EXECUTIVE SUMMARY

Dhaka Water Supply Network Improvement Project (DWSNIP) aims to improve provision of sustainable, reliable, and climate-resilient water supply in Dhaka city. It will enhance the distribution network efficiency gains achieved under two previous Asian Development Bank (ADB) financed projects to Dhaka Water Supply and Sewerage Authority (DWASA) for improving service delivery and capacity building.¹ DWSNIP impact will be (i) safe drinking water made available for all urban population, which is aligned with the Seventh Five-Year Plan, 2016-2020,² and (ii) coping with disaster and adapting to climate change and safeguard environment in the National Strategy for Water Supply and Sanitation.³ The outcome will be sustainable provision of more reliable, improved, and climate-resilient water supply in Dhaka city ensured. The outputs will be DWASA's (i) distribution network strengthened; (ii) sustainable DMA management capacity enhanced; and (iii) capacity for quality service delivery enhanced.

DWASA has made consistent efforts in improving distribution network of water supply, including through ADB-financed projects: (i) Dhaka Water Supply Sector Development Program (DWSSDP), which aims to rehabilitate and reinforce water supply systems and build DWASA's capacity to optimize operational and financial performance; and (ii) Dhaka Environmentally Sustainable Water Supply Project (DESWSP), which aims to develop a new surface water scheme to augment water source and reinforce the distribution network. Under these on-going projects, distribution network improvement (DNI) works have been implemented in seven out of ten zones of Dhaka city by establishing district metered areas (DMAs) and focusing on nonrevenue water (NRW) reduction in each DMA. Commissioned DMAs have achieved uninterrupted 24-hour piped water supply, reduced physical water losses from 40% to less than 15% with the current average of 4.95%,⁴ assured good quality potable water directly from taps without any other treatment, and authorized or legalized 9,500 connections. A remaining challenge for DWASA is to enhance the efficiency gains throughout its service area and reduce overall physical losses and nonrevenue water, which is still estimated to be about 26%.

Design, Management and Supervision Consultants (DMSC) supports Project Management Unit (PMU) of DWASA to identify, avoid, minimize, and compensate losses, harms and problems to people and the environment. Since the pipeline will be laid within the existing Right of Way (RoW) and the construction of pump is being implemented on land that belongs to the Dhaka WASA/Bangladesh government under the DWSNIP, land acquisition will not be required. The project has been classified as **Category-B** for involuntary resettlement in considerations of the ADB Safeguard Policy Statement, 2009. Therefore, the impact of the sub-projects would be minimal; some mobile vendors could loss income for some days during construction. DMSC's resettlement expert has visited all the sub-projects where civil work is going on during the reporting period (Jan – June 2020) and assisted DWASA, Non-Governmental Organisations (NGOs) and contractors conducting census to identify potential involuntary resettlement impacts, socio economic survey to the affected persons, compensation to the affected persons, documentation and mitigation of grievances and compliance of other social safeguards activities. All the affected persons can return to the

¹ ADB. 2007. *Report and Recommendation of the President to the Board of Directors: Proposed Loans and Technical Assistance Grant to the People's Republic of Bangladesh for the Dhaka Water Supply Sector Development Program* (Loan 2382 and 2383-BAN). Manila; ADB. 2013. *Report and Recommendation of the President to the Board of Directors: Proposed Loan and Administration of Loan to the People's Republic of Bangladesh for the Dhaka Environmentally Sustainable Water Supply Project* (Loan 3051-BAN). Manila. These two loans finance some of feasibility studies of this project.

² Government of Bangladesh, Planning Commission, Ministry of Planning. 2015. *Seventh Five-Year Plan: FY2016-FY2020*. Dhaka.

³ Government of Bangladesh, Policy Support Unit, Local Government Division, Ministry of Local Government, Rural Development and Cooperatives. 2014. *National Strategy for Water Supply and Sanitation*. Dhaka.

⁴ Physical losses in thirty commissioned DMAs range from 1.58% to 14.06% (DWASA estimates).

original sites once the construction is completed.

There is no land acquisition in the ongoing three ICB packages of ICB 2.8, 2.9 and 2.11 under the project. The main resettlement impact is the potential reduction in the income of shops on and along the streets if the presence of trenches, excavated soil, and machinery make access difficult for customers. Issues of involuntary resettlement have been addressed according to national legislation (Government of Bangladesh Acquisition of immovable Property Act, 1917), and ADB Safeguard Policy Statement (SPS), 2009.

During the reporting period, ADB extended 'No Objection' to the resettlement plan for 12 DMAs of 3 ICB packages. Table 1 describes the status of the resettlement plans approved by ADB during the reporting period from July to December 2020.

Table-1: Status of RP updated and approved during July – Dec 2020

Package and DMA	Status of Resettlement Plan	Remarks
ICB 2.8		
<i>Third Batch (DMA 901, 902, 911, 914, 915)</i>	<i>Approved by ADB (Aug. 24, 2020) and disclosed in DWASA and ADB website</i>	<i>Before starting civil work, compensation to the APs of this batch will be given. Updating RP of all DMAs under ICB 2.8 are done and cleared by ADB.</i>
ICB 2.9		
<i>Third Batch (DMA 212, 213, 214)</i>	<i>Approved by ADB (September 23, 2020) and disclosed both ADB and project website</i>	<i>Before starting civil work, compensation to the APs will be given</i>
Fourth Batch (DMA 207, 208, 211, 215)	Resettlement Plan is under preparation	This is the last batch and submission date of the RP of this batch is Feb 28, 2021
ICB 2.11		
<i>Fourth Batch (DMA 406, 411, 412, 413)</i>	<i>Approved by ADB on November 8, 2020 and disclosed both ADB and project website</i>	<i>Compensation to the APs is under process</i>
Fifth Batch (DMA 1001, 1009, 1010, 1011)	Resettlement Plan is under preparation	Construction schedule is on middle of June 2021. Model and detail design are completed. Submission date of the RP of this batch is 15 th April, 2021
Sixth Batch (DMA 409, 414)	Resettlement Plan is under preparation	Construction schedule is on middle of April 2021. Model and detail design are completed. Submission date of the RP of this batch is 30 th March, 2021

No further upgradation of the resettlement plans is required as the civil work will start shortly and the plans have been updated through the methodology prescribed by ADB. In order to updating the resettlement plans, the field visits to the sub-project areas were made in the months from June to September 2020 maintaining health and safety protocol amid the corona pandemic situation. The routes visited were based on the model and detailed design submitted by the contractors and current alignments were also considered. During the civil work, if any unanticipated impact notice, that will also be mitigated and/or compensated. The following Table 7 shows the status of resettlement plans updated and approved by ADB.

Compensation to affected persons. Compensation was given to 117 affected persons (male: 101 and female: 16) out of 127 in ICB 2.8 (DMA 905, 912, 913) ICB 2.9 (DMA 205, 206, 209, 210); ICB 2.11 (DMA 303, 305) during the reporting tenure. The compensation amount given to affected persons was BDT 276150. Ten affected persons could not be paid as they are not available during payment. Some left the area abandoning their businesses. It has been observed that in most cases of resettlement activities, the impacts are limited to the income loss of the street vendors during the construction period. Thus, the impacts are temporary and can easily be mitigated. The amounts of compensation for 7 days net income loss of each affected person were estimated through survey and meetings during the

updating of resettlement plan. Those who were not available during giving compensation will be paid once they will claim for the compensation payment. During the civil work, if any unanticipated impact notices, that will also be mitigated and/or compensated.

A total of 277 affected persons received compensations of BDT 1169350 from beginning of the project to Dec 31, 2020. In the period, 8 vulnerable affected persons were also received assistance BDT 128000 (BDT 16000 each) in addition to the compensation amount for their income loss.

In order to develop capacity of the NGO staff, contractors' officials and other related stakeholders on compliance of social safeguards, health, safety and EMP, the Design Management and Supervision (DMS) consultants of DWASA are frequently arranging for consultations and training activities.

FGD, tea stall meetings, one on one discussion and public consultations were carried out prior to the civil work as well as during construction at every site so that the public was well informed and aware of the development work. Awareness among communities regarding project activities and benefits have increased. As a result, expected assistance and cooperation towards project implementation has been received from the local community members. During the resettlement plan update, stakeholders have also been consulted in three packages. A total of 73 consultation meetings were held during reporting period where 974 participants (690 male and 284 female) attended in the meetings.

The DWASA along with DMS, resettlement NGO and contractors visited construction sites at 3 ICB packages. COVID-19 pandemic is an unprecedented crisis, which we all are still struggling to cope up with. Civil work is going on maintaining measures to ensure health and safety of all concern following the site-specific Covid-19 health and safety plans.

Grievance Redress Mechanism (GRM). A Grievance Redress Committee (GRC) was established on December 19, 2018 at both PMU and Project coordination unit (PCU) level. During the reporting period (July – Dec 2020), a total of 78 grievances have been registered and all were resolved at construction site. Among the complaints, 31 received from ICB 2.8, thirty-two (32) complaints received from ICB 2.9 and 15 complaints received from ICB 2.11.

Complaints and suggestions related to social safeguards and civil work have been received and these issues have been duly mitigated for during this reporting period. Sometimes, completion of construction works take a longer time and the pits and trenches are kept open for longer time than planned, create problems of the surrounding people and specifically suffered by the adjacent households. Locals have faced problems with the open cut trenches. Pit and excavated roads kept open for a few days and inadequate sheets placed for smooth moving. Excessive waste piled up around the road, delaying the backfilling of pit were also some of the registered grievances. In addition, complaints regarding the temporary inconvenience caused during construction due to the disruption and damage by the HDD and open cut system to the existing utility lines, gas line, electricity line, telephone line services. These issues were put forth as grievances to DWASA and the contractor. Other issues found included disruption to the increased water supply quantity and quality during physical work in some places. The transportation and communication in the localities have also been hampered during construction of physical improvements. In some areas, in order to address and resolve the issues, mitigation measures have been implemented by the respective contractor as per the site-specific Environmental Monitoring Plan (EMP). SAMAHAR, resettlement NGO has also facilitated to mitigate the issues involving DWASA officials, DMS consultants and contractors.

The grievances of all 3 ICB Packages under DWSNIP have significant experience regarding people's participation through consultation meetings and other channels like FGD, one on one meeting, *miking* (message disseminating through loudspeaker), leaflet distribution, and

so on. The project has illustrated, through these means, a wider space for citizens' participation that has enabled Dhaka WASA to take more informed decisions. Such an arrangement has also helped to create an interactive atmosphere for building mutually reinforcing relationships between Dhaka WASA and residents of the project areas.

The Resettlement Expert of DMS, DWSNIP have been monitoring the overall social safeguards activities and coordination among the PMU, PCUs, NGOs, contractors and local people. The expert attended site office meetings held on a regular basis and consultation meetings with different stakeholders (i.e. local people, PMU, consultants and contractors) in order to have a common understanding on social safeguards issues. The consultant also visited several times during the reporting period in ICB 2.8, 2.9 and 2.11 in order to investigate possible involuntary resettlement impacts, implementation of resettlement plan and related social safeguards issues.

Up to December 31, 2020, five civil work contracts (i.e. ICB 2.8, 2.9, 2.10, 2.11 and 2.12) have been awarded to the contractors. Among them, three packages (i.e. ICB 2.8, 2.9 and 2.11) are under implementation (mainly pipe laying and related construction work) and contractors of remaining two packages have been developing detailed design for civil works. As of December 31, 2020, about 348.41 km High-Density Polyethylene (HDPE) pipe had been installed.

The PMU is supposed to provide the monitoring report on social safeguards activities on semi-annual basis. This is the sixth monitoring report to be prepared for July – Dec 2020. The general objective of this semi-annual monitoring report is to assess the progress on safeguard measures taken during the reporting period.

Institutional setup. DWASA is the executing agency for the project. A PMU has been established at DWASA headed by a Project Director. Under the overall guidance of PMU and Deputy Project Directors, the Resettlement Plan has been executed. The PMU is responsible for implementing and monitoring safeguards activities, their compliance, public relations, gender mainstreaming, and community participation activities.

A. Project Description and Background of the Report

1. **Project Description.** The Government of Bangladesh (GOB) has undertaken the Dhaka Water Supply Network Improvement Project, with the objective of providing safe drinking water in Dhaka urban areas. The project is being financed jointly by the GOB and Asian Development Bank (ADB) and executed by Dhaka Water Supply and Sewerage Authority (DWASA). A Project Management Unit (PMU) has been formed for DWSNIP under DWASA to supervise and manage the implementation of project activities to ensure timely completion of the project with quality. The implementation procedures of DWSNIP commenced in 22 November 2016 where Design, Management and Supervision (DMS) Consultants started working from March 2018 to assist PMU in managing and implementing the Project. The project cost estimate is BDT 31,824 million (USD 408 million) being funded by Asian Development Bank (ADB) to the extent of USD 275 million (Loan Number: 3397 BAN) and the balance (BDT 10,374 million / USD 133 million) is being financed by the Government of Bangladesh (GOB)⁵.

2. Dhaka Water Supply Network Improvement Project (DWSNIP) aims to improve provision of sustainable, reliable, and climate-resilient water supply in Dhaka city. It will enhance the distribution network efficiency gains achieved under two previous Asian Development Bank (ADB) financed projects of Dhaka Water Supply and Sewerage Authority (DWASA) for improving service delivery and capacity building.⁶

3. Development of urban infrastructure in Bangladesh has not kept pace with rapid urbanization. The provision of drinking water in Bangladesh's capital city Dhaka has been particularly challenging. Dhaka's population has been growing at 3.6% per annum since 2005, much higher than the national average of 1.1%, leading to increasing demand for drinking water supply.⁷ DWASA, the water utility for Dhaka, serves 13.5 million people,⁸ and has made continuous efforts to improve its distribution network, reduce overall physical losses and nonrevenue water.

4. **Impact of the project, DWSNIP.** The project impact will be (i) safe drinking water made available for all urban population, which is aligned with the Seventh Five-Year Plan, 2016 - 2020,⁹ and (ii) coping with disaster adapting climate change and safeguarding environment in the National Strategy for Water Supply and Sanitation.¹⁰ The outcome will be sustainable provision of more reliable, improved, and climate-resilient water supply in Dhaka city.

