| Short Description | Safeway Technologies Ltd. is a pioneer machinery supplier company in Bangladesh for all kinds of industrial machinery. Standing on the edge of the Fourth Industrial Revolution, Safeway Technologies Ltd. has been working relentlessly since 2015, with the dream of building an economically viable, employed, and self-confident Bangladesh. We have a strong and dedicated Technical & Management team to support our valuable customers. The company imports industrial machinery from China, Taiwan, Turkey, Italy, England, USA and supplies in Bangladesh. We have successfully set up over 200 small, medium and large manufacturing projects on different products since inception. Our mission is to set up at least 1,000 projects in different industries all over Bangladesh by the year 2030, which will generate substantial employment opportunities. We are striving towards achieving this goal and are motivated to make a difference. |
