1. Project Background

To face the challenges of the 21st century, the Government of Bangladesh with the help of international development financing agencies has undertaken a series of structural reform programs in its development activities. As part of development works, the Bangladesh Government and the World Bank jointly implementing a five year long “Dhaka City Neighborhood Upgrading Project” (DCNUP, the Project). The Dhaka South City Corporation (DSCC), under the Local Government Division of the Ministry of Local Government, Rural Development and Cooperatives, is the implementing agency of the project. Dhaka city accounts for about one-fifth of the country's gross domestic product (GDP) and half of formal employment. The mega city also plays an important role in achieving the government's vision of upper-middle income country. Dhaka is one of the world's most densely populated cities. Due to inadequate infrastructure, lack of public amenities and severe traffic congestion, the residents face many difficulties in their everyday lives. The project will cater to the differentiated needs of women and children, elderly and disabled. Women in Dhaka face challenges in terms of mobility, walkability and access to public infrastructure. To improve personal safety and access for women, children and elderly, the project will ensure safe-pleasant mobility, energy-efficient street lighting, Community Center, Green Building, Traffic improvement and other integrated amenities. The project will also help to enhance green open spaces by improving selected parks, streets and waterfront areas of 4 (four) Neighborhoods of Dhaka: (i) Kamrangirchar; (ii) Lalbagh; (iii) Sutrapur-Nayabazar-Gulistan; and (iv) Khilgaon-Mugdha-Bashabo. It will also pilot interventions for safe mobility and traffic management and incorporate environment-friendly features and energy efficient design principles and materials in all interventions that it will support.

2. Subproject Description

The DSCC has identified a subproject at Sutrapur-Nayabazar-Gulistan neighborhood for implementation under the project. The name of the subproject is “Improvement and Construction of Abdur Rahim Community Center” in Ward No. 41 under Zone-5 of DSCC. There is a four storied building in the site which is selected for improvement and construction for future use by the local community. At present, there is a temporary councilor office, Wari police station and healthcare center (diabetic center) in the Community Center. Officer-in-Charge (OC) of Wari police station informed that they have received letters from DSCC for relocation and they are searching another place for relocating the police station. After finding a suitable place for the police station, they will shift to the new place as soon as possible. The authority of healthcare center (diabetic center) assured that before starting the construction works they will shift the center in consultation with the local Ward Councilor. The floor that is used for Community Center is in miserable condition right now. As a result, the local people are not getting their desire benefit from this Community Center. Physical expansion of the subproject is not possible due mainly to compact settlement and high price of land along the Community Center.

The neighborhood and subproject activities in the neighborhood were identified and designed in consultation with and participation of the local communities irrespective of gender, age, education and social status. The subproject was selected considering the following issues:

- The local community is facing numerous difficulties due mainly to unavailable spaces to hold program in the area;
- The present condition of the building is very poor. The building needs to be more active according to its function;
- There is no proper lighting & no proper ventilation facilities in the existing Community Center. Almost all materials of the building elements are damaged at some points;
- If the multipurpose classroom facilities are ensured, local young generation will get chance to make them skilled and as a result employment opportunity will be created;
- If library is established in the Community Center building, the readers will get benefit from the library;
- Due to subproject implementation, employment opportunity of the local people may increase because the civil contractor will require skilled and unskilled labour for construction works and the local people may engage themselves in the works. Local female workers will also be able to engage themselves in construction works.

3. The Subproject Area

The proposed subproject is located in the Sutrapur-Nayabazar-Gulistan neighbourhood under Ward No. 41 of Zone-5 of the DSCC. The subproject is located in Narinda area in the old part of Dhaka City having buildings densely built on narrow and winding roads. Presently, the community center building is entered from Tupu Sultan Road connecting Narinada Road and Nawabpur Road. Thus, due to its accessibility from different sides, the community center at the existing location can play a role as a nucleus connecting the surrounding community. The area is bounded by Motijheel Police Station on the North, Keraniganj Upazila on the South, Demra Police Station on the East, Kotwali Police Station (Dhaka) on the West. The area is enriched with residential houses and many big and small business houses. There is historical Bolda Garden within 500 meters of subproject area.

The subproject is located in the Sutrapur-Nayabazar-Gulistan neighborhood under Ward No. 41 of the DSCC. According to the BBS (Bangladesh Bureau of Statistics)-2011, this densely populated area of Ward 41 is 1.11 sq. kilometer and there are 8,204 households. The Ward has 40,587 residents of whom 21,969 are male and 18,618 are female. The literacy rate of the Ward is 78.9% and sex ratio is 118. The population density ratio of the Ward is 36,565 in per sq. kilometer. Considering 1.2 % inflation rate for per year, the

total population of 2021 is approximately 46,278 (Male-25,049 and Female 21,228) who will directly or indirectly use the Community Center. There are 140 physically challenged persons in the Ward of whom 91 are male and 49 are female. There are landowners and tenants in the locality. There are also educational institutions, small factories, shops, and many more business establishments in the subproject area.

4. The Subproject Design

The total area of Abdur Rahim Community Center is 809.424 square meters and plinth area is 519.500 square meters. The subproject is taken for improvement and construction works. As per the suggestions of the stakeholders, the design team designed a five-storied building. The design team has incorporated Electro Mechanical Room (EMR), Parking facilities, Staff waiting room, Staff toilet, Stairs and Lift in the ground floor; Community Center, Open terrace, Pantry, Disabled toilet, Stair, Lift and Toilets in the 1st floor to 3rd Floor; Library, Multipurpose classroom, waiting room, open terrace, Stair, Lift and Toilets in the 4th floor and Roof garden, Kid's zone, Stair, Lift and Toilets in the roof.

