure greenery.

**Figure 1** Proposed layout Plan of Bashabo Shobuj Boley Subproject

**Figure 2:** Proposed 3D view of Bashabo Shobuj Boley Subproject

## 5. Social Risks and Safeguards Impacts

- During consultation the stakeholders raised no major risk issues. The impacts the stakeholders raised are dust and sound pollution. The stakeholders apprehended that during construction works additional dust could be created and noise could cross its limit. The DSCC has committed the stakeholders to spray water during construction to reduce dust and to instruct the contractor to take initiative to reduce sound pollution.
- The social screening confirmed that this Works Packages (W-14/KB) does not have any involuntary resettlement impacts. So no Resettlement Plan will therefore be required as per requirement of the

Resettlement Policy Framework (RPF) adopted for the project. **Appendix A** provides the social screening results. Social issues like community participation in identification and design was followed in the subproject identification and design process. The consultation and participation process covered communities from all available groups, men, women, elderly, vulnerable and the elite.

- The community may, however, suffer construction related risks and impacts including temporary restriction of sports, noise, dust and labor influx including risks of gender based violence (GBV) differently experienced by men and women but as the subproject activities will be within an urban area with closer supervision by the DSCC team and DSM Consultant, the risks of labor influx and GBV will be very low.

## 6. Cut Off date

The Subprojects, W-14/KB of Dhaka City Neighborhood Upgrading Project (DCNUP) of Dhaka South City Corporation (DSCC) have covered open spaces of Bashabo Sobuj Boloy and its north side pond. No unauthorized occupants were found during social screening. The social screening was done on September 14, 2020 with participation of the honorable councilors and the community people and this date was declared as Cut-off date for recognition of any affected persons due to design and implementation of the subproject. It was declared among the communities during consultation that any unauthorized encroachment into the playground for any activity afterwards will not be considered for compensation under the project.

## 7. Disclosure and Consultation

Two rounds of consultation were carried out with the community people. During the preparatory stage of the subproject, objectives and implementation approach of the subproject, neighborhood selection criteria, subproject identification criteria, and social requirements including safeguards, inclusion, participation, gender and disability issues, GBV risks, labor influx issues were discussed with the community people. The PIU of DCNUP, DSCC and the Zone Office 2 carried out the consultation for identification and design of this subproject with the help of local Councilors. The representation in the consultation process was all-inclusive and participatory. A total of 55 (fifty five) potential users/community people, men, women, sportsman, students, educationist, elderly and businessmen were consulted in the consultation meeting (proceedings are attached as **Appendix-D**). Existing problems with the subprojects and possible construction and rehabilitation measures were all discussed in the meeting for feedback from the communities. Different social risks related to improvement and construction of playground and walkways were also consulted with the participants.

During design preparatory stage consultation, the local people informed that the condition of the playground is bad and demanded to improve and reconstruct the playground with modern facilities as early as possible so that they can use the playground and pond. The stakeholders have placed their suggestions and suggested to follow the concept of honorable Member of Parliament of Dhaka-9 and accordingly DCNUP has designed the subproject considering all the feasible options obtained from the community in the consultation process. During consultation, the local people have expressed solidarity with the DSCC and expressed all out cooperation during construction. During consultation, most of the stakeholders have suggested that Bashabo Sobuj Boloy should design as per plan of the honorable Member of Parliament of Dhaka-9 Mr. Saber Hossain Chowdhury who developed a concept design and handed over to PIU of DCNUP during a joint meeting earlier. They have stressed that there is no scope to do anything ignoring his design but the DSCC can add some extra facilities if the authority thinks necessary informing the honorable Member of Parliament and that were walkways, plantation of trees surrounding the playground, seating arrangement with shed, a cricket pitch in the playground, separate toilets for male and female, etc. The community people have requested to complete the work as soon as possible because during construction works they had to keep themselves away from the playground. The landowners along the subproject playground had requested to spray water to reduce dust and control sound during construction period.

During the appraisal stage consultation, the honorable Councilors of Ward No. 4 of DSCC had been requested to organize Stakeholders' Consultations to appraise the stakeholders about the design that was developed considering their suggestions. The honorable Councilors accordingly organized the meeting at Kadamtola Sangsad premises beside the Bashabo Sobuj Boloy Playground on March 24, 2021. In the design preparatory stage there were 51 participants and in the appraisal stage there were 59 participants. The participants who provided their opinions in the consultation meeting during preparatory stage, among them about 53% (27 participants) of the participants were present in the appraisal stage. All the stakeholders including the honorable Councilor (100% attendees) appreciated the design and expressed their satisfaction saying that the design will serve their desire purpose (Meeting minutes and attendance are attached as **Appendix-D**). All the construction works will be carried out involving stakeholders as well as considering their recommendations.