5. The outputs will be (i) **Strengthened** distribution network; (ii) **Enhanced** sustainable

⁵ Quarterly Progress Report, 2018-Q3, July to September 2018, DMS, DWSNIP, DWASA

⁶ ADB. 2007. *Report and Recommendation of the President to the Board of Directors: Proposed Loans and Technical Assistance Grant to the People's Republic of Bangladesh for the Dhaka Water Supply Sector Development Program* (Loan 2382 and 2383-BAN). Manila; ADB. 2013. *Report and Recommendation of the President to the Board of Directors: Proposed Loan and Administration of Loan to the People's Republic of Bangladesh for the Dhaka Environmentally Sustainable Water Supply Project* (Loan 3051-BAN). Manila. These two loans finance some of feasibility studies of this project.

⁷ United Nations Department of Economic and Social Affairs. 2015. *World Urbanization Prospects: The 2014 Revision*. New York.

⁸ DWASA is a service oriented autonomous commercial organization, entrusted with the responsibility of providing water supply, sewerage disposal, and storm water drainage services to the urban dwellers of Dhaka city.

⁹ Government of Bangladesh, Planning Commission, Ministry of Planning. 2015. *Seventh Five-Year Plan: FY2016- FY2020*. Dhaka.

¹⁰ Government of Bangladesh, Policy Support Unit, Local Government Division, Ministry of Local Government, Rural Development and Cooperatives. 2014. *National Strategy for Water Supply and Sanitation*. Dhaka.

DMA management capacity; and (iii) **Enhanced** capacity for quality service delivery.

- (i) Output 1: **Strengthened DWASA's distribution network.** Further to the ongoing work of two ADB-financed projects¹¹ the proposed project will contribute to improving the distribution network in Dhaka city including (i) new DMAs not financed by the on-going loans in seven zones,¹² and (ii) additional financing to complete civil work contracts of DMAs under DWSSDP.¹³ The project will extend new or regularized connections to low-income communities where they rely on illegal water lines or private vendors and pay higher charges.
- (ii) Output 2: **Enhanced sustainable DMA management capacity.** Managerial and technical capacity of DWASA will be strengthened to sustain nonrevenue water at a low level. The project will assist DWASA in (i) preparing and implementing a sustainable nonrevenue water reduction plan;¹⁴ (ii) strengthening monitoring capacity at the zone level with renewed standard operating procedures,¹⁵ upgraded training modules, and supervisory control and data acquisition system (SCADA) and piloting automated meter reading; and (iii) enhancing in-house design capacity for sustainable DMA management.
- (iii) Output 3: **Enhanced capacity for quality service delivery.** The project will support DWASA to (i) prepare and implement operational and financial improvement plan through improving the existing 5-year corporate business plan;¹⁶ (ii) enhance its capacity for planning, design, construction supervision and project management; (iii) prepare and implement public awareness program for demand control, water conservation, and health and hygiene; (iv) enhance quality of service delivery to low-income communities including slums and informal settlements; (v) prepare and implement water quality monitoring system; (vi) implement gender action plan; and (vii) enhance project readiness of future investment.¹⁷

6. Contract packages under the project. We understand that the activities of the DWSNIP would be carried out through five civil work contract packages noted below:

- 1) ICB 2.8 covering 16 DMAs in Zone 9 in Uttara Area
- 2) ICB 2.9 covering 18 DMAs in Zone 2 in Old Dhaka near Burigangha River
- 3) ICB 2.10 covering 19 DMAs in Zone 1 mainly in Bashaboo, Kadamtola, Ahmadbag, Manda, Jatarabari etc.
- 4) ICB 2.11 covering 21 DMAs in Zones 3, 4 and 10 mainly in Kafrul, Mirpur and Dhanmondi Area and

¹¹ In two on-going projects, DWASA has been rehabilitating existing water supply network in its five zones (Zone-3,4,5,8,10) and part of Zone-9 under DWSSDP; and Zone-6 under DESWSP out of ten administrative zones.

¹² The proposed project will cover DMAs of seven zones (Zone-1, 2, 3, 4, 7, 9, 10) for serving the improved water to 6.5 million people with rehabilitated and new or regularized 234,000 connections.

¹³ The estimated cost of ADB's additional financing portion is \$36.9 million due to increased requirements of work and goods and price escalation.

¹⁴ Sustainable NRW reduction plan will include the long-term and annual targets of NRW; optimal DMA based organizational restructure; incentive mechanism; asset management plan, budget requirement, and training plan.

¹⁵ Standard Operating Procedure will include water loss assessment; water balance calculation; leakage management including pressure management, repairs, and active leakage control; asset management; and smart water management of IT devices.

¹⁶ The existing 5-year corporate business plan is comprised of sub-plans such as investment plan, financial plan, tariff plan and human resource development plan. In addition, the proposed project will include the sustainable non-revenue water reduction plan, water quality monitoring plan, and demand management plan in order to address next challenges for improving the quality of service delivery of DWASA.

¹⁷ DWASA will engage consultants to prepare future projects mainly for sewerage management.

5) ICB 2.12 covering 7 DMAs mainly in Jatrabari and Shonir Akhra.

Supplementary components of the project are noted as under:

- SCADA system
- Chlorinator

Table-2: Summary of Components, Contractors of Five Packages

Package No.	MODS Zone	DMA Nos.	Design Pipeline (Km)	Service Connections (Nos.)	Deep Tube well (Nos.) ¹⁸	Contract Amount (USD in M)	Contractor	Remarks

7. During the reporting period (July – Dec 2020), 5 civil work contracts (ICB 2.8, 2.9, 2.10, 2.11 and 2.12) have been awarded to the contractors. All five packages are under implementation (mainly pipe laying and related construction work). Upto December 31, 2021, about 348.41 km High-Density Polyethylene (HDPE) pipe had been installed. The following Table 3 shows the DMA-wise pipeline installation progress.

¹⁸When the civil work contracts have been awarded for the contractors, proposal of 10 DTWs have been included for each package that would be finalized considering demand examination, feasibility determination and availability of land determined by the contractors during detailed design stage. Mostly repairing and regeneration activities have been taking place in the existing DTWs under the project. During the reporting period, no new land has been required to implement the repairing and regeneration of DTWs' activities.

Table-3: Status of Construction Works of Five Packages (up to Dec 30, 2020)

ICB Package	Status of Implementation				Contract Status		Ongoing Construction	
	Initial Design	Model & Detailed Design Approved	Commencement of Construction (Date)	Construction Completed (km)	Bidding Status	Contract Awarded	% of Progress	Expected Completion Date
ICB 2.8 (Zone 9)	Done	16 model & 16 detail design approved out of 16 DMAs	May 21, 2019	About 159.56 km pipeline has been installed	Contract awarded	China Petroleum Pipeline Engineering Company Ltd.: (CPP) - has been awarded on May 9, 2018 and effective date fixed for implementation on 20.09.2018 Kick off meeting held on 11.09.18	34.91%	16.07.2022
ICB 2.9 (Zone 2)	Done	15 model & 12 detail design approved out of 18 DMAs	September 7, 2019	About 89.85 km pipeline has been installed	Contract awarded	China First Metallurgical Group Co. Ltd.: (CFMCC) - has been awarded on November 22, 2018 and effective date fixed for on 15.01.2019. Kick off meeting held on 15.01.2019	35.53%	14.01.2022
ICB 2.10 (Zone 1)	Done	Model and detailed design of 4 numbers of DMA are going on	Not Applicable	Not Applicable	Contract awarded (July 30, 2020)	CCSEB-RPL JV	Not Applicable	-
ICB 2.11 (Zone 3,4,10)	Done	16 model & 14 detail design approved out of 21 DMAs	August 20, 2019	About 99.5 km pipeline has been installed	Bidding was Finalized	Navana- Prathiba JV has been awarded on 4 th April 2018 and effective date for implementation on 21.06.2018 PMU/DMS conducted kick-off meeting with Contractor on 27 June 2018	21.94%	16.04.2022

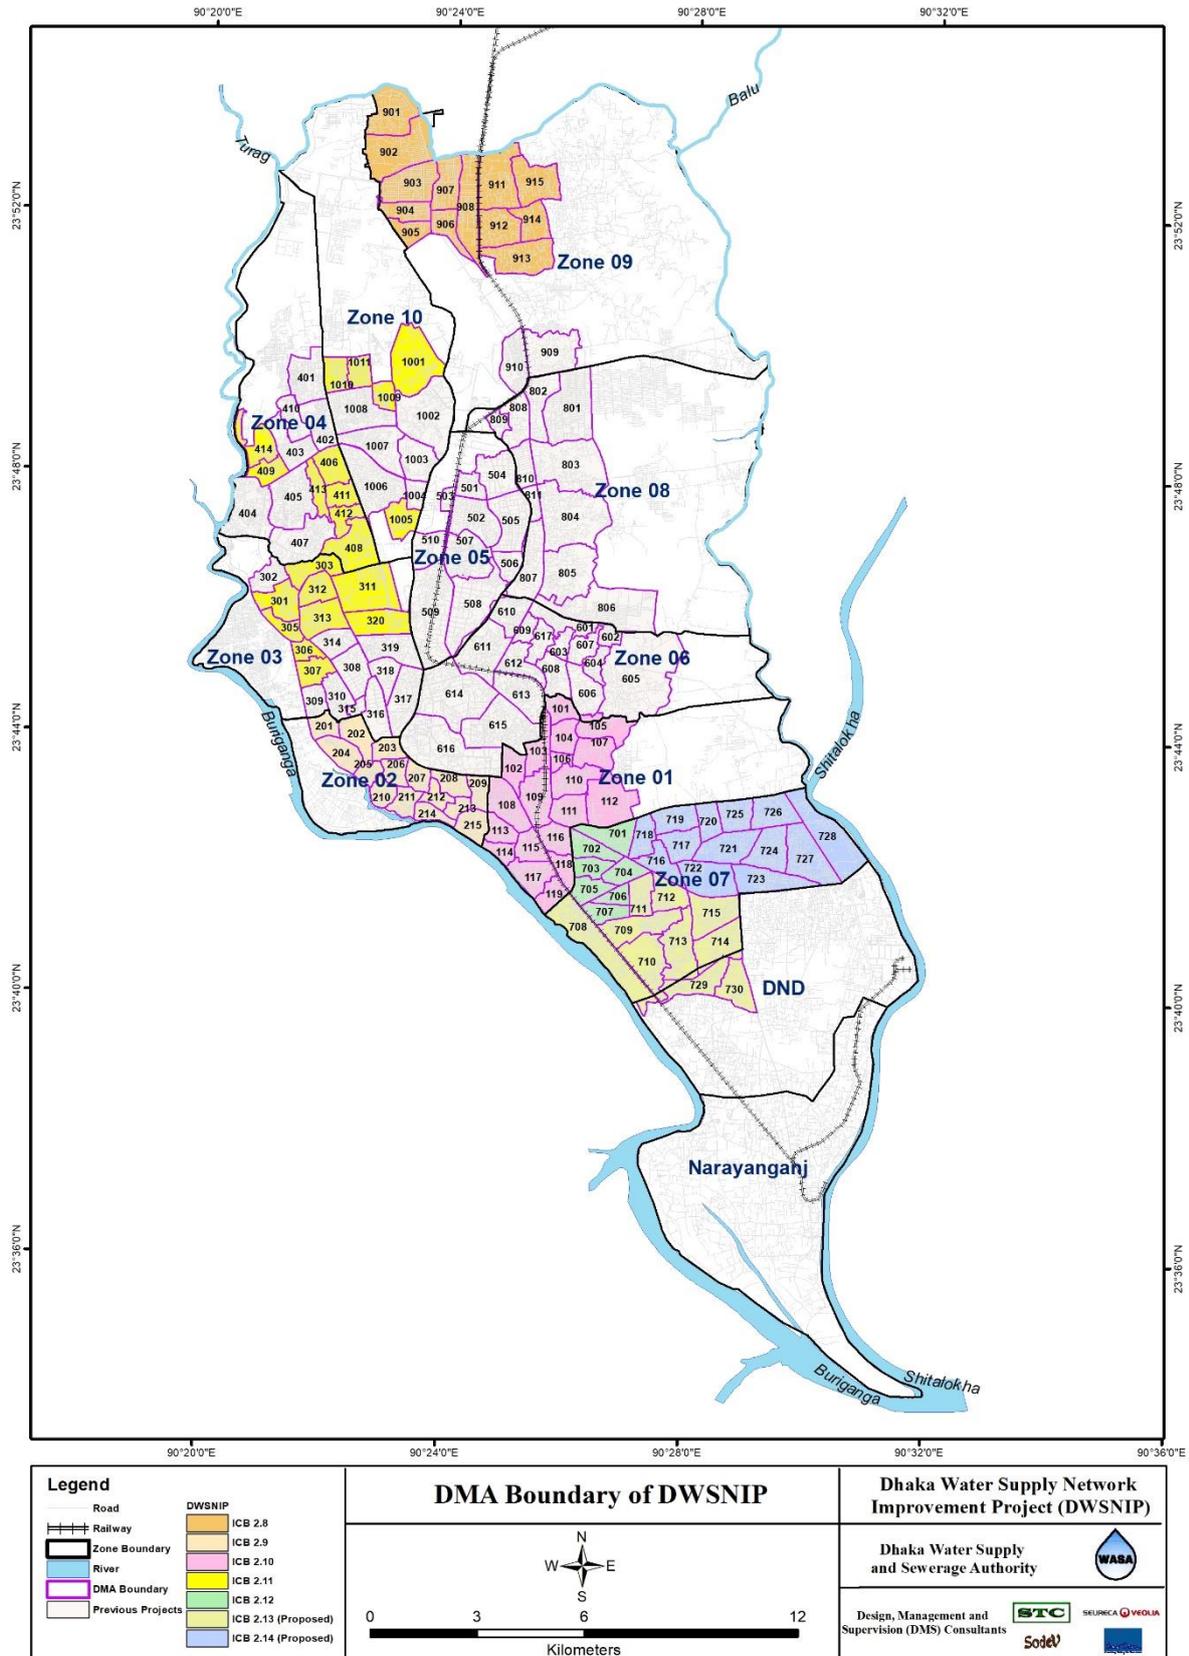

ICB Package	Status of Implementation				Contract Status		Ongoing Construction	
	Initial Design	Model & Detailed Design Approved	Commencement of Construction (Date)	Construction Completed (km)	Bidding Status	Contract Awarded	% of Progress	Expected Completion Date
ICB 2.12 (Zone 7)	Done	Data collection for model and detailed design will be started soon	Not Applicable	Not Applicable	Contract awarded (Nov 26, 2020)	Ludwig Pfeiffer Hoch- und Tiefbau GmbH & Co. KG	Not Applicable	-

Source: DMS Consultants, DWSNIP, January 2021

8. **Category of the project.** The feasibility team developed Resettlement Plans (RPs) in 2015-2016 for 5 ICB packages in order to collect data whether involuntary resettlement impact, structures and persons could be affected by the sub-projects following Bangladesh government's law and ADB's policy based on best available information. Since the construction of pump is being implemented on land that belongs to the Dhaka WASA/Bangladesh government and the pipeline will be laid within the existing Right of Way (RoW), no land acquisition will be required. Therefore, the impact of the sub-projects would be minimal; some mobile vendors could lose income for some days during construction. It will be addressed in updated resettlement plans and compensation will be made before starting the construction work. All the affected persons can return to the original sites once the construction is completed. That's why, the project has been categorized as **Category-B** for involuntary resettlement.