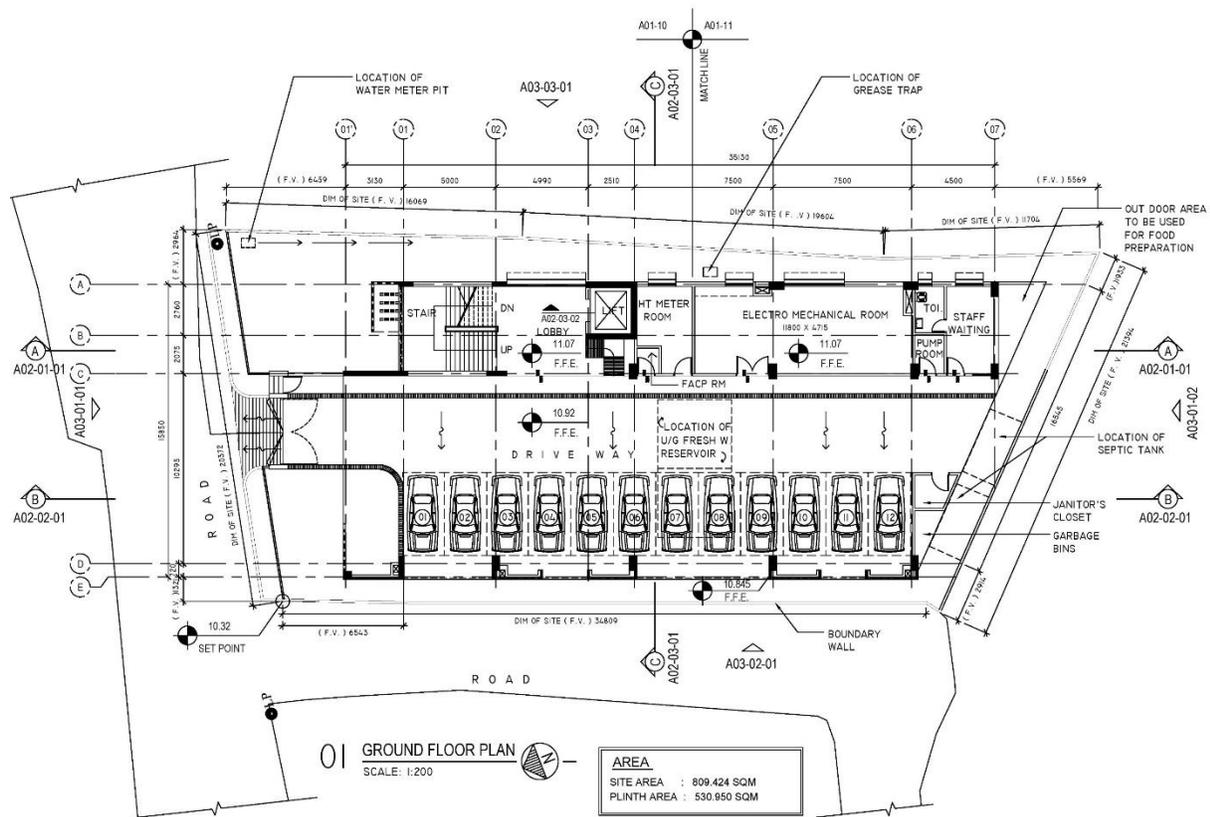

Figure 1: Proposed Ground Floor Layout Plan of Abdur Rahim Community Center

Figure 2: 3D view of proposed Abdur Rahim Community Center

5. Social Risks and Safeguards Impacts

- During consultation, the stakeholders raised no major risk issues. The impacts the stakeholders raised are temporary restriction on holding programs, movement, dust and sound pollution. The stakeholders apprehended that during construction works additional dust could be created and noise could cross its limit. The PIU of DSCC has committed the stakeholders to spray water during construction to reduce dust and to instruct the contractor to take initiative to reduce sound pollution.
- The civil contractor will be given instruction to ensure safety during demolition and construction period and start construction work after demolishing the existing building and making the site location vacant. They will also be given instruction regarding restriction of people and vehicle movement, signposting, workers training and safety gear free of cost and emergency protocol that to be in place in case of unfortunate events.

- The social screening confirmed that this Works Packages (W-08/SUT) does not have any involuntary resettlement impacts. So, no Resettlement Plan will therefore be required as per requirement of the Resettlement Policy Framework (RPF) adopted for the project. **Appendix A** provides the social screening results. Social issues like community participation in identification and design was followed in the subproject identification and design process. The consultation and participation process covered communities from all available groups, men, women, elderly, youth, students, vulnerable and the elite.
- The community may, however, suffer construction related risks and impacts including temporary restriction on holding programmes, movement, noise, dust and labor influx including risks of GBV differently experienced by male and female but as the subproject activities will be within an urban area with closer supervision by the DSCC team and DSM Consultant, the risks of labor influx and GBV are very low.

6. Cut Off date

The Subproject, W-8/SUT of Dhaka City Neighborhood Upgrading Project (DCNUP) of Dhaka South City Corporation (DSCC) will be implemented in the Narinda area in Ward No. 41 under Zone 5 of DSCC. At present, there is a temporary councilor office, Wari police station and health care center (diabetic center) in the Community Center but these will be shifted before starting the construction works. The social screenings of Abdur Rahim Community Center was conducted on March 15, 2021 (Social Screening Report is attached as **Annex C**) with participation of the respected Ward Councilor, Ward No. 41 of the DSCC and the community people and the date was declared as Cut-off date for the respective Ward for recognition of any affected persons due to design and implementation of the subproject. It was declared among the communities during consultation that any unauthorized encroachment into the proposed location for any activity afterwards would not be considered for compensation under the project.

7. Disclosure and Consultation

Two rounds of consultation were carried out with the stakeholders and community people. During the design preparatory stage of the subproject, objectives and implementation approach of the subproject, neighborhood selection criteria, subproject identification criteria, and social requirements including safeguards, inclusion, participation, gender and disability issues, GBV risks, labor influx issues and GRM were discussed with the stakeholders and community people. The DSM Consultant with the help of PIU and the Zone Office 5 carried out the consultations for identification and design of these subproject with the help of local Councilor. The representation in the consultation process was all-inclusive and participatory. A total of 81 (Eighty one) potential users/community people, men, women, students, sports organizer, vulnerable groups, senior citizens and businessmen were consulted in the consultation meetings (proceedings are attached as **Appendix-C**). Existing problems of the community people and possible

construction and rehabilitation measures were discussed in the meeting for feedback from the communities. Different social risks during and after implementation of the subprojects were also consulted with the participants.

During the design preparatory stage, the PIU conducted two stakeholder's consultations for improvement and construction works of Abdur Rahim Community Center. The consultation meetings were inclusive (**meeting minutes is attached**). The stakeholders have placed their suggestions during consultation meeting. First stakeholders' consultation was held on March 15, 2021 at Abdur Rahim Community Center, 25, Tipu Sultan Road, Dhaka-1100, Ward No. 41 of the DSCC with diverse group to know and receive suggestions and desire of the local people about improvement and construction of Abdur Rahim Community Center. There were 81 participants in that consultation meeting. The participants have suggested for a super mall, two floors for community center, councilor office, kid's zone, gymnasium, indoor games, library, cafeteria, green garden, underground car parking, a swimming pool on the roof top, lift facility, Bongobondhu corner, kitchen room, IGA (Income Generating Activities) training center and a healthcare center in the Community Center. They have also suggested that the name of the Community Center should be "Selim Al Mahmud Community Center" who was father of running Councilor and was a compassionate, humanitarian person of the area. Second consultation was held on December 12, 2021 with specially vulnerable group at field level to know and receive suggestions and desire of the people about improvement and construction works of Abdur Rahim Community Center. There were 15 participants in that consultation meeting. The participants have suggested for multipurpose community center with modern facilities, car parking space, a play zone/corner for the children, skill development training center for vulnerable people or their family members, a digital modern library and an IT training center with internet access, a healthcare center and a prayer room. They have demanded employment opportunities for vulnerable people or their family members at the construction site. The participants have also suggested to take initiatives to control dust and sound during construction period.

