

E2. Hatibandha grid (Proposed)

No.	REQUIRED INFORMATION	DESCRIPTION				
Sub Project Under NESCO/PGCB/BREB:		NESCO				
Name of Existing Substations/Workshop/ Bay Extension and others Facilities		Hatibandha Grid (proposed)				
A	Location of the of Existing Substations/Workshop/ Bay Extension and others Facilities					
1	Name of the District	Lalmonirhat				
2	Name of the Sub-district/Upazila	Hatibandha				
3	Name of the Village/Block	Naricaltola				
4	Name of The Mouza	Romoniganj				
5	Name of the Union/Ward	Romoniganj				
6	Coordinates of the land	Latitude: 26.20787436 Longitude: 89.08885044				
7	Surrounding landscape:	North: Crops land South: Crops land & Dalia- Borokhata Road East: Crops land West: Crops land				
8	Present Status of Proposed Land	Fallow Land				
9	How long since the substation/facility has been built (Year of Commissioning)	Under Construction				
10	What is the approximate total area of the substation/facility	5 Acre				
11	Is there any requirement for additional land required for bay extension/construction of additional infrastructure/bay	No				
12	Is the existing facility well fenced and is there any encroachment	No (under construction)				
13	What is the nearest habitat from the substation (distance in meters) and how many households in the just in the vicinity	Adjacent to the land 200 meters (400 HH)				
14	Are there any social infrastructure (schools, hospitals, temples, monastery etc). If yes, name and distance from the substation/facility	School: 1km (Romoniganj High School) Hospital: 5 km (upazila Health complex)				
15	What was land ownership prior to construction of substation/facility (Previous land status)	Private				
16	If private land, has the land been acquired or mutually purchased or voluntarily donated?	Acquired				
17	Was there support of local people while finalizing the substation site?	Yes				
18	Was there any displacement due to the land acquisition, if yes provide details	No displacement				
19	Are there any trees grown on the land?	No				
20	If yes, what are the trees grown (Type [small, medium, large] and their numbers)	Type of tree	Non-fruit bearing	Fruit bearing	Medicinal	Be m o B s e
		L M S	L M S	L M S	L M S	

No.	REQUIRED INFORMATION	DESCRIPTION										
		No.	0	0	0	0	0	0	0	0	0	0
		Trees										
B	Current Land Use – Built Structures											
21	Are there any built structures on the Proposed land?	No										
22	If yes, how many primary and secondary structures (Details of structures such as no of structures by type/category of structure and length/width etc.)	N/A										
23	What is the land filling requirement? (meter)	Under Construction										
24	Access Road distance Road from sub-station	Adjacent to the road 150 meters.

Annex-11: Terms of Reference for ESU Social Expert

Position: Social Safeguard Expert (Involuntary Resettlement and Labor)

Overall Responsibility

The Specialist will be responsible to oversee and ensure compliance planning and implementation of all Involuntary Resettlement tasks in timely manner and in compliance with ADB SPS (2009) and national laws and regulations. This will include ensuring timely assessments and management of involuntary resettlement impact and safeguards and developing impact mitigation and compensation measures, and tasks as per provisions in the Project Administration Manual (PAM), Resettlement Plan and the loan agreement. The overall responsibilities include but not limited to the followings.

This specialist will be engaged to ensure supervisions and monitoring of various issues related to compliance with labour standards and laws. The Specialist will provide support to NESCO to ensure the project adherence to the core labor standards as per the requirements of the International Labor Law, labor regulations of Bangladesh, and ADB SPS, and monitoring and reporting on the labor issues.

