

Dr. Naima Zaman Setu

Medical Officer cum Instructor

Marine Fisheries Academy (MFA), Chattogram

MPH (Epidemiology) Candidate | MD Residency Aspirant (Internal Medicine)

Professional Biography

Dr. Naima Zaman Setu is a dedicated physician, educator, and public health professional currently serving as Medical Officer cum Instructor at the Marine Fisheries Academy (MFA), Chattogram, Bangladesh.

She provides comprehensive primary healthcare services, manages emergency and outpatient cases, conducts routine health assessments, and leads preventive healthcare initiatives including immunization, health screening, disease prevention, and health promotion for cadets, officers, employees, and their families.

As an Instructor, she contributes to the academic development of cadets through health education and evidence-based medical practice. She also serves as the Divisional Officer for Female Cadets, providing mentorship and welfare support while fostering leadership, discipline, and personal development.

Beyond her medical responsibilities, Dr. Setu actively participates in cultural and extracurricular activities. As a trained dancer, she mentors first-year cadets and prepares them for institutional cultural programs, promoting confidence, creativity, and teamwork.

She is currently pursuing a Master of Public Health (MPH) with a specialization in Epidemiology and is preparing for the MD Residency in Internal Medicine. Her professional interests include preventive medicine, epidemiology, community health, medical education, and evidence-based clinical practice.

Dr. Setu remains committed to delivering compassionate healthcare, advancing medical education, and contributing to the continuous improvement of public health and maritime education in Bangladesh.
