Terms of References (ToR) of Sectoral Working Group (Human health) of AMR surveillance

1. Each Sectoral Working Group (SWG) will work as a forum of the surveillance sites, laboratory networks, and reference laboratories within the sector.
2. Work experiences, surveillance findings, and issues will be shared within the SWG to facilitate joint learning and problem-solving.
3. The SWG will report on progress and challenges faced to the Core Working Group (CWG) and the National Technical Committee (NTC).
4. The SWG, along with the appropriate national reference laboratory (NRL) of the sector, will ensure high safety and quality standards through established protocols for laboratory quality and participation in a national quality assurance programme.
5. SWG members will participate in supportive supervisory visits to the sentinel sites (each site should be visited at an interval of every two months).
6. SWG will convene monthly meetings and prepare quarterly progress reports for submission to CWG/NTC.
7. Membership of each SWG will be decided by NTC with a recommendation from CWG.
