Role of Hortex Foundation

The Horticultural Export Development Foundation (Hortex Foundation) is a non-profit organization which was established by the People's Republic of Bangladesh under the Companies Act for agri-business development, specially the development, promotion and marketing of exportable horticultural produces with particular emphasis on high-value, non-traditional crops to high-price non-conventional markets. In the area of both export diversification and production expansion, Hortex Foundation is playing a catalytic role in providing:

- (i) *technical assistance in respect of production and post-harvest handling including sorting, grading, packaging and transportation;*
- (ii) *cool-chain facility from production centre to the point of shipment;*
- (iii) *packaging cartons of international standard;*
- (iv) *market information and market feed back;*
- (v) *training on the Total Quality Management (TQM);*
- (vi) *monitoring produce quality through the production and marketing chain.*