## **8. Social Management Plan**

### **8.1 Objectives and Principles**

The subproject activities will not involve any acquisition of land or involuntary displacement of people, either physically or economically, temporarily or permanently. Other social risks including social exclusion, gender discrimination, community engagement, labor influx and GBV, other construction related impacts

including dust and sound pollution and playing restrictions will be managed under the subproject Social Management Plan (SMP).

The principles, guidelines, and procedures provided in this SMP are intended to ensure that the subproject activities have been identified and designed and will be implemented following approach to achieve the following objectives:

- a. Enhance positive social outcomes of the activities financed under the DCNUP;
- b. Ensure participation of the target communities, including women and disadvantaged, while identifying the specific measures/activities for adaptation to the development work impacts;
- c. Prevent or compensate for loss of livelihood, which may result from land-based adaptation activities and use of common property resources;
- d. Ensure compliance with the relevant government policies and those of the World Bank on social safeguards and other social issues, including those with gender implications;

## **8.2 Community Participation during Implementation**

The PIU of DSCC conducted stakeholders consultation meeting during design stage and appraisal stage of the subproject for improvement and construction of the playground under the subproject and accordingly designed the same considering all the feasible options obtained from the community in the consultation process and as per suggestions of the honorable Member of Parliament of Dhaka-9 Mr. Saber Hossain Chowdhury. During consultation, the stakeholders demanded Shadhinata Moncho and DCNUP has designed Shadhinata Moncho accordingly; the stakeholders demanded renovation of pond and DCNUP has designed a Moncho and seating arrangement in the pond; the local Member of Parliament (MP) demanded Green Room for artist beside the Moncho and DCNUP has designed Green Room beside the Moncho; the stakeholders demanded seating arrangement inside the playground and DCNUP has decided to construct galleries at one side of the playground; the stakeholders demanded walkways around the playground and DCNUP has designed walkways around the playground; the stakeholders demanded separate toilets for male and female inside the playground and DCNUP has designed separate toilets for male, female and differently abled persons in the playground; the stakeholders demanded lockers for players in the playground and DCNUP has designed lockers for players in the playground; the stakeholders demanded sheds so that people can take shelter during rain and DCNUP has designed sheds in the playground; the stakeholders demanded cricket pitch for net practice in the playground and DCNUP has designed cricket pitch for net practice in the playground; the stakeholders suggested greenery along the playground and DCNUP designed trees to turn the playground and pond area green. All the construction works will be carried out involving stakeholders as well as considering their recommendations.

**Community participation approach in the implementation process:** During the implementation of the subproject, the DSM Consultant with the help of PIU will further engage communities in the subproject level inclusive of age, gender and social status and carry out consultation meetings with them on regular basis to incorporate their feedback. The participants will be of the community peoples including senior citizens, community associations, businessmen, women and disadvantaged to seek their participation and feedback in quality control and smooth implementation of the subproject activities. The local councilors will help to organize the community people and the Zone Office 2 of DSCC and the consultants will facilitate, document and disclose the consultation proceedings. The consultation process and feedback will be reported in the monthly social monitoring report to share with the Bank.

### **8.3 Gender, Age and Disability Inclusion**

The subproject design considered gender, age and disability of community people based on consultation and participation inclusive of age, gender and physical ability. The DSM Consultant with the help of DSCC PIU in the subproject implementation process, will engage communities inclusive of age, gender and disability to gather their respective views and preferences to integrate in subproject civil works construction. The subproject activities have been designed to ensure amusement of the local residents, women, children including girls, senior citizens, and physically challenged persons. Separate toilets have been considered for the females and physically challenged persons. The DSCC will ensure that women are involved in civil works construction and they enjoy (i) equal pay for equal work; (ii) gender friendly work environment; and (iii) work place safety for women and children.

### **8.4 Labor Influx and GBV Risks Management**

The project is being implemented in the Capital City of Dhaka and the DSCC will apply its current capacity enhanced with supervision consultants for civil works supervision. Number of workers will be low in the construction site and all will be locally recruited. The risks of labor influx and GBV will therefore be low and also be managed with close supervision against laborers code of conduct. The PIU will instruct the civil works contractor and subcontractors to engage local labor as much as possible and build makeshift toilet and sanitation system in the construction area to ensure safe and healthy working environment. The contractor will also be asked to take safely measures during construction. The PIU will follow and the contractor will ensure that the influx of workers and followers cannot lead to any social and environmental impacts on local communities. Before engagement in civil works, the labors will be given an orientation/training. Their activities will be regularly monitored by the contractor, DSM Consultant and PIU and will incorporate in the monthly safeguard monitoring report and submit to the World Bank. A

Code of Conduct will be developed and will be signed by all workers in this regard. Workers will also be trained so as to deter any case of GBV/SEA/SH.