Specific tasks

- Oversee and ensure update of the Resettlement Plan (or Addendum to it) based on final design and alignments of all the project/subprojects and components. As required, prepare and update other social safeguards planning documents such as Resettlement Plan, social due diligence and audit report (IPP as applicable).
 - Facilitate endorsement of the safeguard documents, Resettlement Plan and ensure their timely and compliance implementation, and coordination with governmental agencies and other stakeholders as may be needed for update and implementation of the safeguard documents.
 - Ensure regular monitoring the implementation of Resettlement Plan and other safeguards planning documents as applicable, payment of compensations and other entitlements to affected households as per approved Resettlement Plan, disbursement of compensation to reach in full amount to affected households, and preparation of semi-annual social monitoring reports to ADB for clearance. Ensure revisions and finalization of reports as per ADB feedback in timely manner and their disclosure in NESCO website.
 - Provide overall support and guidance to NESCO on social and resettlement safeguards tasks, grievances and other social issues related to the project implementation, and support ADB safeguard review missions.
 - Work closely with ADB project management and safeguard focal specialists for guidance and addressing the social safeguard issues, development and implementation of corrective actions plans (CAP) as needed.
 - Liaisons with communities and other stakeholders to facilitate the process of land acquisition (as applicable) and IR safeguards, implementation and monitoring.
 - Monitor the contractor's performance on social and IR safeguard compliances as per provisions in their contractual documents and provide them guidance and requirements as needed; Ensure social safeguards monitoring and reporting requirements, as required in the Resettlement Plan, Project Administration Manual, oversee and facilitate resolution of grievances and ensure records management.
-

- Liaisons with NESCO, PMU, contractors, PMC consultants, affected persons and communities, and other stakeholders for IR safeguards planning and Resettlement Plan implementation, including compensation determination and disbursement, resolution of grievances, livelihoods restoration measures, benefit sharing activities, and meaningful consultations.
 - Oversee developing consultation and engagement plan, and ensuring meaningful consultations with affected households and communities, disclosure of project Resettlement Plan and applicable safeguard documents, and document all consultations and grievance resolution process.
 - Ensure the social and IR safeguard provisions are included in the bid and contractors' contracts; Oversee the work of PMU, contractors, PMC consultants, and stakeholders for Resettlement Plan update as needed, implementation and reporting, and overall compliance with IP safeguards as per ADB SPS and relevant state laws and regulations.
 - As will be applicable, work closely with consultants, contractors and NESCO and based on consultation with affected persons and communities, lead development and implementation of the Livelihood Restoration Plan, and reporting its progress for PMU and ADB.
 - Provide guidance and support to the NESCO/PMU on planning, management, monitoring, and implementation of the legal compliances in relation to labour issues in the project; Supervision of the contractor's performance and adherence to the core labor standards as per the requirements of the International Labor Law, labor regulations of Bangladesh, and in compliance with ADB SPS (2009).
 - Assist NESCO in setting up the grievance redress mechanism (GRM) to receive and resolve the laborers' grievances, setting templates and monitoring system for laborer grievances and report in the grievances resiliutin status in the peridoic safeguard monitorying reports to ADB.
 - Analyze international labor standrads, ADB safeguard requirements and good practices, and applicable labour laws and regulations of Bangladesh, and related contract provisions and develop Checklists and templates for compliance and monitoring; guide and assit the NESCO and Contractors team in using the labor standards checklists and collecting information related to labour conditions and iusses;
 - Coordinate with the NESCO and the Health and Safety Specialist on issues related to workplace safety and accidents, use of the personal protective equipment (PPE), regulated work shifts, laborer explotation and child labor prevention; support in preparing remedial and legal actions in case of gaps in labor conditions and in the event of an accident (whether resulting in death or injury / whether involving employees or others / etc.) according to applicable labour laws and contractual provisions, follow up on reporting requirements and actions and insurance claims with the concern agencies.
 - Conduct orientation/ trainingconducted on labour law compliance, contractual obligations and insurance provisions for NESCO/PMU and Contractor's team; ensure the labor issues and actions are reflected in respective sections of the social and environmental monitoring reports; Fullfill other issue /material for labour law compliance as will be necessary and raise during the project implementation.
 - Other relevant tasks as will be applicable to ensure safeguard compliance with ADB SPS on IR safeguards, and international and national laws and on labor standards for smooth implementation of the project;
-

Key Qualifications

The Expert shall have a Master's degree in social science / Sociology /Social Work and labor/ Social Management or similar field with 7 years of total experience and minimum 5 years" experience overseeing projects with significant Land Acquisition, Involuntary Resettlement and labor requirement in construction works. The expert shall have good knowledge of ADB Safeguard Policy Statement (2009) and/or other IFIs social safeguard policies, national and international labor law and requirements. Regional experience in resettlement/livelihood restoration, labor standards and stakeholder engagement will be an added advantage.