9. The following Figure-1 shows the location map of 5 packages with zone and DMA locations.

Figure 1: Project Location Map with Zone and DMA locations

10. **Scope of the Social Safeguards Monitoring Report.** The social safeguards monitoring report is a protection document of the borrower. In DWSNIP, PMU and PCU are primarily responsible for monitoring, consultation with affected persons, liaison with DMSC's safeguards consultants, contractors, NGOs and other persons involved in the project. DMSC's Resettlement Expert is to assist the PMU and PCU in conducting consultation meetings and monitoring the safeguard activities on a regular basis. This report lists the social and resettlement impact monitoring results to comply with the spirit of ADB policy to 'enhance stakeholders' trust in and ability to engage with ADB, and thereby increase the development impact [of projects] in which disclosure of safeguard monitoring is a prominent aspect.

11. The general objective of this Semi-annual Monitoring Report is to assess the progress on safeguard measures taken during the implementation of the project including the upgradation of resettlement plans and payment of compensations to the affected persons. The Resettlement Expert with the assistance of DWASA officials, contractors and NGO will collect data on social safeguard activities through field visit and secondary sources that will describe the progress of the implementation of social safeguard activities, compliance issues and corrective actions. Problems or issues identified will be followed-up (including recommendation of mitigation measures) on regular basis to correct as well as improve the situation.

12. In connection to the implementation of the project, Resettlement Expert has been working together with the PMU engineers and officials of contractors and NGO to carefully ensure compliance of the social safeguards. Meanwhile, the following indicators will be considered by PMU, PCU and DMSC for monitoring.

- Ensure that the standard of living of affected persons/ displaced persons are restored or improved;
- To assess the compensation and assistance payments versus the actual duration of impact;
- Ascertain whether activities are progressing as per schedule and the timeliness are being met;
- Assess if compensation, rehabilitation measures are sufficient;
- Identify problems or potential issues;
- Identify methods to rapidly mitigate problems;
- Take special care for the affected vulnerable and poor persons in terms of compensation and rehabilitations;
- Administrative monitoring to ensure that implementation is on schedule and problems are dealt with on a timely basis;
- Identify resettlement impacts, if any, utilizing baseline information, during and after construction;
- To review the consultations, disclosure process, status of grievance redress mechanism, grievance registration and redress;
- To assess the safeguard measures at construction sites including provisions for access, traffic management, unanticipated impacts and corrective actions required if any, etc, and.
- Performance of GRC.

13. **Methodology of preparing social safeguard monitoring report.** A combination of quantitative (e.g. census, survey, etc.) and qualitative methods (e.g. Consultation Meeting, Focus Group Discussion (FGD), one on one discussion and Key Informants Interview (KII)) have been used for empirical data collection in order to capture all dimensions of impacts in and around the project alignment regarding social safeguard management. A quantitative

method is not capable of capturing the whole monitoring issues and interpretation of identifying various impacts, the qualitative methods with primary and secondary data have been needed to monitor and supplement the data. Stakeholder consultations, interviews/FGD/KII with community people, affected persons and public representatives are used to monitor different issues, problems/constraints. Prospects and feedback from the participants in connection to compliance of social safeguard cover mainly information regarding dissemination about the sub-projects and its scope, possible positive and negative impacts, involvement of local people in different activities of the project, etc.

14. **Reporting period of the monitoring report.** The PMU is scheduled to provide the monitoring report on social safeguards activities at semi-annual basis. This is the sixth monitoring report prepared for July – December 2020.

15. **Status of social safeguards team.** The PMU recruited its staff who have provided support to DMS consultants and NGOs to carry out the activities for updating the resettlement plans and compliance of the social safeguards' activities. Generally, the PMU staff on social safeguards are responsible for overall supervision of the project's safeguard issues including monitoring of resettlement plan implementation with necessary reporting as well and to work closely with DMS. It is to be mentioned that no civil works will begin until all compensation to affected persons is paid. PMU employed a Focal Person on resettlement and NGO activities at its headquarters who would supervise the NGOs day to day social safeguards task and awareness building activities.

16. PCU in each zone (zone 1,2,3,4,7,9,10), headed by an executive engineer, will be responsible for liaising and coordinating with the contractors, DMS, NGO, and other stakeholders on all day-to-day implementation of distribution network improvement work under the project. During this reporting period, three (3) safeguards experts were designated in the PMU; seven (7) executive engineers were hired in the PCU in order to accelerate the safeguards activities. The DMS consultants i.e. Environmental Specialist, Resettlement Expert, Social Development/Gender Expert and Environmental Inspector has already been mobilized. The following Table 4 shows detail of safeguards team.

17. The Resettlement Expert of DMS, DWSNIP has been monitoring the overall social safeguards activities and coordination activities among the PMU, PCUs, NGOs, contractors and local people. The expert attended site office meetings held on a regular basis and consultation meetings with different stakeholders (i.e. local people, PMU, consultants and contractors) in order to gain a common understanding on social safeguards issues. The consultant also visited the site several times during the reporting period in ICB 2.8, 2.9 and 2.11 in order to investigate possible involuntary resettlement impacts, implementation of RP and related social safeguards issues. DMS consultants briefed the survey team and officials from the contractors and NGOs about the issues. The Resettlement Expert pointed out the importance of updating resettlement plan as per ADB's guideline (SPS-2009). He also requested the contractors to assist NGOs in collecting the data where structures and persons could be affected by the construction work and its implementation. It was appreciated that all three contractors (ICB 2.8, 2.9 and 2.11) recruited resettlement officer for expediting the social safeguards activities regularly. For ICB 2.11, Mr. Shyamal Kumar Ghosh is jointly responsible for environment and resettlement work. The contractor has positioned for another person to assist with the resettlement activities within the shortest time. The details of the safeguards' personnel are depicted in the following Table 5.

19. SAMAHAR, a local NGO, has been awarded for resettlement and awareness building activities under the project. The NGOs recruited for resettlement service and public awareness campaign started working since November 2018 under DWSNIP. The following Figure 2 shows the safeguards implementation arrangements for DWSNIP.

Figure 2: Project Safeguard Implementation Arrangements

B. Progress and Status of Social Safeguard Activities.

20. During this reporting period, DWASA, DMS consultants, contractors and NGO have undertaken social safeguards activities as outlined in the TOR. The activities carried out are summarized below. The sub-projects do not have any land acquisition and the civil work will be taken place in the available government land. The sub-projects during the implementation is likely to have temporary livelihood impacts on mobile vendors for their income loss, thus, the project has been categorized as Category-B for involuntary resettlement. All the persons

who are involved as small-scale vendors will move their belongings easily. Since the businesses are mobile or movable, no structure loss is anticipated. All the affected business owners can return to the original sites once the construction is completed. All the affected persons are business owners; loss of employment / workdays (in the case of wage earners) owing to dislocation and relocation has not been found. The resettlement cost is based on entitlement matrix agreed for the Project. The budgetary provision for compensation has been made for 7 days for each affected person.

Approval of Updated Resettlement Plan. During the reporting period, ADB extended an 'No Objection' to the resettlement plan for 12 DMAs of 3 ICB packages. Third batch of ICB 2.8 (DMA 901, 902, 911, 914, 915) was approved by ADB on Aug. 24, 2020. ICB 2.9 (3rd batch; DMA 212, 213 and 214) received concurrence on September 23, 2020, and ICB 2.11 (4th batch; DMA 406, 411, 412 and 413) on November 8, 2020. The approved resettlement plans were duly disclosed in DWASA and ADB website.

21. No further upgradation of the resettlement plans is required as the civil work will start shortly and the plans have been updated through the methodology prescribed by ADB. In order to updating the resettlement plans, the field visits to the sub-project areas were made in the months from June to September 2020 maintaining health and safety protocol amid the corona pandemic situation. The routes visited were based on the model and detailed design submitted by the contractors and current alignments were also considered. During the civil work, if any unanticipated impact notices, that will also be mitigated and/or compensated. The following Table 7 shows the status of resettlement plans updated and approved by ADB.

Table-7: Status of RP updated and approved up to Dec 31, 2020

Package and DMA	Status of Resettlement Plan	Remarks
ICB 2.8		
First Batch (DMA 903, 904, 906, 907)	Approved by ADB (March 20, 2019) and disclosed in project and ADB website	Compensation done; civil work is on going
Second Batch (DMA 905, 908, 912, 913)	Approved by ADB (Oct. 1, 2019) and disclosed in project and ADB website	Compensation payment to affected person is done in DMA 905, 912, 913. Payment for DMA 908 is under process; delay for COVID-19 pandemic
Third Batch (DMA 901, 902, 911, 914, 915)	Approved by ADB (Aug. 24, 2020) and disclosed in DWASA and ADB website	Before starting civil work, compensation to the APs of this batch will be given. RP of all DMAs under ICB 2.8 are done and cleared by ADB.
ICB 2.9		
First Batch (DMA 201, 202, 203 and 204)	Approved by ADB (July 4, 2019) and disclosed both ADB and project website	Compensation done in DMA 201, 203 and 204; no affected person is in DMA 202
Second Batch (DMA 205, 206, 209, 210)	Approved by ADB on January 21, 2020 and disclosed both ADB and project website	Compensation payment to affected person is done
Third Batch (DMA 212, 213, 214)	Approved by ADB (September 23, 2020) and disclosed both ADB and project website	Compensation payment to affected person is done
Fourth Batch (DMA 207, 208, 211, 215)	Resettlement Plan is under preparation	Construction schedule is on middle of June 2021. Model and detail design are completed. Submission date of the RP of this batch is 28 th Feb, 2021
ICB 2.11		
First Batch (DMA 307, 311, 320, 408)	Revised RP approved by ADB (Oct. 27, 2019) and disclosed in project and ADB web site	Compensation done in DMA 320 and 408; no affected person is in DMA 311; payment for DMA 307 is under process; delay for late starting of civil work as well as COVID-19 pandemic
Second Batch (DMA 301, 306, 312, 313, 1005)	Approved by ADB (Nov 8, 2019) and disclosed in project website	Compensation done in DMA 301. Payment to affected persons of remaining DMAs is under process; delay for COVID-19 pandemic
Third Batch (DMA 303, 305)	Approved by ADB on February 7, 2020; disclosed both ADB and project website	Compensation payment to affected person is done
Fourth Batch (DMA 406, 411, 412, 413)	Approved by ADB on November 8, 2020 and disclosed both ADB and project website	Compensation to the APs is under process
Fifth Batch (DMA 1001, 1009, 1010, 1011)	Resettlement Plan is under preparation	Construction schedule is on middle of June 2021. Model and detail design are completed.

Package and DMA	Status of Resettlement Plan	Remarks
		Submission date of the RP of this batch is 15 th April, 2021
Sixth Batch (DMA 409, 414)	Resettlement Plan is under preparation	Construction schedule is on middle of April 2021. Model and detail design are completed. Submission date of the RP of this batch is 30 th March, 2021

Source: PMU, DWASA and DMS, January 2021

22. Civil work is being ongoing in three ICB packages. As of Dec 31, 2020, about 348.41 km High-Density Polyethylene (HDPE) pipe had been installed. Throughout the implementation of physical activities, no unanticipated resettlement impact was detected, no existing utility services was damaged and social safeguards situation was satisfactory. However, if there is any damage to the utility services, the respective contractors will repair the damages by their own initiatives and/or by respective departments.

23. Semi Annual Social Safeguards Monitoring Report. The PMU is supposed to provide the monitoring report on social safeguards activities on semi-annual basis. This is the sixth monitoring report to be prepared for July – December 2020. Prior to four Social Safeguards Monitoring Reports have been submitted to ADB. The 1st SSMR, January – June 2018 was approved on January 25, 2019 by ADB which has been published at Dhaka WASA web site. The 2nd SSMR July – December 2018, the 3rd SSMR January – June 2019 and 4th SSMR July – December 2019 were approved on May 21, 2019, August 13, 2019 and April 13, 2020 respectively by ADB. Fifth report ended on June 30, 2020 was submitted to ADB.

24. Capacity Building Activities. In order to develop capacity of the NGO staff, contractors' officials and other related stakeholders on compliance of social safeguards, health, safety and environmental management plan, the DMS consultants of DWASA are frequently arranging for consultations and training activities. The training programs have been organized during the reporting period at site offices (DMS), DMS head office and DWASA Zonal offices.

25. Complaints and suggestions related to social safeguards and civil work have been received and these issues have been duly mitigated for during this reporting period. Sometimes, completion of construction works take a longer time and the pits and trenches are kept open for longer time than planned, create problems of the surrounding people and specifically suffered by the adjacent households. locals have faced problems with the open cut trenches. Pit and excavated roads kept open for a few days and inadequate sheets placed for smooth moving. Excessive waste piled up around the road, delaying the backfilling of pit were also some of the registered grievances. In addition, complaints regarding the temporary inconvenience caused during construction due to the disruption and damage by the HDD and open cut system to the existing utility lines, gas line, electricity line, telephone line services. These issues were put forth as grievances to DWASA and the contractor. Other issues found included disruption to the increased water supply quantity and quality during physical work in some places. The transportation and communication in the localities have also been hampered during construction of physical improvements. In some areas, in order to address and resolve the issues, mitigation measures have been implemented by the respective contractor as per the site-specific Environmental Monitoring Plan (EMP). SAMAHAR, resettlement NGO has also facilitated to mitigate the issues involving DWASA officials, DMS consultants and contractors.

