

## **Md. Abdus Samad Ajad**

Lecturer, Department of Chemistry  
Lalmonirhat Government College, Lalmonirhat

Md. Abdus Samad Ajad is currently serving as a Lecturer in the Department of Chemistry at Lalmonirhat Government College. He holds an M.S. degree in Applied Chemistry and Chemical Engineering from the University of Dhaka. His academic interests are diverse and include Nanotechnology, Quantum Chemistry, Biopolymers, Fuels and Petrochemicals, and Environmental or Atmospheric Chemistry.

Mr. Ajad was born in 1992 in Haluaghat Upazila of Mymensingh District. He is the only son of Mr. Fazlur Rahman & Mrs. Ferdousi Begum. Throughout his life, his parents have been a guiding light, consistently encouraging him to stay on the right path and pursue a meaningful life. Mr. Ajad is married and blessed father of one son.

Since joining the Bangladesh Civil Service (General Education) cadre on 14th February 2021, Mr. Ajad has been committed to promoting science education with the goal of nurturing skilled, science-minded human resources who can contribute to national prosperity and global progress. He firmly believes that teachers are the architects of the future, responsible for shaping minds and transforming society.

He has completed the 190th Foundation Training at the National Academy for Educational Management (NAEM) and Basic ICT Training under the Center for Educational Development Project (CEDP), which reflect his dedication to continuous professional growth.

Outside the classroom, Mr. Ajad enjoys reading books and journals and solving puzzles. He encourages his students to embrace thoughtful action and selfless contribution through his motto:

"Think, Imagine, Understand and then Decide. Because your action is important. Try to do something for the World, for Humanity, for your Society and lastly, for yourself."
