The Fourth International Youth Forum for Creativity and Innovation in Artificial Intelligence

Artificial intelligence has recently provided the best roadmap for creating a conducive environment for the development of projects and programs in most fields, such as medicine, sports, engineering, industry, space, e-marketing, and other scientific fields and programs. It has become an urgent necessity for youth to keep pace with these changes.

Within the framework of the Ministry of Youth and Sports' interest in strengthening relations between youth from around the world to bring together historical civilizations and cultural heritages, unleashing creative skills, activating the energies and minds of youth in all cultural and scientific aspects, developing and refining their skills, and discovering outstanding ones, the Egyptian Ministry of Youth and Sports has the pleasure to invite / open call for participation for youth from around the world to participate in the **International Forum for Artificial Intelligence** to emphasize these values through a series of seminars, discussion sessions, and an exhibition of scientific innovations.

Forum Objectives:

1. Highlighting the future of youth and providing them with an opportunity to showcase their creativity and explore new horizons.
2. Exchange international expertise and experiences in the field of artificial intelligence for youth.
3. Building bridges of communication between international youth.
4. Creating a conducive environment for the development of electronic projects and programs.
5. Developing proposals for the continued development of international youth cooperation.
6. Showcasing artificial intelligence success stories in various fields.
7. A nucleus for the International Olympiad in Artificial Intelligence in Egypt.

Venue: Cairo.

Age Group: 18-30 years, with two participants from each participating country.

Forum Duration: 19-23 December 2025.

Thematic Topics of the Third Forum:

First Axis: Artificial Intelligence and Smart Governance of Institutions.

Second Axis: Artificial Intelligence and Education.

Third Axis: Artificial Intelligence and Health.

Fourth Axis: Youth Innovations.

Terms of Participation:

Number of participants: Two (2) participants from each country, provided that they have not participated in previous editions.

Each country will bear the cost of tickets for the participating delegation.

The Egyptian Ministry of Youth and Sports will bear the cost of accommodation, subsistence, forum implementation, emergency medical care, and all logistical support for implementation from December 19, 2025, to December 23, 2025.

Participants will bear the cost of accommodation and subsistence for the days they will be in Egypt before or after the forum.

Each participant must submit a research paper that includes the following:

The research/project/idea must be within one of the aforementioned forum themes, or directly related to one of them, while adhering to accuracy and scientific methodology, and fully documenting recent sources at the end of the research.

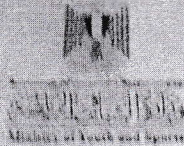

Complete participation registration and upload a summary of the research (project - idea) not exceeding 500 words. The research must be no less than 10 A4 pages and no more than 15 pages in PDF format via the electronic link (<https://apps.emys.gov.eg/sport/AI/>).

All researches will be subject to scientific review by a specialized committee to determine the top five projects to be honored. The research/project/idea must be written in English.

If a project, design, application, or idea has been implemented and is related to the forum's content, it is preferable to bring a project model, if possible, to hold an exhibition on the sidelines of the forum.

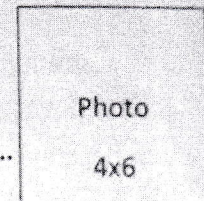

The deadline to confirm participation is November 20, 2025.

Adhere to the forum's implementation schedule, with reception on Friday morning, February 19, and departure on Tuesday morning, December 23, 2025.

The Fourth International Forum on Artificial Intelligence

These instructions must be read and approved before starting to complete the participation information. In the recent period, artificial intelligence has achieved the best roadmap to create the climate for the development of projects and programs in most fields such as medicine, sports, engineering, industry, space, e-marketing and other fields and scientific programs, so there has become an urgent necessity for young people to keep pace with these changes.

And within the framework of the Ministry of Youth and Sports' interest in strengthening relations between the youth of the world's countries for the rapprochement of historical civilizations and cultural legacies, unleashing creative skills and activating the energies of young people and their thought in all cultural and scientific aspects, developing and refining their skills and discovering the distinguished ones.

Hence, the Egyptian Ministry of Youth and Sports invited the youth of the world to participate in the International Forum on Artificial Intelligence to emphasize these values through a series of seminars, discussion sessions and an exhibition of scientific innovations.

Execution place: Cairo

Themes of the Forum in its first edition:

- Axis One: Artificial Intelligence and Smart Growth
- Axis Two: Artificial Intelligence
- Axis Three: Industrial Technology
- Axis Four: Youth Innovations

Participation Terms:

- ✓ Each country bears the value of the tickets for the participating delegation
- ✓ The Egyptian Ministry of Youth and Sports bears the value of accommodation and food, the implementation of the forum, medical care in emergency cases, and all logistical support for implementation
- Age group: from 18-40 years old
- from 19/12/2025 to 23/12/2025

The participation of the delegation of each country in a research working paper that includes the following:

- Commitment to accuracy and scientific methodology, and full documentation of modern sources at the end of the research
- That the research falls within one of the axes of the mentioned forum, or is directly related to one of them
- Send the attached participation form and a summary not exceeding 500 words, the size of the search should not be less than 15 pages and not more than 20 pages, and the research should be sent in the form of a pdf file via the email shown below
- All research is subject to scientific arbitration by the arbitration and criticism committees
- In the case of a project, design or application related to the content of the forum, it is preferable to bring the project form, if possible