Severity of the risks of labor influx varies for community absorption capacity, number of laborers in a worksite and the duration of civil works construction. The risk is assessed to be low as the numbers of workers will be small compared to the size of the host community, the site is in an urban area with high absorption capacity and law-enforcement is strong. The DSCC-PIU will however, conduct site specific labor influx screening and assessment to identify related risks for management. The concern civil works contractor will develop Contractor's Environmental and Social Management Plan (C-ESMP) following the project EMF and RPF and report its implementation status regularly to the PIU. The PIU, however, will include labor related information and update in their regular project progress reports.

### **8.5 Grievance Management**

A two-tier Grievance Redress Mechanism (GRM) has been established for the subproject including; (i) Ward Level GRM (Tier one) and (ii) Project level GRM (Tier two). Tier two GRM receives complaints and grievances those cannot be resolved at the tier one GRM. Responsible Executive Engineer has been assigned as the convener of the Ward level GRM, while the Project Director at PIU is the chair of the project level GRM. A five-member Grievance Redress Committee (GRC) at the Ward level has already been formed and authorized to deal with all suggestions and complaints at the Ward level. The DSCC has ensured that communities are fully informed about the GRM and their rights to offer suggestions and make complaints, and the different mechanisms through which they can do so. Given the concentration of subprojects is within the city, the secretariat of both GRM are at PIU HQ. GRC may sit on any grievances and suggestions from the communities at the ward level locally or in the office of the ward councilor or at the PIU HQ.

The membership of the GRC ensures representation of complaints and grievances as well as impartial hearings and investigations, and transparent resolutions. The GRC Convener requests the concerned Ward Councilor from which the complaint was received to participate in the hearing. If the aggrieved person is a female, GRC requests the concerned female Ward Councilor to participate in the hearings.

All complaints are received at the Zone Office of DSCC, where the subproject is located and registered in the complaint book with instant intimation to the complainant. Complaints are investigated and heard within 15 days of registration and resolved in the third week of the receipt. GRC decisions, if agreed by the complainant is binding upon the PIU.

## 9. Implementation, Monitoring and Evaluation

The DSCC will ensure that implementation of activities outlined in this SMP are implemented and followed in the subproject civil works process. Social inclusion, gender mainstreaming and management of other social risks and impacts identified and managed as above, will be monitored in line with the social analysis of inclusion and participation of various groups/agencies including women and consistent with the activities/issues that have been integrated into project design. The DSCC will monitor the issues on a regular basis and include the results in the quarterly reports and also submit to the World Bank.

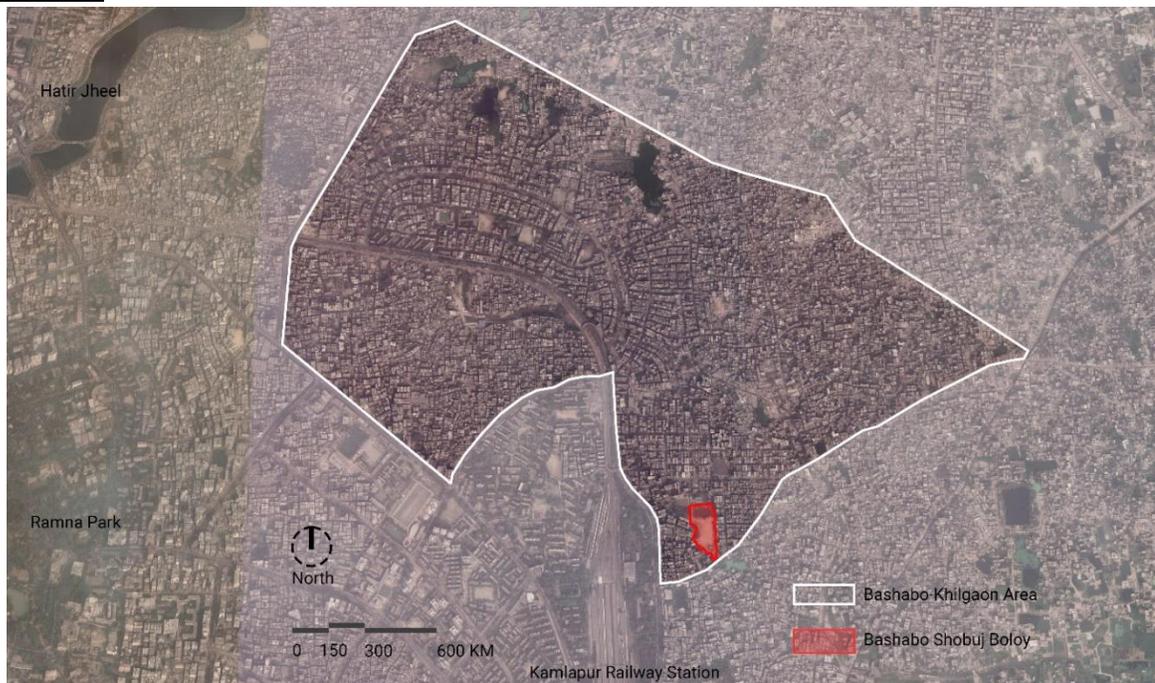

Depending on the project contents and objectives, subproject indicators for evaluation should take into account, among other relevant aspects, the following points:

- Specific needs of community people including affected and beneficiary groups irrespective of gender and incorporation of them into subproject implementation approach.
- Local knowledge and inputs for enhancement of subproject outcomes.
- Intended and unintended social and gender effects of the subprojects.