During the appraisal stage, the DSM Consultant with the help of PIU also conducted a stakeholder's consultation for improvement and construction works of Abdur Rahim Community Center to appraise the stakeholders about the design that was developed considering their suggestions. In the design preparatory stage, there were 81 participants and in the appraisal stage, there were 82 participants. The participants who provided their opinions in the consultation meeting during preparatory stage, among them about 17.28% (14 participants) of the participants were present in the appraisal stage. All the stakeholders including the respected Councilors appreciated the design and expressed their satisfaction saying that the design will serve their desire purpose (Meeting minutes and attendance are attached as **Appendix-C**). All the construction works will be carried out involving stakeholders as well as considering their recommendations.

8. Social Management Plan

8.1 Objectives and Principles

The subproject activities will not involve any acquisition of land or involuntary displacement of people, either physically or economically, temporarily or permanently. Other social risks including social exclusion, gender discrimination, community engagement, labor influx and GBV, other construction related impacts including traffic congestion, dust and sound pollution will be managed under the subprojects Social Management Plan (SMP).

The principles, guidelines, and procedures provided in this SMP are intended to ensure that the subproject activities have been identified and designed and will be implemented following approach to achieve the following objectives:

- a. Enhance positive social outcomes of the activities financed under the DCNUP;
- b. Ensure participation of the target communities, including women and disadvantaged, while identifying the specific measures/activities for adaptation to the development work impacts;
- c. Prevent or compensate for loss of livelihood, which may result from land-based adaptation activities and use of common property resources;
- d. Ensure compliance with the relevant government policies and those of the World Bank on social safeguards and other social issues, including those with gender implications;

8.2 Community Participation during Implementation

The DSM Consultant with the help of PIU of DSCC conducted stakeholders consultation meetings during design stage and appraisal stage of the subproject for improvement and construction of Abdur Rahim Community Center under the subproject and accordingly designed the same considering all the feasible options obtained from the community in the consultation process. During the consultation, the participants have demanded parking facilities and DCNUP has provided parking facilities; the participants have demanded two floors for Community Center and DCNUP has provided three floors for Community Center; the participants have demanded a modern library and DCNUP has provided a modern library; the participants have demanded green garden and DCNUP has arranged green garden in the roof top; the participants have demanded lift facility and DCNUP has provided lift facility; the participants have demanded IGA (Income Generating Activities) training center and DCNUP has provided multipurpose classroom for providing different types of training; The participants have suggested to take initiatives to control dust and sound during construction period and DCNUP will give instructions to civil contractor to take proper measures to control dust and sound during construction period. All the construction works will be carried out involving stakeholders as well as considering their recommendations.

Community participation approach in the implementation process: During the implementation of the subproject, the DSM Consultant with the help of PIU will further engage communities in the subproject level inclusive of age, gender and social status and carry out consultation meetings with them on regular basis to incorporate their feedback. The participants will be of the community peoples including senior citizens, community associations, businessmen, students, women and disadvantaged to seek their participation and feedback in quality control and smooth implementation of the subprojects activities. The local councilors will help to organize the community people and the Zone Office 5 of DSCC and the consultants will facilitate, document and disclose the consultation proceedings. The consultation process and feedback will be reported in the monthly social monitoring report to share with the Bank.

8.3 Gender, Age and Disability Inclusion

The subproject design considered gender, age and disability of community people based on consultation and participation inclusive of age, gender and physical ability. During consultation meetings, a large number of female participants were also attended. The DSM Consultant with the help of PIU, DSCC in the subproject implementation process, will engage communities inclusive of age, gender and disability to gather their respective views and preferences to integrate in subproject civil works construction. The subproject activities have been designed to ensure participation of the local residents, women, children including girls, senior citizens, and physically challenged persons. The design team has incorporated separate toilet for female and physically challenged persons. For universal accessibility of the community people specially for the physically challenged persons and senior citizens, lift facilities have been provided. The DSCC will ensure that women are involved in civil works construction and they enjoy (i) equal pay for equal work; (ii) gender friendly work environment; and (iii) work place safety for women and children. The civil contractor will be given instruction not to engage child labor in the construction works.

8.4 Labor Influx and GBV Risks Management

The project is being implemented in the Capital City of Dhaka and the DSCC will apply its current capacity enhanced with supervision consultant for civil works supervision. Number of workers will be low in the construction site and all will be locally recruited. The risks of labor influx and GBV will therefore be very low and also be managed with close supervision against laborers code of conduct. The PIU will instruct the civil works contractor and subcontractors to engage local labor as many as possible and build makeshift toilets and sanitation system in the construction area to ensure safe and healthy working environment. The contractor will also be asked to take safely measures during construction and public entrance must be restricted in labor camp and material storage sites. The PIU will follow and the contractor will ensure that the influx of workers and followers cannot lead to any social and environmental impacts on local

communities. Before engagement in civil works, the labors will be given an orientation/training. Their activities will be regularly monitored by the contractor, DSM Consultant and PIU will incorporate in the monthly safeguard monitoring report and submit to the World Bank. Workers will also be trained so as to deter any case of GBV/SEA/SH. They will be also imparted Occupational Health and Safety (OHS) training before starting the civil works. COVID-19 Protocol to be maintained (COVID-19 Protocol is attached as Annex-B) during implementation period. A Code of Conduct will be developed and will be signed by all workers regarding GBV/SEA/SH.

Severity of the risks of labor influx varies for community absorption capacity, number of laborers in a worksite and the duration of civil works construction. The risk is assessed to be low as the numbers of workers will be small compared to the size of the host community, the site is in an urban area with high absorption capacity and law-enforcement is strong. The DSM Consultant in coordination with PIU, DSCC will, however, conduct site specific labor influx screening and assessment to identify related risks for management. The civil works contractor concerned will develop Contractor's Environmental and Social Management Plan (C-ESMP) following the project EMF and RPF and report its implementation status regularly to the PIU. The PIU, however, will include labor related information and update in their regular project progress reports.