26. The DWASA along with DMS, resettlement NGO and contractors visited construction sites at 3 ICB packages. COVID-19 pandemic is an unprecedented crisis, which we all are still struggling to cope up with. Civil work is going on maintaining measures to ensure health and safety of all concern following the site-specific Covid-19 health and safety plans.

C. Scope of Impacts

27. **Vulnerability Status of the Affected Persons.** During the reporting period, ADB extended 'No Objection' to the resettlement plan for 12 DMAs of 3 ICB packages. Seven affected persons were found as vulnerable (in terms of Below Poverty Level (BPL)¹⁹, old age, physically challenged and/or Female Headed Household) based on the census conducted by the Resettlement NGO in the project location. There were no indigenous people/small ethnic communities located with the project areas.

28. However, a Gender Action Plan (GAP) has been prepared for DWSNIP to ensure gender equality and social inclusion. The GAP will provide for activities to include active participation of females in (i) project disclosure and FGDs; (ii) decision making capacity in DWASA, and (iii) increasing women-friendly service delivery including the poor and the marginalized. It is anticipated that the Female Headed Household will receive preferential selection for the project related work.

29. The resettlement plans have been updating based on the following principles of ARIPA 2017 and ADB's SPS, 2009:

- (i) Land acquisition and resettlement impacts on persons displaced by the project would be avoided or minimized as much as possible through alternate design/engineering options;
- (ii) where the negative impacts are unavoidable, the persons displaced by the project and vulnerable groups will be identified and assisted in improving or regaining their standard of living, special attention will be given to the vulnerable groups to ensure that their living standard will be improved;
- (iii) information related to the preparation and implementation of RPs have been disclosed to all stakeholders in a form and language understandable to them; and people's participation have also been ensured in planning and implementation;
- (iv) displaced persons who do not own land or other properties, but have economic interests or lose their livelihoods, have been/will be assisted as per principles described in the entitlement matrix of this Resettlement Plan;
- (v) before starting civil works, compensation and resettlement and rehabilitation (R&R) assistance have been/will be paid in full in accordance with the provisions described in updated RPs;
- (vi) appropriate GRM has been established to ensure speedy resolution of disputes;
- (vii) all activities related to resettlement planning, implementation, and monitoring will ensure the involvement of women and other vulnerable groups;
- (viii) consultations with the affected persons will continue during the implementation of resettlement and rehabilitation works; and
- (ix) a clause in the contract agreement that the construction contractor/s will be required to repair to pre-works condition or compensate any loss or damage caused by his execution of works.

¹⁹ This RP calculates the upper poverty line from the 2016 upper poverty line determined by the Bangladesh Bureau of Statistics (BBS), with inflation rate added at 5.5% per annum as of February 2019 (Source: Economic trends Bangladesh Bank, Published by Research Department of Bangladesh Bank; as of February 2019, available at <https://www.bb.org.bd/econdata/inflation.php>). The upper poverty line for the year 2016 for Dhaka Urban is BDT 2,657 (source: Preliminary Report on Household Income and Expenditure Survey 2016, published on October 2017 by Statistics and Information Division, BBS, available at <http://catalog.ihsn.org/index.php/catalog/7399>). Thus, 2016-2017 BPL for Dhaka Urban is 2803.14 per capita/month. As such the per capita average monthly income under BPL stands at BDT 13,511.11 {2803.14 x4.82 (Household size) =13,511}. In addition, elderly people, woman headed Households, physical or mental disability and tribal people/ethnic minorities are considered as vulnerable and entitle to additional assistance (two-times of monthly minimum wage).

30. The types of losses – permanent or temporary, total or partial due to the project include (i) loss of business; (ii) loss of workdays/incomes, and (iii) loss of temporary structure. According to ADB’s SPS, 2009, the context of involuntary resettlement, affected persons are those who economically displaced (with loss of structure, income sources, or means of livelihood). The following categories of affected persons are likely to be impacted due to the implementation of the project:

- (i) affected persons losing income or livelihoods – affected persons whose business, employment, daily wages as source of income, or livelihood are affected temporarily; and
- (ii) vulnerable affected persons – affected persons are defined as poor (BPL)²⁰, disabled, landless or without title to land, female-headed households, elderly, vulnerable tribes, physical or mental disability minor races, ethnic sects and communities.²¹

31. **Entitlements Matrix and other rehabilitation measures.** In accordance with the DWSNIP, all displaced persons will be entitled to a combination of compensation packages and resettlement assistance, depending on the nature of ownership rights on lost assets, scope of the impacts including socioeconomic vulnerability of the displaced persons, and measures to support livelihood restoration if livelihood impacts are envisaged.

32. The following Table-8 specifies that any displaced person will be entitled to (i) compensation for loss of business/wage income and (ii) for vulnerable affected persons, cash assistance (head of the affected family) at two times minimum wage (BDT 8000X2=16000) will be applicable.

Table-8: Entitlement Matrix

Type of Loss	Specification	Eligibility	Entitlements
1. INCOMERESTORATION			
Businesses	Temporary business loss due to land acquisition and/or resettlement or construction activities of project	Owner business ((registered, informal) Of	Cash compensation equal to lost income during period of business interruption based on tax record or, in its absence, comparable rates from registered businesses of the same type with tax records or Government of Bangladesh registered minimum wage*. whichever is higher Assistance to re-establish business. APs will be provided 7 days advance notice, followed by a reminder 1 day before construction If required, they will be assisted to temporarily shift for continued economic activity and then assisted to shift back, post construction.
2. SPECIAL PROVISIONS			

²⁰ According to the Minimum Wage Board of Bangladesh Government, there is no specific Minimum Wage Act for applicable in all sector in Bangladesh. The Minimum Wage for this project is the minimum wage for workers in the garment industry in Bangladesh which is Tk 8,000 per month. This Minimum Wage is taken from the gazette issued by the Ministry of Labor and Employment, Government of the People’s Republic of Bangladesh on January 24, 2019. This is an updated version of the notification issued on 25th November 2018; of S.R.O no 345 - law/ 2018 (Please refer to **APPENDIX- 8** for the gazette information).

²¹ Groups or population identified as Indigenous Peoples within the context of ADB’s Safeguards Policy Statement will be referred to as tribes, physical or mental disability minor races, ethnic sects and communities following the Government of Bangladesh directive.

Vulnerable APs (female HH, elderly HH, BPL families) **		All vulnerable affected persons	Subsistence allowance of minimum of 2 months of official minimum wage* Preferential selection for project-related employment ²² (for vulnerable)
Other impacts	Unanticipated impacts and negotiated changes to entitlements ***	All affected persons	To be determined in accordance with the involuntary resettlement safeguards requirements of the ADB's SPS-2009 Project resettlement plan to be updated and disclosed on ADB website Standards of the entitlement matrix of the resettlement plan not to be lowered

*The Minimum Wage Tk 8,000 (monthly) refer to monthly minimum pay for workers in the garment industry in Bangladesh. The minimum wage at the time of RP implementation/compensation payment will be applicable.

**The following categories of displaced persons have been identified as vulnerable groups in the project: poor (BPL), persons with disabilities, landless or without title to land, female-headed households, elderly, children including child labour and orphans, and small ethnic communities. The eligibility for elderly will follow the definition of the Department of Social Service of Ministry of Social Welfare, Government of Bangladesh that uses 65 years age for man and 62 years age for woman to define elderly people. They are considered as vulnerable and entitle to additional assistance (two-times of monthly minimum wage). In addition, 2016-2017 BPL for Dhaka urban area is 2803.14 per capita/month. As such the per capita average monthly income under BPL stands at BDT 13,511.11 {2803.14 x 4.82 (Household size) =13,511}.

***Any unanticipated impacts of the project will be documented and mitigated based on the policy agreed by Dhaka WASA in consideration of ADB's SPS-2009.

D. Compensation and Rehabilitation

33. Compensation was given to 117 affected persons (male: 101 and female: 16) out of 127 in ICB 2.8 (DMA 905, 912, 913) ICB 2.9 (DMA 205, 206, 209, 210); ICB 2.11 (DMA 303, 305) during the reporting tenure. The compensation amount given to affected persons was BDT 500500. Remaining 10 affected persons could not be paid as they are not available during payment. Some left the area abandoning their businesses. Seven vulnerable affected persons were also received assistance of BDT 112000 (BDT 16000 each) in addition to the compensation amount for their income loss. Detail information illustrates in the following Table 9.

Table-9: Status of compensation payment and vulnerable assistance (July – Dec 2020)

ICB	DMA	No. of APs (As per RP)	Compensation payment status				Amount paid for Income loss (BDT)	No. of Vulnerable APs	Vulnerable Assistance Paid (BDT)	Total Amount Given	Remarks
			Total APs (Paid)	Male	Female	Date of Payment					
ICB 2.8											
	905	15	12	10	2	28.10.2020	53200	0	0	53200	3 APs were unpaid
	912	32	29	27	2	28.10.2020	131950	1	16000	147950	3 APs were unpaid
	913	21	19	18	1	18.11.2020	91000	1	16000	107000	2 APs were unpaid
	Sub-total:	68	60	55	5	Oct 28 & Nov 18, 2020	276150	2	32000	308150	Total 8 APs could not be paid, left area closing business.
ICB 2.9											
	205	4	4	3	1	29.10.2020	14700	0	0	14700	All APs were paid
	206	11	10	9	1	29.10.2020	39900	2	32000	71900	1 APs were unpaid

Source: Resettlement NGO, SAMAHAR, January 2021

34. It has been observed that in most cases of resettlement activities, the impacts are limited to the income loss of the street vendors during the construction period. Thus, the impacts are temporary and can easily be mitigated. The amounts of compensation for 7 days net income loss of each affected person were estimated through survey and meetings during the updating of resettlement plan. Those who are not available will be paid while they will claim the compensation payment. PMU in association with SAMAHAR, the resettlement NGO, has prepared all the relevant documents for payment compensation to the affected persons. The NGO issued ID cards to all affected persons for receiving compensation money from the project office at DWASA. During the civil work, if any unanticipated impact notices, that will also be mitigated and/or compensated.

35. Resettlement plans for thirty-nine (39) DMAs of 10 batches under 3 ICB packages have been updated and approved by ADB as of December 31, 2020. Among the approved resettlement plans, compensation payment to 277 affected persons of 18 DMAs have taken place. The affected persons are mostly street vendors and road-side shop-keepers. Among the approved resettlement plan, 2 DMAs (202 and 311) do not have any involuntary resettlement impact. The 277 affected persons received compensations of BDT 1169350 for their income losses. Twelve affected persons did not receive compensation as 11 persons left the area closing their business and a person was died. Those who were not available during giving compensation will be paid once they will claim for the compensation payment. Eight vulnerable affected persons were received assistance BDT 128000.

E. Public participation, consultation and disclosure

36. During updating the resettlement plan and on-going civil work, the stakeholders have been consulted and involved through FGD, tea stall meetings, project disclosure meeting and public consultation meeting at construction sites and other different places in three packages. The view and feedback were incorporated into the resettlement plans. As per approved resettlement plan, consultations and project disclosure are mandatory through public consultations and focus group discussions involving all relevant stakeholders. Accordingly, during the implementation phase, the consultation process has been continued to ensure that stakeholders are fully informed about the project and have the opportunity to participate in smooth implementation of the project.

37. A total of 73 consultation meetings were held during reporting period where 974 participants (690 male and 284 female) attended in the meetings. The following Table 10 shows the consultation meetings held from July to December 2020. Details of the attendance sheets and photographs of the meetings are attached in **Appendix 2**.

Table-10: Consultation meetings held during July – Dec 2020

ICB Packages	Meeting Held	Male Participants	Female Participants	Total Participants
ICB 2.8	24	228	92	320
ICB 2.9	20	211	57	268
ICB 2.11	22	171	118	289
ICB 2.10	7	80	17	97
Total	73	690	284	974

Source: SAMAHAR, Resettlement NGO, January 2021

38. Different type of stakeholders such as respective Ward Councillors and/or their

representatives, line departments and utility agencies, general public, residents, shop keepers, vendors and pedestrians have participated in the meetings conducted by NGO – SAMAHAR. Resettlement issues, and implementation of EMP measures were discussed. The meetings covered the following issues: a) the beneficiaries raised the issue of experiencing inconvenience and irritation during construction period. Because it is seen that, while laying new water pipes, the existing utility lines, gas line, electricity line, telephone line are likely to get damaged by HDD as well as the open cut system resulting in the suspension of the above-mentioned vital services. In addition, some relatively adverse issues such as increased water supply quantity and quality will be hampered during physical work in some places once the civil work is started in full swing and transportation and communication in the localities might be hampered during physical work, although mitigation measures will be taken by contractors as per site specific Environmental Monitoring Plan (EMP); b) In order to combat such critical situation, the DMS, PMU and contractor are jointly monitoring the overall situation and suggested to employ a more experienced tracker of HDD machine, excavator and supervisor in the respective field. In order to maintain a friendly work environment at the site, there should be proper coordination between City Corporation, DMS and DWASA; c) Awareness among communities regarding project activities and benefit has been increased (**Appendix 7** project awareness flyer); community support and cooperation have also been increased; d) Smoothness of public access to their required destination has been ensured; and e) other requirements include restoration of utility services, removal of overburden soil, road restoration done or not, pit back filling; mitigation measures in place for dust and noise pollution during implementation of the project, and community health safety arrangements including awareness of Covid-19.

39. The consultations primarily highlighted the proposed developmental interventions, perceived impacts and mitigation measures and public participation during implementation. Community members largely spoke about the insufficiency or lack of availability of potable water for drinking and domestic use. It was suggested by the participants that individual water connection at doorstep be provided to each household without any prejudice or local influence and no partiality or preferential treatment be allowed in this context. Household level water connection at the doorstep will be a great relief for the women as it will reduce their loss of productive time. It was mentioned to community members that there will be a grievance redress mechanism which will help in mitigating any grievances or complaints during the construction period.

40. The civil work areas in Dhaka city are growing at an unprecedented speed which causes severe strains on the demand for water and other urban services. Gradually it has become a crowded and densely populated area; the demand for water supply has increased enormously. The people have long been demanding uninterrupted safe water supply in the area and repair and maintenance of the existing supply system including augmentation of the source.

