## Executive Summary

*This report on year-end fiscal position presents the trend of selected fiscal variables, covering data on government expenditure, revenue, and overall balances. Data are collected mostly from the Integrated Budget and Accounting System (iBAS<sup>++</sup>) of the Finance Division, Ministry of Finance. In this report fiscal year (FY) refers to the period covering from July 01 to June 30 of the next year. Taka is the Local Currency Unit (LCU), and one crore means ten million. This report on year-end fiscal position presents the trend of selected fiscal variables, covering data on government expenditure, revenue, and overall balances. Data are collected mostly from the Integrated Budget and Accounting System (iBAS<sup>++</sup>) of the Finance Division, Ministry of Finance. In this report fiscal year (FY) refers to the period covering from July 01 to June 30 of the next year. Taka is the Local Currency Unit (LCU), and one crore means ten million.*

*Government expenditure is shown under two broad categories, namely, Operating Expenditure and Development Expenditure. The total expenditure grew by 7.2% in FY21 and its share of GDP has also increased over time. Specifically, total expenditure as a percentage of GDP increased from 12.2% in FY17 to 12.8% in FY21.*

*Revenue income of the government is generated from both tax and non-tax sources. The actual growth of total revenue in FY21 recorded as 20.6 percent. The total revenue to GDP ratio remained relatively stable between FY17 and FY21, with a range fluctuating from 8.0 percent to 9.1 percent.*

*Overall balance (surplus/ deficit) of the budget is calculated either by including grants or by excluding grants. In FY21, budget deficit (excluding grants) and budget deficit (including grants) were 3.76 percent and 3.70 percent of GDP respectively. Over the years, budget deficit consistently remained below 5 percent of GDP which has helped keep the public debt level within sustainable ceiling.*

## 1.0 Total Expenditure

### 1.1 Trend in Total Expenditure

Over the past five years, total government expenditure has shown a gradual upward trend in absolute terms. Actual expenditure rose by 59.5%, increasing from Tk. 284,382 crore in FY17 to Tk. 453,525 crore in FY21. The government expenditure-to-GDP ratio increased over the period, rising from 12.2% in FY17 to 12.8% in FY21. This reflects a scenario where public spending growth has outpaced the aggregate output growth of the country, especially in the context of economic slowdown resulting from COVID-19 and other global crises. In FY21, the actual expenditure was 84.1% of the revised budget, indicating a shortfall in budget implementation. Furthermore, during FY17 to FY21, actual expenditure as a percentage of both the original and revised budgets fluctuated, suggesting variability in budget execution efficiency across years (Table 1 and Figure 1).

### 1.3 Sector's Share in Total Expenditure

In FY21, the sectors such as general public service, interest payment, health, agriculture, social security & welfare, education & technology, housing, and local government & rural development have shown improved performance (in terms of sector's share in total expenditure) compared with FY20 (**Figure-2**). The above expenditure pattern indicates that the government has prioritized for maintaining public security and promoting agricultural growth. Individually the largest share went to education & technology (**15.74** percent).

Sector-wise allocation and expenditure patterns in FY20 and FY21 are presented in **Table 4**. Besides, Ministry-wise utilization pattern of operating expenditure for FY21 is presented in Appendix-1. Some of the noticeable features are:

- ✓ In FY21, utilization rate (actual expenditure as percent of revised budget) for some sectors such as General Public Service, Health and Agriculture were below the average utilization rate (**88.8** percent).
- ✓ On the contrary, utilization rates in some sectors such as Interest Payment, Defence, Industrial and Economic Services, Local Gov. & Rural Dev, Housing and Community Services, Education and Technology, Public Order and Safety, Social Security & Welfare, Recreation, Culture & Religious Affairs, Fuel and Energy and Transport and Communication were above the average utilization rate.

## 2.2 Ministry-wise Utilization

Ministry-wise utilization pattern of the operating expenditure for the FY21 is presented in **Appendix 1**. Some of the noticeable features are:

- ✓ Actual spending in FY21 is 88.8 percent of the revised budget, which was 87.1 percent for the previous fiscal year.
- ✓ In FY21, among the ministries/divisions with large allocation, Ministry of Foreign Affairs (50.6 percent), Internal Resources Division (60.6 percent), Ministry of Fisheries & Livestock (62.2 percent), Ministry of Public Administration (67.7 percent), Medical Education and Family Welfare Division (76.4 percent), Law & Justice Division (78.4 percent) and Ministry of Railways (82.8 percent) have an utilization rate below the average (**88.8** percent).

## 2.3 Economic Classification of Total Operating Expenditure

Budget allocation under Operating Expenditure is again categorized into some groups on economic consideration, namely, Pay & Allowances (PA), Goods & Services (GS); Interest Payments (IP); Subsidies, Incentives & Current Transfers (SCT); Block Allocation (BA); Acquisition of Assets & Works (AAW); and Investment in Share & Equities (ISE). Resource utilization in these sectors is illustrated in **Table 5**. Status of actual spending in FY21 as per economic classification is shown in **Figure 5** and **Figure 6**.