8.5 Grievance Management

A two-tier Grievance Redress Mechanism (GRM) has been established for the subproject including; (i) Ward Level GRM (Tier one) and (ii) Project level GRM (Tier two). Tier two GRM receives complaints and grievances those cannot be resolved at the tier one GRM. Responsible Executive Engineer has been assigned as the convener of the Ward level GRM, while the Project Director at PIU is the chair of the project level GRM. A five-member Grievance Redress Committee (GRC) at the Ward level has already been formed and authorized to deal with all suggestions and complaints at the Ward level. The DSCC has ensured that communities are fully informed about the GRM and their rights to offer suggestions and make complaints, and the different mechanisms through which they can do so. As the concentration of subprojects is within the city, the secretariat of both GRM are at PIU HQ. GRC may sit on any grievances and suggestions from the communities at the ward level locally or in the office of the ward councilor or at the PIU HQ.

The membership of the GRC ensures representation of complaints and grievances as well as impartial hearings and investigations, and transparent resolutions. The GRC Convener requests the Ward Councilor concerned from which the complaint was received to participate in the hearing. If the aggrieved person is a female, GRC requests the female Ward Councilor concerned to participate in the hearings.

All complaints are received at the Zone Office of DSCC, where the subproject is located and registered in the complaint book with instant intimation to the complainant. Complaints are investigated and heard within 15 days of registration and resolved in the third week of the receipt. GRC decisions, if agreed by the complainant is binding upon the PIU.

9. Implementation, Monitoring and Evaluation

The DSCC will ensure that implementation of activities outlined in this SMP are implemented and followed in the subproject civil works process. Social inclusion, gender mainstreaming and management of other social risks and impacts identified and managed as above, will be monitored in line with the social analysis of inclusion and participation of various groups/agencies including women and consistent with the activities/issues that have been integrated into project design. The PIU, DSCC will monitor the issues on a regular basis and include the results in the monthly and quarterly reports and also submit to the World Bank.

Depending on the project contents and objectives, subproject indicators for evaluation should take into account, among other relevant aspects, the following points:

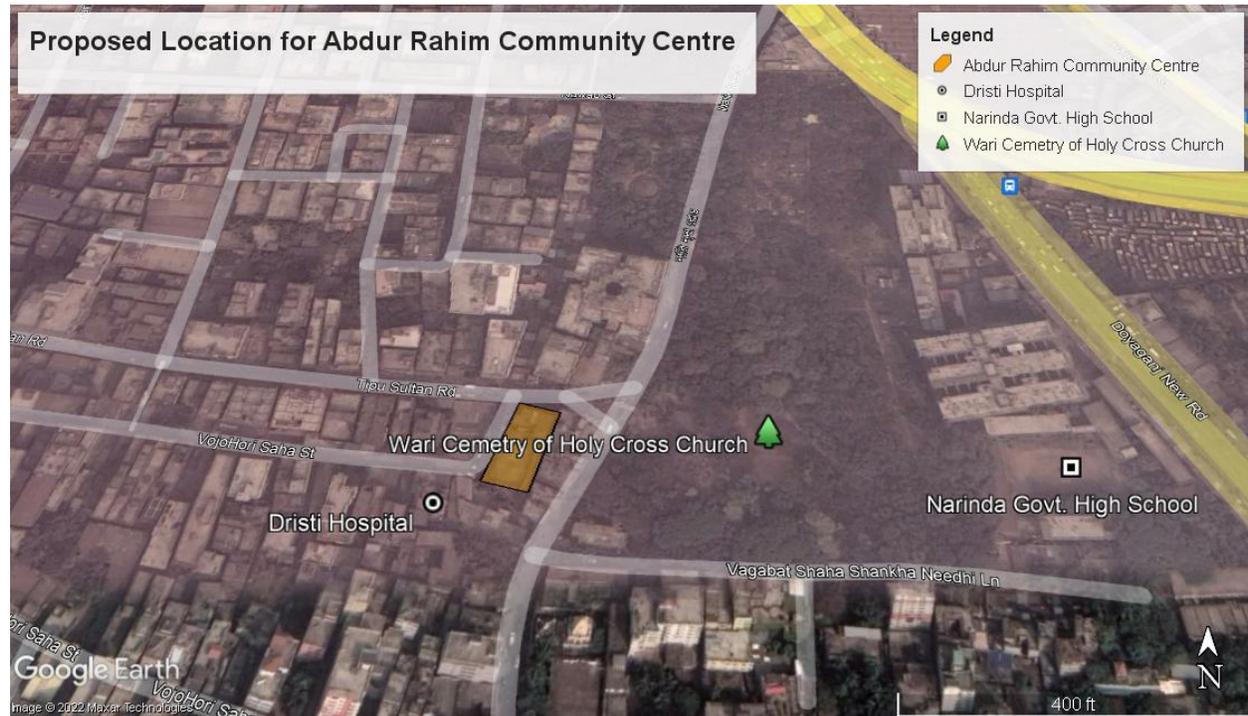

- Specific needs of community people including affected and beneficiary groups irrespective of gender and incorporation of them into subprojects implementation approach.
- Local knowledge and inputs for enhancement of subprojects outcomes.
- Intended and unintended social and gender effects of the subprojects.

Lessons and good practices to be drawn from the monitoring process which can help mainstreaming gender and inclusion of community people in project design and implementation in the subsequent identification, design and implementation of subprojects and any future projects.

Appendix A: Social Screening of Improvement and Construction works of Abdur Rahim Community Center

1. **WARD NO:** 41
2. **WORK PACKAGE:** DCNUP/W-8/SUT
3. **SUBPROJECT NAME:** Improvement and Construction works of Construction of Abdur Rahim Community Center
4. **DATE OF SCREENING:** The screening was conducted on March 15, 2021
5. **RESPONSIBLE PERSON:** Mr. Md. Shakhawat Hossain Khan, Social Safeguard cum Communication Specialist of DCNUP; Mr. Md. Ashraful Awal, Social Safeguard Specialist of DSM Consultant and respected Councilor of Ward No. 41, DSCC, Mr. Sarwar Hasan Alo conducted the screening on behalf of the DSCC and the community respectively.
6. **Brief description of site location:** The proposed subproject is located in the Sutrapur-Nayabazar-Gulistan neighbourhood under Ward No. 41 of Zone-5 of the DSCC. The area is bounded by Motijheel Police Station on the North, Keraniganj Upazila on the South, Demra Police Station on the East, Kotwali Police Station (Dhaka) on the West. The area is enriched with residential houses and many big and small business houses. There is historical Bolda Garden within 500 meters of subproject area.
7. **Subproject description:** The proposed subproject is located in the Sutrapur-Nayabazar-Gulistan neighbourhood under Ward No. 41 of Zone-5 of the DSCC. The community center proposed for improvement and construction under the subproject is in miserable condition right now as a result the local people are not getting their desire benefit from this community center. Physical expansion of the subproject is not possible due mainly to compact settlement and high price of land along the community center.