Lessons and good practices to be drawn from the monitoring process which can help mainstreaming gender and inclusion of community people in project design and implementation in the subsequent identification, design and implementation of subprojects and any future projects.

## Appendix-A: Social Screening of the Bashabo Shobuj Boloy

1. **WARD NO:** 4
2. **WORK PACKAGE:** DCNUP/W-14/KB
3. **SUBPROJECT NAME:** Improvement and Construction works of Bashabo Shobuj Boloy.
4. **DATE OF SCREENING:** September 14, 2020.
5. **RESPONSIBLE PERSON:** Mr. Md. Shakhawat Hossain Khan, Social Safeguard cum Communication Specialist of DCNUP, and honorable Councilor of Ward No. 4, DSCC, Mr. Md. Jahangir Hossain and honorable Councilor of Ward No. 5, DSCC, Mr. Chittaronjan Das conducted the screening on behalf of the DSCC and the community respectively.
6. **Description of Site:** The proposed subproject is located in the Khilgaon-Bashabo neighborhood under Ward No. 4 of Zone 2 of the DSCC. Khilgaon-Bashabo is bounded by DNCC on the North, Shahjahanpur Police Station on the South, Ramna Police Station and Paltan Police Station on the East, Motijheel Police Station on the West. The area is enriched with many schools and colleges, small factories, shops, and many more business establishments. There is historical/heritage site/buildings like Buddha Mondir within 500 meters of subproject area. The playground proposed for improvement and construction under the subproject is in miserable condition right now as a result the local people are not getting desired benefit from this playground. Physical expansion of the playground is not possible due mainly to compact settlement and high price of land along the playground. There are few trees beside the playground. There is no infrastructural facilities inside or outside of the playground for sports.
7. **Map of Site.**

## 8. Pictorial presentation of site of Bashabo Sobuj Boley

## 9. Social Screening Form

Screening Questions	Yes	No	Unknown	Remark
Any Permanent acquisition or temporary land acquisition required?		X		It's a government land owned by PWD. PWD has given NOC regarding development of the playground.
Any dislocation or involuntary resettlement of residential HHs?		X		No dislocation or involuntary resettlement of residential households will be caused by the subproject.

Screening Questions	Yes	No	Unknown	Remark
Dislocation and involuntary resettlement of Commercial premises?		X		No dislocation or involuntary resettlement of any commercial premises will be caused by the subproject.
Dislocation and involuntary resettlement of squatters?		X		No squatters will be affected due to subproject.
Poor, women and children or other vulnerable groups affected by the project activities		X		These disadvantaged and vulnerable groups are not likely to suffer specific harm, apart from those suffered by general populace due to the subproject.
Whether people are meaningfully consulted and they are aware of the project?	X			Consultation with communities were held during the design preparatory stage of the sub-project and they are aware of the subproject.
Any GRM established? Do the people know about its existence?	X			Two tier GRM has been established for the Project. The local people are informed about GRM during consultation.
Summary of impact of construction activities – noise, traffic, spread of diseases.	X			During construction people may face temporary restriction of sports, dust and noise related problems but this will be managed under the ESMP of the works package/contract. As the subproject area is within the city, the risk of spread of diseases will be low and manageable.
Summary and types of waste generation	X			Construction waste which will be generated will be managed under the ESMP of the works package/contract.
Possible transmission of communicable diseases (such as COVID-19, STI's and HIV/AIDS, etc.) from workers to local populations?	X			The subproject activities will be carried out during COVID-19 pandemic situation. Therefore, the workers will need to be provided with training on COVID protocols, provided with free PPE and temperature and other symptoms should be monitored on a regular basis.
Will there be high labor requirement and possibility of labor influx.		X		The subproject will not require high number of labors so there is no possibility of labor influx as the local labor will be in the subproject activities.

Screening Questions	Yes	No	Unknown	Remark
Presence of cultural heritage site and summary of impact.		X		There is no cultural heritage in the subproject area
Presence of any ethnic communities in the area and possible summary impact		X		There is no ethnic communities in the subproject area.

**10. Conclusion from the social screening**

The screening confirms that improvement and construction works of Bashabo Shobuj Boloy does not have any involuntary resettlement impact. So, no Resettlement Plan will be required as per requirement of the Resettlement Policy Framework (RPF). There is no short, medium or long-term negative social effects in the subproject. According to the project Resettlement Policy Framework (RPF), the other social issues like social inclusion, community participation, labor influx, gender mainstreaming, GBV risks and grievance resolution will be managed under the Environmental and Social Management Plan (ESMP) of the Subproject.

