FIGURE 8: SOURCES OF FINANCING DEFICIT

For FY2014, up to August 2013, financing is negative as the overall balance is positive. On annual and monthly basis, there is a slight difference between NSD source and CGA source for Non-Bank borrowing.

Development expenditure is still under reported in the Budgeting Information System and it seems there is some time lag between actual expenditure and inputting the same in the system. This seems to be partially true for Revenue expenditure.