8. Site Map

9. Pictorial presentation of Proposed Location of Abdur Rahim Community Center

10. Social Screening Form :

Screening Questions	Yes	No	Unknown	Remark
Any Permanent acquisition or temporary land acquisition required?		X		The subproject activities will be well within the existing available lands.
Any dislocation or involuntary resettlement of residential HHs?		X		No dislocation or involuntary resettlement of residential households will be caused by the subproject.
Dislocation and involuntary resettlement of Commercial premises?		X		No dislocation or involuntary resettlement of any commercial premises will be caused by the subproject.
Dislocation and involuntary resettlement of squatters?		X		No squatters will be affected due to subproject.

Screening Questions	Yes	No	Unknown	Remark
Poor, women and children or other vulnerable groups affected by the project activities		X		These disadvantaged and vulnerable groups are not likely to suffer specific harm, apart from those suffered by general populace due to the subproject.
Whether people are meaningfully consulted and they are aware of the project?	X			Consultation with communities were held during the design preparatory stage of the sub-project and they are aware of the subproject.
Any GRM established? Do the people know about its existence?	X			Two tier GRM has been established for the Project. The local people are informed about GRM during consultation.
Summary of impact of construction activities – noise, traffic, spread of diseases.	X			During construction people may face dust and noise related problems but this will be managed under the ESMP of the works package/contract. As the subproject area is within the city, the risk of spread of diseases will be low and manageable.
Summary and types of waste generation	X			Construction waste which will be generated will be managed under the ESMP of the works package/contract.
Possible transmission of communicable diseases (such as COVID-19, STI's and HIV/AIDS, etc.) from workers to local populations?	X			The subproject activities will be carried out during COVID-19 pandemic situation. Therefore, the workers will need to be provided with training on COVID protocols, provided with free PPE and temperature and other symptoms should be monitored on a regular basis.
Will there be high labor requirement and possibility of labor influx.		X		The subproject will not require high number of labors so there is no possibility of labor influx as the local labor will be in the subproject activities.
Presence of cultural heritage site and summary of impact.		X		There is no cultural heritage in the subproject area.
Presence of any ethnic communities in the area and possible summary impact		X		There is no ethnic communities in the subproject area.

11. Conclusion from the social screening: The screening confirms that improvement and construction works of Abdur Rahim Community Center does not have any involuntary resettlement impact. No Resettlement Plan will therefore be required. According to the project Resettlement Policy Framework (RPF), the other social issues like social inclusion, community participation, labor influx, gender mainstreaming, GBV risks and grievance resolution will be managed under the Social Management Plan (SMP) of the Subproject.

Appendix B: COVID-19 Protocols to be followed at Construction Site

Considering the COVID-19 pandemic across the world, it is important to take into consideration and alert for preparation and implementation of any project. For ensuring the health security following standard guidelines for Office and Field Work during COVID-19 Pandemic are proposed:

A. Pre-cautionary measures for participant during meeting, training session or public gathering

- All Participants (men, women and children) must wear mask.
- Participant's mask must cover always his/her nose and mouth during the meeting, training session or public gathering.
- Participant who is sick by fever, cold, cough, sore throat, having breathlessness must prohibit attending in the meeting.
- Participant whose family member(s) tested Corona Positive must not be invited and prohibited to attend in the meeting, training session or public gathering.
- Participant who/whose family member(s) recently transferred to the home from other district, country or long journey by public transport must not be invited and prohibited to attend in the meeting, training session or public gathering.
- Participant who/whose family member(s) recently visited or touched to the Corona Positive patient or attended the funeral of a Corona positive death but did not stayed in 14 days home quarantine must not be attended in the meeting, training session or public gathering.
- The sitting arrangement of the training room must ensure U shape keeping Social Distancing at least 3.2 feet/1 meter from each participant.
- Facilities for washing hand and face must ensure in the meeting, training session or gathering room/yard/area. Participant must enter the session after washing his/her hand and face by using soap water or hand sanitizer.

B. Pre-cautionary measures for Survey Team during survey conduction

- Must wear mask and hand gloves during survey. At best wearing Personal Protective Equipment (PPE). The mask must be at least 3 layers.
- Must use official transport or private vehicle *i.e.* bi-cycle, motorbike. Best to avoid public transport.
- Before travelling, recommended to spray by using disinfectant in the official transport.
- Carry personal hand sanitizer. Use it intervallic during survey.
- Must maintain 3.2 feet/1 meter social distance if the survey conduct face-to-face and the respondent also must wear mask as instructed. Survey conductor must be alert whether the responded physically risk or risky for Covid-19.

C. Pre-cautionary measures for Office Staff during office hours

- Must use tissue or sanitized clean cloth or hand knee during sneezing.
- Don't throw waste in your work station. Use bin for waste management.
- Keep your shoes outside the office complex. Use shoe rack.
- Keep clean your desk/work station. Best to spray your surrounding by disinfectant.
- All staff must wear mask all time.
- Alert to touch contaminated surface.
- Maintain social distancing with your colleague during work. Set your desk maintaining social distance.
- Employees who have returned from an area where COVID-19 is spreading should monitor themselves for symptoms for 14 days and take their temperature twice a day.
- Always disinfect your personal pocket materials *i.e.* money bag, vanity bag, sun glass, mobile phone, home key and ATM card.
- Be alert using office common wash room and toilet. Spray with disinfectant onto washroom basin, toilet before and after using them. Clean them at least three time by using toilet cleaner.