## **Appendix-B: COVID-19 Protocols to be followed at Construction Site**

Considering the COVID-19 pandemic across the world, it is important to take into consideration and alert for preparation and implementation of any project. For ensuring the health security following standard guidelines for Office and Field Work during COVID-19 Pandemic are proposed:

### **A. Pre-cautionary measures for participant during meeting, training session or public gathering**

- All Participants (men, women and children) must wear mask.
- Participant's mask must cover always his/her nose and mouth during the meeting, training session or public gathering.
- Participant who is sick by fever, cold, cough, sore throat, having breathlessness must prohibit attending in the meeting.
- Participant whose family member(s) tested Corona Positive must not be invited and prohibited to attend in the meeting, training session or public gathering.
- Participant who/whose family member(s) recently transferred to the home from other district, country or long journey by public transport must not be invited and prohibited to attend in the meeting, training session or public gathering.
- Participant who/whose family member(s) recently visited or touched to the Corona Positive patient or attended the funeral of a Corona positive death but did not stayed in 14 days home quarantine must not be attended in the meeting, training session or public gathering.
- The sitting arrangement of the training room must ensure U shape keeping Social Distancing at least 3.2 feet/1 meter from each participant.
- Facilities for washing hand and face must ensure in the meeting, training session or gathering room/yard/area. Participant must enter the session after washing his/her hand and face by using soap water or hand sanitizer.

### **B. Pre-cautionary measures for Survey Team during survey conduction**

- Must wear mask and hand gloves during survey. At best wearing Personal Protective Equipment (PPE). The mask must be at least 3 layers.
- Must use official transport or private vehicle *i.e.* bi-cycle, motorbike. Best to avoid public transport.
- Before travelling, recommended to spray by using disinfectant in the official transport.
- Carry personal hand sanitizer. Use it intervallic during survey.
- Must maintain 3.2 feet/1 meter social distance if the survey conduct face-to-face and the respondent also must wear mask as instructed. Survey conductor must be alert whether the responded physically risk or risky for Covid-19.

### **C. Pre-cautionary measures for Office Staff during office hours**

- Must use tissue or sanitized clean cloth or hand knee during sneezing.
- Don't throw waste in your work station. Use bin for waste management.
- Keep your shoes outside the office complex. Use shoe rack.
- Keep clean your desk/work station. Best to spray your surrounding by disinfectant.
- All staff must wear mask all time.
- Alert to touch contaminated surface.
- Maintain social distancing with your colleague during work. Set your desk maintaining social distance.
- Employees who have returned from an area where COVID-19 is spreading should monitor themselves for symptoms for 14 days and take their temperature twice a day.
- Always disinfect your personal pocket materials *i.e.* money bag, vanity bag, sun glass, mobile phone, home key and ATM card.
- Be alert using office common wash room and toilet. Spray with disinfectant onto washroom basin, toilet before and after using them. Clean them at least three time by using toilet cleaner.

### **D. Pre-cautionary measures to follow at workplaces**

#### **➤ Physical distancing**

- Measures will be taken to keep a distance of at least 1 meter between people and avoid direct physical contact with other persons (hugging, touching, shaking hands), strict control over external access, queue management (marking on the floor, barriers);
- Reduce density of people in the building (no more than 1 person per every 10 square meters), physical spacing at least 1 meter apart for work stations and common spaces, such as entrances/exits, where congregation or queuing of employees or visitors/clients might occur will be ensured;
- Non-essential travel to work sites will be prohibited;
- Workers will be sensitized with one-to-one meeting or publication materials to comply with instructions from the government relating to COVID-19;
- Workers will be sensitized with one-to-one meeting or publication materials on whom to contact if they feel ill while at work;

- Workers will be monitor before appoint for work through medical professional if he/she is infected with COVID-19 or bearing symptom of fever and cough themselves for symptoms for 14 days;
- Thermal screening at the workplace will be introduced;
- Temperature of all the workers and staff will be monitored twice a day and they will be urged to self-monitor their health;
- If they feel unwell, they will be advised to stay at home, self-isolation, and contact a medical professional; and
- The local health authorities will be contacted to keep attendance and meeting records in order to facilitate or undertake contact-tracing.

➤ **Hygiene**

- Regular and thorough handwashing with soap and water or hand hygiene with alcohol-based hand-rub before starting work, before eating, frequently during the work shift, especially after contact with co-workers or customers, after going to the bathroom, after contact with secretions, excretions and body fluids, after contact with potentially contaminated objects (gloves, clothing, masks, used tissues, waste), and immediately after removing gloves and other protective equipment but before touching eyes, nose, or mouth;
- Hand hygiene stations, such as hand washing and hand rub dispensers, should be put in prominent places around the workplace and be made accessible to all labors, staff, contractors, clients or visitors along with communication materials to promote hand hygiene;
- Medical face masks and paper tissues will be made available at the workplace, for those who develop a runny nose or cough at work, along with bins with lids for hygienic disposal;
- Wearing mask or face covering for all labors, staff, contractors, clients or visitors will be ensured;
- It will be ensured that any sick worker not come to work; and
- If a member of staff or a worker feels unwell while at work, he/she should be provided with a medical mask so that he/she may get home safely.

