SME Jute Product Directory

Preface

Once Bangladesh was known as the country of 'golden fibre' because of the quality of jute it produced. Even today, the major producing country of jute in the world is Bangladesh, due to its natural fertile soil. Bangladesh is also the leading exporter of jute goods in the world and her share in the global market is gradually increasing. Jute and jute products accounts for 3.81 percent of total export of Bangladesh. In the fiscal year 2012-13, the country's jute goods export was recorded at \$1031 million and raw jute export at \$230 million. Jute goods are exported to over 85 countries including Turkey, Iran and Belgium, Canada, Japan, EU and the United States. Bangladesh also exports raw jute to 59 countries including Brazil, Vietnam Thailand, China, Germany, India, Pakistan, Spain, and the USA and UK.

The higher demand for biodegradable fibre across the world makes a fresh comeback for the jute sector as people are now looking for eco-friendly products replacing synthetics. Today it has become fashionable to use jute. Jute product manufactures in Bangladesh are producing diversified jute products. But, due to lack of marketing facilities entrepreneurs of Jute sector are facing problems to promote their products. Marketing facilities should be increased for Bangladeshi SMEs. SME Foundation is implementing different activities to assist SME entrepreneurs in marketing their products. In this connection, SME Foundation has published SME Product Directory for Jute sector to promote the market of small and medium enterprises.

The Directory will provide information of SME product to the buyers according to their need and thus help to connect buyers and sellers. It will be used as effective and efficient marketing tool. The directory has been published with necessary information, photographs, manufacturers list etc. The information was collected from Jute Diversification Promotion Centre (JDPC), related associations and the entrepreneurs through a prescribed format. Applications were also invited through a circular in SMEF website. As it is the first edition, the directory may not cover all the enterprises in this sector. However, always there is a scope for inclusion of those enterprises in the next editions. Different items of jute diversified products in Bangladesh has been displayed in the product directory under specific categories like jute hand bag, shopping bag, ladies purse, school/college bag, laptop bag, executive bag, shoe/slipper, yarn articles, wall hangings, floor mat, table mat, jute calendar, tissue box, jewelry box, file cover, cushion cover, show piece and decorative items, belt, wallet, table lamp and jute based handicrafts. The directory contains only the products of local jute products manufacturers in the country.

We sincerely appreciate the cooperation of Jute Diversification Promotion Centre (JDPC) in preparation of product directory by providing data and information.

Dr. Syed Md. Ihsanul Karim
Managing Director
SME Foundation