D. Pre-cautionary measures to follow at workplaces

➤ Physical distancing

- Measures will be taken to keep a distance of at least 1 meter between people and avoid direct physical contact with other persons (hugging, touching, shaking hands), strict control over external access, queue management (marking on the floor, barriers);
- Reduce density of people in the building (no more than 1 person per every 10 square meters), physical spacing at least 1 meter apart for work stations and common spaces, such as entrances/exits, where congregation or queuing of employees or visitors/clients might occur will be ensured;
- Non-essential travel to work sites will be prohibited;
- Workers will be sensitized with one-to-one meeting or publication materials to comply with instructions from the government relating to COVID-19;
- Workers will be sensitized with one-to-one meeting or publication materials on whom to contact if they feel ill while at work;
- Workers will be monitor before appoint for work through medical professional if he/she is infected with COVID-19 or bearing symptom of fever and cough themselves for symptoms for 14 days;
- Thermal screening at the workplace will be introduced;

- Temperature of all the workers and staff will be monitored twice a day and they will be urged to self-monitor their health;
- If they feel unwell, they will be advised to stay at home, self-isolation, and contact a medical professional; and
- The local health authorities will be contacted to keep attendance and meeting records in order to facilitate or undertake contact-tracing.

➤ **Hygiene**

- Regular and thorough handwashing with soap and water or hand hygiene with alcohol-based hand-rub before starting work, before eating, frequently during the work shift, especially after contact with co-workers or customers, after going to the bathroom, after contact with secretions, excretions and body fluids, after contact with potentially contaminated objects (gloves, clothing, masks, used tissues, waste), and immediately after removing gloves and other protective equipment but before touching eyes, nose, or mouth;
- Hand hygiene stations, such as hand washing and hand rub dispensers, should be put in prominent places around the workplace and be made accessible to all labors, staff, contractors, clients or visitors along with communication materials to promote hand hygiene;
- Medical face masks and paper tissues will be made available at the workplace, for those who develop a runny nose or cough at work, along with bins with lids for hygienic disposal;
- Wearing mask or face covering for all labors, staff, contractors, clients or visitors will be ensured;
- It will be ensured that any sick worker not come to work; and
- If a member of staff or a worker feels unwell while at work, he/she should be provided with a medical mask so that he/she may get home safely.

➤ **Communication**

The alternate approaches that will be practiced for stakeholder engagement will include:

- Minimizing the need for physical meetings, teleconferencing facilities will be introduced;
- Consultations in small groups will be arranged if smaller meetings are permitted;
- Efforts to conduct meetings through online channels (WebEx, Zoom, Skype, Google Meet, Google Classroom etc.) will be introduced;
- Diversify means of communication like social media, chat groups, dedicated online platforms and mobile Apps (Facebook, Twitter, WhatsApp groups, project web links/websites, etc.) will be introduced;

- Local channels of communications such as cable TV, religious leaders like Imam of Masjid, Purohita of Mondir and Father of Church, dedicated phone-lines, SMS broadcasting, and public announcements (miking) when stakeholders do not have access to online channels or do not use them frequently will be used;
- Posters, short videos, and electronic message boards will be introduced to increase awareness about COVID-19 among workers and local people; and
- Labors will be encouraged through one-to-one meetings to use GRM.

Appraisal Level Consultation with Primary Stakeholders

Appraisal Level Stakeholders Consultation Meeting at Ward Councilor Office, 25, Tipu Sultan Road, Wari, Ward No. 41, DSCC - February 01, 2022:

An appraisal level stakeholder consultation was held on February 01, 2022 at the Ward Councilor Office, 25, Tipu Sultan Road, Wari, Ward No. 41, DSCC to appraise the stakeholders about what they have suggested at the design level consultation and what the DSCC has accommodated in the design of the community center. The respected Councilor of Ward No. 41, DSCC, Mr. Sarwar Hasan Alo, has chaired the meeting and Ms. Shahinur Begum, Female Ward Councilor (Reserve), Ward No. 34, 38 & 41, DSCC has co-chaired the meeting. Mr. Sarwar Hasan Alo has started the meeting with a welcome address and informed the local people about the agenda. Addressing the appraisal level consultation meeting, the respected Councilor has thanked the World Bank and DSCC for considering the stakeholders' opinions in the design phase and expressed his happiness for holding appraisal level consultation meeting with design and drawing. He has requested the design team to present details of the design. Ms. Shahinur Begum has also conveyed thanks to the DSCC and the World Bank for appraising the stakeholders on the design and requested the stakeholders to provide their observations if any on the design after the presentation.

Consultation by Ms. Shahinur Begum, Female Ward Councilor (Reserve), Ward No. 34, 38 & 41, DSCC - February 01, 2022

Ms. Shahinur Begum has expressed her satisfaction over the design. She has demanded that if possible, a large parking area should be constructed in the community center. She has also demanded to establish a skill development training center for women if possible. She has stated that Selim-al-Mahmoud was an educationist and a veteran politician. So, she has proposed to name the building (community center) as Selim-al-Mahmoud Community Center instead of Abdur Rahim Community Center.

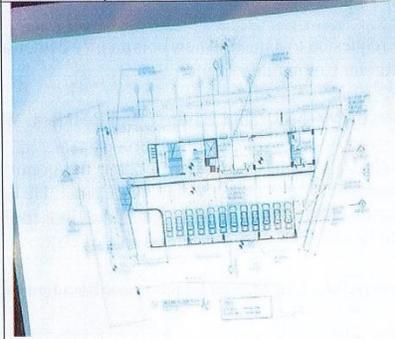

The respected Councilor of Ward No. 41, DSCC, Mr. Sarwar Hasan Alo, is briefing the appraisal stage stakeholders' consultation meeting held on February 01, 2022 at Ward No. 41, DSCC.

The respected Female Ward Councilor (Reserve), Ward No. 34, 38 & 41, DSCC, Ms. Shahinur Begum, is speaking at the appraisal stage stakeholders' consultation meeting held on February 01, 2022 at Ward No. 41, DSCC.

The design team of DSM Consultant of DCNUP, DSCC is presenting the design and drawings of Improvement and Construction of Abdur Rahim Community Center at the appraisal stage stakeholders' consultation meeting on February 01, 2022 at Ward No. 41, DSCC.

The design team of DSM Consultant of DCNUP, DSCC has presented the design and drawings in PowerPoint view of Improvement and Construction of Abdur Rahim Community Center at the appraisal stage stakeholders' consultation meeting on February 01, 2022 at Ward No. 41, DSCC.

Consultation by Mr. Md. Delwar Hossain Delwar, Local Resident, Vajahari Saha Street, Ward No.41, DSCC - February 01, 2022

After completion of the presentation of the design team, Mr. Md. Delwar Hossain Delwar has thanked the DSCC for developing a nice design. He has hoped that the proposed community center will fulfill the required demand of the local people. He has stated that this community center should be renamed in the current context. He has proposed to name the new community center as Selim-al-Mahmoud Community Center instead of Abdur Rahim Community Center.

