

## Process Ready for lease: 12

1. Production of safe and Cost Effective Mineral Water.
2. First Flush Rainwater Harvesting for Drinking Purpose
3. A process of Desalination of coastal river water for drinking purpose.
4. Preparation of Reference Buffer Solution of pH 10
5. Preparation of Reference Buffer Solution of pH 7
6. Preparation of Reference Buffer Solution of pH 4
7. A Process for the Preparation of Reference Conductivity Solution (84  $\mu\text{S/cm}$ , 500  $\mu\text{S/cm}$ , 1000  $\mu\text{S/cm}$ , 1413  $\mu\text{S/cm}$  & 12880  $\mu\text{S/cm}$ ) at 25 °C
8. As Detection kit
9. Production of Sodium Aluminate from the ash of Aluminium Industry
10. Production of Jam from *S. appetala* Fruits
11. Production of Jelly from *S. appetala* Fruits
12. Production of Pickle from *S. appetala* Fruits

## Under review: 01

1. Production of Alkaline Water

## Patent: 01

Patent Pass list

1. Production of safe and Cost Effective Mineral Water.

## Under review: 04

1. Production of Jam, Jelly and Pickle from *S. appetala* Fruits
2. Production of Alkaline Water
3. A process of Desalination of coastal river water for drinking purpose.
4. As Detection kite

BCSIR Digital Arsenic Test Kit

Rain Water Harvesting System