## ➤ **Communication**

The alternate approaches that will be practiced for stakeholder engagement will include:

- Minimizing the need for physical meetings, teleconferencing facilities will be introduced;
- Consultations in small groups will be arranged if smaller meetings are permitted;
- Efforts to conduct meetings through online channels (WebEx, Zoom, Skype, Google Meet, Google Classroom etc.) will be introduced;
- Diversify means of communication like social media, chat groups, dedicated online platforms and mobile Apps (Facebook, Twitter, WhatsApp groups, project web links/websites, etc.) will be introduced;
- Local channels of communications such as cable TV, religious leaders like Imam of Mosjid, Porohit of Mondir and Father of Church, dedicated phone-lines, SMS broadcasting, and public announcements (miking) when stakeholders do not have access to online channels or do not use them frequently will be used;
- Posters, short videos, and electronic message boards will be introduced to increase awareness about COVID-19 among workers and local people; and
- Labors will be encourage through one-to-one meeting to use GRM.

## Appendix-C: Proceedings of Consultations

### Dhaka South City Corporation

Dhaka City Neighborhood Upgrading Project (DCNUP)

**Subject:** Meeting minutes of appraisal stage Stakeholder Consultation for improvement and construction works of Bashabo Balur Math Playground

**Package No:** DCNUP/W-14/KB

**Package Name:** Improvement and Construction works of Bashabo Balur Math Playground (DCNUP/W-14/KB)

**01. Chairperson:** Mr. Chittaronjon Das, honorable Councilor, Ward No. 5, Dhaka South City Corporation

**02. Meeting Date & Time:** March 24, 2021 at 09:00 am

**03. Meeting Place:** Kadamtola Sangsad premises, Adjacent to Bashabo Balur Math, Dhaka-1214

**04. Attendee of the Meeting:** Local Government Representatives including community people (Attendance Sheet & Pictures –Annex A)

**05.** A stakeholders' consultation was held on March 24, 2021 at Kadamtola Sangsad premises beside the Bashabo Balur Math Playground to appraise the stakeholders about what they demand and what the DSCC has accommodated in the design. Mr. Chittaronjon Das, honorable Councilor of Ward No. 5, DSCC, presided over the meeting. Mr. Md. Jahangir Hossain, honorable Councilor of Ward No. 4, DSCC, and honorable Women Councilor of Reserved Ward No. 2, 3 & 4 Ms. Farzana Yesmin Biplobi and honorable Women Councilor of Reserved Ward No. 5, 6 & 7 Ms. Maksuda Shamser were present at the meeting.

The chairperson has started the meeting with welcome address and briefed the local people about agenda of the meeting. The councilor expressed his gratitude to the DSCC authority and World Bank for holding such stakeholders' consultation for appraising the stakeholders about the design of the playground. The chairperson has told the meeting that the design has been developed as per the suggestions of the honorable Member of Parliament (MP) of Dhaka-9 Mr. Saber Hossain Chowdhury and on March 23 evening the honorable MP agreed with the design that the DSCC develop with some minor correction like keeping provision for green room near the Shadhinota Moncho so that during program the actor/actress could change their costume and to add more greenery. He has also informed the meeting that the honorable MP wants to rename the playground as "Bashabo Sobuj Boloy". He has stressed that there is no scope to do anything ignoring the concept of the honorable Member of Parliament of Dhaka-9 but the DSCC can add some extra facilities if the authority thinks necessary informing the honorable Member of Parliament. He has opined that the name of the playground should be "Bashabo Sobuj Boloy". He has also suggested for an office room for overall management of the activities of the playground.

In addition to the stated feedbacks by the honorable chairperson, some stakeholders also gave their opinions for further improvements of the design which are stated below:

**06. Mr. Md. Masud Hasan Shamim, a local resident,** has stressed the need for a boundary around the playground for safety and security. He has opined that in the design the basketball area should keep open so that it could be used in multipurpose.

**07. Mr. Jahangir Hossain, honorable Councilor, Ward No. 4,** has expressed his gratitude to develop the design as per concept of the honorable Member of Parliament. He has also suggested a locker and changing room for the players.

**08. Ms. Farzana Yeasmin Biplobi, honorable Councilor, Reserved Ward No. 2, 3, 4,** has suggested for an international standard playground. She has showed gratitude to develop the design as per concept of the honorable Member of Parliament. The honorable Councilor has stressed the need for keeping the playground open for all.

**09. Md. Tofazzel Hossain, Founding president, Open Physical Training Center,** has suggested for a gymnasium center in the playground. He has stressed for separate public toilets for male and female in minimum two points of the playground.