Consultation by Mr. Md. Masum, Local Resident, Jorpool, Ward No.41, DSCC - February 01, 2022

Mr. Md. Masum has mentioned that according to the proposed design, the community center will be constructed as a five-storied building. If possible, he has proposed to construct the building as an eight-storied building. He has requested to build two separate stages for the bride and bridegroom in the community hall.

Consultation by Mr. Mainul Abedin, Local Resident, Vajahari Saha Street, Ward No.41, DSCC - February 01, 2022

Mr. Mainul Abedin has mentioned that the new community center will have only 12 (twelve) car parking facilities which are not enough compared to the need. He has requested for creating more car parking spaces if possible. He has demanded the construction of underground car parking if possible. He has hoped that the new community center would have all the modern facilities.

Consultation by Mr. Iktair Hossain, Service Holder, Narinda Road; Mr. Md. Khokon, Local Resident, Jorpool; and Mr. Md. Sabbir Dewan, Local Resident, North Moushundi; Ward No.41, DSCC - February 01, 2022

They have requested to name the new community center as Selim-al-Mahmoud Community Center instead of Abdur Rahim Community Center.

Consultation by Mr. Md Nabid Hasan, Local Resident, Ward No.41, DSCC - February 01, 2022

Mr. Md Nabid Hasan has proposed to name the community center as Selim-al-Mahmoud Community Center instead of Abdur Rahim Community Center. He has necessitated underground parking and a prayer room if possible. He has suggested having a free floor for low-income people. As a result, they (low-income people) will be able to hold social events free of cost.

Consultation by Mr. Md. Maidul Islam, Local Resident, South Moushundi, Ward No.41, DSCC - February 01, 2022

Mr. Md. Maidul Islam has demanded to install the mural of the Father of the Nation Bangabandhu Sheikh Mujibur Rahman, Honorable Prime Minister Sheikh Hasina and Honorable Mayor of DSCC Sheikh Fazle Noor Taposh in the community center. He has also demanded to name the building (community center) as Selim-al-Mahmoud Community Center instead of Abdur Rahim Community Center.

Participants are speaking at the appraisal level stakeholders' consultation for Improvement and Construction of Abdur Rahim Community Center held on February 01, 2022 at Ward No. 41, DSCC.

Consultation by the Design Team, DSM, DSCC - February 01, 2022

The design team has replied to the demand, request and suggestions of some participants saying that they will convey their demand to the authority concerned regarding the name change of the community center. They (the design team) have assured the participants that the community hall (of the community center) will have two separate stages for the bride and bridegroom. They have informed the participants that it is not possible to increase the building floor above five-storied because of some issues (such as building code, firefighting arrangements, maintenance and others). The design team has opined that the proposed location of the community center has less space so it will not be possible to construct underground parking. They have also opined that the number of car parking has been designed according to building code.

Concluding Remarks by Mr. Sarwar Hasan Alo, Ward Councilor, Ward No.41, DSCC - February 01, 2022

In his concluding remarks, Mr. Sarwar Hasan Alo has expressed his satisfaction over the proposed design of the community center. He has said that this design has been done in light of the initial meeting which was held in March, 2021. He has further added that the proposed location of the community center is small so underground parking will not be possible and for the same reason it will not be possible to increase the number of parking in surface parking. He has suggested having a free floor for low-income people. As a result, low-income people will be able to rent the community center and hold social events at less cost. He has proposed to have slippers and indoor games in the children play zone on the rooftop. He has demanded the establishment of a healthcare center and a gymnasium (separate for male and female) if possible. He stated that the honorable Mayor is trying to make the city modern and up-to-date. He has hoped that this community center will have maximum modern and essential facilities. He has also hoped that the DSCC will start work in the shortest possible time to fulfill the dream of the local people.

As there were no other issues to discuss at that moment, the consultation meeting was ended with vote of thanks.

Information shared	Comments by stakeholders	Actions to be taken
	<ul style="list-style-type: none"> • Reducing dust-related pollution during construction; • Controlling sound during construction; • Monitoring gender-based violence during the construction period; • Ensuring the use of good-quality construction materials; • Monitoring the construction work regularly. 	

Consultations with Primary Stakeholders

For the subproject area, a series of targeted consultations (interviews) were conducted with primary stakeholders. All the participants were informed that the DSCC has a plan to improve and construct a multipurpose community center with modern facilities. The summary of concerns stakeholders raised during consultations (interviews) is presented below:

1. Consultation with Vulnerable Group

Consultation with Ms. Taslima Akter, Single Mother, Tipu Sultan Road, Wari, Ward No. 41, DSCC – December 12, 2021

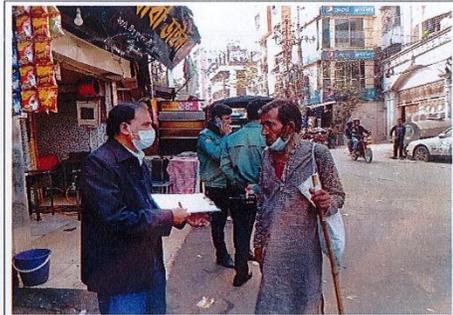

The single mother has requested to arrange handicraft, tailoring, sewing, etc. training center for vulnerable people especially for the women in the community center. She has demanded to create a playing corner for the children. She has requested to establish a daycare center for the children of the working vulnerable people in the community center.

Consultation with Single Mother

Consultation with Mr. Mintu Mian, Person Living under Poverty, Tipu Sultan Road, Wari, Ward No. 41, DSCC – December 12, 2021

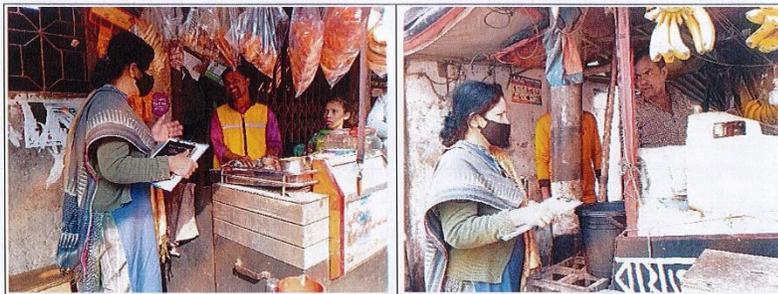

The poor person has demanded a healthcare center in the community center. He has suggested planting trees in the surrounding area of the community center. He has requested to create employment opportunities for vulnerable people or their family members at the construction site as per their skills.

