

Export Promotion Bureau has the proud privilege of promoting

Bangladesh Leather Products

Leather industry is a major industry in Bangladesh and the Government of Bangladesh has declared it as a priority sector. The industry was the second largest export sector of Bangladesh.

Increasing interest of buyers has opened up an opportunity for footwear and leather industries of Bangladesh. The production of leather-made items has been increasing in the country. The sector has the potential for becoming the second largest foreign currency earner after ready-made garments.
