Senior Assistant Secretary (SS-A) from HOC

Sub: *Celebration "Youth Festival 2025"*

On 25 January 2025, the Mission celebrated the "Youth Festival-2025" in a festive and cheerful manner. A felicitous program including a "Symposium" was arranged to celebrate the event.

02. The program commenced with the Symposium at 4.00 PM in the afternoon. Four young speakers from both Bangladesh and the Philippines participated in this event. The speakers were earlier given thematic topic by the Mission related to the youths. They covered, in their speeches, several burning issues of the present world including the role of youth in "Preserving Cultural Diversity", "Influencing Climate Policy", "Building the Nation" and "Leading the Politics".

03. The first speaker gave a speech on the topic: "Cultural Coalescing: The Role of Youth in Protecting Cultural Diversity". The speaker mainly focused on the role of youth in preserving the cultural diversity, preventing cultural hegemony and aggression. She began with the importance of culture in shaping societies, fostering identity, and promoting youth development. She also highlighted pivotal role of youth in bridging cultures and enhancement of intellectual understanding. Finally, a call to action was urged by the speaker to turn the dream of preserving the culture into reality.

04. The second speaker discussed on the topic: "Climate Policy and Protest: How can youth shape the Climate Policies"? This theme aimed to express the capacity of the youth in influencing and implementing effective climate policies. The presentation began with an example of freediving experiences by the speaker which is based on one community policy "Every Dive is a Cleanup Dive" emphasizing the responsibility to care for the planet, a sentiment that extends beyond diving to everyday actions. Then, the youths were portrayed as key players in addressing climate change, taking active roles in climate strikes, and pushing for policy changes. Lastly, the inclusion of the youth in policy discussions was advocated by speaker.

05. The third speaker talked about "The Contribution of the Youth in Nation-Building". The objective was to reprise the capability of the youth in Nation-Building. It started with a numerical presentation on the participation of the youth as policy makers in the context of Bangladesh and the Philippines. Then, the empowerment of the youth was emphasized so that their full potential could be utilized. Finally, an urge was pleaded to include more youth in the policy making process in every country in the world.

06. The last speaker elaborated on the topic: "Breaking the Stereotypes: Imagine a Future led by Youths in Politics". This topic focused on how the youth can contribute to bridging the gap between the generations and play a remarkable role as leaders in politics. The speech began with a brief history of the roles of youths in Politics. Then the responsibility of the youth in the history

and their role in the world politics were presented. Finally, a call to action was made to build an empowered society that is adaptable to the dynamic and globalized world.

07. At this point, Ambassador of Bangladesh to the Philippines, H.E. F.M. Borhan Uddin delivered his special remarks. In his remarks, he corelated the spark of the Arab Spring to the July-August 2024 uprising in Bangladesh. He briefly explained the contribution of the youth of Bangladesh to the Language Movement of Bangladesh in 1952, United Front Election in 1954, Protest against Ayub Khan in 1962, Mass-uprising in 1969, and the Liberation War in 1971 and above all the July-August 2024 Anti-Discrimination Movement in Bangladesh. He underscored that true leadership is not about power but about the courage to stand up for what is right. He highlighted the creativity, passion, and bold leadership of the youth and urged the adults as the mentors to take the responsibility to empower the youths to express their views and offer resources to turn the dreams into reality. In his final words of the speech, he called for an action to change the country, and in doing so, change the world.

08. After the remarks by the Ambassador, a live-interactive quiz competition: "Know Your Country" was arranged for the distinguished guests. Then, certificates and awards were presented to all participants of the quiz competition and winners of the creative writing competition. The speakers of the symposium were also honoured with awards. The program concluded through cake-cutting to celebrate the festival, which was followed by a sumptuous dinner. The Mission spent an amount of BDT 6,37,064.22 only in this connection. A detailed breakdown of the cost incurred is to this report in a separate page (annexure-A).

09. His Excellency, the Ambassador has seen this report.

10. This is for your kind information and necessary action.

With Respectful Regards,

(M. M. Julker Naim Drobo)
