PREFACE

Leather sector is one of the most dynamic export oriented sectors in Bangladesh. More than 80 percent of the leather and leather products -- mostly in the form of crust leather, finished leather, leather goods, and footwear -- are exported to about 53 countries. The leather of Bangladesh, enriched with natural texture and grain patterns, has an excellent reputation in the local, regional and international market. This sector contributes about US\$ 1,400 million equivalent in foreign currency to the Bangladesh economy and earns about 4-5 percent of total exports of the country in a year. As per report of the Export Promotion Bureau (EPB), in the FY 2014-15, the national earnings from the leather sector was US\$ 625, 447.28 and 325 million from crust leather, footwear and leather goods respectively. The major importing countries of our leather products are Japan, Germany, France, Spain, USA, Italy, UK, South Korea, China and Turkey.

Presently, the leather products manufactures' in Bangladesh are producing a wide range of diversified products and enjoying exports abroad; they need more supports for establishing a sustainable market linkages with local and foreign buyers. The SME Foundation (SMEF) is supporting SME entrepreneurs for setting-up their marketing strategies for local & abroad. Publishing of this directory is a form of support aiming at local manufacturers' products information for market. The stakeholders of this sector can use the directory as a tool for their business linkages. The 'Leathergoods & Footwear Manufacturers & Exporters Association of Bangladesh (LFMEAB)', the 'Leather Technologist Small & Medium Entrepreneur Cooperative Society Limited (LTSE)', and 'Bangladesh Paduka Prostutkarok Samity (BPPS)' helped the 'Business Support Services (BSS)' team of SME Foundation in this regard. In addition, a number of entrepreneurs also provided necessary information as a response to a circular, uploaded in the SME Foundation website (www.sme.org.bd). The directory has been published with some basic information of the products, photographs, list of the manufacturers' with contact details etc. As the first edition, the directory could not cover all the information of a particular product; however, there is room for improvement including the additional information in the upcoming editions.

We deeply appreciate the assistance of the associations, entrepreneurs and other stakeholders who contributed their best for finalizing the product directory. We hope that the directory will provide information of Bangladeshi leather products to the buyers and thus help to connect buyers and sellers at home and abroad.

S M Shaheen Anwar
General Manager
