Mymensingh.  
June, 2019**

## **ACKNOWLEDGEMENT**

The study team is indebted to the Director General, Md. Shah Alam, National Academy for Primary Education (NAPE) for providing the support and continuous inspiration to conduct the research “Effectiveness of Lesson Study: A case of enhancing mathematics teaching learning in the primary education of Bangladesh” which may provide necessary inputs to the policy makers for capturing necessary initiative for the implementation of Lesson Study in order to enhance and sustain the quality teaching learning in the primary classroom.

The study team is grateful to the Director of National Academy for Primary Education (NAPE), Md. Yousuf Ali, for his cooperation and assistance in conducting day long orientation course on lesson study, collecting the data from the selected schools and related stakeholders at Muktagasa and Fulbaria Upazilas in Mymensingh district in Bangladesh which made remarkable contribution in making the study successful. The research team is grateful to the Deputy Director (Admin.), NAPE for her cordial cooperation. The research team also obliged to the Faculty Head of Research and Curriculum, Mr. Rangalal Ray, senior Specialist, NAPE for his continuous support.

The study team would like to express their deep gratitude to the selected respondents (URC Instructors, AUEOs, Head teachers, assistant teachers and students of the selected schools) for attending orientation workshop, lesson study cycles and providing data through questionnaire, observation and FGD. The study team also express their deep gratitude to the UEOs of Muktagasa and Fulbaria for attending the lesson study implementation program in the selected schools.

The research team is also grateful to the head of faculty of Research and Curriculum faculty of NAPE for his cordial cooperation to conduct the research work. The study team would also like to thank all other faculty members of NAPE for their valuable suggestions and contribution in this research.

Finally, the team would like to express thanks to the well-wishers who supported directly or indirectly to complete the research work. The development of this research paper would not be possible without the kind and valuable help of the people concerned.

**The Research Team**

## Table of Contents

Table of Contents	v
List of Table	vi
List of Figures and graphs	vii
List of appendix	viii
List of Abbreviations	ix
<b>Chapter One: Introduction</b>	1
1.1 Background of the Research	1
1.2 Main research objective	4
1.2.1 Specific research objective	4
1.3 Research Questions:	4
1.4 Educational Structure of Bangladesh	4
1.5 Primary Education in Bangladesh	5
1.5.1 Organizational Structure of Primary Education in Bangladesh	6
1.5.2 Supportive Institutes of Primary Education	8
1.5.2.1 National Curriculum and Textbook Board (NCTB)	8
1.5.2.2 National Academy for Primary Education (NAPE)	8
1.5.2.3 Primary Teachers Training Institute (PTI)	9
1.5.2.4 Upazila/Thana Resource Centre (URC/TRC)	9
1.6 Rationale	10
1.7 Limitations of the Research	11
<b>Chapter Two: Literature review</b>	12
2.1 Lesson study	12
2.2 Lesson study process	13
2.2.1 <i>Stage 1: Plan</i>	13
<i>Stage 2: Lesson implementation and observation</i>	14
2.2.2.1 <i>Lesson implementation</i>	14
2.2.2.2 <i>Lesson observation</i>	15
2.3. <i>Stage 3: Evaluation/assessment</i>	16
2.4 <i>Eight steps of Lesson Study</i>	17
2.5 <i>Conceptual Framework</i>	22

<b>Chapter Three: Methodology</b>	24
3.1 Research Locale, Respondents and Tools	24
3.1.1 Research Locale	25
3.1.2: Tools for Data Collection	25
3.1.3: The Categories of Respondents	25
3.1.4 Validity of the tools and data collection procedures	26
3.1.5 Data Analysis Procedure	27
<b>Chapter Four: Data Presentation and Analysis</b>	28
4.1 Introduction:	28
4.2 General Information about respondents	28
<b>4.3</b> Respondents' feeling about Mathematics teaching learning in the schools.	33
4.4 Respondents' concept about LS	35
4.5 Results of Students' FGD	46
4.6 Results of lesson observation (before and after implementation of LS).	51
<b>Chapter Five: Findings and recommendations</b>	62
5.1: Findings:	62
5.2: Recommendations	70
<b>References</b>	72
<b>Appendix</b>	75

## List of Table

Table 1: Bangladesh educational structure is shown in a simple and easy way to understand the structure of education in Bangladesh	5
Table 2: Modified framework for analyzing PCK (based on ideas of Chick, Baker, Pham & Cheng, 2006).	23
Table 3: Research Locale, Participants and Tools:	24
Table 4.1: Percentage of male and female Assistant Teachers, Head Teachers, AUEOs and URC Instructors under the study areas	28
Table 4. 2: The experiences of the respondents:	28
Table 4.3: The highest educational degree that the respondents have achieved	29
Table 4.4: Long term training of the respondents	30
Table 4.5: Received CPD (Short course) training	31
Table 4.6: Teaching subjects of respondent teachers	32
Table 4.7: Respondents' Feelings about teaching mathematics	33
Table- 4.8 Difficult contents of mathematics	33
Table 4.9: Attempts taken by the respondents to make the difficult contents easy to the students	34
Table 4.10: How did the respondents get the concept about LS?	35
Table: 4.11. Degree of ability teacher gained through attending CPD program and attending LS.	36
<b>Table 4.12:</b> Related stake-holders participation in the number of LS cycles in the schools.	38
Table 4.13: Respondents' degree of participation in the activities of LS cycle.	39