Consultation with Person Living under Poverty

Consultation with Mr. Md. Firoz and Mr. Md. Dulal Gazi, Tea Stall Owner, Tipu Sultan Road, Wari, Ward No. 41, DSCC – December 12, 2021

The tea stall owners have requested to take necessary steps to reduce dust-related pollution during the construction period for reducing public hazards. They have suggested creating a boundary to block the construction site during the construction period for the safety of the local people. They have demanded to create employment opportunities for vulnerable people or their family members in the construction site.

Consultation with Local Tea Stall Owners

[Handwritten signature]

Consultation with Mr. Md. Nur Mohammad and Mr. Gopal Rishi, Mobile Street Vendor, Tipu Sultan Road, Wari, Ward No. 41, DSCC – December 12, 2021

The mobile street vendors have requested to generate employment opportunities for the vulnerable people or their family members at the construction site according to their skills. They have suggested creating a boundary to block the construction site during the construction period for the safety of the local people as well as controlling air and sound pollution.

2. Consultation with Student

Consultation with Md. Taihatul Aurjun Ikra, Jannatul Bakia and Al-Amin Hossain Mahin, Student, Tipu Sultan Road, Wari, Ward No. 41, DSCC – December 12, 2021

The students have demanded to create a modern library and an IT/computer training center with internet facilities for all as well as students in the community center. They have also demanded indoor games facilities and a gymnasium with modern instruments in the community center. They have emphasized proper monitoring by the project authority so that no gender-based violence will be occurred by the workers during the construction period.

Handwritten signature

3. Consultation with Youth

Consultation with Mr. Md. Parvez, Ms. Jannatul Ferdous and Mr. Md. Hannan, Youth, Tipu Sultan Road, Wari, Ward No. 41, DSCC – December 12, 2021

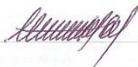

The youths have suggested constructing a gymnasium with the modern instrument in the community center. They have requested to establish a play zone/corner for the children in the community center. They have also requested to establish a modern library and an IT/computer training corner with internet facilities. They have recommended spraying water to reduce dust-related pollution during the construction period. They have requested the DSCC to ensure the use of good quality construction materials for constructing the community center. They have also requested the DSCC to monitor the construction work regularly.

4. Consultation with Senior Citizen

Consultation with Mr. Nazrul Islam and Mr. Abul Bashar, Senior Citizen, Tipu Sultan Road, Wari, Ward No. 41, DSCC – December 12, 2021

The senior citizens have demanded to create a separate space for the entertainment of senior citizens in the community center. They have also demanded to create a play zone/corner for the children. They have requested to establish a healthcare center in the community center. They have suggested having a lift facility in the community center for the elderly and physically challenged people. They have demanded to take necessary steps to reduce sound and dust-related pollution during the construction period for controlling the public hazard. They have requested the DSCC to ensure the use of good quality construction materials for building the community center. They have also requested the DSCC to monitor the construction work regularly.

Consultation with Local Senior Citizens

As there were no other issues to discuss at that moment, the consultations were ended with thanks.

C-3: Stakeholder Meeting Minutes at Design Stage for Improvement and Construction of Abdur Rahim Community Center

Dhaka South City Corporation

Dhaka City Neighborhood Upgrading Project (DCNUP)

Subject: Meeting minutes of the Stakeholder Consultation with community people for improvement of Abdur Rahim Community Center

Package No: DCNUP/W-08/SUT

Package Name: Improvement and Construction works of Abdur Rahim Community Center (DCNUP/W-08/SUT)

01. Chairperson: Mr. Sarwar Hasan Alo, Councilor, Ward No. 41, Dhaka South City Corporation

02. Meeting Date & Time: March 15, 2021 at 12:00 pm

03. Meeting Place: Ward Councilor Office, 25, Tipu Sultan Road, Dhaka-1100

04. Attendee of the Meeting: Local Government Representative including community people (**Attendance Sheet & Pictures –Annex A**)

05.

A stakeholders' consultation was held on March 15, 2021 at the Abdur Rahim Community Center to know and receive suggestions and desire of the local people about Improvement of Abdur Rahim Community Center. Mr. Sarwar Hasan Alo, 41 No. Ward Councilor of the DSCC, presided over the meeting. He has started the meeting with welcome address and informed the local people about agenda of the meeting. Addressing the meeting, the honorable councilor expressed his gratitude to the DSCC and the World Bank for considering the stakeholders opinions in the design phase and requested the community people to provide their valuable opinions regarding the reconstruction work of the community center. Mr Sarwar Hasan Alo has opined that this community center could be constructed as a modern community center providing all types of facilities. He has expressed that the community center will be used or conducting social events as well as cultural activities. He has also suggested super mall, community center in two floors, kid's zone, gymnasium, indoor games, library, cafeteria and green garden.

In addition to the stated feedbacks by the honorable councilor, some stakeholders also gave their opinions for further improvements of the Community Center which are stated below:

06. Md. Shofiq, local resident, has opined that there is no parking area in this area. He has suggested for an underground car parking in the community center. He has also opined for indoor games facilities and a swimming pool on the roof top of the community center.

07. Md. Delowar Hossain Delen, local resident, has expressed that due to lack of security, the community people go to Fokir Chand Community Center instead of conducting a program here. He has requested to develop security system of the new constructed community center.

08. Md. Selim, local resident, has suggested to rename the community center. He has suggested that the name of the Community Center should be "Selim Al Mahmud Community Center" who was father of running Councilor and was a compassionate, humanitarian person of this area.

09. Md. Mithu, local businessman, has expressed that lift system should be ensured during construction of the community center. He has also expressed for underground parking in the community center.

10. Mr. Hasan Ali Iqram, local resident, has expressed that this community center is not in condition to use. He has suggested to reconstruct the community center with roof top gardening, Bongobondhu corner, separate gymnasium for male and female and indoor games facilities. He has also suggested to rename the community center by the name of "Selim Al Mahmud Community Center".

11. Dewan Aftabul Alam, local resident, has expressed that kitchen room should be on the top floor of the Community Center. He has suggested for a modern library in the Community Center.

12. Sheuli Aktar, housewife, has suggested for IGA (Income Generating Activities) training center, Kid's zone, hygienic separate toilet for male and female and green garden on the roof top of the Community Center.

13. Mr. Zunayed, local resident, has requested for a corner for the person with disability and a kid's zone in the open space so that the children can play in separate way.

14. Ms. Saleha Akter, housewife, has suggested healthcare center with free medicine facilities and to ensure safe drinking water in the Community Center.

As there was no other issues to discuss at the moment, the chairperson announced the consultation meeting end with vote of thanks.