41. People are very much willing to extend their cooperation as the project will provide much needed potable water. There are no negative impacts perceived by the community, however, the project team explained the likely issues during construction and proposed EMP to manage the temporary construction impacts. Increasing traffic and disturbance to vehicle movement during the work was raised during the meeting, and it was informed that proper care will be taken for movement of construction vehicle following the Traffic Management Plan (TMP). According to the TMP, contractors have arranged alternative access for the pedestrians and vehicles if partially or fully road closures occurred during the construction phase.

F. Grievance Redress Mechanism (GRM)

42. A project-specific Grievance Redress Mechanism (GRM) has been established to receive, evaluate, and facilitate the concerns, complaints, and grievances about the social safeguards' performance as well as related to environment and construction work. The GRM

for the project is given time-bound schedules and with responsible persons identified to address grievances and seek appropriate persons' advice at each stage, as required. To ensure impartiality and transparency, hearings on complaints have been remained open to the public. The GRCs maintains the record of the detail complaints and their resolution in a register, including intake details, resolution process and the closing procedures. PCUs have maintained Grievance Registers (**Appendix 5** sample grievance registration form in English and Bengali).

43. PMU/PCU with assistance from NGO (Resettlement and Public Awareness Campaign) are ensuring that awareness on grievance redress procedures is generated through the campaign. PCU Safeguard Focal Person through NGO – Public Awareness (SAMAHAR) has conducted wide awareness campaigns at each DMA sites to ensure that poor and vulnerable households are made aware of grievance redress procedures and entitlements.

44. Affected persons have the flexibility of conveying grievances/suggestions by dropping grievance redress/suggestion forms in complaints/suggestion boxes or by e-mail, by post, by telephone, or by writing in a complaint register in PMU/PCU offices. Careful documentation maintenance of the name of the complainant, date of receipt of the complaint, address/contact details of the person, location of the problem area, and how the problem was resolved are being undertaken by NGO/DMSC. The PMU Project Officers (Social and Environment) have the overall responsibility for timely grievance redress respectively on environmental and social safeguards issues and for registration of grievances, related disclosure and communication with the aggrieved party through PCU (Safeguard Focal Person).

45. GRC was established on Dec 19, 2018 at both PMU and PCU level. The official order to form GRC including English version are attached in **Appendix 4**. The GRC committee are shown below.

GRC at PMU Level:

1.	Project Director- DWSNIP	-	Convener
2.	Deputy Project Director	-	Joint Convener
3.	Safeguard Focal Person (Concerned Executive Engineer)	-	Member
4.	Environmental Expert, DMS, DWSNIP	-	Member
5.	Resettlement Expert, DMS, DWSNIP	-	Member
6.	Team Leader, Resettlement (NGO, SAMAHAR)	-	Member
7.	Affected Person (APs)/Representative (if applicable)	-	Invited Specially

GRC at PCU Level:

1.	Executive Engineer (Concerned MODS Zone)	-	Convener
2.	Safeguard Focal Person (AE/SDE, (Concerned MODS Zine)	-	Member
3.	Team Leader, Resettlement (NGO, SAMAHAR)	-	Member
4.	Resettlement Officer of Concerned Civil Works Contractor	-	Member
5.	Ward Councilor/Female Ward Councilor (Concerned City Corporation)	-	Member
6.	Affected Person (Aps)	-	Invited Specially

46. Grievances/suggestions of affected persons can be dropped in complaint boxes or conveyed through phone or mail. Affected Persons can register grievances – social, environmental or others issues personally at Complaint Cell of DWASA head quarter (PMU) and Zonal offices (PCU) of DWASA. The concerned designated officials are to correctly interpret/record verbal grievances of non-literate persons and those received over telephone.

The Complaint Cells also serve as public information centers, where, apart from grievance registration, information on the Project, subprojects, social and environmental safeguards can be obtained.

47. Periodic community meetings with affected communities to understand their concerns and help them through the process of grievance redress (including translation from local dialect/language, recording and registering grievances of non-literate affected persons and explaining the process of grievance redress) have been conducted by resettlement and awareness NGOs on a regular basis. Grievances received and responses provided are documented and reported back to the affected persons. This includes group meetings and discussions with affected persons, to be announced in advance and conducted at the time of day agreed on with affected persons and conducted to address general/common grievances. If required, the Environment/Resettlement Experts of PMU/DMSC will conduct one on one consultations with respective stakeholders.

48. **Grievances Redress Process.** Grievances received and responses provided have been documented and reported back to the affected persons. The number of grievances recorded and resolved, and the outcomes are displayed/disclosed in the site offices of the different Zonal office of DWASA and web. To resolve all project related grievances and complaints a common social and environmental grievance redress mechanism have been activated during the construction period. Grievances received have been sorted out at project site level by the Contractor's Resettlement Supervisor, supervision staff of PCU and NGOs' officials within 7 days. Complaints which are not resolved at site level are to be sent to the safeguard officer of PMU to resolve in 14 days. Any unresolved grievances would be forwarded to GRC to be resolved within 21 days. Despite the project GRM, an aggrieved person shall have access to the country's legal system at any stage.

49. **Record-Keeping.** The PMU/PCU office and Contractors keep records of all grievances received including contact details of complainants, date the complaint was received, nature of grievance, agreed corrective actions and the date these were in effect, and final outcome.

50. PMU has periodically reviewed the functioning of the GRM and effectiveness of the mechanism, especially on the Project's ability to prevent and address grievances. All costs involved in resolving the complaints (meetings, consultations, communication and reporting/information dissemination) will be borne by PMU.

51. **Grievance Redress Committee (GRC) Meetings.** During reporting period, 2 GRC meetings were held at PCU levels. Resettlement team conducted meeting with the Councilor of Ward 14 of DNCC, at his office on pipeline (DMA 408, of ICB 2.11), Team Leader-SAMAHAR NGO discussing on DWSNIP project provisions with local leaders at the Councilor's office of Ward 14 of DNCC (ICB 2.11; DMA 408) on September 6, 2020 (11.00am). It was learnt that following the final design approved by DWASA, laying the pipes with width 4", at the areas of South Sewrapara, in Ward 14 of DNCC area, under DMA 408, the local community people protested demanding pipeline with wider diameter in place of the planned 4" pipes. The local Ward Councilor Mr. Humayun Rashid (Jony) also was supporting the local people, asked the contractor's people to set pipelines with wider width and not to lay the 4" pipes. There were some narrow roads where the open trenching method was started and this incidence stopped the construction works, created problem of movement.

52. The field team of Awareness Campaign NGO under the project were also present at the meeting. The Councilor was informed that the design of the pipelines will allow sufficient water supply after its completion. The Councilor also called some local leaders and household owners, participated in the discussion.

Meeting with the Councilor of Ward 14 of DNCC
(DMA 408, of ICB 2.11)

53. The local people shared their previous experiences that WASA gave them similar hope at the time of setting pipelines under a previous project, in 2015, at the nearby area, but since after the completion of the project works the people are suffering from water scarcity. They have to manage required water by different alternative ways and sources spending high amount of money. They consider that the design and assessments were not appropriate is the main reason of the sufferings of local people. The survey under current project (DWSNIP) was done 2 years ago and by this time there are at least 10 multistoried building (10-16 storied) have been constructed, along with many other smaller houses. So, the design by that survey can't meet the present or future demands of water of this area. The Engineer Mr. Ismail Hossain, SARE from DMS, present in the meeting told that the design of the pipe line installation has been developed with provisions of future demands and additional water will be supplied through the DMA system under the pipeline network being constructed under this project. But the Councilor, and the other local leaders were not satisfied with these information and demanding installation of wide pipe in their area. They also expressed their willingness to discuss the matter with 'higher officials' of DWASA. The Team Leader RW of SAMAHAR again told them about the provisions of the project, especially about the matter of 'pressurized water flow' and 'availability of water from rivers in near future through other DWASA projects'. However, the Ward Councilor can discuss the matter with project officials. The Names and Phone numbers of the DPDs of DWSNIP were given to the Councilor Mr. Humayun Rashid (Jony). After all these discussions the Councilor Mr. Humayun Rashid (Jony) thanked the SAMAHAR teams for visiting him and adjourned the meeting.

54. GRC Meeting held at ICB 2.8: DMA-903. A meeting was held on September 07, 2020 at DNCC Ward Councilor's office under ICB 2.8 (DMA 903). Ward Councilor Mr. Shoriful Islam welcomed the participants, the SAMAHAR resettlement team, field engineers of CPP, the Contractor, and others including some of the local house owners. The Councilor said that the works for construction of pipelines of Dhaka WASA is going on for last one year and the field level engineers and the technicians are engaged are observed. Now, there are at least 13 roads in this sector, where the works are going on (DMA-903). The people in our area are suffering due to the construction works in the roads.

The coordination meeting called by Ward Councilor of Ward 53 of DNCC on the ongoing construction works at Sector 11 Welfare Association office of Uttara on September 7,'20

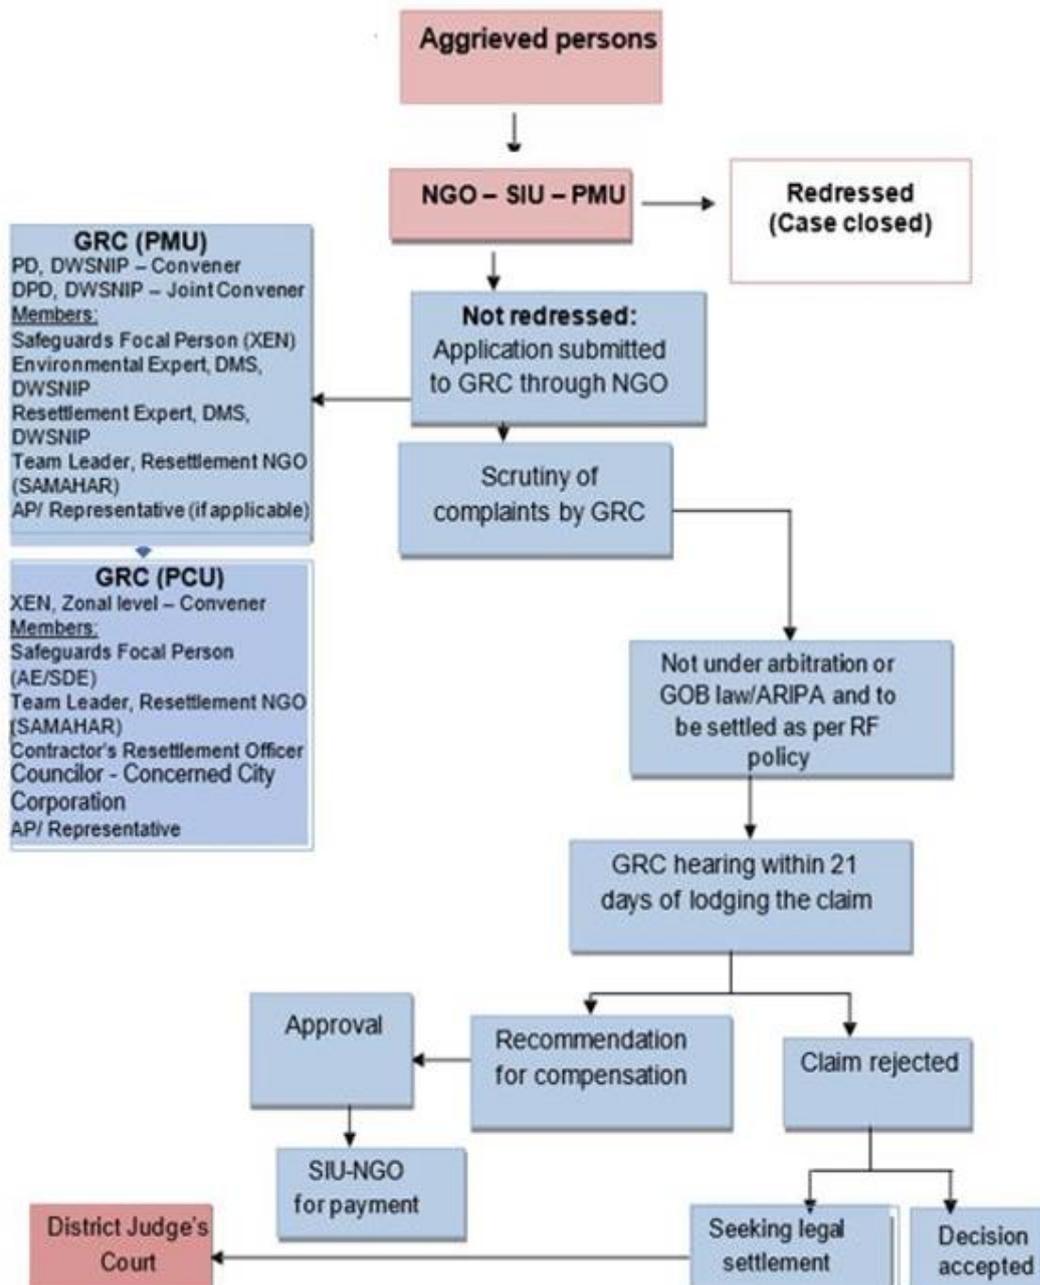

55. Mr. Aslam, Program Coordinator from CPP, said - “this project works are being done by an international firm. There are currently six sites where construction works are going on at a time. CPP has a reputation and will not left any works incomplete. There may be particular group of laborers is delaying works at a particular site, will be completed soon.” He continued telling – “The NGO Samahar is working for Awareness raising and there are only six people engaged”. He asked Team Leader from Samahar that ‘you should engage at least 15 persons for awareness activities to cover all areas. You should apply to WASA for more manpower’. He also added that “you can fix a rate for households so that they face no problem in future. The house owners will receive the services by the labors for internal works with charges on that rate with permission from Councilor, after the house connections from WASA is given.”

56. One of the participants pointed out that all these issues raised are related to the works of the construction works. CPP - the contractor implementing the construction works should have commitments for good works. When the works are taking longer time and the situations are discussed today, the local people and vehicles moving on these roads are facing problems. He requested the CPP officials to take necessary steps immediately and asked them to respond to these issues just been discussed here. CPP Resettlement Officer Mr. Mizanur Rahman Milon explained that they don’t want sufferings of local people, there may be few staff from the subcontractor’s side with less experience are responsible for such incidences. But at most of the sites there are no problem like these, as discussed. All the pits at roads are filled immediately after works with sand, but due to the rains the sands are compacted and shallow ditches are developed.