Table 4.14: Degree of support teachers got from related stake-holders by class teachers.	40
4.15 When do the related stake-holders help teachers to enhance mathematics teaching learning?	41
Table 4.16: Benefits of LS	42
Table 4.17: What kinds problems did you face in implementing LS?	43
Table 4.18: What attempts are taken to solve the problems?	44
Table 4.19: Is LS necessary for ensuring quality teaching learning in the school?	45
Table 4.20: Reason for the continuation of LS	45
Table 4.21: Suggestions for effective implementation of LS	46
Table 4.22: How many students like mathematics lesson?	46
Table 4.23: Why do students Like mathematics?	47
Table 4.24: Teachers' activities using teaching aids	47
Table 4.25: What do students do if they don't understand any content of mathematics?	48
Table 4.26: Teacher's techniques of using textbook?	48
Table 4.27: Students' opinion about teacher's teaching (before and after LS)	49
Table 4.28: What does the teacher do if student's have problems in understanding the content/problem?	50
Table 4.29: Does URC Instructor/AUEO/HT/ATs come to the class during lesson?	50
Table 4.30: Students' opinion about lesson observation	51

Figure 1:	Organizational Structure of Primary Education in Bangladesh	7
Figure 2	Gap in-between intended and implemented, intended and attained curriculum	12
Figure 3.	Lesson Study Cycle based on Lewis et al. (2006)	20
Figure 4	MKT and levels of research activity in a cycle of lesson study.	22
Figure 5:	Conceptual Framework	22
Graph 1:	The experiences of the respondents	29
Graph 2:	The experiences of the respondents	30
Graph3:	Received CPD (Short term training) by ATs, HTs, AUEOs and URC Instructors	31
Graph 4:	Respondent teachers' teaching subjects	32
Graph 5:	Difficulty in teaching mathematics	33
Graph 6:	Difficult contents of mathematics	34
Graph 7:	Degree of ability teachers gained through attending CPD training with LS.	36
Graph 8:	Respondents' degree of participation in the LS cycles	39
Graph 9:	Degree of support provided by related stake-holders	40
Graph 10:	Benefits of LS	43
Graph 11 :	Teaching performance of Fulbaria bazar GPS ( before and after implementation of LS in grade 3 mathematics)	51
Graph 12 :	Teaching performance of Fulbaria model GPS ( before and after implementation of LS in grade 3 mathematics)	52
Graph 13 :	Teaching performance of Valukzan GPS, Fulbaria ( before and after	53

	implementation of LS in grade 3 mathematics)	
Graph 14 :	Teaching performance of Fulbaria purbomoddhypara GPS ( before and after implementation of LS in grade 3 mathematics)	54
Graph 15 :	Teaching performance of Gorikoti GPS, Muktagasa ( before and after implementation of LS in grade 3 mathematics)	55
Graph 16:	Teaching performance of Sabu Sarker GPS, Muktagasa ( before and after implementation of LS in grade 3 mathematics)	56
Graph 17:	Teaching performance of Montala GPS, Muktagasa ( before and after implementation of LS in grade 3 mathematics)	58
Graph 18:	Teaching performance of Satrasia GPS, Muktagasa (before and after implementation of LS in grade 3 mathematics)	58
Graph 19:	Overall Teaching performance of the selected schools of Muktagasa and Fulbaria upazilas (before and after implementation of LS in grade 3 mathematics)	60

### List of Appendixes

Appendix A	Questionnaire for ATs ( before implementation of LS)	75
Appendix B	Questionnaire for ATs ( after implementation of LS)	78
Appendix C	Questionnaire for HTs ( before implementation of LS)	83
Appendix D	Questionnaire for HTs ( after implementation of LS)	85
Appendix E	Students' FGD	90
Appendix F	Questionnaire for AUEO/URC Instructor (before implementation of LS)	91
Appendix G	Questionnaire for AUEO/URC Instructor (after implementation of LS)	94
Appendix H	Lesson observation check list	98
Appendix I	Office order for implementing LS	100

## **List of Abbreviations**

APSC	-Annual Primary School Census
AT	-Assistant Teacher
AUEO	- Assistant Upazila Education Officer
B.Ed	- Bachelor of Education
C-in-Ed	- Certificate in Education
CPD	-Continuous Professional Development
CPE	- Compulsory Primary Education
CPIMU	-Compulsory Primary Education Implementation and Monitoring Unit
DEPd	- Diploma in Primary Education
DG	-Director General
DPE	-Directorate of Primary Education
DPEO	-District Primary Education Officer
EBM	-Ebtadayee Madrasha.
EFA	- Education for ALL
