# SPECIAL CALL FOR PROPOSALS ON ENERGY AND POWER RELATED APPLIED RESEARCH PROJECTS

To bring technological innovation in energy and power sectors as well as to ensure energy security through research and development, EPRC is looking forward to funding applied research projects. The idea is to seek innovative solutions for efficient, cost-effective and environmentally sustainable development of Bangladesh's energy and power infrastructure.

The Program Solicitations mainly focus to fund applied research based projects that would unfold technologies, tools, and strategies for upgrading, repowering and revolutionizing the overall energy and power sector of Bangladesh.

### Research Focus Areas

Proposers submitting applied research proposals should address one of the following key research areas.

1. Responsible Energy Conservation
2. Energy Efficiency and Demand Management
3. Renewable Energy
4. Conventional Energy
5. Transmission and Distribution Integration and Infrastructure
6. Energy, Environment and Socio-economic Impact Analysis

For Details of each of the above mentioned research areas, please refer to program solicitations at the link:
