12. News Flashback:

12.1 Runner Automobiles has entered into a significant agreement with BYD Auto Industry Company to expand electric vehicle (EV) supply, manufacturing, and possible assembly operations in Bangladesh. This partnership is considered a major milestone for the country's automobile sector, with strong potential for local manufacturing growth and technology transfer.

12.2 Grameenphone has projected a slight decline in its financial performance for the first quarter of 2026. Due to global geopolitical tensions and domestic economic pressures, revenue is expected to fall by around 2% and EBITDA by about 3%, which has already triggered a negative reaction in the stock market.

12.3 Bangladesh Securities and Exchange Commission and Asian Development Bank have jointly outlined a plan to significantly expand Bangladesh's capital market. Their target is to increase the market size from 10% to 40% of GDP within the next few years through reforms, digitalization, and diversification initiatives.

12.4 IDLC Finance reported a 21% increase in profit in 2025, mainly driven by strong returns from government securities investments. However, higher interest rates led to increased funding costs and a decline in net interest income, resulting in a mixed overall performance.

12.5 Bangladesh's footwear exports to the United States grew by approximately 52% in 2025. This growth was driven by US buyers diversifying sourcing away from China and Vietnam. However, further expansion will depend on improvements in logistics, faster delivery, and ease of doing business.

12.6 Trade relations between Bangladesh and the United States strengthened in 2025, with the US temporarily becoming the country's second-largest trading partner in several months. While China remains the top partner, this shift reflects changing global trade dynamics.

12.7 Remittance inflows reached a record \$3.62 billion in March 2026, marking a significant year-on-year increase. This growth was supported by the government's 2.5% incentive on formal channels and increased transfers ahead of Eid, helping strengthen the country's foreign exchange reserves.

12.8 Bangladesh Securities and Exchange Commission has approved a Tk 500 crore zero-coupon bond for Akij Food and Beverage Limited. The bond will be issued through private placement to institutional and high-net-worth investors to support the company's financing needs.

12.9 Bangladesh Securities and Exchange Commission has also approved Bangladesh's first "Orange Bond," to be issued by SAJIDA Foundation. This bond will finance initiatives focused on women's empowerment, gender equality, and climate action, marking a key step in the country's impact investment sector.

12.10 Foreign investors have continued to withdraw from Bangladesh's stock market in recent months due to global uncertainties, economic challenges, and weak business confidence. This trend has negatively affected overall market sentiment. Sri Lanka is planning to issue domestic dollar-denominated bonds to improve foreign exchange liquidity. This initiative aims to provide investment opportunities for local banks holding foreign currency deposits and strengthen the country's financial stability.