57. It was recommended by the participants that CPP officials are to strengthen their supervision and internal administrative processes so that their subcontractors and people at the site levels follow proper procedures of the project and local people and households are not suffered. It also added that the staff set up of Samahar teams are designed at the start of project and we work according to the plan following the plan provided by PMU and the contractor’s plan, as well. Additional field staff are not required and so no field staff would have to be recruited. Attendance of the meetings are attached in **Appendix-2a**.

58. The following Figure 3 shows the Grievance Redress Mechanism that helps smooth implementation of safeguards activities for DWSNIP, Dhaka WASA.

Figure 3: Flow Chart of GRM process

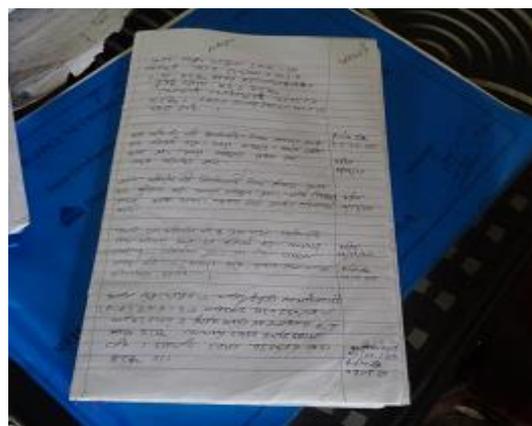

G. Complaints Received and Mitigated

59. During the reporting tenure (July – Dec 2020), a total of 78 grievances have been registered and all were resolved at construction site. Among the complaints, 31 received from ICB 2.8, thirty-two (32) complaints received from ICB 2.9 and 15 complaints received from ICB 2.11. Status of DMA-wise complaints received and mitigated during the reporting period

are attached in **Appendix-3**.

60. The DWASA officials, DMS and Contractors, of all the ICB Package areas, have been requested to keep the information centers / booth at respective construction sites open and visible to the people of the locality. For easing the process of GRM, the community people have requested to set an information center (or booth) at the construction site, so inhabitants conveniently can lodge their complaints and follow up for mitigation of these complaints. The DWASA zone offices are far from the present working sites and local are generally not interested to put the complaints in the offices where complaints box are lay on. Therefore, a few complaints were registered at the zone offices. On the other side, many complaints have received by the Contractors and SAMAHAR, Resettlement NGO in personal and over the phone and communicating with concerned for mitigation or solutions the issues. In order to submit their complaints or any information at the information center. The grievance or complaint formats and the registers have been made available at the place, to be used by the local people easily, without visiting the zone offices, usually located at far places from the construction sites.

A complaint register-book at DMA 210 in ICB 2.9 area

61. All the ICB Packages where civil work is ongoing have significant experience regarding people's participation through consultation meetings and other channels like FGD, one on one meeting, *miking* (message disseminating through loudspeaker), leaflet distribution, and so on (**Appendix 7** project awareness flyer). The project has illustrated, through these means, a wider space for citizens' participation that has enabled Dhaka WASA to take more informed decisions. Such an arrangement has also helped to create an interactive atmosphere for building mutually reinforcing relationships between Dhaka WASA and residents of the project areas. Inhabitants of the project sites always remain in touch with Zonal XEN and city corporation's councillors who are immediately informed if any grievance arises. Civil works contractors have also discussed with Labours during working time to receive and record their complaints. Concerned officials take measures to solve the problems as early as they can.

62. Dhaka WASA's Zonal offices/PCUs have been making efforts in association with DMSC, Contractors and NGOs at project level to resolve grievances through negotiations involving community leaders and public representatives. All the construction related grievances are resolved successfully. Complaints received and mitigated during the reporting period are summarized in the following Table-11.

Table-11: Status of grievances received and mitigated (July – Dec 2020)

Sl. No	Location	Grievances Received	Grievances Resolved	Un-resolved Grievances	How the grievances were mitigated

H. Institutional Arrangement

63. DWASA has established a PMU, responsible for carrying out day-to-day management activities of the project including tendering, selection of contractors, supervision, monitoring and evaluation of the construction work. The PMU is headed by a full-time Project Director (PD) and two Deputy Project Directors. DWASA both as Executing Agency (EA) and Implementation Agency (IA) is responsible for implementation of RP and ensuring the compliance of ADB's safeguard policy. Safeguards Implementation Unit (SIU) has been established under the PD office. A Safeguards Officer was designated who is responsible for the social safeguards related issues. DWASA has experience in implementing and managing the ADB safeguard policy and requirements. This includes the updating and disclosure of resettlement plan, and submission of semi-annual safeguards monitoring report.

64. The PMU has been supported by the Design, Management and Supervision (DMS) Consultants, and resettlement NGO for updating the Resettlement Plans. Contractors are to collect the data where structures and persons could be affected by the construction work. Updating resettlement plan is a work done by NGO taking support of contractors. The Resettlement Expert of DMS is responsible for monitoring the implementation activities of resettlement plans. The expert also facilitates public consultations, GRM management and implementation work as well as social safeguards monitoring and reporting activities.

65. DMS and DWASA (PMU/SIU) have supervised and monitored the implementation work at the field level to ensure compliance with the safeguard policy requirements in the civil work. The resettlement NGO, SAMAHAR, has been working of implementation resettlement work. Each worksite is under close supervision of the DMS, NGO and PMU staff. The resettlement expert of the DMS with the PMU resettlement officer has conducted all-inclusive monitoring of the resettlement and compensation activities.

66. The contractors have social safeguards personnel to (i) coordinate with DMS and resettlement NGO on updating the Resettlement Plan based on detailed designs, and (ii) monitor implementation of the safeguard policy and DWSNIP's requirements during the civil work.

I. Monitoring Results – Findings

67. The project monitoring using specific indicators e.g. number of days for which compensation paid versus number of actual days of disruption; number of vulnerable households provided vulnerable assistance; number of grievances registered versus resolved and unresolved grievances; compensations cost versus payments made and so on to get overall understanding about the current status. In addition, compensation and payments of all types of impacts and losses; progress of additional compensation to vulnerable persons; types of training and number of participants; employment opportunities available and availed by affected persons; employment opportunities available and availed by vulnerable groups; status of consultations and redress of grievances; status of inclusion

and participation, particularly affected vulnerable groups; social safeguard concerns in construction sites; status and dates of disclosure of resettlement plans to affected persons have been put in the table. During the reporting period (July – Dec 2020) no complaint was received from the affected persons. Several social safeguards activities have been carried in the period that illustrated the following Table-12.

Table-12: Status of Monitoring of the Sub-projects (July – Dec 2020)

Resettlement plan implementation			
1	Grievance redress committee established	Yes	GRC was formed both for PMU and PCU level on 19.12.2018
2	Telephone hotlines established	Yes	-
3	Entitlements and grievance redress procedure disclosed	Yes	-
4	Finalization of list of affected persons	Yes	
	Compensation/assistance/ allowances due	Total 10 APs could not be paid, left area closing business. Please see the Table-9 in detail	
5	Affected persons receive entitlements as per amounts and program specified in resettlement plan	Yes	
6	Payment of compensation, allowances, and assistance (no. of APs)	Total 117 affected persons received compensations of BDT 500500 (July-Dec 2020) of three ICB packages of the project.	Total 277 affected persons received compensations of BDT 1169350 from beginning of three ICB packages of the project upto Dec 31, 2020.
7	Additional assistance for vulnerable households given (no. of vulnerable APs)	Seven vulnerable affected persons were also received assistance of BDT 112000 (BDT 16000 each) in addition to the compensation amount for their income loss.	Total 8 vulnerable affected persons were also received assistance of BDT 128000 (BDT 16000 each) in addition to the compensation amount for their income loss.
8	Livelihood arrangements provided to vulnerable APs	N.A.	N.A.
9	No. of days for which	117 affected persons for actual	N.A.

S.N.	Monitoring Indicators	Status	Remarks
	compensation paid	income loss for 7 days each; total: 819 days	
10	Actual days of disruption	N.A.	It is observed that average 5-7 days are disrupted each AP for civil work under DWSNIP
11	Reinstallation of affected common facilities	N.A.	N.A.
12	Grievances		
	No. of grievances registered	78 grievances received	
	No. of grievances redressed	59	
	Outstanding complaints	0	
	Disclosure of grievance redress statistics	0	Under preparation
13	Consultation, participation, and disclosure as per plan	Yes consultation, participation, and disclosure have been taken place as per plan	A total of 73 consultation meetings and 2 GRC meetings were held during this reporting period
Monitoring			
1	Survey on socioeconomic status of affected persons (including vulnerable APs) completed and compared with baseline survey results	Done	N. A
2	Survey on satisfaction levels of affected persons with resettlement plan implementation completed	N.A.	N.A.
Labor			
1	Implementation of all statutory provisions on labor like health, safety, welfare, sanitation, and working conditions by contractors	Being complied in accordance with EMP	-
2	Equal pay for equal work for men and women	Being complied in accordance with GAP	N.A.

J. Compliance Status

68. The covenants to the loan agreement with ADB require that implementation of the project that “projects are designed, constructed, operated and maintained in accordance with ADB’s Safeguard Policy Statements (2009) and agreed between the Borrower and ADB.” Covenants written into the loan agreement that are related to social safeguards are laid in Table-13. These refer to actions that have been compiled satisfactory during the reporting period.

Table-13: Status of Resettlement and Social Safeguards Related to Loan Covenants

Sl.	Covenant	Status of Compliance
Project Specific Covenants		
01	Implementation Arrangements: (1 of Schedule 5)	
	(i) The Borrower and DWASA shall ensure that the Project is implemented in accordance with the detailed arrangements set forth in the PAM. Any subsequent change to the PAM shall become effective only after approval of such change by OWASA and AOB. In the event of any discrepancy between the PAM and this Loan Agreement, the provisions of this Loan	Being complied

Sl.	Covenant	Status of Compliance
	<p>Agreement shall prevail.</p> <p>(ii) The Borrower shall promptly notify AOB of any proposal to amend, suspend or repeal any provision of the Water Supply & Sewerage Authority Act 1996, which, if implemented, could adversely affect the carrying out of the Project or the operation of the Project facilities. The Borrower shall afford ADB an adequate opportunity to comment on such proposal prior to taking any affirmative action thereon.</p>	
02	Land Acquisition and Involuntary Resettlement: (6,7 of Schedule 5)	
	<p>The Borrower shall ensure, or cause the DWASA to ensure, that</p> <p>a) all land and all rights-of-way required for the project are made available to the Works contractor in accordance with the schedule agreed under the related Works contract and all land acquisition and resettlement activities are implemented in compliance with (i) all applicable laws and regulations of the Borrower relating to land acquisition and involuntary resettlement; (ii) the Involuntary resettlement Safeguards; and (iii) all measures and requirements set forth in the RP, and any corrective or preventative actions set forth in the Safeguards Monitoring Report.</p> <p>b) no works involving involuntary resettlement impacts are commenced until ADB has cleared the final RP of each package.</p>	<p>Being Complied</p> <p>(a) Documents are prepared/or under preparation by complying all relevant National Laws, Safeguard Policy Statement (SPS 2009) of ADB for all five packages. The Resettlement Plan (RP) for five different contract packages (ICB 2.08, ICB 2.09, ICB 2.10, ICB 2.11 and ICB 2.12) have already been prepared at project preparation stage and disclosed on the DWASA and ADB websites. RPs have been updating batch wise considering present involuntary resettlement impact.</p> <p>(b) Resettlement plans for thirty-nine (39) DMAs in 10 batches under 3 ICB packages have been updated and approved by ADB as of December 31, 2020. (Table-7 shows the status of resettlement plans updated and approved by ADB)</p>
	<p>Without limiting the application of the Involuntary Resettlement Safeguards or the RP, the Borrower shall ensure, or cause the DWASA to ensure, that no physical or economic displacement takes place in connection with the project until:</p> <p>(a) Compensation and other entitlements have been provided to affected people in accordance with the RP; and</p> <p>(b) a comprehensive income and livelihood restoration program have been established in accordance with the RP.</p>	<p>Being Complied</p> <p>Compensation and other entitlements have been provided to affected people in accordance with the updated resettlement plan.</p>
03	Indigenous Peoples: (8 of Schedule 5)	
	<p>The Borrower and DWASA shall ensure that the Project does not involve any indigenous peoples risks or impacts within the meaning of the SPS. If due to unforeseen circumstances, the Project involves any such impacts, the Borrower and DWASA shall take all steps necessary or desirable to ensure that the Project complies with all applicable laws and regulations of the</p>	<p>Being Complied</p>

Sl.	Covenant	Status of Compliance
	Borrower and with the SPS.	
04	Human and Financial Resources to Implement Safeguards Requirements: (9 of Schedule 5)	
	The Borrower shall make available, or cause DWASA to make available, necessary budgetary and human resources to fully implement the EMP, the RP.	Being Complied
05	Safeguards Related Provisions in Bidding Documents and Works Contracts: (10 of Schedule 5)	
	<p>The Borrower shall ensure, or cause the DWASA to ensure, that all bidding documents and contracts for Works contain provisions that require contractors to:</p> <p>(a) comply with the measures and requirements relevant to the contractor set forth in the IEE, the EMP, the final RP (to the extent they concern impacts on affected people during construction), and any corrective or preventative actions set out in a Safeguards Monitoring Report;</p> <p>(b) make available a budget for all such environmental measures;</p> <p>(c) provide the Borrower with a written notice of any unanticipated environmental risks or impacts that arise during construction, implementation or operation of the Project that were not considered in the IEE, the EMP;</p> <p>(d) adequately record the condition of roads, agricultural land and other infrastructure prior to starting to transport materials and construction; and</p> <p>(e) reinstate pathways, other local infrastructure, and agricultural land to at least their pre-project condition upon the completion of construction.</p>	Being Complied
06	Safeguard Monitoring and Reporting: (11 of Schedule 5)	
	<p>The Borrower shall do the following or cause DWASA to do the following:</p> <p>(a) submit semi-annual safeguards Monitoring Reports to ADB and disclose relevant Information from such reports to affected persons promptly/upon submission;</p>	<p>Being Complied</p> <p>(a) Generally Social Safeguard Monitoring Report is to be prepared after starting of implementation of the project. Semi-annual Social Safeguard Monitoring Report-1 (Jan 2018- June 2018), SSMR-2 (July-August 2018), SSMR-3 (January - June 2019), and SSMR-4 (July - December 2019) were received 'No Objection' from ADB. 5th SSMR (January – June 2020) was sent to ADB.</p>

