

Name of the Machine	Brand Name and Country of Origin	Model No.	Description/Use
Muffle Furnace	Lenton England	AWF 13/42	To have controlled programmable temperature up to 1200°C

Used For: Materials heating at controlled programmable temperature up to 1200°C

Analytical Services: Around 1000 analytical samples (such as coal peat, etc.) were analyzed.

**Earning: TK 500,000**

Future Plan: Should be used solid reaction.