**10. Mr. Ismat Taki, Former member of BFF,** has suggested for a swimming pool and a multistoried building in the playground that could be used in different purposes. He has suggested for minimum an international standard playground.

**11. Md. Mustafizur Rahman Shahria, local sports organizer,** has suggested for a swimming pool. He also has requested to keep the playground big. He has showed gratitude for keeping toilets and cricket pitch in the design of the playground. He has also suggested not to put boundary around the playground so that all stakeholders can avail the facilities. He has pointed out that various social gathering both local and national is being held in the playground for long so the playground should keep large and without any boundary but a fencing is required.

**12. Sardar Selim Ahmed, a local resident and President of Provati Shibir Sangha,** has suggested for different playground for football, volleyball and cricket.

**13. Mr. Tasiruddin Tasu, local resident,** has suggested for a wide walkway so that the senior citizen could walk smoothly.

**14. Mr. Abu Sayeed Babu, local resident,** has suggested to plant trees in the playground with utmost care and plan.

**15. Ms. Laila Zaman Popy, Women Leader,** has suggested separate gymnasium for the female and a swimming pool. She also opined that the name of the playground should be “Bashabo Sobuj Boloy” as per demand of the honorable Member of Parliament as well as community people.

**16. Ms. Maksuda Shamser, honorable Councilor, Reserved Ward No. 5, 6, 7,** has requested to follow the concept of the honorable Member of Parliament. The honorable Councilor has suggested wide walkways, sitting arrangement with shed and separate toilets for male and female.

As there was no other issues to discuss at the moment, the chairperson announced the consultation meeting end with vote of thanks.

- 2.0 Meeting Date & Time: September 14, 2020 at 8:45am**
- 3.0 Meeting Place : On Kadamtola Sangsad premises and Shabujbagh Middle Bashabo Children Park**
- 4.0 Attendee of the Meeting : Local people including educationists, cultural personalities, politicians & businessmen (Attendance Sheet & Picture – Annex-A)**

**5.0** A stakeholders' consultation meeting was held on Kadamtola Sangsad premises beside the Bashabo Balur Math Playground and Shabujbagh Middle Bashabo Children Park at 8:45am on September 14, 2020. **Mr. Chittaronjon Das, honorable Councilor of Ward No. 5, DSCC**, presided over the meeting. Mr. Md. Jahangir Hossain, honorable Councilor of Ward No. 4, DSCC, and honorable Women Councilor of Reserved Ward No. 2, 3 & 4 Ms. Farzana Yesmin Biplobi and honorable Women Councilor of Reserved Ward No. 5, 6 & 7 Ms. Maksuda Shamser were present at the meeting.

The chairperson has started the meeting with welcome address and briefed the local people about agenda of the meeting. The councilor expressed his gratitude to the DSCC authority and World Bank for selecting Bashabo Balur Math Playground and Shabujbagh Middle Bashabo Children Park for improvement and construction works as well as holding such stakeholders' consultation to take suggestions of the local people regarding the works. The chairperson has told the meeting that the honorable Member of Parliament of Dhaka-9 Mr. Saber Hossain Chowdhury has a plan centering the Bashabo Balur Math Playground and he has already developed a design in this regard and also handed over to DCNUP PIU during a joint meeting earlier. He has stressed that there is no scope to do anything ignoring his design but the DSCC can add some extra facilities if the authority thinks necessary informing the honorable Member of Parliament. Addressing the meeting, the chairperson has said that the densely populated area possesses Bashabo Balur Math Playground and Shabujbagh Middle Bashabo Children Park but there is no modern facilities for young people or children or senior citizens or women as well. The chairperson has suggested greenery as per design of the honorable Member of Parliament and mini pond so that children of the area can learn swimming, walkways and plantation of trees surrounding the playground. He has also suggested to inform people before start of the work and to take initiatives to reduce dust and sound pollution during construction.

**6.0 Mr. Jahangir Hossain, honorable Councilor, Ward No. 4**, has expressed the hope of implementation of the design prepared by the honorable Member of Parliament centering this playground. Regarding Children Park, the honorable Councilor has requested the DSCC to turn it into a modern children park providing art of the state amusement facilities. He has also suggested proper step to reduce dust and sound pollution during construction.

**7.0 Ms. Maksuda Shamser, honorable Councilor, Reserved Ward No. 5, 6, 7**, has requested to follow honorable Member of Parliament's design regarding playground and implement the same. The honorable Councilor has suggested walkways, sitting arrangement with shed, separate toilets for male and female. Regarding Children Park, she has suggested to develop it with modern equipment.

**8.0 Ms. Farzana Yesmin Biplobi, honorable Councilor, Reserved Ward No. 2, 3, 4,** has suggested to implement the design of the honorable Member of Parliament regarding playground. The honorable Councilor has stressed the need for keeping the playground open for all. She has suggested to set modern equipment in the children park and construct walkways surrounding the children park so that women can walk while their children play in the park.