Sl.	Covenant	Status of Compliance
	<p>(b) If any unanticipated environmental and/or social risks and impacts arise during construction, implementation or operation of the project that were not considered in the IEE, the EMP, and the RP, promptly inform ADB of the occurrence of such risks or impacts, with detailed description of the event and proposed corrective action plan; and</p> <p>(c) Report any actual or potential breach of compliance with the measures and requirements set forth in the EMP, and the RP promptly after becoming aware of the breach.</p>	<p>(b) Considering involuntary resettlement impact as well as additional impacts/risks due to change in scope/area, will be reflected in updated RPs and Executing Agency (DWASA) will inform the ADB along with corrective action plan accordingly which will also be reflected in the Monitoring Report.</p> <p>(c) In case of any breach of compliance with the measures and requirements set forth in the resettlement plan; DWASA will promptly inform ADB and suitable corrective action plan will be developed.</p>
07	Labor Standards; Health and Safety: (13 of Schedule 5)	
	<p>The Borrower shall ensure that the core labor standards and the Borrower's applicable laws and regulations are complied with during Project implementation. The Borrower shall include specific provisions in the bidding documents and contracts financed by ADB under the Project requiring that the contractors, among other things: (a) comply with the Borrower's applicable labor law and regulations and incorporate applicable workplace occupational safety norms; (b) do not use child labor; (c) do not discriminate workers in respect of employment and occupation; (d) do not use forced labor; (e) allow freedom of association and effectively recognize the right to collective bargaining; and (f) disseminate, or engage appropriate service providers to disseminate, information on the risks of sexually transmitted diseases, including HIV/AIDS, to the employees of contractors engaged under the Project and to members of the local communities surrounding the Project area, particularly women. The Borrower shall strictly monitor compliance with the requirements set forth above and provide ADB with regular reports.</p>	Being Complied
08	Gender and Development: (14 of Schedule 5)	
	<p>The Borrower shall ensure that (a) the GAP is implemented in accordance with its terms; (b) the bidding documents and contracts include relevant provisions for contractors to comply with the measures set forth in the GAP; (c) adequate resources are allocated for implementation of the GAP; and (d) progress on implementation of the GAP, including progress toward achieving key gender outcome and output targets, are regularly monitored and quarterly progress reports are submitted to ADB.</p>	Being Complied
09	Counterpart Support: (15 of Schedule 5)	
	<p>The Borrower shall make available through budgetary allocations or other means all counterpart funds required for</p>	Being Complied

Sl.	Covenant	Status of Compliance
	timely and effective implementation of the Project, including funds to mitigate unforeseen environmental and social impacts, and to meet additional costs arising from design changes, price escalation in construction or installation costs or other unforeseen circumstances. In addition to the foregoing, the Borrower shall ensure that DWASA has sufficient funds to satisfy its liabilities arising from any Works, Goods and/or Consulting Services contract.	
10	Governance and Anticorruption: (16,17 of Schedule 5)	
	<p>The Borrower shall, and shall ensure that OWASA shall, (a) comply with ADB's Anticorruption Policy (1998, as amended to date) and acknowledge that ADB reserves the right to investigate directly, or through its agents, any alleged corrupt, fraudulent, collusive or coercive practice relating to the Project; and (b) cooperate with any such investigation and extend all necessary assistance for satisfactory completion of such investigation.</p> <p>The Borrower shall, and shall ensure that DWASA shall, ensure that the anticorruption provisions acceptable to ADB are included in all bidding documents and contracts, including provisions specifying the right of ADB to audit and examine the records and accounts of the executing and implementing agencies and all contractors, suppliers, consultants, and other service providers as they relate to the Project.</p>	Being Complied

K. Follow up Actions, Recommendation and Disclosure

69. During reporting period (July – Dec 2020), 3 civil work contracts (ICB 2.8, ICB 2.9 and ICB 2.11) have been awarded to the contractors. Pipe laying work is mainly taking place in all 3 contracts. As of Dec 31, 2020, about 348.41 km High-Density Polyethylene (HDPE) pipe had been installed. Compensation payment of related DMAs has been done as per approved resettlement plans.

70. The following Table-14 shows the issues and recommendations that are expected to be accomplished by the PMU under DWSNIP. DMS, contractors and resettlement NGO supported the PMU to perform the activities from January to June 2021. Recommendations and further actions or items to focus on for the upcoming monitoring period. It also includes lessons learned for improvement for future safeguards monitoring activities.

Table-14: Issues and Recommendation

Activity/Key Issues	Recommended Action	Responsibility	Action Taken Till Dec 2020	Action Proposed/ required (Jan-June 2021)
Strengthening grievance redress mechanism	PMU, DMS and NGOs will take initiative in this regard	NGOs, Contractors, DMS and PMU	Grievances are duly attended and mitigated. GRC meeting of Zone-9 was taken place	Grievances will be duly attended and mitigated. GRC meetings at PCU level will conduct at regular basis
Updating RP for ICB 2.9 (4th batch; DMA 207, 208, 211, 215)	Census survey, consultation meetings, take photograph, collect secondary data, joint verification, checking by DMS and others related work	NGO, Contractors, DMS and PMU	NGO has already conducted census survey, consultation meetings, taken photographs, collected secondary data, etc. Submission date 28th Feb, 2021	Joint verification, checking by DMS, finalization the resettlement plan

Activity/Key Issues	Recommended Action	Responsibility	Action Taken Till Dec 2020	Action Proposed/ required (Jan-June 2021)
Updating RP for ICB 2.11 Fifth Batch (DMA 1001, 1009, 1010, 1011) and Sixth Batch (DMA 409, 414)	Census survey, consultation meetings, take photograph, collect secondary data, joint verification, checking by DMS and others related work	NGO, Contractors, DMS and PMU	NGO has already conducted census survey, consultation meetings, taken photographs, collected secondary data, etc. Submission date of both RPs: 30th March, 2021	Joint verification, checking by DMS, finalization the resettlement plan
ADB's queries on RP, Monitoring Report and other social safeguards issues.	Revise the plan, Monitoring Report and other social safeguards issues in response the queries & resubmit to PMU on a regular basis	PMU, and DMS	Being compiled	To be continued
Implementation of RP	All the approved RPs need to be implemented before starting civil work	PMU, DMS, NGO and contractors	Resettlement plans for thirty-nine (39) DMAs of 10 batches under 3 ICB packages have been updated and approved by ADB. Among the approved resettlement plans, compensation payment to 277 affected persons of 18 DMAs have taken place. 2 DMAs (202 and 311) do not have any involuntary resettlement impact.	Others approved RPs will be implemented before starting civil work
Collect data and visit to monitor of the social safeguard activities at field level	Resettlement Expert at DMS and NGO	PMU and DMS	Recruitment of Resettlement Expert at DMS and NGO are in position.	N.A.
Conduct and participate coordination meeting/ training on social safeguards at PMU and DMS level	Coordination meeting/ training on social safeguards at PMU and DMS level	PMU, NGO, contractors and DMS	DWASA and DMS conducted meeting/ training on social safeguards at PMU and DMS level	To be continued
Awareness building, social relationship and public safety	One to one, FGD, consultation meeting to be taken place.	NGO, contractors, DMS and PCU/PMU	One on one, FGD, and consultation meetings have been taking place in ICB 2.8, 2.9 and 2.11 at regular basis	To be continued

৭।	শ্রেণি-৭: ১। সহকারী অপারেটর (সকল ধরনের মেশিনের জন্য) ২। সহকারী কাটারম্যান/ সহকারী নিডলম্যান/সহকারী সিজারম্যান ৩। সহকারী কোয়ালিটি ইন্সপেক্টর ৪। সহকারী মার্কার/ সহকারী ড্রইং ম্যান ৫। সহকারী ইস্যুম্যান/ সহকারী ইনপুটম্যান ৬। সহকারী বান্ডলিং ম্যান/ সহকারী নাষারিং ম্যান ৭। সহকারী অটো স্প্রেডার/ সহকারী লে-ম্যান ৮। সহকারী পলি ম্যান/ সহকারী প্যাকিং ম্যান/ সহকারী ফোল্ডিং ম্যান ৯। সহকারী ট্যাগম্যান/ সহকারী স্পটম্যান/ সহকারী রিসিভম্যান ১০। সহকারী প্রিন্টার/ সহকারী পেইন্টার/ সহকারী ডায়ারম্যান ১১। সহকারী স্ক্রিন এক্সপোজার ১২। সহকারী ওয়েল্ডার/ সহকারী ফিটার/ সহকারী প্লাম্বার ১৩। সহকারী স্যাম্পলম্যান ১৪। সহকারী ডিস্ট্রিবিউটর ১৫। ফিনিশিং সহকারী ১৬। সুতা বাড়া সহকারী ১৭। লাইন আয়রণম্যান	৪১০০/-	২০৫০/-	৬০০/-	৩৫০/-	৯০০/-	৮০০০/-

▪ **শিক্ষানবিশ শ্রমিকের ক্ষেত্রে:**

(ক) শিক্ষানবিশকাল ৩ (তিন) মাস:

তবে শর্ত থাকে যে, নিয়োগকারী কর্তৃপক্ষ একজন শ্রমিকের কাজে সন্তুষ্ট না হইলে তাহার শিক্ষানবিশকাল আরও ৩ (তিন) মাস বৃদ্ধি করিতে পারিবে;

(খ) শিক্ষানবিশকালে শিক্ষানবিশ শ্রমিক মূল মজুরী ২,৭৫০ (দুই হাজার সাতশত পঞ্চাশ), বাড়ি ভাড়া ভাতা মূল মজুরীর ৫০% (শতকরা পঞ্চাশ ভাগ) হারে ১,৩৭৫ (এক হাজার তিনশত পঁচাত্তর), চিকিৎসা ভাতা ৬০০ (ছয়শত), যাতায়াত ভাতা ৩৫০ (তিনশত পঞ্চাশ) এবং খাদ্য ভাতা ৯০০ (নয়শত) টাকা বাবদ মাসিক সর্বসাকুল্যে ৫,৯৭৫ (পাঁচ হাজার নয়শত পঁচাত্তর) টাকা মজুরী প্রাপ্ত হইবেন; এবং

(গ) শিক্ষানবিশকাল সমাপ্ত হইবার পর শিক্ষানবিশ শ্রমিক সংশ্লিষ্ট গ্রেডের স্থায়ী শ্রমিক হিসাবে নিযুক্ত হইবেন।”।

২। ইহা ১৭ অগ্রহায়ণ, ১৪২৫ বঙ্গাব্দ মোতাবেক ০১ ডিসেম্বর, ২০১৮ খ্রিষ্টাব্দ তারিখে কার্যকর হইয়াছে বলিয়া গণ্য হইবে।

রাষ্ট্রপতির আদেশক্রমে

হামিদা চৌধুরী
যুগ্মসচিব।

Government of the People's Republic of Bangladesh

Ministry of Labor and Employment

Grant Board Branch

Notification

Date: 11th Magh, 1425 BS/24th January, 2019 AD

S.R.O No-23-Law/2019. Under the provisions of sub-section (1) of section 140 of Bangladesh labor act, 2006 (act 42 of 2006), under the section 139 of the act, the garments" industry sector, hereinafter referred to as the said sector the lowest wage board of the following schedule. With the power by above mention law, the Govt. did more rectification of the notification issued on 11th Agrahayan, 1425 BS/25th November, 2018 AD; of S.R.O no 345- law /2018.

The schedule of the aforesaid notification shall be substituted "KA"/A in place of following "KA"/A, namely

Schedule "A" Monthly Wage Rate

S.	Workers rank and class categories	Monthly main wages (Taka)	House Rent allowance (Taka) (50% of original wage)	Treatment allowance (Taka)	Transport allowance (Taka)	Food allowance (Taka)	Total wages (Taka)
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
1.	Grade-1: 1. Pattern Master 2. Chief Quality Controller 3. Chief Cutting Master/Cutting Chief 4. Chief Mechanic	10938/-	5469/-	600/-	350/-	900/-	18275/-
2.	Grade-2: 1. Mechanic/Electrician 2. Cutting Master	9044/-	4522/-	600/-	350/-	900/-	15416/-
3.	Grade-3: 1. Senior Operator (For all types of machines) 2. Senior Cutter 3. Senior Quality Inspector 4. Senior Marker/Senior Drawing man 5. Senior Screen Exposure 6. Senior Ironman 7. Senior Sample man/Sample Machinist 8. Junior Mechanic 9. Junior Electrician 10. Senior Line Leader	5330/-	2665/-	600/-	350/-	900/-	9845/-
4.	Grade-4: 1. Operator (For all types of machines) 2. Cutter man/Needleman/Seizure man 3. Quality Inspector 4. Marker/Drawing man 5. Issue man/Input man 6. Bundling man/Numbering man	4998/-	2499/-	600/-	350/-	900/-	9347/-

S.	Workers rank and class categories	Monthly main wages (Taka)	House Rent allowance (Taka) (50% of original wage)	Treatment allowance (Taka)	Transport allowance (Taka)	Food allowance (Taka)	Total wages (Taka)

6.	Grade-6: 1. General Operator (For all machines) 2. General Cutter man/General Diddle man/General Seizure man 3. General Quality Inspector 4. General Marker/General Drawing man 5. General Issue man/General Input man 6. General Bundling man/General Numbering man 7. Auto Spader/Lay- Man 8. General Poly man/ General Parking man/ General Folding man 9. General Tag man / General Spot man/ General Receive man 10. General Printer/ General Painter/ General Dryer man 11. General Screen Exposure 12. General Iron/General Pressing man	4380/-	2190/-	600/-	350/-	900/-	8420/-

S.	Workers rank and class categories	Monthly main wages (Taka)	House Rent allowance (Taka) (50% of original wage)	Treatment allowance (Taka)	Transport allowance (Taka)	Food allowance (Taka)	Total wages (Taka)
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
	13. General Welder/ General Fetter/ General Plumber 14. General Sample man 15. General Distributor						
7.	Grade-7: 1. Asst. Operator (For all types of machines) 2. Asst. Cutter man/ Asst. Diddle man/ Junior Seizure man 3. Asst. Quality Inspector 4. Asst Marker/ Asst Drawing man 5. Asst. Issue man/ Asst. Input man 6. Asst. Bundling man/ Asst. Numbering man 7. Asst. Auto Spreader/ Asst. Lay-man 8. Asst Polyman/ Asst. Packing man/ Asst. Folding man 9. Asst. Tag man / Asst. Spot man/ Asst. Receive-man 10. Asst. Printer/ Asst. Painter/ Asst. Dryer man 11. Asst. Screen Exposure 12. Asst. Welder/Asst Filter/Asst. Plumber 13. Asst. Sample man 14. Asst. Distributor 15. Finishing Assistant 16. Yarn flick assistant 17. Line Iron man	4100/-	2050/-	600/-	350/-	900/-	8000/-

- In case of Trainee Workers:**

(a) Apprenticeship 3 (three) months:

But the condition is that, if the employer's authority is not satisfied with the work of a worker, he may increase his or her apprenticeship by further 3 (three) months;

(b) Apprenticeship will be received on monthly basis for the monthly salary of Tk. 5975/- (five thousand nine hundred seventy-five); And

(c) Upon completion of the training period, the apprenticeship worker will be appointed as permanent worker of the relevant grade.