**9.0 Mr. Anisur Rahman Chowdhury, a local resident and executive committee member of Kadamtola Sangsad,** has stressed the need for implementing the design of the honorable Member of Parliament regarding the playground. He has also suggested to inform them before start of work and to take step to reduce dust and sound pollution as well during construction.

**10.0 Mr. Sirajul Islam, a local resident,** has requested to follow honorable Member of Parliament's design regarding playground and implement the same. He has also suggested walkways, sitting arrangement with shed, separate toilets for male and female. Regarding Children Park, she has also suggested to decorate it with modern equipment.

**11.0 Mr. Abul Sardar, a local resident and president Bashabo Bazaar Committee,** has requested to follow honorable Member of Parliament's design regarding playground and implement the same. He has also suggested walkways, sitting arrangement, toilets. Regarding Children Park, she has also suggested to decorate it with modern equipment.

**12.0 Mr. Mohammad Hossain, a local resident,** has stressed the need for implementing the design of the honorable Member of Parliament and to ensure enhanced beautification. He has suggested to plant trees in the playground with utmost care and plan. He has also suggested to arrange amusement equipment for children at Children Park so that children can enjoy there. He has further suggested to take step to reduce dust and sound pollution during construction. He has observed that if illegal occupant can evicted the playground could be larger.

**13.0 Freedom Fighter Dr. Md. Shah Alam, a local resident and president of Shorir Charcha Federation,** has stressed to implement the design prepared by the honorable Member of Parliament. He said that there are 18 associations consisting of 1,300 members who walk in the morning in the playground regularly. He has suggested Muktijuddha Monch, wide walkway, flower garden, toilets and shed to take shelter while it rains. He has also suggested to decorate the pond in such a way that local children can swim here.

**14.0 Mr. Sardar Selim Ahmed, a local resident and President of Provati Shihir Sangha,** has said that the honorable Member of Parliament prepared the design consulting people of the area so it should be implemented properly. He has suggested measures to reduce dust and sound pollution during construction.

**15.0 Mr. A. N. M. Golam Zilani, a local resident and member of Unmukta Shorir Charcha Kendra,** has suggested walkway and available rides in the children park.

**16.0 Mr. Meher Shahriar, a local resident,** has requested to keep the playground big saying that no establishment like coffee shop should be construct in the playground. He has suggested toilets and cricket pitch in the playground. He has also suggested not to put boundary around the playground so that all stakeholders can avail the facilities. He pointed out that various social gathering both local and national is being held in the playground for long so the playground should keep large and without any boundary.

**17.0 Mr. Md. Masud Hasan Shamim, a local resident,** has stressed the need for implementing the design prepared by the honorable Member of Parliament centering the playground. He has suggested to develop the children park as a modern one.

SA

**18.0 Mr. Farukul Islam Ripon, a local resident,** has observed that there is no scope to do anything regarding this playground bypassing the design already prepared by the honorable Member of Parliament. He said that if the design needs addition or deduction that also should be done by the honorable Member of Parliament. Regarding Children Park, he has said it will be the best if the park is develop exclusively for the children equipped with various rides.

**19.0 Mr. Hasmot Abul Ullah Abu, a local resident,** has requested to follow design of the honorable Member of Parliament. He has also requested to evict illegal occupants surrounding the playground. He has suggested walkways in the playground.

**20.0 Mr. Md. Monir Hossain, a local resident,** has stressed the need for following design prepared by the honorable Member of Parliament. He has suggested to make the playground as beautiful as Ramna Park. He has demanded a public library in the playground so that people of the area can develop their reading habits. He has suggested regular maintenance after completion of work.

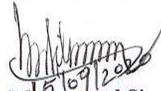

**21.0 Mr. Mufti Golam Mustafa, a local resident and Imam, Hazrat Belal @ Jame Masjid,** has said that this playground is heart of the locality so it should be developed in such a manner that people from nearby areas come to visit it. There is a park and Monch in the design of the honorable Member of Parliament, he added. He has observed that the pond could be develop for swimming so that local children can learn swimming here.

**22.0 Mr. Yahia Sohel, a local resident and president, Kadamtola Sangsad,** has stressed the need for developing the playground following design of the honorable Member of Parliament. He has suggested car parking as there is no car parking in the area.

**23.0 Mr. Md. Moniruzzaman Swapon, a local resident,** has stressed the need for keeping the design of the honorable Member of Parliament intact during development of the park.

**24.0 Mr. Mohammed Saiful Alam, a local resident and principal, Kadamtola Purbo Bashabo School & College,** has said that the children park should be renovated and should be made useable for children. He has suggested walkways and sitting arrangement for women so that the women who come to the park with their children can walk or take rest if needed.

As there was no other issues to discuss at the moment, the chairperson announce the consultation meeting end with vote of thanks.