2. It will be deemed to have been effective on 1st December, 2018 AD / 17th Agrahayan, 1425 BS.

APPENDIX 7: AWARENESS FLYER FOR PROJECT INFORMATION DISCLOSURE

বর্তমান ও বাস্তবায়ন পরবর্তী তুলনামূলক চিত্র

বর্তমান অবস্থা	কাজকত পরিবর্তন
জরাজীর্ণ পুরাতন পাইপ লাইনে ছিদ্র/লিক থাকায় পানির অপচয় হয়।	উন্নত মানের মালামাল ব্যবহার এবং আধুনিক পদ্ধতিতে পাইপ স্থাপনের কারণে লাইনে কোনো ছিদ্র থাকবে না ও পানির অপচয় হবে না।
সরবরাহকৃত পানির অপচয়ের হার অনেক বেশি।	সরবরাহকৃত পানির সীমিত/ন্যূনতম অপচয় হবে।
ঢাকা ওয়াসা বিশাল রাজস্ব/আয় হারায়।	ঢাকা ওয়াসার রাজস্ব আয় বৃদ্ধি পাবে।
যথেষ্ট চাপ ছাড়া অনিয়মিত এবং স্বল্প পরিমাণ পানি সরবরাহ হয়।	পানির যথেষ্ট চাপ সহ ২৪x৭ সুপেয় পানি সরবরাহ নিশ্চিত হবে।
পানির যথেষ্ট চাপ না থাকার কারণে সাকশন পাম্প ব্যবহার করা এবং বেশি মোটা পাইপের গৃহ সংযোগ ব্যবহার করা।	পানির যথেষ্ট চাপ থাকার কারণে বেশি মোটা পাইপ এবং সাকশন পাম্প ব্যবহার করতে হবে না এবং বিদ্যুৎ বিল সাশ্রয় হবে।
পানি ফুটিয়ে ও ফিল্টার করার মাধ্যমে পানি বিতরিত করে ব্যবহার করা হয়।	পানি ফুটিয়ে ও ফিল্টার করার মাধ্যমে পানি বিতরিত করার প্রয়োজন পড়বে না।
লাইনে পানি দূষিত হওয়ায় পানি বাহিত রোগ হয়।	লাইনে বিতরিত পানি থাকায় পানি বাহিত রোগ বহুলাংশে কমে যাবে।
সনাতন পদ্ধতিতে পানি সরবরাহ এবং পানি দূষিত থাকায় গ্রাহকের ওয়াসার প্রতি আস্থা সঞ্চেট।	DMA পদ্ধতিতে পানি সরবরাহের ক্ষেত্রে ঢাকা ওয়াসার প্রতি গ্রাহকের আস্থা বৃদ্ধি পেয়েছে। নেপাল, থাইল্যান্ড এবং ভারতের প্রতিনিধি প্রকল্পটি পরিদর্শন করে তৃপ্তি প্রকাশ্যে করেছেন। ঢাকা ওয়াসার সাক্ষাৎকারি এটিবির প্রতিবেদনে প্রকাশিত হয়েছে।

প্রকল্প কাজ সূত্রভাবে বাস্তবায়নের ব্যয় ঢাকা ওয়াসা কর্তৃক ইস্যুকৃত আইডি কার্ডধারী ওয়াসার কর্মকর্তা/কর্মচারি, কনসাল্টেন্ট, ট্রিকাদার, এনজিও প্রতিনিধি প্রতিটি বাস্তবায়নে এবং প্রয়োজনীয় তথ্য সংগ্রহ করবেন। এতদ বিধিয়ে সনাতন গ্রাহকগণকে প্রয়োজনীয় সহযোগিতা প্রদানের জন্য অনুরোধ করা হলো।

Website: www.dwsnip-dwasa.com

সূচনা :
ঢাকা শহরে সার্বক্ষণিক (২৪x৭) সুপেয় পানি সরবরাহের লক্ষ্যে এশীয় উন্নয়ন ব্যাংক এবং বাংলাদেশ সরকারের অর্থায়নে ঢাকা ওয়াসা "ঢাকা ওয়াটার সাপ্লাই নেটওয়ার্ক ইমপ্রুভমেন্ট প্রকল্প" নামে একটি প্রকল্প গ্রহণ করে যা ডিসেম্বর ২০২১ সালে শেষ হবে। পূর্বেরকাল DWSSD প্রকল্পের মাধ্যমে সমাপ্তকৃত DMA গুলোতে সার্বিক ফলাফল সন্তোষজনক হওয়ায় অত্র প্রকল্প বাস্তবায়নের মাধ্যমে সমগ্র ঢাকা শহরে DMA এর মাধ্যমে পানি সরবরাহ নিশ্চিত করার লক্ষ্যে এখন কাজ চলেছে। পর্যায়ক্রমে কু-গর্ভস্থ পানির উপর নির্ভরতা কমিয়ে কু-উপরিস্থ পানি সরবরাহ বাড়ানোর লক্ষ্যে বেশ কিছু প্রকল্প চলমান/প্রক্রিয়াজাত আছে।

প্রকল্পের উদ্দেশ্য :

- সার্বক্ষণিক প্রেসারাইজড গিটেমে সুপেয় পানি সরবরাহ নিশ্চিত করা।
- Non-Revenue Water (NRW) ১০% এর নীচে কমিয়ে আনা।
- District Metered Area (DMA) নির্মাণের মাধ্যমে পুরাতন/জরাজীর্ণ সমস্ত পানির লাইন পরিবর্তন করামত প্রতি বাড়ীতে আধুনিক মিটার স্থাপন।

পুরাতন/সনাতন পদ্ধতি	প্রকল্পের নতুন পদ্ধতি
সনাতন উন্মুক্ত মাটি খনন পদ্ধতিতে পাইপ বসানো	মাটি খনন না করে বোরিং পদ্ধতিতে পাইপ স্থাপন

বাস্তবায়ন কৌশল :

- NGO এর সহযোগিতায় আন্তর্জাতিক ট্রিকাদারের মাধ্যমে কাজ বাস্তবায়িত হচ্ছে যা ডিজাইন ব্যবস্থাপনা ও সুপারভিশন (DMS) কনসাল্টেন্ট কর্তৃক প্রত্যেক ভাবে সার্বক্ষণিক সুপারভিশন করা এবং Project Management Unit (PMU) কর্তৃক মনিটরিং করা হচ্ছে।
- আধুনিক পদ্ধতিতে Horizontal Directional Drilling (HDD) এবং Pipe Bursting (PB) এর মাধ্যমে পাইপ স্থাপন করা হবে।
- BUTT Fusion এবং Belectro Fusion মেথিন এর মাধ্যমে Pipe Joint সম্পন্ন করার কারণে পানি লিকের হওয়ার সম্ভাবনা থাকে না। ফলে পাইপের পানি দূষণ হবে না এবং পানি বাহিত ব্যাবি বহুলাংশে হ্রাস পাবে।
- টানা পাম্পের (Suction Pump) প্রয়োজন না হওয়ায় গ্রাহকের বিদ্যুৎ ব্যয় কম হবে।

NGO সহযোগিতার সর্বাঙ্গিক বিবরণ :

- কাজের সময় মাথোরে অন্যকোনো ক্ষতি/ভোগাধি এড়াবার লক্ষ্যে প্রয়োজনীয় তথ্য সংগ্রহ করে কাজ বাস্তবায়নে সহযোগিতা করা।
- ট্রিকাদারের কাজের ধরন সম্পর্কে গ্রাহককে অবহিত করা।
- প্রকল্পের কাজ শেষ না হওয়া পর্যন্ত গ্রাহকের পানি সরবরাহ চাহিদা পূরণে নিয়োজিত আমান বার্তা প্রদান;
- কাজ চলাকালিন সাময়িক পানি সরবরাহ বিঘ্নিত হওয়ার বিধয়ে অবহিত করা।
- ট্রিকাদার কর্তৃক বিকল্প পানির ব্যবস্থা সম্পর্কে গ্রাহককে অবহিত করা।
- নতুন সংযোগ, পুরাতন সংযোগ পরিবর্তন, মিটার পরিবর্তন, Gate Valve, Float Valve পরিবর্তন ইত্যাদি সঞ্চেত বিধয়ে করণীয়।
- পানির অবৈধ সংযোগের ফলে সূঁট লিকেরের মাধ্যমে পানি দূষণ ও পানি বাহিত রোগ ছড়ানোর বিধয়ে জনসাধারণকে সচেতন করা।
- অবৈধ পানি সংযোগের বিধয়ে জনসাধারণকে নিরুৎসাহিত করা। অবৈধ সংযোগের ক্ষতিকর নিক জনসাধারণকে অবহিত করা।
- প্রকল্প অফিস থেকে প্রদানকৃত প্রকল্প সূত্রটি যে কোন তথ্য গ্রাহকদেরকে অবহিত করা।
- Underground পানির ট্যাংক নিয়মিত পরিষ্কার রাখার বিধয়ে সচেতন করা।

প্রকল্পের কাজের পরিধি :
 প্রকল্পের কাজ District Metered Area (DMA) পদ্ধতি অনুসরণ করে মডুল জোন-১,২,৩,৪,৭,৯ ও ১০ এলাকায় পানির লাইন স্থাপন/প্রতিস্থাপন করা হবে। অন্যদ্যায় স্থানে পূর্বের প্রকল্পের মাধ্যমে কাজ সমাপ্ত করা হয়েছে/হচ্ছে।

বিতরণ ব্যবস্থা (পাইপ লাইন) :
 ক. সমস্ত পুরানো, ভাঙ্গা বা লিক হওয়া (Decayed) পাইপ লাইন পরিবর্তন করে উন্নত মানের HDPE পাইপ ও ফিটিংস দিয়ে পানির নেটওয়ার্ক পুনর্বাসন করা হবে।
 খ. সমস্ত পাইপ নেটওয়ার্ক নির্ধারিত প্রেসার দিয়ে পরীক্ষা করতঃ লিক না থাকার বিষয়টি নিশ্চিত করা।
 গ. ব্যবহারের আগে স্থাপনকৃত পাইপ জীবাণুহীন করে গ্রাহকের ব্যবহার উপযোগী করা।

বাসা-বাড়ীর সংযোগ (হাউস কানেকশন) :
 ক. ট্রিকাদার হালনাগাদ বিল যাচাই করবেন, মিটার বিডিং দেখবেন, সংযোগের অনুমতিপত্র দেখবেন, সেই মোতাবেক ব্যবস্থা নিবেন, বৈধ ডকুমেন্ট ব্যতিত ট্রিকাদার কোন সংযোগ দিবে না।
 খ. প্রকল্পের মাধ্যমে অকার্যকর পুরাতন মিটার পরিবর্তনসহ সার্ভিস কানেকশন প্রদান; পুরনো মিটার ঢাকা ওয়াসার নিকট ফেরত প্রদান ইত্যাদি।
 গ. বডি এলাকায় ওয়াসার নিয়ম অনুযায়ী গ্রুপ (CBO) ভিত্তিক পানির সংযোগ স্থাপন।
 ঘ. বাড়ীর সীমানা দেয়ালের (মৌজাবারী ওয়ালের ভিতরে) কাছাকাছি মিটার চেম্বার বসাতে হবে।
 ঙ. সমস্ত অবৈধ সংযোগের ক্ষেত্রে ঢাকা ওয়াসার নিয়ম অনুসরণ করে বৈধ সংযোগ নিতে হবে।
 চ. প্রকল্প বাস্তবায়নের সময়ে ঢাকা ওয়াসার যথাযথ কর্তৃপক্ষের অনুমোদন পূর্বক সমস্ত সংযোগ ট্রিকাদার প্রদান করবেন।
 ছ. প্রকল্প বাস্তবায়নের পর ৬ মাস পর্যন্ত প্রকল্প এলাকায় কোন নতুন সংযোগ দেয়া হবে না।
 জ. কাজ শেষে সমস্ত পুরানো সংযোগ বিচ্ছিন্ন করা হবে।
 ঞ. ওয়াসার লাইন হতে অবৈধ সংযোগ নেয়া হলে আইন অনুযায়ী কঠোর ব্যবস্থা নেয়া হবে।

পুরাতন ব্যবহার পাইপ চিহ্নিত	বর্তমান প্রকল্পের পাইপ ও ফিটিংস
পূর্বের সিমেটের সূঁট-ভাঙ	নতুন সিমেটের সূঁট-ভাঙ বা খুব সহজে পরিষ্কার করা যাবে।
শেয়ার ট্রাম্প-এর সাহায্যে পুরাতন ব্যবহার পূর্ব সংযোগ	বর্তমান প্রকল্পের এইচডিপিই ট্রাম্প-এর সাহায্যে পূর্ব সংযোগ
পানির মিটার ও মিটার চেম্বারের নতুন পূর্ব সংযোগ	প্রকল্পের পরে মিটার শীটের জলপাতের (বিল্ডার্সের) পূর্ব সংযোগের মাধ্যমে সূঁট ভাঙ দূরত্ব নেয়া হবে।
